on the revision of Regulation (EU) 347/2013 on the guidelines for trans-European energy infrastructure

TEN-E Infrastructure categories to ensure full consistency with the climate neutrality objectives of the Green Deal and digitalisation priorities

2 June 2020, Cisco WebEx Video Conferencing system

To make this Webinar as successful and efficient as possible, please take note of the recommendations below:

- ✓ **This event will be recorded.** If you do not wish to appear on the recording, please do not raise any question by writing. Please note that your name will appear in the participants list. For more information on our privacy policy, please consult our Privacy Statement.
- ✓ The event will be opened as from 9:45. Please make sure to connect at least 5-10 minutes before the call to prevent any connection issues.
- ✓ Given the high expected number of participants, you will be **muted by default and your camera will be turned off automatically** when joining the call.
- ✓ However, we would like to hear from you during the webinar! In order to do so in the best conditions, please make sure to use the following functionalities:
 - ➔ **The Q&A section** where you can ask questions to the moderator, speakers and webinar organisers. Your questions will be collected by the organisers and addressed during the Q&A sessions at the dedicated timeslots in the agenda. Please note that given the high number of participants, the organisers reserve the right to address a proportionate number of questions.
 - ➔ **The chat section** where you can comment or react to the different positions expressed during the event. Please note that your comments will be public to the rest of the participants and the organisers will keep a record of these comments. We invite you to follow the basic rules of politeness when using the chat function. Inappropriate language or behaviour will not be tolerated.

In case you have any technical difficulties in joining before and during the event, please send an email to: events@ecorys.com.
