# Digital Single Market - country sheet

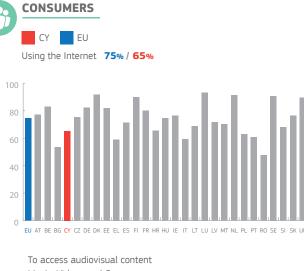

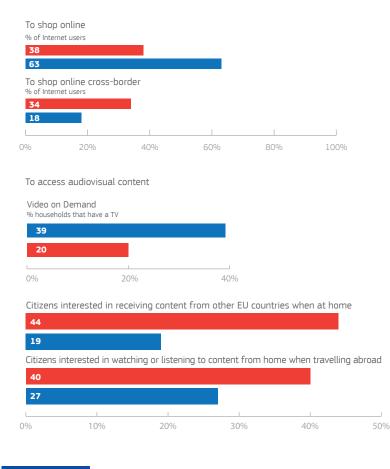

The European Commission has made it a priority to create a Digital Single Market by breaking down barriers for citizens and businesses. In order to achieve this, the Digital Single Market Strategy is built on three pillars:

- 1. Better access for consumers and businesses to digital goods and services across Europe
- 2. Creating the right conditions for digital networks and services to flourish
- 3. Maximising the growth potential of the Digital Economy

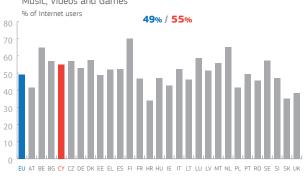

#### **KEY FACTS AND FIGURES**

1. Better access for consumers and businesses to digital goods and services across Europe

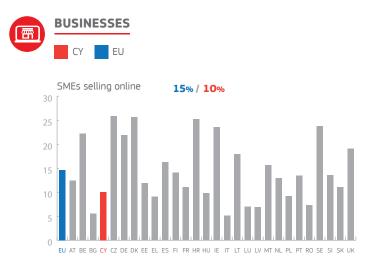

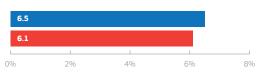

Music. Videos and Games
