The Investment Plan for Europe

Let´s #InvestEU

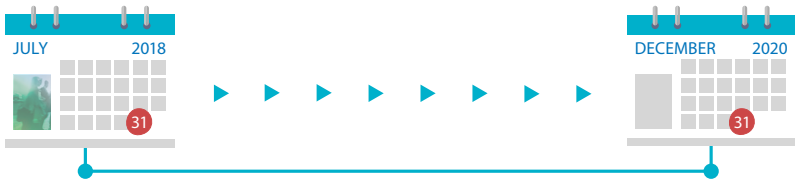
Extension of the European Fund for Strategic Investments

«The Investment Plan has brought real benefits to companies across Europe. And we want to do more. We listened to the feedback we received on how the European Fund for Strategic Investments works and we have made some improvements.»

Vice-President Jyrki Katainen, responsible for Jobs, Growth, Investment and Competitiveness

What is new in EFSI 2.0?

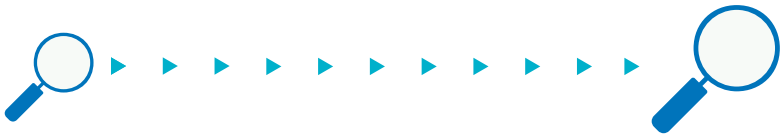
Longer financing period



Larger investment target

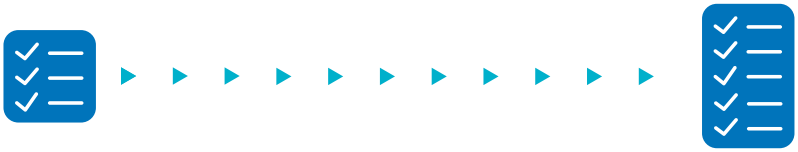
More transparency on investment decisions

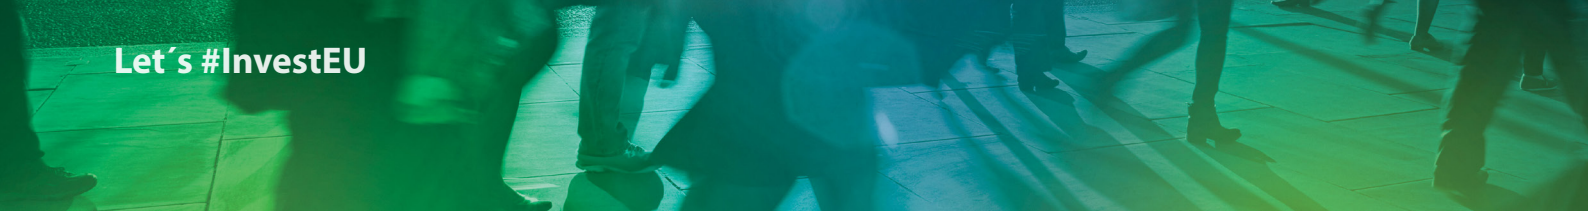
Detailed Investment Committee decisions and project scoreboards will be published on its website



More detailed definition of additionality

EFSI 2.0 gives a more detailed definition of what makes a project eligible for EFSI support





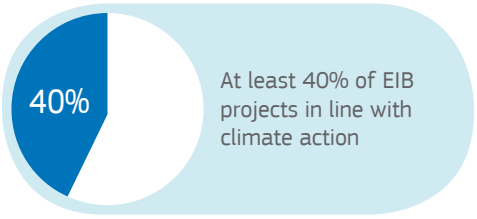
Greater focus on sustainable projects

Among the new sectors explicitly available for EFSI 2.0 support are:

Sustainable agriculture

Fisheries

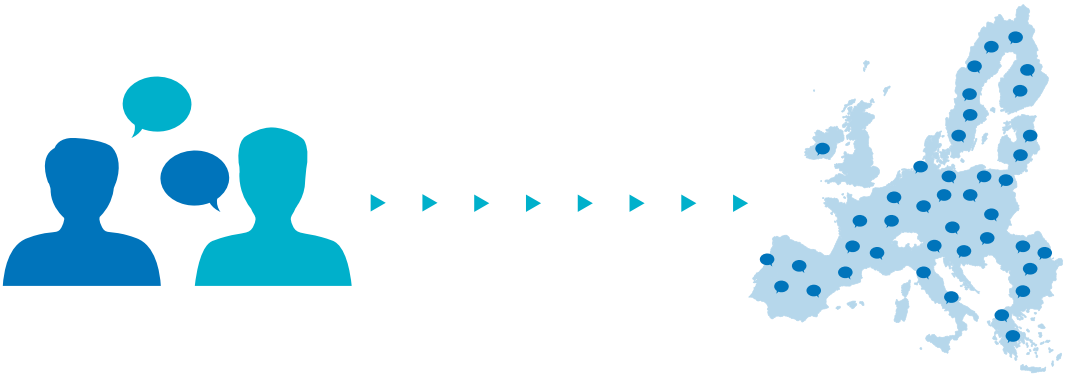
Aquaculture



Even more support for smaller companies

Technical support goes local

The European Investment Advisory Hub will provide more tailor-made assistance on the ground: eiah.eib.org



Continuity for investors and businesses

As always, to find out how to apply for EFSI financing, whether you are a private or public sector entity, financial institution, fund, platform or an SME, visit: eib.org/efsi/how-does-a-project-get-efsi-financing
