3. THE NUMBER OF INITIAL APPLICATIONS RECEIVED AND HANDLED

¹ The European Commission released the new Register of Commission documents on 17 May 2021. It started using the new publication method on 1 May 2021. It features a number of improvements related to search, presentation of documents and publication of documents (e.g., same documents are published only once). This resulted in a decrease of the number of documents published in 2022 compared to the 2021 figures.

² A single request can concern several documents and can consequently give rise to several different replies. On the other hand, several requests can be grouped together in some cases and give rise only to one single reply. This number encompasses all types of follow-ups provided by the European Commission, extending from replies provided under Regulation (EC) No 1049/2001 (including replies where no documents are held); to responses provided under different legal frameworks (due to the contents of the application or status of the applicant, etc.); or closures following the applicants' failure to provide requested clarifications or fulfil procedural requirements.

⁷ Since the creation of the European External Action Service (EEAS), only documents of the Service for Foreign Policy Instruments are held by the European Commission.

⁸ Member State authorities is a new category introduced in 2018 in order to reflect the fact that national authorities of Member States are entitled to submit applications for access to documents in the framework of Regulation (EC) No 1049/2001. For statistical purposes, the profile of 'citizens' covers the applicants who indicated their profile as such, and constitutes the default option covering those who did not select any social/occupational category in GestDem. Since the introduction of EASE in September 2022, the social/occupational category field has become optional while submitting a request from the portal. This resulted in adding the 'Unknown' category in case applicants left the social/occupational category blank.
