

2023 Rule of Law Report - targeted stakeholder consultation

Fields marked with * are mandatory.

Introduction

The annual Rule of Law Report lies at the centre of the European rule of law mechanism, which acts as a preventive tool, deepening multilateral dialogue and joint awareness of rule of law issues. So far, three editions of the Rule of Law Report have been published in 2020, 2021 and 2022.

In the preparation of the first three editions of the Rule of Law Report, the Commission has relied on a diversity of relevant sources, including from Member States, country visits, and stakeholders' contributions collected through the targeted stakeholder consultation [1]. The information provided has informed the Commission's country-specific assessments in preparing the Report. Building on the positive experience from the first three editions of the Rule of Law Report, the Commission is now inviting stakeholders to provide written contributions for the preparation of the 2023 Rule of Law Report through this targeted consultation.

The contribution to be provided should include (1) information on measures taken to implement the recommendations addressed to the Member State in the 2022 Rule of Law report, as well as developments with regard to the points raised in the respective country chapter and (2) any other significant developments since January 2022 [2] falling under the 'type of information' outlined in the next section.

The input should be short and concise and summarise information related to one or more of the areas referred to in the template. You are invited to focus on the areas that relate to the scope of work and expertise of your organisation. Existing reports, statements, legislation or other documents may be referenced with a link (no need to provide the full text). Stakeholders are encouraged to make references to any contributions already provided in a different context or to Reports and documents already published. Contributions should focus on significant developments both as regards the legal framework and its implementation in practice.

If you wish to submit information concerning several Member States, you will have to fill-in the questionnaire separately for each Member States (due to the size of the questionnaire). There is no limit to the number of contributions submitted by a single participant. In such cases, you are not required to repeat the information in the section "about you" that is non-mandatory nor the information on horizontal developments.

Please provide your contribution by **20 January 2023**. Should you have any requests for clarifications or encounter difficulties in filling in the questionnaire, you can contact the Commission at the following email

address: rule-of-law-network@ec.europa.eu.

[1] For the consultation for the 2022 Report, see https://ec.europa.eu/info/publications/2022-rule-law-report-targeted-stakeholder-consultation_en

[2] Unless the information was already submitted in the consultation for the previous Rule of Law Reports.

Type of information

The topics are structured according to four pillars: I. Justice system; II. Anti-corruption framework; III. Media pluralism; and IV. Other institutional issues related to checks and balances. The replies could include aspects set out below under each pillar. This can include challenges, current work streams, positive developments and best practices:

Legislative developments

- Newly adopted legislation
- Legislative drafts currently discussed in Parliament
- Legislative plans envisaged by the Government

Policy developments

- Implementation of legislation
- Evaluations, impact assessment, surveys
- White papers/strategies/actions plans/consultation processes
- Follow-up to reports/recommendations of Council of Europe bodies or other international organisations
- Important administrative measures
- Generalised practices

Developments related to the judiciary / independent authorities

- Important case law by national courts
- Important decision/opinions from independent bodies/authorities
- State of play on terms, nominations and expired mandates for high-level positions (e.g. Supreme Court, Constitutional Court, Council for the Judiciary, heads of independent authorities included in the scope of the questionnaire[1])

Any other relevant developments

- Respondents are free to add any further information, which they deem relevant; however, this should be short and to the point.

If there are no changes, it is sufficient to indicate this and the information covered in the contributions for the previous Rule of Law Reports should not be repeated.

[1] Such as: media regulatory authorities and bodies, national human rights institutions, equality bodies, ombudsman institutions, supreme audit institutions and, where they exist, transparency authorities.

About you

* I am giving my contribution as

- ☐ Academic/research institution
- ☐ Business association
- ☐ Civil society organisation/NGO
- ☐ International organisation
- ☐ Judicial association or network
- ☐ Media organisation or association
- ☒ Public authority or network of public authorities
- ☐ Other

* Organisation name

250 character(s) maximum

Main Areas of Work

- ☒ Justice System
- ☐ Anti-corruption
- ☐ Media Pluralism
- ☐ Other

Please insert an URL towards your organisation's main online presence or describe your organisation briefly:

Questions on horizontal developments

In this section, you are invited to provide information on general horizontal developments or trends, both positive and negative, covering all or several Member States. In particular, you could mention issues that are common to several Member States, as well as best practices identified in one Member State that could be replicated. Moreover, you could refer to your activities in the area of the four pillars and sub-topics (an overview of all sub-topics can be found below), and, if you represent a Network of national organisations, to the support you might have provided to one of your national members.

Overview topics for contribution

[list of topics 2023 Report.pdf](#)

Please provide any relevant information on horizontal developments here

5000 character(s) maximum

Questions for contribution

The following four pillars (I.-IV.) are sub-divided into topics (A., B., etc.) and sub-topics (1., 2., 3., etc.). For each of the topics and sub-topics, you are invited to provide (1) information on measures taken to implement the recommendations addressed to the Member States in the 2022 Rule of Law report, as well as developments with regard to the points raised in the respective country chapter of the 2022 Rule of Law Report and (2) any other significant developments since January 2022[1]. Please include a link to and reference relevant legislation/documents (in the national language and/or where available, in English) if relevant. Significant developments can include challenges, positive developments and best practices, covering both legislative developments or implementation and practices.

If there are developments you consider relevant under each of the four pillars that are not mentioned in the sub-topics, please add them under the section "other - please specify". Only significant developments should be covered.

Information provided in reply to the first question under each pillar, related to the follow-up to the recommendations, does not need to be repeated in subsequent parts of the questionnaire, but can be cross-referenced in the subsequent questions, where relevant. All other questions are not limited to the recommendations, but as in previous years, cover the entire scope of the Report.

[1] Unless already covered in the input for the previous Rule of Law Reports.

Member State covered in contribution [only one choice possible]

If you wish to submit information concerning several Member States, please fill in the questionnaire separately for each Member State. There is no limit to the number of contributions submitted by a single participant.

- ☐ Austria
- ☐ Belgium
- ☐ Bulgaria
- ☐ Croatia
- ☐ Cyprus
- ☐ Czechia
- ☐ Denmark
- ☐ Estonia
- ☐ Finland
- ☐ France
- ☐ Germany
- ☐ Greece
- ☒ Hungary
- ☐ Ireland
- ☐ Italy
- ☐ Latvia
- ☐ Lithuania
- ☐ Luxembourg
- ☐ Malta
- ☐ Netherlands
- ☐ Poland
- ☐ Portugal

- ☐ Romania
- ☐ Slovak Republic
- ☐ Slovenia
- ☐ Spain
- ☐ Sweden

I. Justice System

Please provide information on measures taken to follow-up on the recommendations received in the 2022 Report regarding the justice system (if applicable)

3000 character(s) maximum

No measures has been taken yet.

A. Independence

Appointment and selection of judges, prosecutors and court presidents (incl. judicial review)

(The reference to 'judges' concerns judges at all level and types of courts as well as judges at constitutional courts)

3000 character(s) maximum

The National Judicial Council (NJC) found in their opinion on the annual report of the NJO and Kúria Presidents on their judicial appointment practice that certain judicial appointments especially to the Kúria did not comply with the law. In some cases, the second or third ranked candidate was appointed or transferred without the consent of the NJC, where the first ranked candidate, who had been proposed for appointment to another post, did not withdraw his application. With these decisions the competence of the NJC was withdrawn. In the case of the Kúria it has also happened that the fourth candidate in the ranking has been appointed as a judge in the selection procedure for the multiple applications. The Kúria President defined aspects which were not transparent and the applicants were not aware of. NJC's criticism was questioned by the Kúria President, who called NJC's reasoned and unanimous decision arbitrary.

In the practice of evaluation of judicial applications, the NJC has observed that there is a lack of legal regulation of the order of evaluation in cases where several calls for application are evaluated with the same deadline. This regulatory deficiency exists in the case of appointments made by both the President of the NJO and the President of the Kúria. In the absence of such a regulation, the order of selection can influence who becomes a judge and who is excluded from this possibility. NJC has indicated the need for a legislative amendment.

Irremovability of judges, including transfers, (incl. as part of judicial map reform), dismissal and retirement regime of judges, court presidents and prosecutors (incl. judicial review)

3000 character(s) maximum

NJC started an inquiry on the practice of secondments of judges in 2021. The NJC Commission's examination of secondments could solely analyse the Court Journal, since President of the NJO has not allowed the members of the NJC to study the documents relating to secondments, on the grounds that the NJC does not have the legal power to deal with this topic.

The Committee established by the NJC has identified the following general problems with the practice of secondment under the powers of the President of the NJO:

- The number of secondments based on the decision of the President of the NJC has increased to such an extent that it violates the principles of a meritocratic system of appointments.
- It leads, by implication, to the creation of contra-legal "probationary" positions for judges. (Kúria President acknowledged in the debate that he considers secondments as a probation time in the higher position.)
- It has been raised that in addition to the two possible grounds provided for in the law, there are in fact other grounds for appointments.
- Under current practice, there is a risk of overburdening the judge on secondment.
- There is concern that no additional remuneration is paid for the extra work.
- It is not transparent why there is a need for years of secondment instead of publishing a call for applications.
- When applying for a post, seconded judges have an unreasonable advantage over their colleagues, and long-term secondments freeze normal career development.
- There is no transparency as to the duration of the secondment, nor as to when the seconded judge will retain all or part of his or her original judicial functions.
- The caseload measurements which should be the basis for secondments are not known.
- There are no rules on the exact selection criteria and procedures for secondments for the purposes of professional development.

In its examination the NJC therefore concluded that the practice of secondment was based on factors going further than the two grounds provided for in the Law on the Organisation of the Courts (the law provides for the possibility of secondment of judges for the purpose of balancing the workload and promoting the professional development of the judge)

However, not only the president of the National Judicial Office, but also the president of the tribunal has the power to second a judge. These secondments are also extremely numerous and unclear, even though they have a significant impact on the living conditions, workload and even remuneration of judges. The concerns expressed by the NJC also exist for secondments within the tribunal. However, only the President of the NJO could investigate this practice, but no such investigation has been carried out in recent years, despite indications from MABIE and the NJC.

Promotion of judges and prosecutors (incl. judicial review)

3000 character(s) maximum

NJC indicated unlawful practice of the NJO President, since he denied access to inquiry files and the files of the secondment of judges.

NJC drafted legislative proposals to strengthen its role and status in the Hungarian judiciary.

Allocation of cases in courts

3000 character(s) maximum

The rules and practices for the allocation of cases have not changed.

Independence (including composition and nomination and dismissal of its members), and powers of the body tasked with safeguarding the independence of the judiciary (e.g. Council for the Judiciary)

3000 character(s) maximum

The 2021 Rule of Law Report identified that the powers of the NJC are way too narrow and not clearly defined, and therefore subject to constant debate. This has not been corrected since then. For this reason, the National Judicial Council requested amendments (and also drafted its proposals) to the NJO in a number of areas of the law in order to allow it to fulfil its control and supervision function. The NJC does not have the competence to apply directly to the Minister of Justice for an amendment in the law, therefore the NJC has asked the President of the NJO to initiate the amendment of the law on the courts and the status of judges to the Minister on the points it suggests. NJC has not received an answer from the NJO President if he had supported this initiative or not.

Details: <https://orszagosbiroitanacs.hu/a-hataskoreit-es-mukodesi-felteteleik-erinto-torvenyek-modositasat-javasolja-az-orszagos-biroi-tanacs/>

Accountability of judges and prosecutors, including disciplinary regime and bodies and ethical rules, judicial immunity and criminal/civil (where applicable) liability of judges (incl. judicial review)

3000 character(s) maximum

In 2022, the National Judicial Council adopted the Code of Ethics for Judges, after consulting with the whole judiciary (judges and judicial associations, especially MABIE) and taking into account the comments. It was a long process with a preparatory work by the Commission set up by NJC, which was followed by a series of debate during several NJC sessions. The Code came into force on 15 July 2022 (Courts Day in Hungary).

Based on the new Code, judges are also free to express their opinions on the law, the legal system and the administration of justice, and in particular to publish, lecture and teach.

The Kúria President (who is an ex-officio member of the NJC) left the debate in its early phase and did not take part in the adoption. Afterwards, he challenged the Code before the Constitutional Court claiming that the NJC had no competence to adopt a new Code, since another one already existed. Moreover, he attacked the wide opportunities of the expression of views quoted above. Furthermore, the President of the Kúria claimed that the NJC had established ethical rules for judicial leaders without legal authority, and that the ethical rules were linked only to the position of judge.

Four NGOs have filed Amicus Curiae petition to the Constitutional Court asking the Constitutional Court to reject the petition of the President of the Curia. NJC joined to this Amicus Curiae supporting its opinion. The case is currently pending before the Constitutional Court. NJC requested a personal hearing from the Constitutional Court, which has not been granted but refused: <https://orszagosbiroitanacs.hu/?mdocs-file=2329>

Remuneration/bonuses/rewards for judges and prosecutors, including observed changes (significant and targeted increase or decrease over the past year), transparency on the system and access to the information

3000 character(s) maximum

In January 2022 judges and prosecutors received the last part of their three-year pay salary increase, averaging 12%.

In Hungary, inflation rate is expected to exceed 20% in 2022 and is constantly growing.

For this reason, the real value of judges' salaries fell in 2022 due to high inflation.

Compared to previous years, judges received a much smaller amount of benefits in 2022. There is no year-end bonus in any court in 2022, so the possibility of arbitrary bonuses was avoided this year.

Independence/autonomy of the prosecution service

3000 character(s) maximum

Independence of the Bar (chamber/association of lawyers) and of lawyers

3000 character(s) maximum

Significant developments capable of affecting the perception that the general public has of the independence of the judiciary

3000 character(s) maximum

An online press site has published articles based on the investigation files of the ongoing criminal procedure against the President of the Hungarian Judicial Officers and several of his accused colleagues. According to the material on telephone tap information, the president of the Judicial Officers had conversations with the president of National Judicial Office and the president of the Metropolitan Court. During the latter a request was made to the President of the Metropolitan Court to cooperate in the removal of a judge. According to the investigation documents the court president responded by explaining that a judge could not be dismissed, but it can be achieved by making the judge feel uncomfortable at her work.

NJC urged disciplinary proceeding: <https://orszagosbiroitanacs.hu/?mdocs-file=2013>

President of the National Judicial Office ordered a targeted investigation at the Metropolitan Court, then informed the National Judicial Council that the investigation material was qualified as restricted (confidential) in distribution due to its content and refused to communicate the results of the investigation on the grounds of classified information.

In an interview with a foreign press organ in the summer of 2022 the spokesperson and member for the NJC said that he and his colleagues had experienced both internal and external attempts to influence the court, with attacks coming from all sides of the political spectrum. Following the publication of the article several media organs started a propaganda attack against the NJC spokesperson. He was described as a blood judge who puts innocent people in jail by referring to the cases he judges. The articles also included statements that the NJC was a putty club that made politically motivated attacks on the former president of the NJO. Some articles accused the former President of the Kúria of supporting the activities of the NJC. The association also issued a statement in response to the wave of attacks and criticised the serious attacks on the independence of the judiciary.

David Pressmann the US Ambassador to Hungary tweeted that he had met with the spokesperson and international representative of the National Judicial Council. This was followed by a vicious, personal smear campaign against the two judges (who are NJC members). In the government controlled media the meeting was considered as a brutal interference in the Hungarian judiciary. According to the articles, the judges violated the Code of Ethics and their impartiality was compromised by the visit. Several speakers, including governmental politicians, have called on the judges to resign. There were also calls for the two judges to be sacked because of the meeting. NJO President and Kúria President has criticized NJC, which defended its members in a statement: <https://orszagosbiroitanacs.hu/?mdocs-file=2365>
ENCJ, EJN, MABIE issued solidarity statements supporting NJC and the 2 judges, US Embassy also rejected the smears.

B. Quality of justice

(Under this topic, you are not required to give statistical information but should provide input on the type of information outlined under section 2)

Accessibility of courts (e.g. court/legal fees, legal aid, language)

3000 character(s) maximum

No development

Resources of the judiciary (human/financial/material)

(Material resources refer e.g. to court buildings and other facilities)

3000 character(s) maximum

There are no significant changes, the amount of fringe benefits in the court has decreased.

Training of justice professionals (including judges, prosecutors, lawyers, court staff)

3000 character(s) maximum

Most of the training was still done online, for pandemic reasons at the beginning of the year, and later due to the energy price hikes. However, NJO opened a new training center at the Lake Balaton, which provides another venue for trainings.

Digitalisation (e.g. use of digital technology, particularly electronic communication tools, within the justice system and with court users, including resilience of justice systems in COVID-19 pandemic)

3000 character(s) maximum

There have been no significant changes, and digitalisation of the courts has generally been of a sufficient standard to allow proceedings to continue even during pandemic restrictions. Slight amendments of procedure codes widened the possibilities of communication with clients via e-mail and the option of videoconferencing.

Use of assessment tools and standards (e.g. ICT systems for case management, court statistics and their transparency, monitoring, evaluation, surveys among court users or legal professionals)

3000 character(s) maximum

No development

Geographical distribution and number of courts/jurisdictions ("judicial map") and their specialization, in particular specific courts or chambers within courts to deal with fraud and corruption cases

3000 character(s) maximum

An amendment to the law, which entered into force at the end of the year, introduces a procedure for criminal proceedings called "proceedings in cases of major offences relating to the exercise of public authority or the management of public property". Until indictment, the functions of the court are performed by a single court, the Investigative Judges Department of the Buda Central District Court, and after indictment, the general rules on jurisdiction and competence apply. There is no practical experience of the procedure (whether it is efficient) yet at all. The adopted amendment has been also modified once.

C. Efficiency of the justice system

(Under this topic, you are not required to give statistical information but should provide input on the type of information outlined under section 2)

Length of proceedings

3000 character(s) maximum

No development.

Other - please specify

3000 character(s) maximum

No significant changes compared to the previous report.

II. Anti-Corruption Framework

Where previous specific reports, published in the framework of the review under the UN Convention against Corruption, of GRECO, and of the OECD address the issues below, please make a reference to the points you wish to bring to the Commission's attention in these documents, indicating any relevant updates, changes or measures introduced that have occurred since these documents were published.

Please provide information on measures taken to follow-up on the recommendations received in the 2022 Report regarding the anti-corruption framework (if applicable)

3000 character(s) maximum

A. The institutional framework capacity to fight against corruption (prevention and investigation / prosecution)

List any changes as regards relevant authorities (e.g. national agencies, bodies) in charge of prevention detection, investigation and prosecution of corruption and the resources allocated to each of these authorities (the human, financial, legal, and technical resources as relevant), including the cooperation among domestic authorities. Indicate any relevant measure taken to effectively and timely cooperate with OLAF and EPPO (where applicable)

3000 character(s) maximum

Safeguards for the functional independence of the authorities tasked with the prevention and detection of corruption

3000 character(s) maximum

Information on the implementation of measures foreseen in the strategic anti-corruption framework (if applicable). If available, please provide relevant objectives and indicators

3000 character(s) maximum

B. Prevention

Measures to enhance integrity in the public sector and their application (including as regards incompatibility rules, revolving doors, codes of conduct, ethics training). Please provide figures on their application

3000 character(s) maximum

General transparency of public decision-making, including rules on lobbying and their enforcement, asset disclosure rules and enforcement, gifts policy, transparency of political party financing

3000 character(s) maximum

Rules and measures to prevent conflict of interests in the public sector. Please specify the scope of their application (e.g. categories of officials concerned)

3000 character(s) maximum

Measures in place to ensure whistleblower protection and encourage reporting of corruption.

3000 character(s) maximum

List the sectors with high-risks of corruption in your Member State and list the relevant measures taken /envisaged for monitoring and preventing corruption and conflict of interest in these sectors (e.g. public procurement, healthcare, citizen investor schemes, risk or cases of corruption linked to the disbursement of EU funds, other), and, where applicable, list measures to prevent and address corruption committed by organised crime groups (e.g. to infiltrate the public sector)

3000 character(s) maximum

Any other relevant measures to prevent corruption in public and private sector

3000 character(s) maximum

C. Repressive measures

Criminalisation, including the level of sanctions available by law, of corruption and related offences, including foreign bribery

3000 character(s) maximum

Data on investigation and application of sanctions for corruption offences, including for legal persons and high level and complex corruption cases and their transparency, including as regards to the implementation of EU funds

(Please include, if available the number of (data since 2019): indictments; first instance convictions; first instance acquittals; final convictions;

final acquittals; other outcomes (final) (i.e. excluding convictions and acquittals); cases adjudicated (final); imprisonment / custodial sentences through final convictions; suspended custodial sentences through final convictions; pending cases at the end of the reference year)

3000 character(s) maximum

Potential obstacles to investigation and prosecution as well as to the effectiveness of criminal sanctions of high-level and complex corruption cases (e.g. political immunity regulation, procedural rules, statute of limitations, cross-border cooperation, pardoning)

3000 character(s) maximum

Information on effectiveness of non-criminal measures and of sanctions (e.g. recovery measures and administrative sanctions) on both public and private offenders

3000 character(s) maximum

Other - please specify

3000 character(s) maximum

III. Media Freedom and Pluralism

Please provide information on measures taken to follow-up on the recommendations received in the 2022 Report regarding media freedom and pluralism (if applicable)

3000 character(s) maximum

A. Media authorities and bodies

(Cf. Article 30 of Directive 2018/1808)

Measures taken to ensure the independence, enforcement powers and adequacy of resources (financial, human and technical) of media regulatory authorities and bodies

3000 character(s) maximum

Conditions and procedures for the appointment and dismissal of the head / members of the collegiate body of media regulatory authorities and bodies

3000 character(s) maximum

Existence and functions of media councils or other self-regulatory bodies

3000 character(s) maximum

B. Safeguards against government or political interference and transparency and concentration of media ownership

Measures taken to ensure the fair and transparent allocation of state advertising (including any rules regulating the matter)

3000 character(s) maximum

Safeguards against state / political interference, in particular:

- safeguards to ensure editorial independence of media (private and public)
- specific safeguards for the independence of heads of management and members of the governing boards of public service media (e.g. related to appointment, dismissal), safeguards for their operational independence (e.g. related to reporting obligations and the allocation of resources) and safeguards for plurality of information and opinions
- information on specific legal provisions and procedures applying to media service providers, including as regards granting/renewal/termination of licenses, company operation, capital entry requirements, concentration and corporate governance

3000 character(s) maximum

Transparency of media ownership and public availability of media ownership information, including on direct, indirect and beneficial owners, as well as any rules regulating the matter

C. Framework for journalists' protection, transparency and access to documents

Rules and practices guaranteeing journalist's independence and safety, including as regards protection of journalistic sources and communications

3000 character(s) maximum

Law enforcement capacity, including during protests and demonstrations, to ensure journalists' safety and to investigate attacks on journalists

3000 character(s) maximum

Access to information and public documents (incl. transparency authorities where they exist, procedures, costs/fees, timeframes, administrative/judicial review of decisions, execution of decisions by public authorities, possible obstacles related to the classification of information)

3000 character(s) maximum

Lawsuits (incl. SLAPPs - strategic lawsuits against public participation) and convictions against journalists (incl. defamation cases) and measures taken to safeguard against manifestly unfounded and abusive lawsuits

3000 character(s) maximum

Other - please specify

3000 character(s) maximum

IV. Other institutional issues related to checks and balances

Please provide information on measures taken to follow-up on the recommendations received in the 2022 Report regarding the system of checks and balances (if applicable)

3000 character(s) maximum

A. The process for preparing and enacting laws

Framework, policy and use of impact assessments and evidence based policy-making, stakeholders'[1] /public consultations (particularly consultation of judiciary and other relevant stakeholders on judicial reforms), and transparency and quality of the legislative process

[1] *This includes also the consultation of social partners*

3000 character(s) maximum

Rules and use of fast-track procedures and emergency procedures (for example, the percentage of decisions adopted through emergency/urgent procedure compared to the total number of adopted decisions)

3000 character(s) maximum

Regime for constitutional review of laws

3000 character(s) maximum
