

# 2023 Rule of Law Report - targeted stakeholder consultation

Fields marked with \* are mandatory.

## Introduction

---

The annual Rule of Law Report lies at the centre of the European rule of law mechanism, which acts as a preventive tool, deepening multilateral dialogue and joint awareness of rule of law issues. So far, three editions of the Rule of Law Report have been published in 2020, 2021 and 2022.

In the preparation of the first three editions of the Rule of Law Report, the Commission has relied on a diversity of relevant sources, including from Member States, country visits, and stakeholders' contributions collected through the targeted stakeholder consultation [1]. The information provided has informed the Commission's country-specific assessments in preparing the Report. Building on the positive experience from the first three editions of the Rule of Law Report, the Commission is now inviting stakeholders to provide written contributions for the preparation of the 2023 Rule of Law Report through this targeted consultation.

The contribution to be provided should include (1) information on measures taken to implement the recommendations addressed to the Member State in the 2022 Rule of Law report, as well as developments with regard to the points raised in the respective country chapter and (2) any other significant developments since January 2022 [2] falling under the 'type of information' outlined in the next section.

The input should be short and concise and summarise information related to one or more of the areas referred to in the template. You are invited to focus on the areas that relate to the scope of work and expertise of your organisation. Existing reports, statements, legislation or other documents may be referenced with a link (no need to provide the full text). Stakeholders are encouraged to make references to any contributions already provided in a different context or to Reports and documents already published. Contributions should focus on significant developments both as regards the legal framework and its implementation in practice.

**If you wish to submit information concerning several Member States, you will have to fill-in the questionnaire separately for each Member States (due to the size of the questionnaire). There is no limit to the number of contributions submitted by a single participant. In such cases, you are not required to repeat the information in the section "about you" that is non-mandatory nor the information on horizontal developments.**

Please provide your contribution by **20 January 2023**. Should you have any requests for clarifications or encounter difficulties in filling in the questionnaire, you can contact the Commission at the following email

address: rule-of-law-network@ec.europa.eu.

[1] For the consultation for the 2022 Report, see [https://ec.europa.eu/info/publications/2022-rule-law-report-targeted-stakeholder-consultation\\_en](https://ec.europa.eu/info/publications/2022-rule-law-report-targeted-stakeholder-consultation_en)

[2] Unless the information was already submitted in the consultation for the previous Rule of Law Reports.

## Type of information

---

The topics are structured according to four pillars: I. Justice system; II. Anti-corruption framework; III. Media pluralism; and IV. Other institutional issues related to checks and balances. The replies could include aspects set out below under each pillar. This can include challenges, current work streams, positive developments and best practices:

### **Legislative developments**

- Newly adopted legislation
- Legislative drafts currently discussed in Parliament
- Legislative plans envisaged by the Government

### **Policy developments**

- Implementation of legislation
- Evaluations, impact assessment, surveys
- White papers/strategies/actions plans/consultation processes
- Follow-up to reports/recommendations of Council of Europe bodies or other international organisations
- Important administrative measures
- Generalised practices

### **Developments related to the judiciary / independent authorities**

- Important case law by national courts
- Important decision/opinions from independent bodies/authorities
- State of play on terms, nominations and expired mandates for high-level positions (e.g. Supreme Court, Constitutional Court, Council for the Judiciary, heads of independent authorities included in the scope of the questionnaire[1])

### **Any other relevant developments**

- Respondents are free to add any further information, which they deem relevant; however, this should be short and to the point.

If there are no changes, it is sufficient to indicate this and the information covered in the contributions for the previous Rule of Law Reports should not be repeated.

[1] Such as: media regulatory authorities and bodies, national human rights institutions, equality bodies, ombudsman institutions, supreme audit institutions and, where they exist, transparency authorities.

## About you

---

\* I am giving my contribution as

- ☐ Academic/research institution
- ☐ Business association
- ☒ Civil society organisation/NGO
- ☐ International organisation
- ☐ Judicial association or network
- ☐ Media organisation or association
- ☐ Public authority or network of public authorities
- ☐ Other

\* Organisation name

*250 character(s) maximum*

Transparency International - Czech Republic

### Main Areas of Work

- ☐ Justice System
- ☒ Anti-corruption
- ☐ Media Pluralism
- ☐ Other

Please insert an URL towards your organisation's main online presence or describe your organisation briefly:

*500 character(s) maximum*

<https://www.transparency.cz/>

Transparency International CZ is one of the key pillars in fighting corruption in Czech Republic. We expose both major and minor corruption cases in Czech Republic and abroad, if they are connected to Czech Republic. We propose legislative and other systemic changes. We provide free legal advisory to the general public in cases connected to corruption. We educate representatives of government, business and public.

### Transparency register number

Check if your organisation is in the transparency register. It's a voluntary database for organisations seeking to influence EU decision-making

\* Country of origin

Please add the country of origin of your organisation

Email Address of the organisation (this information will not be published)

[REDACTED]

#### \* Publication of your contribution and privacy settings

You can choose whether you wish for your contribution to be published and whether you wish your details to be made public or to remain anonymous.

- ☐ Anonymous - Only your type of respondent, country of origin and contribution will be published. Organisation name, URL, transparency register number, first name and surname given above will not be published. **To maintain anonymity, please refrain from mentioning the name of your organisation and any details from which your organisation can be identified in the rest of your contribution.**
- ☒ Public - Your personal details (name, organisation name, transparency register number, country of origin will be published with your contribution).
- ☐ No publication - Your contribution will not be published. Elements of your contribution may be referred to anonymously in documents produced by the Commission based on this consultation.

☒ I agree with the personal data protection provisions.

## Questions on horizontal developments

---

In this section, you are invited to provide information on general horizontal developments or trends, both positive and negative, covering all or several Member States. In particular, you could mention issues that are common to several Member States, as well as best practices identified in one Member State that could be replicated. Moreover, you could refer to your activities in the area of the four pillars and sub-topics (an overview of all sub-topics can be found below), and, if you represent a Network of national organisations, to the support you might have provided to one of your national members.

Overview topics for contribution

[list of topics 2023 Report.pdf](#)

Please provide any relevant information on horizontal developments here

5000 character(s) maximum

Regarding anti-corruption legislation Czech Republic continues with the trend, which was set up about 10 years ago, which is to implement new legislation only if it is crucial for evaluation of international organizations or if the country is obliged to implement the legislation adopted on EU level to national legislation. The new government, appointed in December 2021, is reluctant towards adopting new anti-corruption laws, which are not demanded by EU, such as regulation of lobbying, or adopting law, which is very minimalistic and might, in longer period of time, worsen the situation in Czech Republic, such as protection of whistleblowers (<https://www.transparency.cz/navrh-zakona-o-ochrane-oznamovatel-u-z-pera-ministra-blazka-je-horsi-nez-od-jeho-predchudkyne-benesove/>). Another topic the government is reluctant to tackle is the legislation regarding conflict of interest. All five political parties, which are now part of the government, had this topic as one of their top priorities in political campaign. Law enforcement continues to prosecute corruption cases and to expose corruption schemes (such as "Dozimetr" case), which, in general, brings more trust in law enforcement, and brings less trust in political representation in general.

## Questions for contribution

The following four pillars (I.-IV.) are sub-divided into topics (A., B., etc.) and sub-topics (1., 2., 3., etc.). For each of the topics and sub-topics, you are invited to provide (1) information on measures taken to implement the recommendations addressed to the Member States in the 2022 Rule of Law report, as well as developments with regard to the points raised in the respective country chapter of the 2022 Rule of Law Report and (2) any other significant developments since January 2022<sup>[1]</sup>. Please include a link to and reference relevant legislation/documents (in the national language and/or where available, in English) if relevant. Significant developments can include challenges, positive developments and best practices, covering both legislative developments or implementation and practices.

If there are developments you consider relevant under each of the four pillars that are not mentioned in the sub-topics, please add them under the section "other - please specify". Only significant developments should be covered.

Information provided in reply to the first question under each pillar, related to the follow-up to the recommendations, does not need to be repeated in subsequent parts of the questionnaire, but can be cross-referenced in the subsequent questions, where relevant. All other questions are not limited to the recommendations, but as in previous years, cover the entire scope of the Report.

[1] Unless already covered in the input for the previous Rule of Law Reports.

Member State covered in contribution [only one choice possible]

**If you wish to submit information concerning several Member States, please fill in the questionnaire separately for each Member State. There is no limit to the number of contributions submitted by a single participant.**

- ☐ Austria
- ☐ Belgium
- ☐ Bulgaria
- ☐ Croatia
- ☐ Cyprus

- ☒ Czechia
- ☐ Denmark
- ☐ Estonia
- ☐ Finland
- ☐ France
- ☐ Germany
- ☐ Greece
- ☐ Hungary
- ☐ Ireland
- ☐ Italy
- ☐ Latvia
- ☐ Lithuania
- ☐ Luxembourg
- ☐ Malta
- ☐ Netherlands
- ☐ Poland
- ☐ Portugal
- ☐ Romania
- ☐ Slovak Republic
- ☐ Slovenia
- ☐ Spain
- ☐ Sweden

## I. Justice System

---

Please provide information on measures taken to follow-up on the recommendations received in the 2022 Report regarding the justice system (if applicable)

*3000 character(s) maximum*

Reform of the prosecution service, which would take into account European standards on the independence and autonomy of the prosecution is in preparation phase, yet we doubt that the new legislation will get completely along with the European standards. But as the law is not yet in the first reading we still believe that there is still space to improve the proposal.

We did not recognize any measures to reduce the length of proceedings to ensure a robust track record of investigations, prosecutions and final judgements on high-level corruption cases.

The Codes of Ethics are still not in place for both Houses of Parliament. The Minister for European Affairs Mr. Mikulas Bek publicly claimed that adopting those codes of ethics is a matter of political will (<https://www.senat.cz/xqw/xervlet/pssenat/hlasovani?action=steno&O=14&IS=7102&D=01.12.2022>).

The legislation on asset declarations was not revised and did not receive any information that this is about to change. The legal definition of beneficial ownership was revised because of the demands of European Commission, yet we are not sure whether the revision is sufficient enough for Czech Republic to receive money from National Recovery Plan (as the adaptation is one of the condition for receiving the money).

## A. Independence

## Appointment and selection of judges, prosecutors and court presidents (incl. judicial review)

*(The reference to 'judges' concerns judges at all level and types of courts as well as judges at constitutional courts)*

*3000 character(s) maximum*

As the amendment of the Act on courts and judges entered on force in January 2022, we feel like the law will probably need new amendment as Czech Minister of Justice used his power the restructualize the prosecutor office in Olomouc, where the corruption case, where his close political allies are involved and he is investigate, is supervised. We see that fact as a huge conflict of interests which was not forseen and law has to change accordingly (<https://www.transparency.cz/kauzy/stret-zajmu-pavla-blazka/>)

## Irremovability of judges, including transfers, (incl. as part of judicial map reform), dismissal and retirement regime of judges, court presidents and prosecutors (incl. judicial review)

*3000 character(s) maximum*

## Promotion of judges and prosecutors (incl. judicial review)

*3000 character(s) maximum*

## Allocation of cases in courts

*3000 character(s) maximum*

## Independence (including composition and nomination and dismissal of its members), and powers of the body tasked with safeguarding the independence of the judiciary (e.g. Council for the Judiciary)

*3000 character(s) maximum*

## Accountability of judges and prosecutors, including disciplinary regime and bodies and ethical rules, judicial immunity and criminal/civil (where applicable) liability of judges (incl. judicial review)

*3000 character(s) maximum*

## Remuneration/bonuses/rewards for judges and prosecutors, including observed changes (significant and targeted increase or decrease over the past year), transparency on the system and access to the information

*3000 character(s) maximum*

## Independence/autonomy of the prosecution service

3000 character(s) maximum

Independence of the Bar (chamber/association of lawyers) and of lawyers

3000 character(s) maximum

Significant developments capable of affecting the perception that the general public has of the independence of the judiciary

3000 character(s) maximum

## B. Quality of justice

*(Under this topic, you are not required to give statistical information but should provide input on the type of information outlined under section 2)*

Accessibility of courts (e.g. court/legal fees, legal aid, language)

3000 character(s) maximum

Resources of the judiciary (human/financial/material)

*(Material resources refer e.g. to court buildings and other facilities)*

3000 character(s) maximum

Training of justice professionals (including judges, prosecutors, lawyers, court staff)

3000 character(s) maximum

Digitalisation (e.g. use of digital technology, particularly electronic communication tools, within the justice system and with court users, including resilience of justice systems in COVID-19 pandemic)

3000 character(s) maximum

Use of assessment tools and standards (e.g. ICT systems for case management, court statistics and their transparency, monitoring, evaluation, surveys among court users or legal professionals)

3000 character(s) maximum

Geographical distribution and number of courts/jurisdictions (“judicial map”) and their specialization, in particular specific courts or chambers within courts to deal with fraud and corruption cases

*3000 character(s) maximum*

## C. Efficiency of the justice system

*(Under this topic, you are not required to give statistical information but should provide input on the type of information outlined under section 2)*

Length of proceedings

*3000 character(s) maximum*

Other - please specify

*3000 character(s) maximum*

## II. Anti-Corruption Framework

---

Where previous specific reports, published in the framework of the review under the UN Convention against Corruption, of GRECO, and of the OECD address the issues below, please make a reference to the points you wish to bring to the Commission’s attention in these documents, indicating any relevant updates, changes or measures introduced that have occurred since these documents were published.

Please provide information on measures taken to follow-up on the recommendations received in the 2022 Report regarding the anti-corruption framework (if applicable)

*3000 character(s) maximum*

Czech Republic remains reluctant to adopting any new law regarding corruption. The new anti-corruption strategy was not adopted (the last one was meant for years 2018-2022). The Government Anti-Corruption Council, the main advisory body of the Government regarding corruption, did not meet for about year and half (but met twice at the very end of year 2022). The whistleblowing and lobbying legislation is still not adopted, as well as amendment of the conflict of interests mechanisms. The asset declaration bill was adopted, although the new adaptation allows public to access asset declaration only on request and only in cases of suspicion of corruption behavior of the politician. The investigation of grand corruption cases is still in place with new cases occurred in 2022. Unfortunately some of the persons involved in the cases had connections with top representatives of the government, who, in general, refuse to take responsibility and to step down from their offices for the duration of investigation, thus the political culture in Czech Republic still fades.

## A. The institutional framework capacity to fight against corruption (prevention and investigation / prosecution)

List any changes as regards relevant authorities (e.g. national agencies, bodies) in charge of prevention detection, investigation and prosecution of corruption and the resources allocated to each of these authorities (the human, financial, legal, and technical resources as relevant), including the cooperation among domestic authorities. Indicate any relevant measure taken to effectively and timely cooperate with OLAF and EPPO (where applicable)

*3000 character(s) maximum*

Some relevant authorities had to hire new staff (such as FIU) because of the war in Ukraine and urgent need to investigate whether there are companies/individuals in Czech Republic, which should be under sanctions of European Union. As the legislation on implementation of international sanctions was obsolete, the reviewed law was adopted. At the end of the year, the Czech version of Magnitsky law was adopted as well. The Czech variant of Magnitsky law is strongly tied to EU

Safeguards for the functional independence of the authorities tasked with the prevention and detection of corruption

*3000 character(s) maximum*

Information on the implementation of measures foreseen in the strategic anti-corruption framework (if applicable). If available, please provide relevant objectives and indicators

*3000 character(s) maximum*

## B. Prevention

Measures to enhance integrity in the public sector and their application (including as regards incompatibility rules, revolving doors, codes of conduct, ethics training). Please provide figures on their application

*3000 character(s) maximum*

Nothing particular was done on these matters. The Code of Ethics for the members of Parliament was still not adopted and by unofficial comment is stalled until the COVID-19 pandemics is over.

General transparency of public decision-making, including rules on lobbying and their enforcement, asset disclosure rules and enforcement, gifts policy, transparency of political party financing

*3000 character(s) maximum*

The rule on lobbying is not adopted in Czech Republic. The rule of transparency of political financing is active since 2016 and during that time there were several logical loopholes discovered, namely in rules of financing political campaigns. In general, NGOs in Czech Republic are lobbying for changing the law, unfortunately the government does not see this topic as a priority. The Office for Supervision of the Management of Political Parties was seen as barely working because of the Chairman of the Office, who systematically thwarted the oversight functions of the other members of the Office. The Chairmans mandate ended by the end of 2022.

Rules and measures to prevent conflict of interests in the public sector. Please specify the scope of their application (e.g. categories of officials concerned)

*3000 character(s) maximum*

The rule on conflict of interests were reviewed and as the revision has effect from 1 July 2022 we do not know yet whether the changes made are sufficient and get closer to the EU perception of conflict of interest. The revision did not review the list of officials concerned, so they remain the same:

Members of the Parliament

Members of the Government

Deputy Ministers

The Head of the Offices of the Parliament and the Head of the Office of the President

An Inspector of the Data Protection Authority

The Chairman of the Czech Office for Standards Metrology and Testing

A member of the Council of the Czech Telecommunications Office

A member of the Council of the Czech Energy Regulatory Office

A member of the Bank Board of the Czech National Bank

President, Vice-President and members of the Supreme Audit Office

Chairman or member of the Office for Supervision of the Management of Political Parties

Ombudsman and his/her deputy

A member of Broadcasting Council

A member of a regional council, of the council of Prague or of municipal council who serves as a full-time job on his position

A mayor, deputy mayor or members of the council of the municipality

(<https://www.zakonyprolidi.cz/cs/2006-159>)

Measures in place to ensure whistleblower protection and encourage reporting of corruption.

*3000 character(s) maximum*

The whistleblower protection law is currently prepared by the government. So far the proposal is very minimalistic and will not improve the situation of whistleblowers in the country. Yet as the law is still not adopted, we hope that it may change.

List the sectors with high-risks of corruption in your Member State and list the relevant measures taken / envisaged for monitoring and preventing corruption and conflict of interest in these sectors (e.g. public procurement, healthcare, citizen investor schemes, risk or cases of corruption linked to the disbursement of EU funds, other), and, where applicable, list measures to prevent and address corruption committed by organised crime groups (e.g. to infiltrate the public sector)

*3000 character(s) maximum*

Any other relevant measures to prevent corruption in public and private sector

*3000 character(s) maximum*

## C. Repressive measures

Criminalisation, including the level of sanctions available by law, of corruption and related offences, including foreign bribery

3000 character(s) maximum

Data on investigation and application of sanctions for corruption offences, including for legal persons and high level and complex corruption cases and their transparency, including as regards to the implementation of EU funds

*(Please include, if available the number of (data since 2019): indictments; first instance convictions; first instance acquittals; final convictions; final acquittals; other outcomes (final) (i.e. excluding convictions and acquittals); cases adjudicated (final); imprisonment / custodial sentences through final convictions; suspended custodial sentences through final convictions; pending cases at the end of the reference year)*

3000 character(s) maximum

Potential obstacles to investigation and prosecution as well as to the effectiveness of criminal sanctions of high-level and complex corruption cases (e.g. political immunity regulation, procedural rules, statute of limitations, cross-border cooperation, pardoning)

3000 character(s) maximum

The decision of European Court of Justice, which claimed that the knowledge of beneficial owner of the companies is not universal for the public, had no effect in Czech Republic so far. Beneficial Ownership Registry is working as before the decision as Czech Ministry of Justice, which is responsible for BOR, is analysing the situation. Obviously, the decision has no effect on law enforcement authorities, but has effect on journalists and NGOs, which often came with corruption stories which leads to official investigation.

Information on effectiveness of non-criminal measures and of sanctions (e.g. recovery measures and administrative sanctions) on both public and private offenders

3000 character(s) maximum

Other - please specify

3000 character(s) maximum

### III. Media Freedom and Pluralism

---

Please provide information on measures taken to follow-up on the recommendations received in the 2022 Report regarding media freedom and pluralism (if applicable)

3000 character(s) maximum

## A. Media authorities and bodies

(Cf. Article 30 of Directive 2018/1808)

Measures taken to ensure the independence, enforcement powers and adequacy of resources (financial, human and technical) of media regulatory authorities and bodies

*3000 character(s) maximum*

Conditions and procedures for the appointment and dismissal of the head / members of the collegiate body of media regulatory authorities and bodies

*3000 character(s) maximum*

Existence and functions of media councils or other self-regulatory bodies

*3000 character(s) maximum*

## B. Safeguards against government or political interference and transparency and concentration of media ownership

Measures taken to ensure the fair and transparent allocation of state advertising (including any rules regulating the matter)

*3000 character(s) maximum*

Safeguards against state / political interference, in particular:

- safeguards to ensure editorial independence of media (private and public)
- specific safeguards for the independence of heads of management and members of the governing boards of public service media (e.g. related to appointment, dismissal), safeguards for their operational independence (e.g. related to reporting obligations and the allocation of resources) and safeguards for plurality of information and opinions
- information on specific legal provisions and procedures applying to media service providers, including as regards granting/renewal/termination of licenses, company operation, capital entry requirements, concentration and corporate governance

*3000 character(s) maximum*

Transparency of media ownership and public availability of media ownership information, including on direct, indirect and beneficial owners, as well as any rules regulating the matter

Beneficial ownership registry, which should help with media ownership transparency, turned out to be not as reliable as it meant to be, especially with ownership of companies, which were believed to be owned by billionaires, which includes media houses. The public has no legal option how to address the responsible courts with their concerns whether the published data are true. The courts have only limited personal capacities to do so on their own.

## C. Framework for journalists' protection, transparency and access to documents

Rules and practices guaranteeing journalist's independence and safety, including as regards protection of journalistic sources and communications

*3000 character(s) maximum*

Law enforcement capacity, including during protests and demonstrations, to ensure journalists' safety and to investigate attacks on journalists

*3000 character(s) maximum*

Access to information and public documents (incl. transparency authorities where they exist, procedures, costs/fees, timeframes, administrative/judicial review of decisions, execution of decisions by public authorities, possible obstacles related to the classification of information)

*3000 character(s) maximum*

Lawsuits (incl. SLAPPs - strategic lawsuits against public participation) and convictions against journalists (incl. defamation cases) and measures taken to safeguard against manifestly unfounded and abusive lawsuits

*3000 character(s) maximum*

Other - please specify

*3000 character(s) maximum*

## IV. Other institutional issues related to checks and balances

---

Please provide information on measures taken to follow-up on the recommendations received in the 2022 Report regarding the system of checks and balances (if applicable)

*3000 character(s) maximum*

## A. The process for preparing and enacting laws

Framework, policy and use of impact assessments and evidence based policy-making, stakeholders'[1] /public consultations (particularly consultation of judiciary and other relevant stakeholders on judicial reforms), and transparency and quality of the legislative process

[1] This includes also the consultation of social partners

3000 character(s) maximum

Rules and use of fast-track procedures and emergency procedures (for example, the percentage of decisions adopted through emergency/urgent procedure compared to the total number of adopted decisions)

3000 character(s) maximum

Regime for constitutional review of laws

3000 character(s) maximum

COVID-19: provide update on significant developments with regard to emergency regimes/measures in the context of the COVID-19 pandemic

- judicial review (including constitutional review) of emergency regimes and measures in the context of COVID-19 pandemic
- oversight (incl. ex-post reporting/investigation) by Parliament of emergency regimes and measures in the context of COVID-19 pandemic
- processes related to lessons learned/crisis preparedness in terms of the functioning of checks and balances

3000 character(s) maximum

## B. Independent authorities

Independence, resources, capacity and powers of national human rights institutions ('NHRIs'), of ombudsman institutions if different from NHRIs, of equality bodies if different from NHRIs and of supreme audit institutions

(Cf. the website of the European Court of Auditors: <https://www.eca.europa.eu/en/Pages/SupremeAuditInstitutions.aspx#>)

3000 character(s) maximum

Statistics/reports concerning the follow-up of recommendations by National Human Rights Institutions, ombudsman institutions, equality bodies and supreme audit institutions in the past two years

*3000 character(s) maximum*

## C. Accessibility and judicial review of administrative decisions

Transparency of administrative decisions and sanctions (incl. their publication and rules on collection of related data)

*3000 character(s) maximum*

Judicial review of administrative decisions:

- short description of the general regime (in particular competent court, scope, suspensive effect, interim measures, and any applicable specific rules or derogations from the general regime of judicial review)

*3000 character(s) maximum*

Follow-up by the public administration and State institutions to final (national/supranational) court decisions, as well as available remedies in case of non-implementation

*3000 character(s) maximum*

## D. The enabling framework for civil society

Measures regarding the framework for civil society organisations and human rights defenders (e.g. legal framework and its application in practice incl. registration and dissolution rules)

*3000 character(s) maximum*

Rules and practices having an impact on the effective operation and safety of civil society organisations and human rights defenders. This includes measures for protection from attacks – verbal, physical or on-line –, intimidation, legal threats incl. SLAPPs, negative narratives or smear campaigns, measures capable of affecting the public perception of civil society organisations, etc. It also includes measures to monitor threats or attacks and dedicated support services.

3000 character(s) maximum
