

Funding Plan

January-June 2026

15 December 2025 (updated on 29 April 2026)
#EUBudget

EU-Bonds

- The European Commission intends to issue €100 billion of long-term EU-Bonds between January and end-June 2026.
- The Commission has planned six EU-Bond auctions and six syndicated transactions between January and end-June 2026 .
- The funds raised will be used to meet payments related to NextGenerationEU, SAFE, support to Ukraine and other policy programmes financed by EU-Bonds (including the Reform and Growth Facility for the Western Balkans and Macro Financial Assistance programmes).
- EU-Bonds will continue to be issued using benchmark maturities from 3 to 30 years, with tap transactions and new lines, using auctions and syndications.
- The maturities for the new lines will depend on market conditions and the intention to bring liquidity to the curve where needed (with a tentative focus on 3y, 7y, 10y and 20y).
- Tracking closely green expenditures reported by Member States, the Commission will continue to issue NextGenerationEU Green Bonds to finance the green component of the Recovery and Resilience Facility. NextGenerationEU Green Bond issuances in H1 2026 are expected to take place via tapping of existing bonds.
- EU-Bond auctions will continue to be 3-leg auctions complemented by non-competitive offers to EU Primary Dealers the day following the bond auction, allowing for the allocation of additional amounts of auctioned bonds (maximum 20 %).

EU-Bills

- The Commission will continue to issue EU-Bills using 3-month, 6-month and 12-month tenors.
- New 12-month lines will be issued during the first auction of the month, while the second auction of the month will be used to tap already outstanding issuances.
- Previously issued 12-month lines will be used to tap the 3-month and 6-month buckets.
- Auctions for EU-Bills will typically take place twice per month, on the first and third Wednesdays of the month, except for April (when second and fourth Wednesdays will be used).

Issuance calendar*
