Working Document Part V

Budget implementation and assigned revenue

**Draft General Budget
of the European Union
for the Financial Year 2017**

Working Document Part V

Budget implementation and assigned revenue

Draft Budget Working Documents

The 2017 Draft Budget is accompanied by eleven ‘Working Documents’, as follows:

Part I: Programme Statements of operational expenditure

Working Document I contains Programme Statements, which constitute the main instrument for justifying the operational appropriations requested by the Commission in the Draft Budget. These Statements are coherent with the corresponding legal bases and provide details on the resources which are dedicated to each spending Programme.

Part II: Commission Human Resources

Working Document II presents information on Commission human resources, both for the establishment plans and for external personnel, across all headings of the multiannual financial framework. Moreover, pursuant to Article 38(3)(b)(v) of the Financial Regulation, it provides a summary table for the period 2014 – 2017 which shows the number of full-time equivalents for each category of staff and the related appropriations for all institutions and bodies referred to in Article 208 of the Financial Regulation.

Part III: Bodies set up by the European Union having legal personality and Public-private partnership

Working Document III presents detailed information relating to all decentralised agencies, executive agencies and Public-Private Partnerships (joint undertakings and joint technology initiatives), with a transparent presentation of revenue, expenditure and staff levels of various Union bodies, pursuant to Articles 208 and 209 of the Financial Regulation.

Part IV: Pilot projects and preparatory actions

Working Document IV presents information on all pilot projects and preparatory actions which have budget appropriations (commitments and/or payments) in the 2017 Draft Budget, pursuant to Article 38(3)(c) of the Financial Regulation.

Part V: Budget implementation and assigned revenue

Working Document V presents the budget implementation forecast for 2017, information on assigned revenue implementation in 2015, and a progress report on outstanding commitments (RAL) and managing potentially abnormal RAL (PAR) for 2015.

Part VI: Commission Administrative Expenditure

This document encompasses administrative expenditure under all budgets (heading 5) to be implemented by the Commission in accordance with Article 317 of the Treaty on the Functioning of the European Union, as well as the budgets of the Offices (OP, OLAF, EPSO, OIB, OIL and PMO).

Part VII: Commission buildings

Working Document VII presents information on buildings under Section III - Commission, pursuant to Article 203(3) of the Financial Regulation.

Part VIII: Expenditure related to the external action of the European Union

Working Document VIII presents information on human resources and expenditure related to the external action of the European Union.

Part IX: Funding to international organisations

Working Document IX presents funding provided to international organisations, across all MFF headings, pursuant to Article 38(3)(d) of the Financial Regulation.

Part X: Financial Instruments

Working Document X presents the use made of financial instruments, pursuant to Article 38(5) of the Financial Regulation.

Part XI: Payment schedules (*on-line publication only*)

Working Document XI presents summary statements of the schedule of payments due in subsequent years to meet budgetary commitments entered into in previous years, pursuant to Article 38(3)(f) of the Financial Regulation.

1. Introduction

This working document sets out the Commission's budget implementation forecast for 2016. The implementation forecast is presented by heading of the Multiannual Financial Framework (MFF), and is derived from the cumulative monthly estimates provided by the Directorates-General (DGs).

The DGs were asked to provide a well-reasoned and justified forecast of implementation of commitment and payment appropriations in 2016 for each budget line for which they are responsible. It must be stressed, that these forecasts are based on **the volume of appropriations available at the end of March 2016**. The amounts carried over or reconstituted from the 2015 budget and the amounts in the reserves are included, whereas assigned revenue is excluded. The available appropriations may be subject to some deviations during the year due to possible amending budgets, transfers approved by the Budgetary Authority and internal transfers.

As in previous years, the forecasts will be revised in the autumn, as part of the Global Transfer procedure.

Already at this point of the year it is clear that some programmes will not fully consume their payment appropriations.

2. 2016 Forecast – Overview

The consolidated forecasts show 100,0% implementation of commitment appropriations in the budget by the end of 2016.

As for payment appropriations, the consolidated forecasts show 98,6% implementation with almost full implementation in all headings apart from heading 1a and 1b.

In terms of the special instruments (Emergency Aid Reserve, European Globalisation Adjustment Fund, EU Solidarity Fund), full implementation cannot be anticipated as these instruments are only mobilised as needed, and full implementation is not a goal in itself in this category.

3. 2016 Forecast – Commitment appropriations

The following table provides a breakdown of the profiles for each MFF heading in percentage terms:

Table 1: Forecasts for commitment appropriations

MFF Heading	Implementation of 2016 Commitments (as % of available appropriations)			
	Implementation as at 30.05.2016	End-July Forecast	End-October Forecast	End-December Forecast
1a Competitiveness for growth and jobs	58,6%	69,3%	87,0%	100,0%
1b Economic, Social and Territorial Cohesion	99,5%	99,6%	99,7%	100,0%
2 Sustainable growth: Natural Resources	66,9%	82,7%	93,1%	100,0%
3 Security and Citizenship	80,5%	87,1%	91,7%	100,0%
4 Global Europe	45,4%	52,5%	71,9%	99,7%
5 Administration	94,3%	95,6%	96,9%	100,0%
Total	76,8%	85,4%	93,4%	100,0%
Special Instruments	0,5%	8,4%	8,4%	8,4%
Grand Total	76,5%	85,1%	93,0%	99,6%

Full or almost full implementation of the commitment appropriations is envisaged for all the headings.

4. 2016 Forecast – Payment Appropriations

The following table provides a breakdown of the profiles for each MFF heading in percentage terms:

Table 2: Forecasts for payment appropriations

MFF Heading	Implementation of 2016 Payments (as % of available appropriations)			
	Implementation as at 30.05.2016	End-July Forecast	End-October Forecast	End-December Forecast
1a Competitiveness for growth and jobs	36,4%	49,5%	72,7%	95,5%
1b Economic, Social and Territorial Cohesion	39,8%	50,8%	71,5%	98,0%
2 Sustainable growth: Natural Resources	51,1%	69,4%	84,7%	99,9%
3 Security and Citizenship	39,3%	58,9%	80,9%	99,6%
4 Global Europe	41,3%	59,6%	77,9%	98,8%
5 Administration	39,3%	55,8%	77,5%	100,0%
Total	43,9%	59,0%	77,8%	98,6%
Special Instruments	0,1%	12,9%	13,9%	16,8%
Grand Total	43,8%	58,8%	77,6%	98,4%

It is already envisaged that the available 2016 payment appropriations will be more than sufficient to meet the anticipated needs. The surplus of payment appropriations is expected to concern headings: 1a (Horizon 2020), 1b (Regional convergence, Competitiveness, European Territorial Cooperations) and 4 (Instrument for Pre-Accession Assistance, European Neighbourhood Instrument).

The developing situation will be monitored closely, not least through the instrument of the Active Monitoring and Forecast of Budget Implementation. Adjustments to available appropriations will be proposed as necessary.

5. 2016 Forecast - Detailed Forecast Tables

At Multiannual Financial Framework heading level, detailed implementation profiles as well as the actual implementation situation at 30 May 2016 are provided in Annex 1 for commitment appropriations and in Annex 2 for payment appropriations. Where implementation is forecasted to reach 100% before December, this is highlighted in bold.

REVIEW OF IMPLEMENTATION OF ASSIGNED REVENUE DURING 2015

Review of Implementation of Assigned Revenue during 2015

Table of Contents

1. INTRODUCTION	18
2. OVERVIEW OF IMPLEMENTATION.....	18
3. IMPLEMENTATION BY TYPE OF ASSIGNED REVENUE.....	20
4. ANNEXES.....	27

1. Introduction

This working document reviews the implementation of assigned revenue during 2015. It looks at each type of assigned revenue and provides an analysis by policy area and Multiannual Financial Framework (MFF) heading. The annexes provide an analysis, by budget line, of implementation by type of assigned revenue.

2. Overview of Implementation

2.1 Implementation of commitment appropriations

During 2015, the total amount of assigned revenue available was EUR 6,5 billion in commitment appropriations. By the end of the year, an amount of EUR 3,4 billion had been implemented, giving an overall implementation rate of 52,7%, compared to 51,4% in 2014. Table 1 below shows commitment implementation in 2015 and 2014.

Table 1: Assigned revenue commitment appropriations and implementation in 2015 and 2014 by type of assigned revenue

2.2 Implementation of payment appropriations

During 2015, the total amount of assigned revenue available was EUR 7,0 billion in payment appropriations. By the end of the year, an amount of EUR 3,4 billion had been implemented, giving an overall implementation rate of 48,5% compared to 57,3% in 2014. Table 2 below shows payment implementation in 2015 and 2014.

3. Implementation by type of assigned revenue

3.1. Recoveries of the Year

These appropriations, usually referred to as "C4" appropriations, are the result of the recovery orders raised and cashed during the budget year in question. In 2015, EUR 3 007 million has been recovered in commitments and EUR 3 021 million payments of which EUR 1 296 million has been committed and EUR 1 522 million has been paid. The implementation rate was 43,1% for commitments and 50,4% for payments. In 2014, the rate was 52,1% for commitments and 63,3% for payments. Annex 1 shows recoveries by budget line, both for commitments and payments, and their respective implementation.

With the exception of the refunds received under the CAP, which are by their very nature unpredictable, as they are received during the year as a result of an action undertaken by the Commission (e.g. recovery of an overpaid amount identified during an audit), any funds unused at the end of 2015 have been carried forward automatically to 2016.

These appropriations also include the surpluses accrued by the decentralised agencies during the previous year, which are recovered by the Commission in the following year. In 2015, EUR 24,9 million in both commitments and payments was recovered by the Commission in this way, of which EUR 4,6 million was committed and EUR 4,7 million was paid. Annex 1a provides the detail, showing all the agencies for which a surplus was recovered during 2015 and identifying the agencies for which the funds were re-used.

The table below shows the unused amounts that have been carried forward to 2016 by policy area.

3.2. Recoveries carried forward

These appropriations, usually referred to as "C5" appropriations, are the result of the carryover of "C4" appropriations from the previous year. In 2015, EUR 1 094 million in commitment appropriations and EUR 807 million in payment appropriations were carried forward from 2014 and EUR 860 million (commitments) and EUR 788 million (payments) were used, representing implementation rates of 78,6% and 97,6% respectively. These implementation rates were 49,9% for commitments and 96,4% for payments in 2014. Annex 2 shows recoveries carried over by budget line, both for commitments and payments, and their respective implementation.

Included in these appropriations are the unused surpluses of decentralised agencies that were carried over from 2014 to 2015. EUR 21,9 million in both commitments and payments was carried forward to 2015, out of which EUR 20,8 million was committed and EUR 21,7 million was paid. Annex 2a provides the detail, showing all the agencies for which a surplus was carried over to 2015 and identifying the agencies for which the funds were re-used.

The table below shows the unused amounts of C5 appropriations at 31 December 2015 by policy area.

3.3. EFTA Funds

These funds result from the participation of EFTA countries in a number of different Community actions and they are normally received and consumed within the same year. Available EFTA appropriations in 2015 amounted to EUR 423 million in commitments and EUR 392 million in payments and virtually all appropriations were implemented in 2015. Annex 3 shows an analysis by budget line of the available and implemented EFTA funds.

3.5. Candidate Country Contributions

These appropriations, also referred to as "P0" appropriations, result from the participation of the newest Member States in a variety of EU programmes at the time when they were Candidate Countries and from the participation of current Candidate Countries in EU programmes. Available "P0" appropriations in 2015 amounted to EUR 29,2 million in commitment appropriations and EUR 39,3 million in payment appropriations. EUR 19,5 million in commitments and EUR 5,0 million in payments have been used, giving an implementation rate of 66,8% for commitments and 12,6% for payments. The implementation rate for 2014 was 50,0% and 43,2% respectively. Annex 4 shows the detailed budget line availability and implementation of Candidate Country funds.

The table below shows the unused amounts of Candidate Country appropriations at 31 December 2015 by policy area.

3.6. Competitive Research Income

These funds, also referred to as "T0" appropriations, result from the participation of the Joint Research Centre (JRC) in activities of a competitive nature, providing services to other DGs, Institutions or third parties. These funds, which are managed entirely by the Joint Research Centre, amounted in 2015 to EUR 476 million in commitment and EUR 391 million in payment appropriations. EUR 81 million in commitment and EUR 86 million in payment appropriations have been used, representing implementation rates of 16,9% for commitment appropriations and 22,1% for payment appropriations, as compared to 2014 implementation of 19,0% and 20,8% respectively. Annex 5 shows an analysis by budget line of the available and implemented competitive research income.

The JRC programmes are generally spread over a number of years (up to eight), and implementation rates reflect this. The JRC competitive research income has a different accounting

basis from the other sources of revenue, in that the commitment appropriations are made available within the Commission's accounting system as soon as a contract is signed while the payment appropriations are only made available once the related recovery order has been cashed. This accounting rule leads to a large time lag between the commitment of funds and actual payments.

3.7. Other Earmarked Revenue (Third Party Participations)

These appropriations, usually referred to as "R0" appropriations, result from the participation of third countries in a variety of Community projects. The amounts are agreed via Memoranda of Understanding and are received during the course of the year via the cashing of one or several recovery orders, depending on the terms of the Memoranda. The funds available on any given budget line are thus not static during the year and the consumption of a particular programme can take a number of years. Annex 6 shows an analysis by budget line of the available and implemented third party appropriations.

The funds received in any given year may be committed in that year or the year after, but the payments can be made over a number of years. Available appropriations from third party participation in EU programmes in 2015 amounted to EUR 1 409 million in commitment and EUR 2 301 million in payment appropriations (compared to, respectively, EUR 1 231 million and EUR 2 180 million in 2014). EUR 701 million of commitment and EUR 567 million of payment appropriations have been used, resulting in an overall implementation rates of 49,7% for commitments and 24,6% for payments. The corresponding implementation rates for 2014 were 48,4% for commitments and 28,1% for payments.

The third party appropriations constitute the second-largest source of assigned revenue (after those generated within the CAP) in terms of commitment appropriations and the first-largest in terms of payments. In 2015, they accounted for, respectively, 21,7% and 32,8% of the total available commitment and payment assigned revenue appropriations. The appropriations mainly concern:

- Research: the funds managed in titles 2 (Enterprise and industry), 6 (Mobility and transport), 8 (Research and innovation), 9 (Communication networks, content and technology), 10 (Direct Research) and 32 (Energy) relate to the participation of third countries in research programmes. They amounted in 2015 to EUR 685 million in commitments and EUR 1 289 million in payments, respectively 48,6% and 56,0% of total third country appropriations. These participations are negotiated at the start of each framework programme, the contributions then being valid for the whole of the programme. The programmes run over a number of years and payments are made in tranches over time.
- Education: the funds managed in title 15 (Education and culture) amounted in 2015 to EUR 245 million in commitments and EUR 396 million in payments, respectively 17,4% and 17,2% of total third country appropriations.
- Delegations: the "R0" appropriations received in title 21 (Development and cooperation) do not fall into the same category as those received under other titles, nor do they face the same problems. The funds received under title 21 are an accounting solution, determined by DG Budget, relating to the introduction of the new accounting system for Delegations whereby a mechanism had to be established in order to allow the handling of the European Development Fund (EDF) contribution to the administrative expenses of Delegations within the Commission's accounting systems. These appropriations are spent on a linear basis throughout the year and are carried forward as necessary.

The table below shows the unused amounts of R0 appropriations at 31 December 2015 by policy area.

The implementation rate in 2015 for this income was 83,7% for commitment appropriations and 64,8% for payment appropriations, as compared to the 2014 implementation rates of 90,3% and 75,0% respectively. Annex 7 shows the detailed available and implemented coal and steel funds by budget line.

4. Annexes

The annexes that follow provide a detailed analysis by budget line for each type of assigned revenue. This analysis will be continued on a yearly basis as part of the Draft Budget working documents, and a reference to assigned revenue implementation during the annual exercise will be included in a special section of the Active Monitoring and Forecast of Budget Implementation information notes.

1. Evolution of the RAL in 2015

1.1 Introduction

The amount of outstanding commitments (RAL) at the end of the 2015 is derived from:

- The initial RAL, as at 1.1.2015 (pre-2015 RAL)
- *Less* payments during 2015 on this RAL
- *Plus* new commitments made in 2015
- *Less* payments during 2015 on commitments made in 2015
- *Less* de-commitments made in 2015. This item also includes cancellations of commitments which cannot be carried forward, and re-evaluations. Therefore the item may reduce either the initial RAL or the outstanding new commitments.

The following analysis of the RAL is provided by heading of the multi-annual financial framework (MFF). A breakdown of the RAL by Policy Area is also provided, in accordance with the Activity Based Budgeting (ABB) nomenclature.

Following the principle of continuity, the starting point of the annual presentation of the evolution of the RAL is the situation at the end of the previous year.

A detailed analysis of the implementation of commitments and payments during 2015 has already been provided in the *Report on Budgetary and Financial Management* for the financial year 2015, presented by the Commission in April 2016. For the Structural Funds, a separate detailed analysis on, *inter alia*, the RAL, was published by the Commission in June 2016 (*Analysis of the budgetary implementation of the European Structural and Investment Funds in 2015*).

This increase of EUR 28 billion relates to the direct impact of the unused commitment appropriations 2014 at the start of new programming period. This took form of a carryover of EUR 12,1 billion, implemented before end March 2015, i.e. with a delay of maximum 3 months from the initial deadline, and of the reprogramming of EUR 16,5 billion allocated to 2015 and fully implemented in course of the year. Those transactions concerned only commitments in Headings 1b, 2 and 3 without revision of the level of payment appropriations. With a magnitude of EUR 217 billion, the end-2015 RAL reaches again the level of years 2012 and 2013.

	TOTAL	33 532	10 967	18 905	5 835	-1 181	34 455	3%

Overall, implemented commitments and payments made on year's commitment remained stable compared to 2014.

The increase of the RAL compares to the launching of the European Fund for Strategic Investments (Juncker plan). In total, EUR 1 350 million of new commitments were needed for the provisioning of the EFSI Guarantee Fund, whereas the payments in 2015 concerned solely the European Investment Advisory Hub.

The RAL of the biggest contributor, Horizon 2020, representing some 60% of outstanding commitments, increased in 2015 by 2% or EUR 500 million.

Overall, the RAL is equivalent to less than 2 years of commitments.

While commitments caught up in 2015 the delay of the start of programmes, payments remained at the initially planned level, the same magnitude as in 2014.

Compared to 2014, unpaid payment claims at year-end decreased significantly. At the beginning of the year 2015, the RAL of 2007–2013 programmes amounted to EUR 83 billion and unpaid payment claims to EUR 25 billion. One year later, the RAL is EUR 40 billion and unpaid claims EUR 8 billion. Consequently, the future evolution of the RAL depends mainly on the payment schedule of the current programmes 2014–2020.

	TOTAL	19 382	8 803	67 375	49 263	- 500	28 191	45%

Rural development accounts for 87% of the total RAL. The increase in 2015 is a consequence of the magnitude of implemented commitments after carryover and reprogramming (in 2014 only EUR 3,3 billion).

The yearly balance of unpaid non-differentiated commitments of the Common Agriculture Policy is not material.

1.2.4 Heading 3: Security and Citizenship

TOTAL		2 582	864	2 826	1 155	- 252	3 137	21%

The increase of RAL reflects the evolution of the refugee crisis. Commitments of the relevant funds (AMIF and ISF) increased from EUR 116 million in 2014 to EUR 1 444 million in 2015. Taking into consideration the reprogramming from 2014 to 2015 of EUR 210 million, the appropriations were actually multiplied by 4 from 2014. Payments on the RAL remained stable but the payments on year's commitments increased to almost EUR 400 million from EUR 10 million in 2014.

	TOTAL	23 846	5 934	9 397	1 951	- 686	24 673	3%

The evolution of the RAL is comparable to 2014.

The overall RAL of the Heading corresponds to 2,6 years of commitment appropriations of the final 2015 budget. This is higher than in other Headings and follows the big share of global commitments in the total RAL. The amounts to be contracted represented more than one third of outstanding commitments at end-2015 (see table 2.2) and this is due for instance to lengthy ratification procedures of financial agreements.

1.2.6 Heading 5: Administration

MFF	Sub-heading	RAL as at 01.01.2015	Pay- ments on RAL	Commit- ments 2015	Payments on 2015 commit- ments	Decommit- ments 2015	RAL as at 31.12.2015	Evolution of the RAL (%)

	TOTAL	313	282	5 200	4 905	- 30	295	-6%

The RAL of Heading 5 effectively corresponds to the automatic carry-over of non-differentiated appropriations, with commitments made one year and settled in course of the following year. As the amounts carried over in this way must be used within one year, this RAL is temporary.

The biggest increases concern PA 01 *Economic and financial affairs* due to the creation of the European Fund for Strategic Investments, PA 04 *Employment, social affairs and inclusion* and PA 11 *Maritime affairs and fisheries* due to unused commitments of 2014, PA 18 *Home affairs* and PA 23 *Humanitarian aid* due to the refugee crisis. The relatively high increase in PA 34 *Climate action* follows the lower than initially planned implementation of payments in 2015 of articles 34 02 01 *Reducing Union greenhouse gas emissions* and 34 02 02 *Increasing the resilience of the Union to climate change*.

2. The 2015 RAL in Context

2.1 RAL by Main Programmes

The RAL of main programmes can be best put into context when the annual expenditure (non-differentiated appropriations) is excluded from comparisons.

The table below shows the breakdown of the RAL of **differentiated appropriations** by Heading and by main programmes.

	RAL amount billion EUR	As % of RAL	As % of 2015 differentiated CA	EUR million RAL in years of differentiated CA of the initial budget 2015
Total Heading 1a	34,3	15,8	18,3	2,1
Common Strategic Framework (CSF) Research & Innovation	20,4	9,4	10,0	2,2
Connecting Europe Facility (CEF)	4,5	2,1	2,4	2,0
Total Heading 1b	126,4	58,4	53,8	2,6
Regional convergence	69,1	31,9	26,4	2,9
Competitiveness	8,8	4,1	5,3	1,8
Cohesion fund	22,2	10,3	9,1	2,7
Total Heading 2	28,2	13,0	16,8	1,8
Rural development	24,6	11,4	15,1	1,8
Total Heading 3	3,1	1,4	2,3	1,5
Total Heading 4	24,6	11,3	8,8	3,0
Pre-accession (IPA)	5,9	2,7	1,7	3,9
Neighbourhood (ENPI)	7,3	3,4	2,2	3,7
Development cooperation (DCI)	8,6	4,0	2,6	3,6
Total of the programmes	171,6	79,2	74,8	2,5
TOTAL RAL of differentiated appropriations	216,5			2,4

In order to neutralise the reprogramming and carryover effect, it is preferable to compare the RAL to the differentiated appropriations of the Initial budget (2,4 years) rather than of the Final budget (2,0 years). Outstanding commitments correspond to 2,4 years of commitments (and 2,5 years of payments) thus remaining in line with the N+2/N+3 reference of the Cohesion policy (Heading 1b) and the N+2 reference of Rural Development (Heading 2), which, as the largest differentiated budget lines, are the main contributors to the RAL.

This table shows that the RAL is a time lag between commitment and payment which concerns all long-term projects independently of their Heading.

2.2 Age Structure of the RAL

The outstanding commitments of the previous programming periods, i.e. before 2014, decreased in 2015 from EUR 128 billion to EUR 65 billion. Consequently, a bigger share of differentiated payment appropriations will be available for the current programmes starting from 2016.

An ageing of more than 3 years for an outstanding commitment can be considered as an indicator of the non-conformity with the general N+2 reference. During 2015, their share declined from 5,7% of the total RAL (EUR 10,8 billion) to 3,6% (EUR 7,9 billion).

Even if the big variation (from EUR 57 billion to EUR 120 billion payments against the year's commitments remaining stable) of the implemented differentiated commitments between 2014 and 2015 complicates meaningful projections, the following RAL absorption profile can be presented:

RAL in million EUR as at end	2011	2012	2013	2014	2015

3. Estimate of the Volume of Unjustified RAL as a Result of the Annual PAR Exercise

The objective of the annual PAR (Potentially Abnormal RAL) exercise is to identify all unjustified RAL, i.e. commitments which are recorded in the accounts, but which are considered to be lacking a legal and/or factual justification for further payments. Examples are commitments with a programme or project deadline for payments which has expired, or a project which has already been completed. In principle, all such "abnormal" commitments should be de-committed. This has to be done on a case by case basis by the Commission services which manage the commitments, and may lead to the introduction of recovery orders. The 2015 exercise was launched in February 2016 and the results are presented here.

3.1. Background

In November 2002 and 2003, the Budget Authority and the Commission concluded Joint Declarations with the objective of bringing the situation regarding outstanding commitments under control, specifically by examining and eliminating "potentially abnormal" outstanding commitments. "Potentially abnormal" was defined in the Declaration as:

- Dormant commitments in respect of which no payment has been made for the last two financial years; and
- Old commitments that have been in the accounts for at least five financial years.

The Declarations covered the period up to the end of 2003 only, and related specific reports were prepared for the Budget Authority. However, the Commission has considered it worthwhile to continue the exercise of examining and reporting on the commitments which each year fall under the definition of "potentially abnormal". In practical terms, at the end of each financial year the commitments corresponding to the above mentioned criteria are identified and examined individually by the Commission services. This regular analysis is intended to lead to a continuous reduction of the oldest RAL and to avoid maintaining in the accounts amounts which lack a legal and/or factual basis for further payments or which should lead to recoveries.

In practical terms, all open commitments made before 2010 are analysed as old and all cases with no payment in 2013-2015 as dormant.

It is important to note that in the light of the average life cycle of a Union subsidy, a commitment of more than five years old is not necessarily abnormal. The age of five years is not a threshold which would reliably separate abnormal cases from normal ones; the nature of the project is determinant. This is even more obvious with the definition of dormant: a commitment for which no payment has been made for two financial years remains by definition within the frame of the basic n+2 rule applied in Cohesion and in most cases will be considered normal or ongoing. It is not a predictor of likely problems with the future closure of the contract. Therefore, the focus of the exercise has always been on old commitments; monitoring dormant cases helps to trace commitments which can be settled before they would become old (see item 3.4).

A normal commitment, independent of age or dormant period, will be subject to exactly the same payment or de-commitment conditions as the overall RAL. Thus, the PAR exercise is essentially an identification exercise, with the objective of eliminating all unjustified RAL from the accounts, and enabling the Commission to proceed to recoveries where appropriate, as well as generally assisting services to accelerate the settlement of old ongoing commitments.

The absorption of the PAR is the ultimate objective and the actual absorption rate is then the indicator to monitor. However, this indicator becomes relative from the moment the target group contains also normal commitments (i.e. commitments that by definition cannot be absorbed in this exercise). If all open commitments of the PAR sample were settled in the exercise, this could mean that simple cases have not been decommitted in a timely manner. A low absorption rate might reflect a good performance of services: all cases have been settled long ago except extremely complicated (dispute and trial) ones and the progress in settling them cannot be but slow.

3.2. Classification of Outstanding Commitments

The services were requested to classify potentially abnormal outstanding commitments identified at the end of 2015 under the categories in the table that follows:

Classification Categories of Outstanding Commitments					
A	B			C	
		The commitment is still open, despite the fact that the due date for the required invoice/supporting documentation is past.			Contract can be closed
B1	B2	B3	C1	C2	
Commitment open, as the totality of steps necessary to undertake the final payment have not yet been reached. This commitment can thus be seen as normal.	No delay but further information has been requested, final payment to follow.	The beneficiary is late in submitting the required supporting documentation	Major problems have been identified: a recovery order is to be raised or a dispute has arisen with the contractor	Decommitment still to be undertaken	File closed during 2015
		Operational services undertaking necessary follow up action	Recovery anticipated, audit necessary	Operational conclusion: services de-committing	Operational conclusion: services de-committing

3.3. Results of the 2015 Exercise

This section consists of:

- Classification of old cases and the corresponding open amounts as follows:
 - Normal/ongoing cases correspond to codes A, B1, B2
 - Dispute cases to code B3
 - Unjustified cases to codes C1 and C2;
- Absorption profiles of open commitments according to their year of origin;
- An overview of dormant cases to be de-committed.

3.3.2 Absorption profiles

The following observations can be made in relation to old commitments:

- More than 80% of open amounts relate to commitments which, in spite of their age, are considered as on-going and not to be decommitted;
- About 70% of open amounts concern Regional policy and Employment and Social affairs;
- The initial 2016 budget allocates for pre-2007 RAL only EUR 70 million for Cohesion Fund. No other payment needs have been budgeted and possible needs will be settled case by case via Commission transfers;
- 60% of the open amounts are from the year 2006, last year of that programming period.

The following tables show the absorption profiles of previous exercises:

Open amount per year of origin	End-2009	End-2010	End-2011	End-2012	End-2013	End-2014	End-2015	EUR million

3.4 Dormant Commitments

Altogether 619 dormant cases were identified as unjustified RAL representing an open amount of EUR 148 million. The breakdown per year of origin is presented in the table below. A follow-up of the decommitment process will be made in course of 2016.
