Remarks

The GNI-based resource is an ‘additional’ resource, providing the revenue required to cover expenditure in excess of the amount yielded by traditional own resources, VAT-based payments, the plastic-based own resource and other revenue in any particular year. By implication, the GNI-based resource ensures that the budget is always balanced *ex ante*.

The GNI call rate is determined by the additional revenue needed to finance the budgeted expenditure not covered by the other resources (plastic-based own resource, VAT-based resource, traditional own resources and other revenue). Thus a call rate is applied to the GNI of each of the Member States.

The rate to be applied to the Member States’ GNI for financial year 2024 is 0,4606 %.

Remarks

EASA is the Union's agency for aviation safety. Its mission is to ensure the highest common level of safety protection for Union citizens, ensure the highest common level of environmental protection, establish a single regulatory and certification process among Member States, facilitate the internal aviation market and create a level playing field, and work with other international aviation organisations and regulators.

The main activities of EASA include the collection and analysis of safety intelligence and performance data to derive strategic action plans, the certification of aviation products and the approval of organisations in all aviation domains (design, production, maintenance, training, air traffic management, etc.), the preparation of regulatory material setting up common standards for aviation in Europe and the monitoring and inspections of the effective implementation of such standards in the Member States and the Union's neighbouring States that have signed aviation agreements with the Union.

The tasks performed by EASA cover the whole spectrum of the Union's aviation safety rules and have an important international component as EASA is legally mandated to cooperate with international actors in order to achieve the highest safety level for EU citizens globally (e.g. EU safety list, authorisation of third country operators, and implementation of technical assistance programming towards third countries). Established in 2002, EASA is composed of more than 800 aviation experts and administrators and it has 31 Member States (27 EU Member States + Switzerland, Iceland, Norway and Liechtenstein). It has four international offices in Montreal, Washington, Beijing and Singapore. Typically its budget consists mainly of fees and charges (64%), a subsidy from the Union (23%), earmarked funds (11%) and third country contributions (2%).

Remarks

The European defence industry Reinforcement through common Procurement Act (EDIRPA) has the following objectives:

- to foster the competitiveness and efficiency of the European defence technological and industrial base for a more resilient Union, in particular by speeding up, in a collaborative manner, the adjustment of industry to structural changes, including the ramping-up of its manufacturing capacities;
- to foster cooperation in the defence procurement process between participating Member States contributing to solidarity, interoperability, prevention of crowding-out effects, avoiding fragmentation and increasing the effectiveness of public spending.

The objectives shall be pursued with an emphasis on strengthening and developing the Union defence industrial base to allow it to address in particular the most urgent and critical defence product needs, especially those revealed or exacerbated by the response to the Russian aggression against Ukraine, taking into account the work of the Defence Joint Procurement Task Force.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

New Chapter

The Defence Industrial Reinforcement Instrument established by the Act in Support of Ammunition Production (ASAP) aims at strengthening the responsiveness and ability of the European Defence Technological and Industrial Base (EDTIB) to ensure the timely availability and supply of relevant defence products in the Union. It has the following main objectives pursued through its two pillars:

- to support the industrial reinforcement, the competitiveness and resilience of EDTIB notably through investments in relevant defence products manufacturing capacities, cross-border industrial partnerships and collaboration of relevant companies in a joint industry effort;
- to identify, map and continuously monitor the availability of the relevant defence products, their components and the corresponding inputs, and measures to establish requirements to secure the timely and lasting availability of the relevant defence products in the Union.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, in case of agreement on their participation, contributions received from EEA-EFTA countries for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

New Article

This appropriation is intended to cover actions of an operational nature, more specifically, directly linked to the achievement of the objectives of the Defence Industrial Reinforcement Instrument established by the Act in Support of Ammunition Production (ASAP).

In particular, the EU financial support and actions brought through the Defence Industrial Reinforcement Instrument will ramp-up the production capacities of the European Defence Technological and Industrial Base (EDTIB) and facilitate investment throughout the supply chain. It will contribute to reducing lead time for the production of the relevant defence products while facilitating investment to allow EDTIB to produce more and faster. It will also encourage the EDTIB's resilience through cross-border industrial partnerships and collaboration of relevant companies in a joint industry effort.

Remarks

The amount entered corresponds to the appropriations for the Office for the Administration and Payment of Individual Entitlements (PMO) set out in detail in the specific annex to this section.

In accordance with Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council of 11 September 2013 concerning investigations conducted by the European Anti-Fraud Office (OLAF) and repealing Regulation (EC) No 1073/1999 of the European Parliament and of the Council and Council Regulation (Euratom) No 1074/1999 (OJ L 248, 18.9.2013, p. 1), the appropriations for, and staff of, the Supervisory Committee of the European Anti-Fraud Office and its secretariat are entered in the budget and establishment plan of the PMO.

For the sake of transparency, the resources made available to the secretariat of Supervisory Committee of the European Anti-Fraud Office in the PMO's budget can be identified. Based on a secretariat of seven permanent posts and an allocation for one member of contract staff, the appropriations for the operation of the secretariat of Supervisory Committee of the European Anti-Fraud Office would amount to approximately EUR 1 000 000. This amount covers expenditure on staff costs, training, missions, internal meetings, buildings and IT.

The expenditure resulting from the mandate of the members of the Supervisory Committee of the European Anti-Fraud Office is covered by appropriations of EUR 200 000 in Article 20 03 18.
