

Amendment to the 2012
annual work programme on
grants and contracts for the
"Lifelong Learning
Programme"

C(2012)1823 of 23 March 2012

SUMMARY

Commission implementing decision amending the 2012 annual work programme for the "Lifelong Learning Programme" (2nd amendment)

Under Article 75 of the Financial Regulation, the commitment of the expenditure shall be preceded by a financing decision adopted by the Commission. Under Article 110 of the Financial Regulation, grants are subject to an annual programme. The annual work programme on grants and contracts for the "Lifelong Learning Programme" for 2012 has been adopted by Decision C(2011)5502 of 4 August 2011.

The attached Commission Implementing Decision amends Decision C(2011)5502 as amended by Decision C(2011)9520 of 20 December 2011, in order to modify existing actions and to cover additional actions of the "Lifelong Learning Programme" for 2012. The total expenditure foreseen under the 2012 amended work programme on budget line 15.02.22 for the year 2012 has been increased to € 1,362,137,516.

The changes include in particular:

- A significant increase in appropriations (+ € 120 million) for the decentralised actions implemented by the National Agencies for the Comenius, Erasmus, Leonardo da Vinci and Grundtvig programmes and an additional € 750,000 for the European University Institute in Florence, as a result of the additional appropriations voted in the 2012 budget (€ 52 million), additional contributions from third countries, the left-over amount from the external assigned appropriations from the previous programmes in the field of training and higher recoveries (see Appendix 1).
- Slight modifications of the amount allocated to already foreseen actions that stay within the flexibility limits of the programme have been introduced:
 - Under the Comenius programme: Increase of the funds allocated to eTwinning Central Support Services (4.6.1) and to Policy Networks (4.1.3).
 - Under the Leonardo da Vinci programme: Increase, the funds allocated to studies and conferences (4.6.6) and to the Leonardo da Vinci Mobility Action (4.6.7).
 - Under the transversal programme, increase of funds for the studies and comparative research (4.6.10), for the EQF National coordination points (4.4.1), for the Teachers professional development survey (TALIS) (4.2.6) and for the studies and conferences of Key Activity 2 (Language Learning) (4.6.19).
 - A decrease of the funds allocated to the Studies and conferences (4.6.2) under the Comenius programme; to the Presidency conferences and DG meetings (4.2.1), to the ICILS (International Computer and Information Literacy Study) skills survey (4.2.5), and to conferences and events (4.6.21) under the Key Activity 1 of the transversal programme.
- Modification of the content of the "Studies and conferences" (4.6.22) under Key Activity 3 of the transversal programme and of the content of the "conferences and events" (4.6.21) under Key Activity 1 of the transversal programme, the latter with a small budget reduction. Changes in lump sums and flat-rate financing for some countries participating in the Eurydice network.

- New actions foreseen:
 - *Under the Comenius programme*: A call for proposals for a "European network of national literacy organisations" is proposed in order to establish a platform for exchange, analysis and dissemination of policy and good practice between national policymakers and literacy centers, non-governmental organizations supporting literacy and other relevant stakeholders (4.1.5).
 - *Under the Leonardo da Vinci programme*: A call for proposal for the "Sector Skills Alliances" (4.1.6) and an evaluation of EQAVET (European Quality Assurance in Vocational Education and Training).
 - *Under the Grundtvig programme*: A new action to set up an "Electronic Platform for Adult Learning", with the aim to promote effectively adult learning in Europe (4.6.12) and an awareness campaign to support the Implementation of the European Agenda for Adult learning (4.4.4).
 - *Under the transversal programme*: within Key Activity 1 – (*Policy Cooperation and Innovation*): to launch a cooperation action with the OECD on the PIACC Portal (5.2) and a survey on the Social Dimension of Higher Education (4.2.7) and to undertake a Pilot survey on Mobility in Initial Vocational Education and Training (4.6.26); within Key Activity 4 – (*Dissemination and Exploitation of Results*): A call for proposals related to the "Thematic Network on inclusion issues in the Lifelong Learning Programme" (4.1.7).
- Complement to the description of already foreseen actions:
 - *With regard to the transversal programme*: within Key Activity 3 – (*Operating grants to support other institutions and associations – Art.3.3(c)*): a detailed description of the expected results related to the call for proposals for the European associations active at European level in education and training; for the preparatory works for the new programme: additional information and specifications are provided, regarding the three studies to be launched during the second semester of 2012.

This Commission Implementing Decision serves as a financing decision within the meaning of Article 90 of the Implementing Rules.

RÉSUMÉ

Décision d'exécution de la Commission modifiant le programme de travail annuel pour 2012 du «programme pour l'éducation et la formation tout au long de la vie» (2^e modification)

L'article 75 du règlement financier prévoit que l'engagement de toute dépense est précédé d'une décision de financement adoptée par la Commission. L'article 110 dudit règlement dispose que les subventions font l'objet d'une programmation annuelle. Le programme de travail annuel en matière de subventions et de marchés au titre du «programme pour l'éducation et la formation tout au long de la vie» pour l'année 2012 a été adopté par la décision C(2011) 5502 du 4 août 2011.

La décision d'exécution ci-jointe de la Commission modifie la décision C(2011)5502, telle que modifiée par la décision C(2011)9520 du 20 décembre 2011, afin d'apporter des modifications aux actions existantes et de couvrir des actions supplémentaires au titre du programme pour l'éducation et la formation tout au long de la vie pour l'année 2012. Le total des dépenses prévues dans le cadre du programme de travail 2012 modifié concernant la ligne budgétaire 15.02.22 pour l'exercice 2012 a été porté à 1 362 137 516 euros.

Ces modifications comprennent notamment:

- une augmentation significative des crédits (+ 120 millions d'euros) pour les actions décentralisées mises en œuvre par les agences nationales dans le cadre des programmes Comenius, Erasmus, Leonardo da Vinci et Grundtvig et une enveloppe supplémentaire de 750 000 euros pour l'Institut universitaire européen de Florence, grâce au vote de crédits supplémentaires pour le budget 2012 (52 millions d'euros), à des contributions supplémentaires en provenance de pays tiers, au surplus de crédits affectés externes provenant de précédents programmes dans le domaine de la formation, ainsi qu'à des recouvrements plus importants (voir appendice 1);
- de légères modifications du montant alloué aux actions déjà prévues, qui restent dans les limites de flexibilité du programme et qui ont été introduites:
 - dans le cadre du programme Comenius: une augmentation des fonds alloués aux bureaux d'assistance centralisés de l'action eTwinning (4.6.1) et aux réseaux stratégiques (4.1.3),
 - dans le cadre du programme Leonardo da Vinci: une augmentation des fonds alloués aux études et conférences (4.6.6) et à l'action Mobilité du programme Leonardo da Vinci (4.6.7),
 - dans le cadre du programme transversal, une augmentation des fonds pour les études et la recherche comparative (4.6.10), pour les points de coordination nationaux du CEC (4.4.1), pour l'enquête sur le développement professionnel des enseignants (TALIS) (4.2.6) et pour les études et conférences de l'activité clé n° 2 (apprentissage des langues) (4.6.19),
 - une diminution des fonds alloués aux études et conférences (4.6.2) dans le cadre du programme Comenius; aux conférences de la présidence et aux réunions des DG (4.2.1), à l'enquête sur les compétences dans le cadre de l'étude internationale sur la maîtrise des outils informatiques et la culture de l'information (ICILS) (4.2.5) et aux conférences et événements (4.6.21) au titre de l'activité clé n° 1 du programme transversal;
- une modification du contenu des «études et conférences» (4.6.22) au titre de l'activité clé n° 3 du programme transversal et du contenu des «conférences et événements» (4.6.21) au titre de l'activité clé n° 1 du programme transversal, avec dans ce dernier cas une petite réduction de

budget. Des changements intervenus dans les montants forfaitaires et les financements à taux forfaitaire pour certains pays participant au réseau Eurydice;

- de nouvelles actions prévues:
 - *dans le cadre du programme Comenius*: un appel à propositions pour un «réseau européen des organismes nationaux œuvrant contre l'illettrisme» est proposé afin d'établir une plate-forme d'échange, d'analyse et de diffusion des politiques et des bonnes pratiques entre décideurs nationaux, centres d'alphabétisation, organisations non gouvernementales œuvrant contre l'analphabétisme et l'illettrisme et d'autres acteurs concernés (4.1.5),
 - *dans le cadre du programme Leonardo da Vinci*: un appel à proposition pour les «alliances en matière de compétences sectorielles» (4.1.6) et une évaluation du CERAQ (cadre européen de référence pour l'assurance de la qualité dans l'enseignement et la formation professionnels),
 - *dans le cadre du programme Grundtvig*: une nouvelle action visant à mettre en place une «plate-forme électronique pour l'éducation et la formation des adultes», dans le but de promouvoir de manière efficace l'apprentissage des adultes en Europe (4.6.12) et une campagne de sensibilisation visant à soutenir la mise en œuvre de l'agenda européen pour l'éducation et la formation des adultes (4.4.4),
 - *dans le cadre du programme transversal*: dans le cadre de l'activité clé n° 1 – (*Coopération et innovation en matière de politiques*): lancer une action de coopération avec l'OCDE concernant le portail PEICA (5.2), une étude de la dimension sociale de l'enseignement supérieur (4.2.7) et une enquête pilote sur la mobilité dans l'enseignement et la formation professionnels initiaux (4.6.26); dans le cadre de l'activité clé n° 4 – (*Diffusion et exploitation des résultats*): un appel à propositions relatif au «réseau thématique sur les questions d'inclusion dans le programme d'éducation et de formation tout au long de la vie»(4.1.7);
- Complément d'information concernant des actions déjà prévues:
 - *pour ce qui est du programme transversal*: dans le cadre de l'activité clé n° 3 – (*Subventions de fonctionnement pour soutenir d'autres institutions et associations – article 3, paragraphe 3, point c*): une description détaillée des résultats escomptés relatifs à l'appel à propositions pour les associations européennes actives au niveau européen dans le domaine de l'éducation et de la formation; pour les travaux préparatoires concernant le nouveau programme: des informations et spécifications supplémentaires sont fournies en ce qui concerne les trois études à lancer au cours du second semestre de l'année 2012.

La décision d'exécution de la Commission ci-jointe vaut décision de financement au sens de l'article 90 des modalités d'exécution.

ZUSAMMENFASSUNG

Durchführungsbeschluss der Kommission zur Änderung des Jahresarbeitsprogramms 2012 für das „Programm für lebenslanges Lernen“ (2. Änderung)

Gemäß Artikel 75 der Haushaltsordnung geht jeder Ausgabe ein Finanzierungsbeschluss der Kommission voraus. Gemäß Artikel 110 der Haushaltsordnung werden die Finanzhilfen in ein Jahresarbeitsprogramm aufgenommen. Das Jahresarbeitsprogramm 2012 für Finanzhilfen und öffentliche Aufträge im Rahmen des „Programms für lebenslanges Lernen“ wurde mit dem Beschluss K(2011) 5502 vom 4. August 2011 angenommen.

Mit dem beigefügten Durchführungsbeschluss der Kommission wird der Beschluss K(2011) 5502 geändert, der schon einmal mit dem Beschluss K(2011) 9520 vom 20. Dezember 2011 geändert worden war; es sollen bestehende Maßnahmen geändert und zusätzliche Maßnahmen des „Programms für lebenslanges Lernen“ (2012) einbezogen werden. Die im Rahmen des geänderten Arbeitsprogramms 2012 unter der Haushaltslinie 15 02 22 für 2012 insgesamt vorgesehenen Mittel werden auf 1 362 137 516 EUR aufgestockt.

Die Änderungen betreffen unter anderem Folgendes:

- Eine erhebliche Mittelaufstockung (+ 120 Mio. EUR) für die dezentralisierten von den nationalen Agenturen durchgeführten Maßnahmen im Rahmen der Programme Comenius, Erasmus, Leonardo da Vinci und Grundtvig und zusätzlich 750 000 EUR für das Europäische Hochschulinstitut in Florenz; diese Änderungen resultieren aus zusätzlichen Mittelzuweisungen für den Haushalt 2012 (52 Mio. EUR), zusätzlichen Drittlandsbeiträgen, dem Restbetrag aus den externen zugewiesenen Mitteln aus früheren Programmen im Bereich berufliche Bildung und höheren Rückzahlungen (siehe Anlage 1).
- Die Höhe der zugewiesenen Beträge für bereits vorgesehene Maßnahmen wird geringfügig geändert, wobei diese Änderungen innerhalb der Flexibilitätsgrenzen des Programms bleiben:
 - Programm Comenius: Aufstockung der Mittel für „Zentrale Unterstützungsdienste für die Aktion eTwinning“ (4.6.1) und „Strategische Netze“ (4.1.3).
 - Programm Leonardo da Vinci (LdV): Aufstockung der Mittel für „Studien und Konferenzen“ (4.6.6) und für die „LdV-Mobilitätsmaßnahme“ (4.6.7).
 - Querschnittsprogramm: Aufstockung der Mittel für „Studien und vergleichende Forschung“ (4.6.10), für „Nationale EQR-Koordinierungsstellen“ (4.4.1), für die „Erhebung zur beruflichen Entwicklung von Lehrkräften (TALIS)“ (4.2.6) sowie für „Studien und Konferenzen“ im Rahmen der Schwerpunktaktivität 2 (Sprachenlernen) (4.6.19).
 - Kürzung der Mittel für „Studien und Konferenzen“ (4.6.2) im Rahmen des Programms Comenius, für „Konferenzen der Ratspräsidentschaft und GD-Treffen“ (4.2.1), für die „ICILS-Erhebung“ (*International Computer and Information Literacy Study*) (4.2.5) sowie für „Konferenzen und Veranstaltungen“ (4.6.21) im Rahmen der Schwerpunktaktivität 1 des Querschnittsprogramms.
- Änderung des Inhalts von „Studien und Konferenzen“ (4.6.22) im Rahmen der Schwerpunktaktivität 3 des Querschnittsprogramms und des Inhalts von „Konferenzen und Veranstaltungen“ (4.6.21) im Rahmen der Schwerpunktaktivität 1 des Querschnittsprogramms, letztere in Verbindung mit einer geringfügigen Mittelkürzung. Änderungen bei den Pauschalbeträgen und Finanzierungen auf der Grundlage von Pauschaltarifen für einige dem Eurydice-Netz angeschlossene Länder.

- Neue vorgesehene Maßnahmen
 - *Programm Comenius*: eine Aufforderung zur Einreichung von Vorschlägen für ein „europäisches Netz nationaler Alphabetisierungsorganisationen“; damit soll eine Plattform für den Austausch, die Analyse und die Verbreitung von Strategien und bewährten Verfahren geschaffen werden, an der sich Politiker, Alphabetisierungszentren, auf dem Gebiet der Alphabetisierung tätige Nicht-Regierungsorganisationen und andere relevante Interessengruppen beteiligen (4.1.5).
 - *Programm Leonardo da Vinci*: eine Aufforderung zur Einreichung von Vorschlägen für die „Allianzen für branchenspezifische Fertigkeiten“ (4.1.6) und eine Evaluierung von EQAVET (Europäischer Bezugsrahmen für die Qualitätssicherung in der Berufsbildung).
 - *Programm Grundtvig*: eine neue Maßnahme zum Aufbau einer „elektronischen Plattform für die Erwachsenenbildung“, um die Erwachsenenbildung in Europa wirksam zu fördern (4.6.12), und eine Sensibilisierungskampagne zur Unterstützung der Implementierung der Europäischen Agenda für die Erwachsenenbildung (4.4.4).
 - *Querschnittsprogramm*: Schwerpunktaktivität 1 – *Politische Zusammenarbeit und Innovation*: Einleitung einer Kooperationsmaßnahme mit der OECD betreffend das PIAAC-Portal (5.2) und einer Erhebung zur sozialen Dimension in der Hochschulbildung (4.2.7) sowie Durchführung einer Piloterhebung zur Mobilität in der beruflichen Erstausbildung (4.6.26); Schwerpunktaktivität 4 – *Verbreitung und Nutzung der Ergebnisse*: eine Aufforderung zur Einreichung von Vorschlägen zum „Thematischen Netz zu Fragen der Inklusion im Rahmen des Programms für lebenslanges Lernen“ (4.1.7).
- Ergänzung der Beschreibung bereits vorgesehener Maßnahmen:
 - *Querschnittsprogramm*: Schwerpunktaktivität 3 – *Betriebskostenzuschüsse zur Unterstützung anderer Einrichtungen und Vereinigungen (Artikel 3 Absatz 3 Buchstabe c)*: eine ausführliche Beschreibung der erwarteten Ergebnisse in Verbindung mit der Aufforderung zur Einreichung von Vorschlägen, die sich an auf europäischer Ebene im Bereich allgemeine und berufliche Bildung tätige europäische Vereinigungen richtet; für die Vorarbeiten für das neue Programm: Es werden zusätzliche Informationen und Spezifikationen hinsichtlich der drei im 2. Halbjahr 2012 einzuleitenden Untersuchungen bereitgestellt.

Dieser Durchführungsbeschluss der Kommission gilt als Finanzierungsbeschluss im Sinne von Artikel 90 der Durchführungsbestimmungen.

ANNEX

Amendment to the 2012 annual work programme on grants and contracts for the "Lifelong Learning Programme" (2nd amendment)

Budget lines: **15.02.22 and 15.01.04.22¹**

Title: **The Lifelong Learning Programme**

Legal Basis: **Decision n° 1720/2006/EC of the European Parliament and of the Council of 15 November 2006 establishing an action programme in the field of lifelong learning, as amended by decision n°1357/2008/EC of the European Parliament and of the Council of 16 December 2008**

5.2.	Joint management - Co-operation with OECD on PIAAC portal.....	57

1. OBJECTIVES AND PRIORITIES OF THE PROGRAMME IN 2012

1.1. General objectives of the Programme

The general objective of the Lifelong Learning Programme (LLP) is to contribute through lifelong learning to the development of the European Union as an advanced knowledge-based society, with sustainable economic development, more and better jobs, and greater social cohesion.

The overarching priority of the Lifelong Learning Programme is to reinforce the contribution of education and training to the priorities and headline targets of the EU 2020 Strategy², the EU's growth strategy for the next decade, thus creating value by basing growth on knowledge, empowering people in inclusive societies and ensuring that citizens can access lifelong learning and up-skilling throughout their lives.

More particularly the LLP supports the implementation of European policy in education and training as set out in the "Strategic framework for European cooperation in education and training (ET 2020)", adopted in May 2009³. Via the open method of coordination Member States are aiming at:

- **Making lifelong learning and mobility a reality** by implementing lifelong learning strategies, by developing qualifications frameworks and measures to enable more flexible learning pathways, and by promoting learning mobility of all learners, teachers and trainers across Europe,
- **Improving the quality and efficiency of education and training** by enabling all learners to acquire basic skills and competences needed for their employability, by ensuring high quality teaching and teacher training at all levels of education and training and by improving attractiveness and efficiency of all levels of education and training,
- **Promoting equity, social cohesion and active citizenship** by addressing educational disadvantage through high quality early education, more targeted support and inclusive education,
- **Enhancing creativity and innovation at all levels of education and training** by promoting the acquisition of transversal key competences and by establishing partnerships with the wider world, in particular business, to make education and training institutions more open and relevant to the needs of the labour market and society at large.

1.2. Priorities of the Programme

Based on the strategic policy context described above, the following general priorities have been identified for this call for proposals:

Develop strategies for lifelong learning and mobility

This priority is in line with the Conclusions of the Council on the youth mobility⁴, the Green Paper on Promoting the learning mobility of young people⁵ and with the EU 2020 flagship initiative "Youth on

² Communication from the Commission: Europe 2020 - A Strategy for Smart, Sustainable and Inclusive Growth. the Move"⁶. In order to promote an expansion of learning mobility the priority will be to encourage initiatives to develop mobility strategies and to remove obstacles to mobility.

In this context, initiatives between regions from different Member States will be particularly encouraged. Mobility strategies, however, could also be developed at sectoral level (e.g. an industrial branch) or between educational institutions.

The shift towards learning outcomes, effective lifelong guidance, the implementation of such tools as EQF and NQFs, Europass and ECVET that enhance lifelong learning and mobility, and promote the validation and recognition of non-formal and informal learning should also be explored and developed.

Encourage co-operation between the worlds of education, training and work

In line with the 2009 Communication on University/business co-operation⁷, the aim is to encourage co-operation between all sectors of education, training and the world of work. The contribution of social partners in making education and training more relevant to the world of work is vital for labour market, for people's employability and entrepreneurial potential. Co-operation between education and the world of work can also contribute to improve study and career guidance.

Support initial and continuous training of teachers, trainers and education and training institutions' managers

As reflected in the September 2009 Informal Ministerial meeting, there is a strong link between the quality of education and the quality of teachers and those managing and leading educational institutions. In the November 2009 Council Conclusions on this issue⁸, the Commission was asked to support cooperation and exchanges of good practice in related areas⁹. Quality assurance mechanisms at all levels of education and training strengthen these developments.

Promote the acquisition of key competences throughout the education and training system

As stated in the 2010 Joint Report on Education and Training, while the implementation of the key competences framework is more advanced at the level of general school education, it has to date been less successful in generating reforms in vocational education and training, in higher education and adult education. The purpose of this priority is thus to encourage all sectors, starting with early childhood education, to develop projects focused on the following key competences, each according to their specificities:

- Communication in the mother tongue;
- Communication in foreign languages;
- Mathematical competence and basic competences in science and technology;
- Digital competence;
- Learning to learn;

⁹ A handbook for policy makers on the induction of beginning teachers was published in April 2010: Developing coherent and system-wide induction programmes for beginning teachers: a handbook for policymakers (SEC (2010) 538 final) http://ec.europa.eu/education/school-education/doc2254_en.htm

- Social and civic competences;
- Sense of initiative and entrepreneurship;
- Cultural awareness and expression.

In this context, multilingualism will be specifically promoted.

Promote social inclusion and gender equality in education and training, including the integration of migrants and Roma communities

Following the European Year for Combating Poverty and Social Inclusion (2010), the adoption of a headline target under the EU 2020 Strategy¹⁰ on the reduction of early school leaving and the 2010 Council conclusions on the education of migrants and on the social dimension of education and training¹¹ projects will be called to promote social inclusion through education. For the school sector, the issues of early school leaving and special needs will be particularly important. For higher education, the focus will be on widening access to new types of learners.

Issues relating to the participation of migrants and/or groups with fewer opportunities, including Roma communities, and vulnerable social groups of people with special needs will be particularly important for schools, VET and adult education. Access to adequate guidance for these groups of learners is particularly important. The gender dimension is very relevant in education, notably with early school leaving affecting boys more severely than girls, and with strong gender patterns in the choice of studies. While the gender dimension concerns the programme as a whole, projects under this priority could address it specifically. Projects are also encouraged to develop activities aimed at supporting girls and women to enter professions where they are under-represented.

In addition, it should be noted that promoting access to learning opportunities (including e-learning opportunities) for people with disabilities is a strategic priority applying to the programme as a whole.

Awareness should be raised in educational and training curricula about the special needs encountered by people who face mobility or other disability problems, e.g. in relation to virtual or real accessibility standards.

These overall strategic priorities are reflected in various ways under the different sub-programmes supported by the LLP. Where necessary, additional (more specific) priorities are also identified per sub-programme or key activity.

The specific areas of intervention for school education, higher education, vocational training and adult learning are for the sectoral programmes:

- For Comenius centralised actions: school development, leadership and links with the world of work; development of approaches to teaching and learning; support to basic skills¹² and "transversal key competences"; Reducing early school leaving, improving the learning of students with migrant background and Roma pupils as well as promoting gender equality and inclusive approaches to learning; support to entrepreneurship and links with the world of work; support to making science education more attractive; development of pre-school and Early Childhood Education and Care (ECEC) provision; development of Special Needs education (SEN) towards inclusion of all young people, in particular those with disabilities.

¹⁰ Ibid 2.

¹¹ Council Conclusions of May 2010. 3013th Education, Youth and Culture Council meeting Brussels, 11 May 2010 http://www.consilium.europa.eu/uedocs/cms_data/docs/pressdata/en/educ/114393.pdf

¹² The Council adopted, in May 2009, a European benchmark on reducing the low-performers in reading, maths and science down to 15 %: http://ec.europa.eu/education/lifelong-learning-policy/doc28_en.htm

- For Erasmus actions: mobility of students, including student placements in enterprises, and of teaching and other staff; intensive programmes and intensive language courses; projects focusing on co-operation between higher education institutions (HEI) and enterprises; projects addressing the social dimension of higher education; projects on strategies and removal of barriers to mobility in higher education; projects supporting the modernisation agenda of higher education; projects to foster excellence and innovation in higher education; and academic networks and accompanying measurement activities.
- For Leonardo da Vinci actions: development of national and sectoral qualifications and/or qualifications systems by incorporating ECVET, according to the Recommendation of the European Parliament and of the Council establishing the ECVET System; use and development of the European quality assurance reference framework to further improve and develop the VET systems and promote a culture of quality improvement and innovation at all levels; close links to working life in order to make VET more responsive to labour market needs, in line with the "New Skills and Jobs" initiative; cooperation between the VET and world of work; cooperation between regional/local authorities and/or competent bodies and/or the business world on enhancing mobility in VET. For Grundtvig actions: to improve the quality, attractiveness, accessibility and European dimension of adult education as well as the validation of non-formal and informal learning; to promote adult learning for marginalised and disadvantaged citizens, migrants and Roma; teaching and learning in later life; inter-generational and family learning; to improve the quality assurance of adult learning; promoting social cohesion through improved adult learning opportunities.
- For the transversal actions: to promote coherence between all forms and stages of lifelong education and training, starting from an early age, and improving flexible learning pathways, for example through the implementation of the European Qualifications Framework and systems for the validation of non-formal and informal learning, and lifelong guidance; reinforcing language competences relevant to the workplace in order to improve the integration of individuals in enterprises and enhance European competitiveness; reinforcing language competences in neighbouring languages; reinforcing good practices enabling immigrants to learn the language of the host country; identifying and implementing innovative uses of ICT for lifelong learning, in particular for innovative pedagogy and assessment methods for diverse learning pathways; reinforcing digital competence, bridging the worlds of education and work.
- For Jean Monnet actions: priority will be given to teaching projects open to students from other higher education institutions (e.g. in the same city or region) and to students who do not automatically come into contact with European integration studies (in such fields as science, engineering, medicine, education, arts and languages, etc.); contributing to European integration teaching for primary and secondary school education, and initial vocational education and training; and benefiting civil society groups as well as to other academic and research projects involving academic activities which exploit multi-disciplinary resources; an openness to civil society; researchers preparing a doctorate or having less than 5 years of post-doctoral experience; creating joint transnational activities and structural links with academic institutions in other countries aiming at the production of research results that cannot be achieved through research activities within a national framework (this priority only applies to Information and Research Activities and Multilateral Research Groups); national or transnational associations of professors and researchers specialising in European integration studies; developing contents and pedagogical methods and tools contributing to European integration teaching for primary and secondary school education, and initial vocational education and training; and developing transnational European projects on the writing of the history of the European integration process from a common European perspective.

Some of the actions have a prospective dimension. The studies to be launched for flat rates aim at preparing the conditions to fully exploit the simplification possibilities having regard to the proposed

amended Financial Regulation¹³. In 2012, a partial extension of eTwinning to the Eastern Partnership countries will take place testifying the interest in the tool that is expanding its reach. The new initiative on "Leonardo da Vinci Mobility Action", requested by the Budgetary Authority in 2011 and prolonged in 2012 accompanies continuous efforts to expand cooperation between the world of work and education.

2. DISTRIBUTION OF FUNDS AVAILABLE

2.1. Distribution of funds available between the different strands

The distribution of available appropriations among the various actions and sub-actions funded by budget line 15.02.22, taking into account the amounts of the budget for 2012 (EUR 27), the contribution of the EFTA-EEA countries, Turkey, Croatia, Switzerland, a candidate country and two potential candidates from Western Balkans countries - the former Yugoslav Republic of Macedonia, the Republic of Albania¹⁴ and the Republic of Serbia¹⁵ - and the estimated amounts of internal and external assigned revenues are shown in the table in [Appendix 1](#).

The estimated internal and external assigned revenues from completion of the previous programmes in the field of education are, respectively, €50,678,000 and €16,000,000. The financial contribution of Turkey mentioned in the table has been increased, to take into account the increase of Turkey's entry ticket to the programme which has been agreed with the Turkish Authorities for 2012, through an exchange of letters amending the Memorandum of Understanding signed in 2007. The additional funds resulting from the estimated financial contribution of Albania, the former Yugoslav Republic of Macedonia and Serbia (€474,140) are subject to the signature of the Memoranda of Understanding between the European Commission and the competent authorities of the countries concerned.

2.2. Participation in the Lifelong Learning Programme

In accordance with Article 7 of the Legal Basis, the Lifelong Learning Programme is, in addition to the Member States of the European Union, open for participation by the EFTA-EEA countries¹⁶, the candidate and Western Balkan countries¹⁷ and Switzerland, where the relevant agreements have been concluded with these countries. Furthermore, Key Activity 1 of the Jean Monnet programme is open to higher education institutions in any other third country.

In accordance with Article 8 of the Legal Basis, the participation of third countries in certain actions under the general call for proposals will be possible (see point 4.1.1).

3. DISTRIBUTION OF THE NATIONAL AGENCY FUNDS BETWEEN THE PARTICIPATING COUNTRIES

The funds implemented by the National Agencies are managed according to the centralised indirect management mode as provided for by Article 54.2(c) of the Financial Regulation (hereinafter "the FR¹⁸"). These funds are indicated in the table in [Appendix 1](#) by the abbreviation "ANA". The actions managed through this implementation mode encompass mobility, partnerships and preparatory visits, as well as multilateral projects of transfer of innovation under the Leonardo da Vinci programme.

¹³ OJ L 311/2010, 26.11.2010, p. 9.

¹⁴ Hereinafter referred to as "Albania".

¹⁵ Hereinafter referred to as "Serbia".

¹⁶ Norway, Iceland and Liechtenstein.

¹⁷ Turkey, Croatia, the former Yugoslav Republic of Macedonia and Montenegro (candidate countries), as well as Albania, Bosnia and Herzegovina and Serbia.

¹⁸ Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

These funds are allocated between the participating countries according to the criteria foreseen in the Legal Basis:

- A minimum amount established for each country;
- A population factor, which varies between the sub-programmes and actions:
 - Number of pupils and teachers in school education for Comenius,
 - Number of higher education students, graduates and teachers for Erasmus,
 - Total population and population aged 15-35 for Leonardo da Vinci,
 - Adult population aged 18 and above for Grundtvig,
 - Total population for study visits;
- Correction factors in terms of differences in "cost of living" and "distance between capitals";
- A past performance indicator per country, in terms of level of demand and/or actual participation in a preceding year(s) per sub-programme.

In case complementary funds become available during the year, these funds may be allocated based on a different formula in agreement with the Lifelong Learning Programme Committee, within the flexibility rule laid down in Article 3 of the present decision.

The management costs of the National Agencies (including the Language Label) are co-financed on a flat-rate basis (Management Fee). The average rate is around 4.4 % of the total National Agency funds received, with variations between countries in function of the magnitude of the managed budget as well as needs demonstrated in previous years.

3.1. Multilateral partnership actions under the Comenius, Grundtvig and Leonardo da Vinci sub-programmes

It is foreseen to continue the method introduced in 2009 in which an amount corresponding to around 16% of the National Agency budget allocated to partnership actions under the Comenius, Leonardo da Vinci and Grundtvig sub-programmes will be withheld in order to be distributed according to the level of demand in relation to the budget available per country¹⁹. The funds withheld will be allocated during the partnership selection process, based on the real demand in each country (eligible applications rejected due to lack of budget). As a first step countries with partners rejected due to a lack of funds are allocated the amount necessary within the funds withheld from their budget. As a second step, any amount remaining will be redistributed between countries in proportion to the number of partners rejected due to a lack of funds.

The allocation of the reserve fund should not lead to a need to amend the work programme.

3.2. Erasmus Intensive Programmes and Language Courses

2.5% of the total Erasmus funds for actions implemented through the National Agency procedure are distributed outside the basic calculation method explained above in order to ensure adequate funding for countries with a high demand in Intensive Programmes (IP) and language courses. 2% of the total Erasmus funds for actions implemented through the National Agency procedure are allocated to the intensive programmes on the basis of past performance (number of eligible IP's in the previous year).

¹⁹ The provisional amounts of these funds have been calculated in [Appendix 2](#) related to the country allocation of decentralised funds and contribution to management costs on the basis of data currently at hand.

0.5% of total Erasmus funds for actions implemented through the National Agency procedure are allocated to the intensive language courses on a basis of formula including past performance.

3.3. Comenius Individual Pupil Mobility

The country allocation of funds to the individual pupil mobility action, launched in 2010, is based on the estimated number of pupils participating in this new action. It is estimated that 2,310 pupils from all LLP countries, except for Cyprus, Germany, Ireland and the UK, will participate in 2012. The country distribution is provided in [Appendix 2](#).

4. GRANTS AND PROCUREMENTS

For 2012, it is foreseen to sub delegate the actions on "Juvenes translators", the "European Master's in Translation Network" and the "Language Industry Web Platform" in the field of multilingualism, to DGT (see point 4.6.18).

4.1. Calls for proposals

Each year, after adoption of the financing decision (based on Article 75 of the FR) calls for proposals shall be published in accordance with Article 110 of the FR and Article 167 of the Implementing Rules (hereinafter "IR"²⁰). The calls for proposals that will be launched with a view to selecting actions and work programmes to be co-financed in 2012 are specified below.

The general exclusion, eligibility and selection criteria that apply to all calls for proposals are the following:

Exclusion criteria

- Applicants must certify that they are not in any of the situations described in Articles 93(1), 94 and 96.2(a) of the FR.

Eligibility criteria

- Respect of submission deadlines and rules as specified in the call for proposals.

Selection criteria

- Applicants must have stable and sufficient sources of funding to maintain their activity throughout the period during which the action is being carried out and to participate in its funding.
- Applicants must have the professional competencies and qualifications required to complete the proposed action.

Applicants are required to submit a declaration on their honour to show their legal status and their financial and operational capacity to carry out the proposed action. For applications for a grant exceeding €25,000 supporting documents may be requested, in which case the nature of those documents are specified in the call for proposals. Such documents may in particular consist of annual accounts, bank extracts, CVs of proposed staff, whereas in certain cases proof of prior experience in a particular field of competence may be deemed necessary.

Any specific eligibility criteria applying to a specific call will be detailed in the relevant call for proposals.

²⁰ Commission Regulation (EC, Euratom) No 2342/2002 of 23 December 2002 laying down detailed rules for the implementation of Council Regulation (EC, Euratom) No 1605/2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 357, 31.12.2002, p. 1.)

4.1.1. General call for proposals for 2012 – Lifelong Learning Programme Guide 2012

Purpose of the general call for proposals

The calls for proposals published during the year shall make reference to the programme guide for the practical information. The programme guide aims to assist all those interested in developing projects or receiving financial support for their permanent activities within the Lifelong Learning Programme. It helps them understand both the objectives and the measures of the Programme and therefore the types of activities that can (or cannot) be supported under the programme. It also aims to give detailed information on what is needed to apply and what level of grant can be offered. The guide offers an explanation of the selection procedure and of general rules relevant to those applications for European Union grants that are selected at the end of this procedure.

To achieve the priority objectives announced under point 1.2 above, this call for proposals aims to identify and select actions for EU funding within the areas presented below.

National authorities may decide on certain additional priorities to those outlined by the Commission. Those national priorities must be coherent with the European priorities set out in the Commission's general call for proposals. In order to implement these additional priorities, specific national calls for proposals may be launched. Moreover, the national authorities may decide on additional deadlines to those indicated in the general call for proposals.

The indicative timetable of the call for proposals, as well as the estimated amount available and the maximum rate of European Union co-financing, are indicated in the table in [Appendix 1](#). The EU financial support will be awarded through grant agreements, except under the Jean Monnet programme, Key Activity 1, where grant decisions will be applied within the European Union.

Specific eligibility criteria

Participation of third countries (see point 2.2 above) will be possible in 2012 in multilateral projects and multilateral networks under the centralised actions in the Comenius, Erasmus, Grundtvig and Leonardo da Vinci sub-programmes, as well as under Key Activities 1, 2 and 3 of the Transversal sub-programme in that applicants from eligible countries may request additional involvement of third country partners in the proposed projects: the minimum eligibility of consortia must apply to the eligible countries, and the third country participation is an additional element.

Although no specific priority countries can be applied to the application procedure, applicants are encouraged to consider actively including organisations established in the following third countries:

- Countries identified in Article 7 of the Legal Basis²¹ as being eligible to participate in the LLP in the future under certain circumstances, but for which the relevant agreements have not yet been concluded;
- Countries addressed by the European Union's Neighbourhood Policy²² and Russia;
- Countries identified by the EU as being of particular priority in the context of developing a strategic policy dialogue in education and training or multilingualism²³.

²¹ Decision 1720/2006/EC of the European Parliament and the Council of 15 November 2006 establishing an action program in the field of lifelong learning (OJ L 327, 24.11.2006, p.45)

²² The European Neighbourhood Policy applies to the EU's immediate neighbours by land or sea – Algeria, Armenia, Azerbaijan, Belarus, Egypt, Georgia, Israel, Jordan, Lebanon, Libya, Moldova, Morocco, the Occupied Palestinian Territory, Syria, Tunisia and Ukraine.

However, applicants for multilateral projects and networks may in their applications request inclusion of partners from other countries where the organisations concerned have demonstrably important expertise to share with their European counterparts.

Award criteria

The quality of the proposals will be assessed on the basis of the award criteria published per programme and action, as elaborated upon in the call for proposals. The essential award criteria to be applied are listed below according to the type of activity to be supported. These criteria will be applied in differing combinations depending to the specific type of action (e.g. whether involving individual or organisations, consortia / partnerships, etc.). Any specific award criteria applying to a specific action will be detailed in the relevant action.

Mobility actions will be evaluated on the basis of a combination of the following criteria:

- Quality of the mobility
- Impact and relevance
- Content and duration
- European added value
- Quality of the work programme
- Quality of the partnership
- Quality of the organisation of the mobility / project
- Quality of the objectives and methodology (Erasmus intensive programmes)
- Innovative character (Erasmus intensive programmes)
- Quality of the valorisation plan / dissemination and exploitation of result (Erasmus intensive programmes)
- Quality of the course provider for (Erasmus Intensive Language Courses).

Preparatory visits will be evaluated on the basis of a combination of the following criteria:

- Content and duration (whether the programme for the mobility is clear and reasonable, and its duration is realistic and appropriate);
- Relevance (whether there is a clear link between the activities and the strategy of the applicant's home institution and the purpose and content of the preparatory visit).

Partnership actions will be evaluated on the basis of a combination of the following criteria:

- Quality of the work programme / project
- Quality of the Partnership (appropriate balance between partners in terms of their involvement in the activities carried out; appropriate measures to ensure effective communication and co-operation)
- European added value
- Relevance

²³ The countries in question are: Australia, Brazil, Canada, China, India, Israel, Japan, Mexico, New Zealand, South Africa, South Korea, USA.

- Expected impact on partnership institutions/regions and/or individual participants
- Quality of the valorisation plan / dissemination and exploitation of result
- Sustainability

Multilateral projects, multilateral networks, accompanying measures and transfer of innovation (Leonardo da Vinci) will be evaluated on the basis of a combination of the following criteria:

- Relevance
- Quality of the work programme
- Innovative character
- Quality of the consortium
- European added value
- Cost-benefit ratio
- Impact
- Quality of the valorisation plan (dissemination and exploitation of results)

Jean Monnet actions will be evaluated on the basis of a combination of the following criteria:

- Quality of the applicants or the consortium
- Quality of the methodology and work programme
- Impact and relevance of the results
- Innovative character

The Comenius Programme

Index references in the table in appendix 1: 1.10, 1.20, 1.30 and 1.40

Specific objectives

- To develop knowledge and understanding among young people and educational staff of the diversity of European cultures and languages and its value.
- To help young people acquire the basic life-skills and competences necessary for their personal development, for future employment and for active European citizenship.

Operational objectives and expected results

- Improved quality and increased volume of mobility involving pupils and educational staff in different Member States. Improved quality and increased volume of partnerships between schools in different Member States, so as to involve at least 3 million pupils in joint educational activities during the period of the programme, of which almost 300,000 in 2012.
- Put in close contact schools with the local environment and exchanging experiences with other regions, so as to allow 500 regions to participate in the programme.
- Increase in share of pupils that master two foreign languages when leaving obligatory schooling in 2012.

- Development in innovative ICT-based content, services, pedagogies and practice in lifelong learning.
- Enhanced quality and European dimension of teacher training.
- Improvements in pedagogical approaches and school management.

Actions for which funding is foreseen through the call for proposals

Actions managed through the National Agency procedure

- **Mobility of individuals** to another European country, including exchanges of pupils and staff, participation in training activities for teachers and other educational staff, preparatory visits for School Partnerships and assistantships for future teachers.
- **School Partnerships** between schools from different European countries, with a view to developing joint learning projects for pupils and their teachers.
- **Comenius Regio Partnerships** between local and regional authorities with a role in school education. Their aim is to enrich the educational offer for school-aged young people by supporting the co-operation between school education authorities, schools and other educational providers in different European regions.
- **Preparatory visits:** a mobility grant to enable a representative from an institution either to attend a contact seminar or a meeting with prospective partners.

Actions managed through the Commission procedure

- **Multilateral projects** that aim to develop, promote and disseminate new curricula, new teacher training courses or materials and new teaching methodologies, and to provide a framework for the organisation of mobility activities for student teachers.
- **Networks** that aim to promote European co-operation and innovation in specific thematic areas of particular importance to school education in a European context.
- **Accompanying measures** that aim to support various activities which will clearly contribute to achieving the Comenius Programme objectives.

The Erasmus Programme

Index references in the table in appendix 1: 2.10, 2.20, 2.30 and 2.40

Specific objectives

- To support the achievement of a European Higher Education Area.
- To reinforce the contribution of higher education and advanced vocational education to the process of innovation.

Operational objectives and expected results

- Improved quality and increased volume of students and staff mobility throughout Europe, so as to contribute to the achievement by 2012 of at least 3 million individual participants in student mobility, under the Erasmus and its predecessor programmes. The aim is to allow around 230,000 students to take part in Erasmus student mobility actions as well as around 40,000 teachers and teaching staff from higher education institutions to participate in the Erasmus staff mobility actions in 2012.
- Improved quality and increased volume of multilateral co-operation between higher education institutions in Europe.
- Increased degree of transparency and compatibility between higher education and advanced vocational education qualifications gained in Europe, demonstrated i.e. by the number of education institutions using European reference tools made available by the Commission allowing for easy comparison by all institutions, thus facilitating recognition of formal learning results across borders and institutions. It is expected that 4,500 institutions hold an Erasmus University Charter, 60 universities have succeeded in obtaining the European Credit Transfer and Accumulation System label and 200 universities have succeeded in obtaining the Diploma Supplement label by 2012.
- Improved quality and increased volume of co-operation between higher education institutions and enterprises i.e. through the development of new forms of structured partnerships between business and universities to develop educational courses leading to a better match between the competences of graduates and the skills that employers seek.
- Development in innovative practices in education and training at tertiary level, and their transfer, including from one participating country to others.

Actions for which funding is foreseen through the call for proposals

Actions managed through the National Agency procedure

- **Mobility of individuals**, which includes:
 - Mobility of students for the purposes of studying at a higher education institution in another participating country ('Erasmus Students'),
 - Mobility of students for the purpose of carrying out placements in enterprises, training centres, research centres or other organisations in another participating country ('Erasmus Students'),
 - Mobility of teaching staff from higher education institutions or invited staff from enterprises to carry out teaching assignments at a higher education institution in another participating country,
 - Mobility of teaching or other staff in higher education institutions for purposes of undergoing training in another participating country,
 - Erasmus intensive programmes organised on a multilateral basis, in order to encourage efficient and multinational teaching of specialist topics and the exchange of views on teaching content and new curricula,
 - Erasmus intensive language courses organised for incoming students in participating countries where less widely used and less taught languages are spoken.
- **Preparatory visits**: a mobility grant to enable a representative from an institution either to attend a contact seminar or a meeting with prospective partners.

Actions managed through the Commission procedure

- **Multilateral projects** focusing inter alia on innovation, experimentation and the exchange of good practice in the areas mentioned in the specific and operational objectives by developing and implementing projects addressing key issues for promoting co-operation between higher education and enterprises, the social dimension of higher education, remove obstacles to mobility (including virtual mobility), developing strategies to modernise a specific aspect of higher education, and fostering excellence and education in higher education.
- **Networks ("Erasmus Academic Networks")** consisting of consortia of higher education institutions and other organisations and representing either a discipline or a cross-disciplinary field with the aim of developing new learning concepts and competencies. Such networks may also include representatives from other public bodies and from enterprises, associations and other organisations relevant for the network's mission.
- Other initiatives which will clearly contribute to achieving the Erasmus Programme's objectives ("**accompanying measures**").

The Leonardo da Vinci Programme

Index references in the table in appendix 1: 3.10, 3.20, 3.30 and 3.40

Specific objectives

- To support participants in training and further training activities in the acquisition and the use of knowledge, skills and qualifications to facilitate personal development.
- To support improvements in quality and innovation in vocational education and training systems, institutions and practices.
- To enhance the attractiveness of vocational education and training and mobility for employers and individuals and to facilitate the mobility of working trainees.

Operational objectives and expected results

- Improved quality and increased volume of mobility throughout Europe of people involved in initial vocational education and training and in continuing training, so as to increase placements in enterprises to about 78,000 in 2012, and at least 80,000 per year by the end of the LLP.
- Improved quality and increased volume of co-operation between institutions or organisations providing learning opportunities, enterprises, social partners and other relevant bodies throughout Europe enabling in 2012 around 1,000 partners to cooperate on themes of mutual interest.
- Development in innovative practices in the field of vocational education and training other than at tertiary level, and their transfer, including from one participating country to others.
- Improved transparency and recognition of qualifications and competences, including those acquired through non-formal and informal learning.
- Encouragement relative to the learning of modern foreign languages.
- Development in innovative ICT-based content, services, pedagogies and practice for lifelong learning.

Actions for which funding is foreseen through the call for proposals

Actions managed through the National Agency procedure

- **Mobility of individuals** which may include transnational placements in enterprises or in training institutions; placements and exchanges aimed at the further professional development of trainers and guidance counsellors and at those responsible for training establishments and for training planning and career guidance within enterprises.
- **Partnerships** focusing on themes of mutual interest to the participating organisations in the field of vocational and educational training.
- **Multilateral projects**, in particular those aimed at improving training systems by focusing on the transfer of innovation involving the linguistic, cultural and legal adaptation to national needs of innovative products and processes developed in different contexts.
- **Preparatory visits** for mobility, partnership, project or network activities.

Actions managed through the Commission procedure

- **Multilateral projects** aimed at improving training systems by focusing on the development of innovation and good practice.
- **Networks** of experts and organisations working on specific issues related to vocational education and training.
- Other initiatives aimed at promoting the objectives of the Leonardo da Vinci Programme ("**accompanying measures**").

The Grundtvig Programme

Index references in the table in appendix 1: 4.10, 4.20, 4.30 and 4.40

Specific objectives

- To respond to the educational challenge of an ageing population in Europe.
- To help provide adults with pathways to improving their knowledge and competences.

Operational objectives and expected results

- Improved quality and accessibility of mobility throughout Europe of people involved in adult education and to increase its volume, so as to support the mobility of at least 7,000 of such individuals per year by 2013, and almost 6,300 in 2012.
- Improved quality and increased volume of co-operation between organisations involved in adult education throughout Europe, allowing in 2012 almost 2,100 partners to collaborate in learning partnerships, workshops and senior volunteering projects.
- Better assistance to people from vulnerable social groups and in marginal social contexts, in particular older people and those who have left education without basic qualifications, in order to give them alternative opportunities to access adult education.
- Development in innovative practices in adult education and their transfer, including from a participating country to others.

- Development in innovative ICT-based content, services, pedagogies and practice for lifelong learning.
- Improved pedagogical approaches and management of adult education organisations.

Actions for which funding is foreseen through the call for proposals

Actions managed through the National Agency procedure

- **Mobility of individuals** which may include visits and exchanges, assistantships, in-service training, workshops and senior volunteering projects for participants in formal, non-formal and informal adult education, including the training and professional development of adult education staff.
- **Learning partnerships** focusing on themes of mutual interest to the participating organisations within the field of adult education.
- **Preparatory visits:** a mobility grant to enable a representative from an institution either to attend a contact seminar or a meeting with prospective partners.

Actions managed through the Commission procedure

- **Multilateral projects** aimed at improving adult education systems through the development and transfer of innovation and good practice.
- **Networks ("Grundtvig Networks")** of experts and organisations working in particular on:
 - Developing adult education in the discipline, subject area or management aspect to which they relate
 - Identifying, improving and disseminating relevant good practice and innovation
 - Providing content support to projects and partnerships set up by others and facilitating interactivity between such projects and partnerships
 - Promoting the development of needs analysis and quality assurance within adult education.
- Other initiatives aimed at promoting the objectives of the Grundtvig Programme ("**accompanying measures**").

The Transversal Programme

Specific objectives

- To promote European co-operation in fields covering two or more sub-programmes (except for KA1 and KA4).
- To promote the quality and transparency of Member States' education and training systems.
- To improve multilingual skills of European citizens in order to increase European competitiveness, active citizenship and social cohesion in Europe.

Operational objectives and expected results

- Increased support to policy development and co-operation at European level in lifelong learning, notably in the context of the Lisbon process "Strategic framework for European co-operation in education and training (ET 2020)"²⁴, as well as the Bologna and Copenhagen processes and their successors.
- Adequate supply of comparable data, statistics and analyses to underpin lifelong learning policy development, as well as to monitor progress towards objectives and targets in lifelong learning, and to identify areas for particular attention.
- Promotion of language learning and support to linguistic diversity in Member States so that an increased share of the EU population is able to participate in a conversation in other languages than their mother tongue.
- Development in innovative ICT-based content, services, pedagogies and practice for lifelong learning.
- Better recognition, demonstration and implementation on a wide scale of the results of the Lifelong Learning Programme.

Actions for which funding is foreseen through the call for proposals

KEY ACTIVITY 1: POLICY CO-OPERATION AND INNOVATION

Index reference in the table in appendix 1: 5.01, 5.80 and 5.90

Actions managed through the National Agency procedure

- **Individual mobility**, including study visits for experts and officials designated by national, regional and local authorities, for directors of education and training establishments and guidance and experience in accreditation services, and for social partners.

Actions managed through the Commission procedure

- **Networks for transnational co-operation for the promotion of LLL policies and partnerships at national, regional and local level, including public-private partnerships**

The objective of this call is to support the creation of transversal networks that promote mutual policy learning and exchange of information on good practices and critical factors for the development and implementation of coherent and comprehensive approaches towards lifelong learning.

Such networks should bring together key actors across relevant sectors and levels of policy-making and implementation (national, regional, local) from at least 8 Member States and provide a forum/platform for joint reflection and European co-operation in identifying and promoting innovation and best practice.

Cooperation and transfer of good practice should focus on the development and implementation of coherent and comprehensive lifelong learning approaches that cover and interlink different sectors and forms of learning. Such approaches to lifelong learning should aim at promoting opportunities and learning pathways which are learner centred, flexible and without "dead-ends" using innovative and

²⁴ Further details on this document can be found at the following Internet page
http://ec.europa.eu/education/policies/2010/et_2010_en.html

practical lifelong learning instruments to achieve the personal development, employability and the social inclusion of citizens of all age groups and backgrounds, in particular through:

- Partnerships between the formal and non-formal education and training sectors, business, voluntary and community actors at the national, regional and local levels linked to employment and social inclusion initiatives;
- Measures to improve key competences development throughout an individual's lifetime with a focus on increasing the equality of educational attainment by addressing the specific needs of underrepresented and socio-economically disadvantaged groups;
- Enable more flexible pathways and better transitions, in particular through opening-up learning institutions to underrepresented groups, through implementing national qualifications frameworks and through schemes for the validation of prior and experiential learning including non-formal and informal learning;
- Other measures and instruments to make learning more attractive and increase participation in learning activities at the workplace and in private life, including through effective schemes for (financial) incentives and support to stimulate learning provision and participation.

Eligible applicants

Beneficiaries can be national and regional ministries in charge of education and training, other public bodies and stakeholders' organisations directly involved in the development and implementation of lifelong learning policies.

Expected results

Better knowledge and expertise on the factors which are critical to the development and implementation of coherent and comprehensive lifelong learning approaches at national/regional/local level and on the development of strategies to improve delivery of lifelong learning provision for all citizens.

Establishment of sustainable transnational policy networks, which support the transfer of knowledge and good practices, joint development and experimentation of policy approaches and other forms of co-operation such as studies, analyses, conferences and seminars, with a view to better development and implementation of national/regional/local lifelong learning policies.

- **Support for network activities for awareness-raising of the most successful experiences in the social integration of Roma, including cultural, linguistic and social aspects**

There is a need to support transnational networking activities so as to raise awareness, both inside and outside Roma communities, concerning their cultural heritage and their situation as regards their own potential for educational and personal development, and identify and exchange good practices in these domains, including educational and social/employment aspects of the inclusion of Roma.

Networks should therefore contribute to:

- Increase awareness and reinforce the commitment of all relevant actors for the integration of Roma in and through education and training, as well as culture,
- Increase the dissemination of good practices in integrating Roma children and students and in raising their school attainment levels, including language and literacy issues.
- **Multilateral projects**

Support for transnational co-operation projects to develop lifelong learning measures for Roma integration

Roma communities are characterized by problems of literacy, early school leavers, language barriers and lack of intercultural dialogue, which are interlinked to housing, health and employment problems. Therefore, there is a need to give more support to transnational co-operation projects to develop lifelong learning measures for Roma integration, identify and exchange good practices on joined-up educational measures and other social/employment approaches for the integration of Roma, while taking into account the need for more cultural, linguistic and schooling mediation.

Projects should therefore contribute to the:

- Transfer of innovation in relation to the successful implementation of cultural, linguistic and schooling mediation, while taking into account joined-up educational and social measures for the integration of Roma children and students, especially as regards language and literacy issues;

Transfer of effective joined-up learning strategies and policies to raise the participation and attainment levels of Roma students.

KEY ACTIVITY 2: LANGUAGE LEARNING

Index reference in the table in Appendix 1: 6.10, 6.20 and 6.30

Actions managed through the Commission procedure

- **Multilateral projects** aimed, inter alia, at:
 - Promotion of language awareness and access to language learning resources;
 - Developing new language learning materials, including online courses, and instruments for language testing.
- **Networks** in the field of language learning and linguistic diversity, which may include activities:
 - To facilitate and enhance European co-operation, such as exchanging information, training of project co-ordinators, promoting new projects, disseminating project results and good practice;
 - To promote educational innovation and best practice in the thematic area concerned, e.g. comparative analyses, case studies, formulating recommendations and organising working groups, seminars or conferences;
 - Relating to project co-ordination and management.
- Other initiatives in line with the objectives of key activity 2, including dissemination events bringing together projects and potential users ("**accompanying measures**").

KEY ACTIVITY 3: ICT

Index references in the table in Appendix 1: 7.10 and 7.20

Actions managed through the Commission procedure

- **Multilateral projects** aimed at the promotion of ICT enabled learning embedded into long-term educational strategies and the development and distribution of innovative methods, contents, services and environments.

- **Networks** aimed at sharing and exchanging knowledge, experience and good practice of ICT learning.

KEY ACTIVITY 4: DISSEMINATION AND EXPLOITATION OF RESULTS

Index reference in the table in Appendix 1: 8.10

Actions managed through the Commission procedure

- **Multilateral projects** aimed, inter alia, at:
 - The development of a suitable framework (analysis, mechanisms, methodologies and practical tools) to facilitate the exploitation of project and programme results;
 - Cross-programme actions promoting the exploitation of results at European level (by sector, theme, user group...);
 - The promotion of 'exploitation' activities by regional/European/sectoral networks with the aim of promoting a virtuous circle between policy development and practical experiences.

The Jean Monnet Programme

Index reference in the table in Appendix 1: 9.10, 9.20, 9.30, 9.35 and 9.40

Specific objectives

- To stimulate teaching, research and reflection activities in the field of European integration studies.
- To support the existence of an appropriate range of institutions and associations focusing on issues relating to European integration and on education and training in a European perspective.

Operational objectives and expected results

- Stimulation of excellence in teaching, research and reflection in European integration studies in higher education institutions within and outside the European Union.
- Enhanced knowledge and awareness among specialist academics and among European citizens generally of issues relating to European integration.

Actions for which funding is foreseen through the call for proposals

KEY ACTIVITY 1: SUPPORT FOR TEACHING, RESEARCH AND REFLECTION ON EUROPEAN INTEGRATION AT THE LEVEL OF HIGHER EDUCATION INSTITUTIONS WORLD-WIDE (JEAN MONNET ACTION):

Actions managed through the Commission procedure

- **Jean Monnet Chairs and Jean Monnet Chairs *Ad Personam*** are teaching posts with a specialisation in European integration studies at higher education institutions worldwide.
- **Jean Monnet Centres of Excellence** are clearly labelled institutes or structures specialising in European integration studies at higher education institutions worldwide. They must be co-ordinated by a Jean Monnet Chair.
- **Jean Monnet Teaching Modules** are short teaching programmes (or courses) in the field of European integration studies at higher education institutions worldwide.

- **Jean Monnet Associations of Professors and Researchers specialising in European integration.** The explicit purpose of the association must be to contribute to the study of the European integration process at national or transnational level.
- **Jean Monnet Multilateral Research Groups** that must lead to an integrated academic network involving joint research between at least three Jean Monnet Chairs from three different countries.
- **Jean Monnet Information and Research Activities** with the aim of promoting discussion, reflection and knowledge about the process of European integration (through conferences, seminars and roundtables. Specific attention will be given to projects developing content for the teaching of European Union at the level of primary and secondary schools and in vocational education and training. In this context, priority is given to projects that are based on co-operation involving higher education institutions, having evident experience in teaching and research on European integration issues, institutions and/or associations specialised in teacher training and pedagogy, and associations of primary, secondary and vocational education institutions.

4.1.2. Call for proposals: Individual pupil mobility action

Index reference in the table in Appendix 1: 1.10

Specific eligibility criteria

All LLP National Agencies ("NAs") except for those located in Cyprus, Germany, the UK and Ireland will be participating fully in the third year of this new action launched in 2010. The corresponding budget allocation is set out in [Appendix 2](#).

Eligible to submit an application, are schools in the countries listed in [Appendix 2](#), or have been, involved in a Comenius School partnership, that intend to send pupils to host schools from that partnership.

Description and background

The Comenius Individual Pupil Mobility action was launched in 2010 through the National Agencies. The budget foreseen is included in the National Agency funds (see [Appendix 1](#)). The explanation for the country distribution is provided under point 3.3 above. The country distribution is provided in [Appendix 2](#).

The pupil mobility action allows secondary school pupils to spend between 3 and 10 months in a host school and a host family abroad. Pupil mobilities are organised between schools involved in the same Comenius School Partnership.

Objectives and expected results

The aim of the action is to offer European learning experiences to pupils, to develop their understanding of the diversity of European cultures and languages, and to help them acquire competences necessary for their personal development. This action should also be a valuable international pedagogic experience for the teachers involved in the organisation and implementation of the mobility. Furthermore, the action aims to build up sustainable co-operation between the participating schools, to enable them to recognise the studies undertaken at the partner school abroad and to strengthen the European dimension in school education.

Award criteria

- Quality of the mobility programme: i.e. the extent to which the objectives of the mobility are clear and realistic; the involvement of the sending and the host school/s is well explained and appropriate to achieve the set objectives; and there is evidence of existing co-operation between the sending school and the host school/s.
- Support of participants and protection of pupils: the extent to which appropriate measures are proposed by both schools to ensure the necessary support to participating pupils, host families and staff involved; the application makes clear how schools will recognise the work of the contact teacher and the mentor; and the measures to ensure the protection/safety of the pupil(s) are clear and detailed.
- Impact and European added value: the extent to which the impact and benefits of European co-operation on the participating actors are clear and well defined; and the application makes it clear how the mobility will contribute to sustainable co-operation between both schools in the future.

4.1.3. Call for proposals to award a framework partnership agreement for policy networks under Comenius Programme

Index reference in the table in Appendix 1: 1.80

(a) for the European Policy Network on the Implementation of key competences in school education

A Framework Partnership Agreement will be established in November 2011 covering the period 2012 to 2014, as well as Specific Agreement for a Grant for Actions for the year 2012, on the 2011 budget.

The overall aim of this network is to develop policy advice for the implementation of the 2006 Recommendation on key competences for lifelong learning²⁵. It will address the issues raised by the November 2009 Communication "Key competences for a changing world"²⁶ and stimulate high level co-operation between Member States policy makers responsible for the essential areas of school development.

The Specific Agreement for a Grant for Actions funded from the 2012 budget will support the implementation of the second year of the agreed work programme set out in the Framework Partnership Agreement.

(b) for a European School Leadership Policy Network

A Framework Partnership Agreement was established in 2011 for the European School Leadership Policy Network, covering the period 2011 to 2015, as well as a Specific Agreement for a Grant for Actions for the year 2011-2012, on the 2010 budget.

The objective of the Network is to stimulate high level co-operation between policy makers and practitioners and the further development of national policies and provision through, for example, peer learning, exchanges, and thematic group working to develop shared understanding and approaches on issues of common interest.

A Specific Agreement for a Grant for Actions funded from the 2012 budget will support the implementation of the agreed work programme set out in the Framework Partnership Agreement for the period July 2012 to December 2013.

²⁵ 2006/962/EC of 18 December 2006.

²⁶ <http://eur-lex.europa.eu/LexUriServ/LexUriServ.do?uri=COM:2009:0640:FIN:EN:PDF>

(c) for a European Policy Network on the Education of Children with a Migrant Background

A Framework Partnership Agreement was established in November 2011 for the European Policy Network on the Education of Children with a Migrant Background, for the period 2012 to 2014, as well as a Specific Agreement for a Grant for Actions for the year 2012, on the 2012 budget.

The network aims to strengthen cross-European collaboration between high level decision makers, academics and practitioners for raising the educational attainment of children and young people with a migrant background. The European network will analyse, develop and exchange policy and practice in the area and will be supported by annual grants for an action from the Lifelong Learning Programme, based on annual work programmes submitted by the network under the multiannual framework agreement for the period 2012-2014.

The Specific Agreement for a Grant for Actions funded from the 2012 budget will support the implementation of the first year of the agreed work programme set out in the Framework Partnership Agreement.

4.1.4. Call for proposals: Implementation of the European strategic objectives in Education and training ET 2020 (stakeholder cooperation, experimentation and innovation)

Index reference in the table in Appendix 1: 5.10

This item will be divided into two lots:

Lot A): Support to national implementation and awareness raising of the objectives of European co-operation in education and training (ET 2020), (earmarked amount Lot A: €1,500,000).

Lot B): Support for transnational co-operation in the development and implementation of transversal education and training policy issues linked to the priorities set out in Europe 2020 and ET 2020, (earmarked amount lot B: €2,300,000).

Lot A - Support to national implementation and awareness raising of the objectives of European co-operation in education and training (ET 2020)

Objective

- To support implementation of the four strategic objectives of the "Strategic framework for European co-operation in education and training (ET 2020)" (lifelong learning and mobility; quality and efficiency; equity, social cohesion and active citizenship; creativity and innovation) through activities improving institutional commitment, coordination and partnership with all relevant stakeholders at national/ regional/ local levels.

Eligible applicants

- National or regional authorities responsible for education and training and Lifelong Learning policies (pre-primary, schools, VET, higher education and adult learning), other public bodies and stakeholders' organisations.

Expected results

- Better commitment and cooperation of all relevant actors and stakeholders active in the field of education and training to support the implementation of the key objectives of the strategic framework "ET 2020" at national and regional level;
- Better coherence, coordination and partnership in the process of establishing and implementing coherent and comprehensive approaches to lifelong learning;
- Better dissemination and application of existing European tools or reference material (e.g. through information activities, including stakeholder seminars, publicity campaigns, etc.).

Award criteria

- Relevance: based on the call for proposals, the objectives are clear, realistic and address relevant issues and target groups, including a wide range of key stakeholders at all levels (receiving a weighting of 30%);
- Quality of the plan of actions (receiving a weighting of 10%);
- Methodology (receiving a weighting of 10%);
- Project team (receiving a weighting of 10%);
- Cost-Benefit Ratio (receiving a weighting of 10%);
- Impact: The foreseeable effects of the project's activities on target groups and systems concerned are clearly defined and consistent with the objectives set; measures are planned to ensure that those effects can be achieved. The results of the activities are likely to be significant (receiving a weighting of 20 %);
- Quality of the valorisation plan (dissemination and exploitation of results): The extent to which the planned dissemination and exploitation activities will ensure optimal use of the results beyond the participants in the proposal, during and beyond the lifetime of the project (receiving a weighting of 10%).

Lot B - Support for transnational co-operation in the development and implementation of responses to education and training policy issues linked to the priorities set out in Europe 2020 and ET 2020

Objective

- To support trans-national co-operation on policy experimentation aiming to test the development and implementation of innovative policy approaches linked to the priorities set out in Europe 2020 and ET 2020.

Eligible applicants

- National or regional authorities directly in charge of lifelong learning policies (early childhood education and care, schools, VET, higher education and adult learning) and other public bodies designated by such authorities to apply.

Expected results

- Improved knowledge of policy makers in design and implementation of policies dealing with common education and training priorities set in the context of Europe 2020 and ET 2020;
- Increased effectiveness of national/regional/local measures designed to tackle complex challenges in education and training and improve the impact of reforms.

Award Criteria

- Relevance: based on the call for proposals, the objectives are clear, realistic and address relevant issues and target groups, including a wide range of key stakeholders at all levels (receiving a weighting of 30%);
- Quality of the plan of actions (receiving a weighting of 10%);
- Methodology (receiving a weighting of 10%);
- Consortium (receiving a weighting of 10%);
- Cost-Benefit Ratio (receiving a weighting of 10%);
- Impact and European added value: The foreseeable effects of the project activities on target groups and systems concerned are clearly defined and consistent with the objectives set; measures are planned to ensure that those effects can be achieved. The results of the activities are likely to be significant and the benefits of and need for European cooperation are clearly demonstrated (receiving a weighting of 20 %);
- Quality of the valorisation plan (dissemination and exploitation of results): The extent to which the planned dissemination and exploitation activities will ensure optimal use of the results beyond the participants in the proposal, during and beyond the lifetime of the project (receiving a weighting of 10%).

4.1.5. Call for proposals: a sector skills council for the learning sector

Index reference in the table in appendix: 5.85

Background and objectives

In order to better match skills and jobs, it is essential that we have an accurate picture of the current skill and employment situations within Europe, and its likely development. Equally important is the need to develop partnerships between social partners, labour market institutes, education and training providers, public/private employment services, companies and individuals. One way to do this is through EU sectoral councils. This analysis is based on a study done by Ecorys Nederland BV in cooperation with KBA at the request of the European Commission to study the feasibility and potential impact of setting up sector councils on employment and skills at EU level²⁷. The creation of EU sector councils is one of the key actions recommended by the Expert group on "New Skills for New Jobs"²⁸.

In addition, the expert group report suggested developing a sector skills council for the learning sector itself. The education and training sector is both a provider and consumer of skills, though the emphasis

²⁷

<http://ec.europa.eu/social/main.jsp?langId=en&catId=782&newsId=743&furtherNews=yes&preview=chJldmld0VtcGxQb3J0YWwh>

²⁸

<http://ec.europa.eu/social/main.jsp?catId=822&langId=en>

so far has been largely on the former. The sector is an important employer in its own right and faces significant future challenges if teaching is to meet the ambition to create a knowledge-driven Europe. An education and training sector skills council at European level – to be composed of social partner representatives, government and independent experts and stakeholders - could identify skill gaps and forecast future challenges, discuss tools and policy solutions. At the same time it could improve the sector's understanding of the needs of their client sectors.

The learning sector should be understood in a broad sense and should include teachers in schools, professors in higher education, trainers in vocational education and training, in adult learning in informal sectors, and advisers in lifelong guidance services.

Expected results

The first phase of the project will be to:

- Get the agreement of sectoral observatories to participate in the European network;
- Agree on the type of information to be exchanged and on other types of actions to be developed by the EU council such as information dissemination to different targets;

The purpose of the EU sectoral councils is for stakeholders to be in possession of more and better information on the evolution of their sector in terms of skills and employment, skills gaps and policy challenges and solutions than if they relied only on national sources. Exchanges of information between EU sectors councils' members should lead to the production of reports focussing on:

- The quantitative trend of the sector;
- The qualitative trend in terms of both employment and skills;
- The tools and strategies being used at the national level to anticipate and match future skills needs;
- Recommendations to the attention of policymakers, education and training providers and other stakeholders (for example, develop proposals for qualification and competence standards for the sector at EU level which must be validated through national qualification frameworks or systems linked to the EQF).

In addition, the sector should organise:

- A meeting (at least twice a year) with the European representatives of the sector (including European social partners or equivalent), a representative from each national sector council or equivalent, skills providers in that sector and other stakeholders;
- An annual conference to share results with a wider audience.

Eligible applicants

Beneficiaries can be:

- Social partners;
- Sector skills councils or similar organisations at national or regional level;
- Associations and foundations in the field of education and training;
- Ministries of education and/or training.

Award criteria

- Relevance of the activities in relation to the objectives of the call (25%);
- Representativeness of the stakeholders and implications of a wide range of stakeholders at all levels (25%);
- Potential results and consequences on policy and practice (25%);
- Clarity and consistency of the practical approach, the proposed work-plan; clarity and coherence of the proposed budget (25%).

4.1.6. *Call for proposals: A European network of national literacy organisations*

Index reference in the table in appendix 1: 1.85

Background and objectives

Improving the basic skills, and notably the reading and writing literacy competences, of all European citizens is a high priority, notably in the school and adult learning sectors where there are, respectively, a benchmark to reduce the proportion of low achieving 15 year olds in the EU in the OECD PISA assessment from 20% to less than 15% by 2020, and where reducing the current total of nearly 80 million low skilled adults is a key priority of the EU's adult learning strategy. In order to explore the most effective ways of tackling literacy deficits, and to formulate recommendations to policy makers, the Commission established in February 2011 a High Level Expert Group on Literacy, which will report in September 2012. As a follow-up to the report of this group, a European network of national organisations focusing on enhancing literacy acquisition, and of key stakeholders in the same field, would offer a stable platform for the development and exchange of good policy practice and effective measures across the EU. The network should therefore bring together national policymakers, literacy centres, associations and foundations and other stakeholder groups whose areas of interest and expertise are on family literacy, early language acquisition, the support of reading acquisition, the engagement of adolescents and young people with reading or improving literacy among adults, and any other area that is seen crucial for the increasing literacy levels in all age groups.

The grant would cover activities for a period of 24 months of the network.

Expected results

- To establish a platform for exchange, analysis and dissemination of policy and good practice between policymakers, national literacy centers, non-governmental organizations supporting literacy and other relevant stakeholders;
- To contribute to and support the Commission's campaign to promote literacy;
- To support the development of national centers for literacy, linking research results with pedagogical practice and materials;
- To leverage funding for cross-national projects and campaigns supporting reading literacy and for scaling up good practice;
- To organise network meetings, seminars focused on particular issues relating to literacy;
- To organise an annual conference to share results with a wider audience;
- To formulate recommendations for policy-makers, education and training providers and other stakeholders.

Eligible applicants

- Associations, foundations and other similar national bodies in the field of literacy;
- National literacy centres
- Higher education institutions or research centres working on literacy
- National education authorities with competence in the field of literacy
- International organisations
- Ministries of education and/or training.

The network should cover at least 20 countries with a good geographical balance.

Award criteria

- Relevance of the activities in relation to the objectives of the call (25%);
- Representativeness of the network including coverage of all or most LLP participating countries and of a variety of relevant stakeholders (25%);
- Potential results and consequences on policy and practice (25%);
- Clarity and consistency of the practical approach, the proposed work-plan; clarity and coherence of the proposed budget (25%).

4.1.7. Call for proposals: Sector Skills Alliances

Index reference in the table in Appendix 1: 3.85

Objectives

The Europe 2020 Strategy has set an ambitious target of 75% employment rate to be achieved by 2020. But the lack of skilled workforce is a major obstacle to growth of many European companies. Skills shortages in vocational occupations have become a serious problem in many economic sectors. The Bruges Communiqué²⁹ of 2010 calls for VET to respond to the changing requirements of the labour market. This requires a better understanding of emerging sectors and skills, and of changes to existing occupations. Occupational and education/training standards should be reviewed regularly, in co-operation with the relevant stakeholders, including representatives of professional sectors, social partners, relevant public authorities and civil society organisations, and education/training providers.

The general objective of this call for proposals is to contribute to better matching VET provision to labour market needs, thereby reducing youth unemployment and addressing the challenge of skills mismatches and shortages and increasing the competitiveness of several economic sectors. It should also contribute to reduce youth unemployment, by increasing the employability and adaptability of individuals, particularly stimulating transversal skills, including creative and innovative attitudes.

The call will propose to fund "Sector Skills Alliances", which are sectoral co-operation partnerships between VET providers, businesses and other stakeholders working together to adapt, update and

²⁹ http://ec.europa.eu/education/lifelong-learning-policy/doc/vocational/bruges_en.pdf

deliver new curricula and courses and develop innovative ways of delivering VET. Alliances will also put into practice ECVET credit transfer and EQAVET quality assurance in the sectors concerned, creating mutual trust and transparency of qualifications. Outcomes should be disseminated through guidance services and supported by authorities. Experience and results will feed into preparation of the future education and training programme.

Expected results

Business representatives from economic sectors should clearly define their occupation profiles and required skills, competences and qualifications standards. The definition of future skills needs should be, as appropriate, supported by available research evidence. In cooperation with Alliance partners, skills needs should be translated into innovative, outcome-oriented curricula which should be implemented through a set of new courses and qualifications based on quality assurance mechanisms (e.g. EQAVET). ECVET credit transfer mechanisms should be used to facilitate transfer and recognition of learning outcomes, contributing to increased mobility and Europe-wide recruitment possibilities in these sectors. The guidance services together with regional or local authorities should play a "facilitator" role in order to attract or inform initial VET schools, young people or their parents to specific professions with high labour market demand.

The grant would cover activities for a period of 24 months of the Alliance.

Eligible applicants

- Applicants must be legal persons properly constituted and registered in one of the LLP participating countries.
- Eligible partners are from the following three categories: (1) VET providers, which may include higher education institutions; (2) enterprises, European sector associations, social partners, chambers of commerce and skilled crafts, cultural and creative bodies, including design centres, research bodies and other world of work bodies concerned with VET issues; and (3) VET policy makers, public VET authorities and skills councils at national, regional or local level, guidance and counselling services, awarding bodies, regional economic development agencies.
- The proposed "Sector Skills Alliance" must include at least 7 partner organisations established in at least 5 LLP participating countries, including 4 Member States, and representing the three categories above.
- The proposed "Sector Skills Alliance" must be active in one of the following sectors:
 - Automotive;
 - Health and healthcare
 - Tourism and catering;
 - Energy saving technologies, including sustainable construction;
 - Aeronautics industry.

Award criteria

- Relevance: based on the call for proposals the objectives are clear, realistic and address relevant issues and target groups, including a wide range of key stakeholders at all levels(30%);
- Quality of the programme; particular attention will be given to the feasibility of the programme in the allocated time (25%);

- Quality of the Partnership: - appropriate balance between partners and their capacities in terms of their involvement in the activities to be carried out; - geographic and institutional coverage; proposals should reflect wide representation in the sector concerned (25%);
- Sustainability and expected impact on partnership participants (20%).

4.1.8. Call for proposals: Thematic Network on inclusion issues in the Lifelong Learning Programme

Index reference in the table in Appendix 1: 8.20

Objectives

The objective of this call is to fund a thematic network on inclusion issues which will build on the results achieved by the Thematic Network "Inclusion", running from 2009 to 2012, and will support the preparation of the new programme in the field of Education and Training during the period 2014-2020.

Expected results

- (1) Development of existing activities
 - (a) Involvement of a larger number of National Agencies in the network
 - (b) Further collection of cases and material
 - (c) Further dissemination of good practices, e.g. with European thematic seminars which would also act as contact seminars
 - (d) Further improvement of the network's website, including features to facilitate contact making between stakeholders
 - (e) Focussing of some of the network's activities on specific groups defined by the Commission as priority groups (e.g. migrants or Roma)
- (2) Development of new activities
 - (a) Fostering the inclusive dimension of the next programme:
 - Provision of advice to the Commission in the preparation of the new programme's funding activities / actions, notably by helping to devise application and selection procedures which will facilitate participation of the most disadvantaged groups
 - Advising the Commission in the e-collection of data in order to be able to produce reliable statistics in relation to equal opportunities
 - Organisation of training sessions for the Commission, EACEA and NA staff in order to help them develop inclusion strategies and to facilitate understanding of the issues involved
 - Organisation of training sessions and/or development of training kits for the experts involved in evaluating proposals
 - Development of guidance tools for applicants and beneficiaries to help them make their proposals / projects more inclusive

- (b) Building on the experience of the Youth SALTO centres, to expand their work on inclusion to the whole education and training sector
- (c) Ensuring that resources and activities are as multilingual as possible

Eligible applicants

The call for proposals will be restricted to Lifelong Learning National Agencies implementing the Lifelong Learning Programme.

Award criteria

The proposal must have clear objectives, clearly defined outputs and expected outcomes, and include a plan to ensure the sustainability of the network and its results beyond the period of funding. The proposal must contain a detailed programme and a carefully calculated budget, to be structured in accordance with the application form. The project proposals will be assessed against the following criteria:

- Content, validity and soundness of the proposed activities and expected results (20%);
- Methodology proposed for implementation and evaluation of activities (20%);
- Quality of the proposed organisational structure for achieving the expected results (20%);
- Widening of the network: type and size of target group reached with the activities proposed, type and number of targets/users (real and potential) (10%);
- European dimension of the activities proposed: country coverage of the projects included in the thematic networking, country distribution of NAs in the thematic networking group and the target population (15%);
- Sustainability of project and network (10%);
- Project management: extent to which the work plan, project calendar, staffing and budget are realistic and coherent (clear and appropriate with regard to the objectives proposed) (5%).

The budget would cover activities for a period of 24 months of the network.

4.1.9. Call for proposals: European associations active at European level in education and training

Index reference in the table in Appendix 1: 11.10

Objectives

- To support high-quality European Associations contributing to increasing knowledge and awareness on the European integration process through education and training;
- To support high-quality European Associations contributing to the implementation of at least one of the strategic objectives of the strategic framework for European cooperation in education and training ("ET 2020").

The EU financing under this call for proposals takes the form of operating grants to support certain operational and administrative costs of the selected European associations.

Expected results

A total number of 15 grants for which 7 grants concerning annual operating grants under the call for proposals 2012 and 8 grants concerning specific operating grants to be signed with the beneficiaries listed below, outside the framework of the Call for proposals 2012.

In fact, a total amount of €1,000,000 has been reserved for those European associations with which the Executive Agency has concluded a 3-year framework partnership agreement, for the period 2011-2013, following the call for proposals referenced EACEA/24/10. Specific operating grant agreements require the approval of the work programme and budget 2012 of the European associations that are to receive EU co-financing.

Beneficiaries of a 3-year framework partnership agreement	Maximum grant for 2012 (in €)
European Association of the Education of Adults	125,000
The National Unions of Students in Europe	125,000
European Association of Institutions of Higher Education	125,000
Fédération européenne des écoles de cirque professionnelles	125,000
European Network of Education Councils	125,000
Organising Bureau of the European School Student Unions	125,000
European Forum of Sign Languages Interpreters	125,000
European Standing Conference of History Teachers' Associations	125,000

Eligible applicants

European associations in the field of education and training active in:

- The European integration subjects;
- Pursuing the objectives of the European Education and Training policy.

Eligible associations should:

- Be a non-profit organisation;
- Be located and have legal personality and seat for more than two years uninterrupted (on date of call deadline) in one or several LLP eligible countries (Member States, Iceland, Liechtenstein, Norway, Turkey, Croatia and Switzerland);
- Undertake the majority of the activities in the Member States and/or in other LLP eligible countries;
- Exist as a body pursuing an aim of general European interest as defined in Article 162 of the IR;

And either

- Be composed exclusively of member-based associations (i.e. the members are themselves "umbrella" associations at the transnational, national, regional or local level) and having members in at least 6 EU Member States;

or

- Be composed (either partly or entirely) of institutions and organisations active in education and training that are not member-based (such as primary and secondary schools and higher education institutions) and having members in at least 9 EU Member States.

Award criteria

Eligible applications for the annual operating grants will be assessed on the basis of a detailed 12 month work programme for 2012, with specific attention for:

- The relevance, clarity and coherence of the short-term objectives (12 months);
- The quality of the management of the work programme (clarity and coherence of the activities and budgets proposed to achieve the objectives, timetable);
- The expected impact of the activities on education and/or training at European level.

The grant will be awarded in the form of a contribution to the eligible costs, with a maximum rate of 75% of European Union co-financing, or in the form of flat-rate financing, in accordance with Commission decision³⁰ establishing a system of flat-rate financing to be applied for the awarding of operating grants within the scope of the implementation of the action programme in the field of lifelong learning. The flat-rates are indicated in Appendix 4, table 15.

4.2. Grants to bodies with a de jure or de facto monopoly (Art. 168(1)(c) of the IR)

The estimated amount of the grants together with the maximum rates of co-financing and the type of legal instrument to be used for the award of the grant for the actions listed below are specified in the table in Appendix 1.

4.2.1. Presidency events and DG meetings

Index reference in the table in Appendix 1: 5.12

Grants will be awarded to the Danish, Cypriot and Irish Presidencies to organise conferences, seminars, meetings of Directors-Generals on priority policy topics, together with associated activities for the exploitation of project and programme results. These Presidency events will be held within the period of the Presidency, and all practical arrangements, including topics and calendar, will be fixed in agreement with each Presidency, in due course³¹. The Presidency is considered as a *de facto* monopoly because it plays a unique role to foster policy co-operation, define priorities and follow-up the progress and results achieved in the field of education and training. The very fact that these events are organised by the Presidency enables them to produce results more efficiently.

The amount allocated will cover approximately 10 events in line with the objectives of the Lifelong Learning Programme. The main objective of such conferences is to debate, develop, exploit and disseminate the main topics of the European political agenda: strategic framework for European co-operation in education and training; strengthening the role of education and training within the Lisbon

³⁰ C (2008) 4332 of 18 August 2008.

³¹ Danish Presidency: 1st January to 30 June 2012; Cypriot Presidency: 1st July to 31 December 2012; Irish Presidency: 1st January to 30 June 2013.

process at both European and national level (implementation of lifelong learning strategies); making lifelong learning and mobility a reality, improving the quality and efficiency of education and training, promoting equity, social cohesion and active citizenship and enhancing creativity and innovation, including entrepreneurship, at all levels of education and training in Europe etc. The main outcomes expected from Presidency conferences are policy guidance conclusions and messages which will serve as inputs to promote European policy approaches or to inform Presidency legislative proposals.

The 2012 budget covers the grants to the Danish and Cypriot Presidencies and a part of the grants to the Irish Presidency. Events organised by the first Presidency of year n are covered by the budget of year n-1 when the expenditure to organise the event starts in year n-1. The decrease in budget for 2012 (- €200,000) is justified by the most recent experience.

4.2.2. European Guidance Policy Network

Index reference in the table in Appendix 1: 5.29

The European Lifelong Guidance Policy Network was established on 7-8 May 2007 in Helsinki by representatives of Member States and other countries participating in the Lifelong Learning Programme, in order to assist the Member States and the Commission in moving forward European cooperation on lifelong guidance in both education and employment, promoting cooperation at Member State level on lifelong guidance and proposing appropriate structures and support mechanisms in implementing the priorities identified in the Resolution on Lifelong Guidance (2004). 29 countries are official ELGPN members (25 Member States, Belgium and Bulgaria have an observer status; Iceland, Norway, Croatia and Turkey). The secretariat of the ELGPN is ensured by Finland (the University of Jyväskylä, at the Finnish Institute for Educational Research), since its establishment in 2007 in Helsinki.

In the years 2012-2013, the network will continue to organise its work along the lines already followed until now:

1. Support for policy development: a key role of the network is supporting lifelong guidance policy development at national level. This is done in particular through expert meetings organised around the four priority areas identified by the 2008 Council resolution on lifelong guidance, to which the network contributed in the preparatory phase. The network will follow, analyse and report on the progress of implementation of the lifelong guidance resolution priorities and will issue informed opinions and views regarding EU policy developments and implementation in field of guidance and related policy fields, such as validation of non formal and informal learning and early school leaving. The network will work towards the preparation and dissemination of a new guidance policy handbook, improving on the handbook issued in 2004.
2. Policy sharing: the network provides an exchange platform for national policy and decision makers, practitioners and other relevant stakeholders (e.g. through peer learning activities, exchange visits, and thematic working groups comprising clusters of countries working on issues of common interest).
3. Information gathering: the network supports policy development by providing a comprehensive and updated overview of trends and patterns in guidance, and assessing progress achieved in implementing relevant Council Resolutions. The network seeks mechanisms to promote synergy among, and develop an overview of, EU funded projects on lifelong guidance and parallel initiatives. This enables the network to make evidence-based recommendations on policy developments and implementation.
4. Policy analysis and research: the network identifies new research areas on topics relevant for policy development. The network will launch thematic research and studies, on its own initiative, through subcontracting or share the outcomes of studies launched by Cedefop. The purpose is not

to undertake new research for purely scientific reasons, but to concentrate on issues which have strong policy relevance.

5. Use of reference tools: the network supports the application of existing common EU reference tools and the development of new tools where appropriate.
6. Exploiting project outcomes: the network analyses, disseminates and promotes capitalising on the results of guidance projects and studies, in particular those funded by the EU, feeding into policy development at both national and EU levels (this includes disseminating the policy lessons of projects supported by the Lifelong Learning Programme and the previous sectoral programmes, and the European Social Fund).
7. Strengthening representative structures: the network also provides advice the development of National Guidance Fora or other national representative structures, both in participating countries where they already exist and in those where they do not.

The Commission considers that the network is in the position of a *de-facto* monopoly for the following reasons³²:

- The ELGPN is a countries driven network of which the membership (three to five delegates from each country) comprises representatives from Education and Labour ministries and other stakeholders (from the education and/or the employment sectors);
- The ELGPN plays a unique role in supporting the participating countries in the development of a lifelong guidance policy. Considering its comprehensive composition covering representation on governmental level from both the education and employment sectors, it is the only network in its kind, and its tasks could not be fulfilled by another actor.

4.2.3. Bologna Secretariat project

Index reference in the table in Appendix 1: 2.60

The official secretariat of the Bologna Follow-up Group is mandated by the Bologna Ministers to organise Bologna Ministerial conferences and the follow-up in between (next conference foreseen in 2012). The conference is the forum where Ministers examine the progress made based on national reports and the stakeholders' reports.

The Secretariat is considered to be in a monopoly situation because it is the only instance mandated by the Ministers to organise Bologna Ministerial conferences and to take care of the follow-up in between.

Its purpose for 2012 is to set and manage the Bologna Follow-Up Group work plan and to prepare for the next Bologna Ministerial Conference and Policy Forum.

³² See also C(2007)3698 of 3 August 2007.

4.2.4. *Adult Skills Survey (PIAAC)*

Index reference in the table in Appendix 1: 5.40

Following up on the Council Conclusions of May 2007 on New Indicators in Education and Training³³, the purpose of this action is to support the participation of Member States and countries (participating in the Lifelong Learning Programme) in the International Programme for the International Assessment of Adult Competencies (PIAAC) survey, implemented under the auspices of the OECD. The results of this international survey will permit the EU to identify indicators on adult's skills to be integrated in the coherent framework of indicators and benchmarks set up to be used for monitoring progress in fields central for the follow up of the Education and Training 2020 strategic objectives. The results of the survey will also permit a better understanding of adult learning processes and the outcomes of adult education initiatives.

The EU funding in 2012 is intended to co-finance the participation costs (the costs for the international element of the survey) of those LLP countries that want to participate in the PIAAC survey for the first time. The amount to be allocated to each country is dependent on the number of countries participating in the survey within a maximum of 75% of the international participation fees. 80% of the total EU contribution will be distributed on an equal basis between the participating countries. The remaining 20% will be distributed on the basis of the cost of living index and a relative share of the total number of adults in countries.

As the beneficiaries can only be National Authorities/national bodies that have committed to participate to survey, they are considered to be in a *de facto* monopoly situation.

4.2.5. *ICILS skills survey*

Index reference in the table in Appendix 1: 5.45

Following up on the Council Conclusions of May 2007 on a coherent framework of indicators and benchmarks for monitoring progress towards the Lisbon objectives in Education and Training³⁴, the purpose of this action is to support the participation of Member States and countries (participating in the Lifelong Learning Programme) in the International Computer and Information Literacy Study (ICILS), implemented under the auspices of the International Association for the Evaluation of Educational Achievement (IEA). The results of this survey, the first international study to assess digital skills of young people, will permit the EU to identify indicators to be integrated in the coherent framework of indicators and benchmarks set up to be used for monitoring progress in fields central for the follow up of the Lisbon objectives in the field of education and training. The results of the survey will close an important information gap as regards digital skills of young people.

The EU funding is intended to co-finance the participation costs (the costs for the international element of the survey) of the countries in the ICILS survey. The amount to be allocated to each country is dependent on the number of countries participating in the survey within a maximum of 75 % of the international participation fees. The total EU contribution will be distributed on an equal basis between the participating countries. The total budget in the table of Appendix 1 is decreased (-€100,000) in view of the 2011 participation (reduced number of interventions).

As the beneficiaries can only be National Authorities/national bodies that have committed to participate to the survey, they are considered to be in a *de facto* monopoly situation.

³³ 2007/C 311/10 of 25 May 2007.

³⁴ Ibid 34.

4.2.6. *Teachers professional development survey*

Index reference in the table in Appendix 1: 5.50

Following up on the Council Conclusions of May 2007 on a coherent framework of indicators and benchmarks for monitoring progress towards the Lisbon objectives in Education and Training³⁵, the purpose of this call for proposals is to support the participation of Member States and countries participating in the Lifelong Learning Programme in the second round of the OECD survey "Teachers, Teaching and Learning" (TALIS-2013). This survey will satisfy EU data needs on the professional development of teachers and permit to document trends in the field based on the available data of TALIS I.

The EU funding is intended to co-finance the participation costs (the costs for the international element of the survey) of the countries in the TALIS-2013 survey. The amount to be allocated to each country is dependent on the number of countries participating in the survey within a maximum of 75% of the international participation fees, and will be awarded according to a formula, which allows better addressing the needs of the participating countries depending on their relative costs of living and population. 70% of the total EU contribution will be distributed on an equal basis between the LLP participating countries. The remaining 30% will be distributed on the basis of the cost of living index and the total population in countries. The total budget in the table of Appendix 1 is increased (+ €100,000) in view of the 2011 participation (increased number of interventions).

As the beneficiaries can only be National Authorities/national bodies that have committed to TALIS-2013, they are considered to be in a *de facto* monopoly situation.

4.2.7. *Survey on the social dimension of Higher Education*

Index reference in the table in Appendix 1: 5.55

Following up on the Council Conclusions of May 2009 on a Strategic framework for European cooperation (ET 2020)³⁶ and its annex on "European benchmarks" including tertiary attainment levels, the purpose of this action is to support the participation of the LLP participating countries in the survey on the social dimension of higher education.

This survey will satisfy EU data needs on the social background and financial situation of tertiary students, including information on learning mobility in tertiary education and permit to document trends in the field based on the available data from past surveys.

The EU funding is intended to co-finance countries' participation costs (international element of the survey). The amount to be allocated to each country is dependent on the number of countries participating in the survey and will be awarded according to a weighting formula, taking into account their relative costs of living and population, which allows to better address the needs of the participating countries. The EU contribution will cover a maximum of 75% of the international participation fees of a country.

As the beneficiaries can only be National Authorities/national bodies that will commit to participate in the survey, they are considered to be in a *de facto* monopoly situation.

³⁵ Ibid 34.

³⁶ http://ec.europa.eu/education/lifelong-learning-policy/doc28_en.htm

4.3. Grants to bodies identified in the Legal Basis as beneficiaries of a grant (Art. 168(1)(d) of the IR)

The estimated amount of the grants together with the maximum rates of co-financing for the actions listed below are specified in the table in Appendix 1. The EU financial support will be awarded through grant agreements.

4.3.1. College of Europe, Bruges & Natolin; European University Institute, Florence; Academy of European Law, Trier; Institute of Public Administration, Maastricht; European Agency for Development in Special Needs Education, Middelfart; CIFE (Centre International de Formation Européenne), Nice

Index reference in the table in Appendix 1: 10.10 to 10.60

The grants are awarded to the beneficiaries on the basis of a work programme and a budget presented by each beneficiary. The beneficiaries have been identified in Article 36.2(a)-(f) of the Legal Basis.

European University Institute, Florence

Index reference in the table in Appendix 1: 10.20

As in 2011, a complementary contribution is allocated for 2012 to the Global Governance Programme. This contributes to:

- Improve and broaden the PhD training with respect to global governance and world affairs at the EUI;
- Consolidate and further develop the Global Governance Programme;
- Set up a European Academy of Global Governance devoted to top level training, discussion and debates;
- Create a community of up to 10 new junior fellows specialised in these areas; attract at the EUI an important number of senior scholars drawn from the faculty of other member states universities and research centres, and international institutions;
- Develop different strands of basic and applied research on issues of global governance that may, in time, constitute independent units of research;
- Promote and support a variety of events, conferences and seminars on issues of global governance; create a European network of Global Governance
- Widespread work in the field of migration policy through the EUI's specialised Migration Policy Centre.

4.4. Grants for actions with specific characteristics that require a particular body in account of its technical competence, its high degree of specialisation or its administrative power (Art. 168(1)(f) of the IR)

4.4.1. European Qualifications Framework national co-ordination points

Index reference in the table in Appendix 1: 5.05

Objectives

The Recommendation of the European Parliament and the Council of 23 April 2008 on the establishment of a European Qualifications Framework for lifelong learning³⁷ (EQF) recommends Member States to designate EQF national coordination points (NCPs), which will coordinate the implementation of the EQF at national level.³⁸

In the years 2006-2009, the Union budget has co-financed EQF projects through specific calls for proposals, since 2010 financial support to activities of the NCPs in the framework of the national implementation of the EQF has become more strategic, as NCPs have a key role in coordinating the referencing of national qualifications levels to the EQF levels and ensuring that reference to the relevant EQF level appears on qualifications and their supplements. By the end of 2011 a majority of countries will have related their national qualifications systems to the EQF; the others will do it in 2012. In 2012 many NCPs will focus on bringing the EQF closer to citizens and companies, though the indication of EQF levels on each individual qualification.

The grants to EQF NCPs may include support to activities in relation with the following tasks:

- Referencing levels of qualifications within national qualifications systems to the European Qualifications Framework levels. This may include meetings, seminars or studies for the definition of qualifications through an approach based on learning outcomes, the development of a transparent referencing methodology, exchange of views with other EQF NCPs or relevant international experts;
- Applying the learning outcomes approach to qualifications which underlies the EQF. This may include the development or revision of national qualifications frameworks and national registers of qualifications, as well as the interconnection of national resources to the EQF portal; and
- Providing access to information and guidance to stakeholders and promoting their participation both in the referencing process and in its follow up. This may include promotional activities, including events or media actions; meetings and seminars with social partners and relevant civil society actors.

Since the EQF NCPs are designated by national authorities, one for each country, they are in a unique and exclusive situation to implement the action.

EQF NCPs will be invited to submit their grant requests in autumn 2011, so that the activities may start in spring 2012 (the 2011 grants cover activities until April 2012) As in 2011, the total amount available distributed between the countries based on weighted demographic size, cost of living and to some extent previous use of resources (some NCPs did not request any grant).

³⁷ 2008/C 111/01 of 23 April 2008.

³⁸ OJ C 111/1, 6.5.2008.

The new country distribution of the total amount available for the action including Albania, the former Yugoslav Republic of Macedonia and Serbia is provided in the table in Appendix 3. The total amount of the action in the table of Appendix 1 is also increased.

It should however be noted that:

- This support is given to facilitate a policy process, so that the use of resource in a country may be related less to efficiency than to the policy framework in that country, and may change significantly from one year to the other.
- In 2012 several NCPs will be involved – following the experimental phase in 2011 – in interconnecting national databases to the EQF portal. While the development and maintenance of the portal are covered through a specific item (see point 4.6.10), work needed at national level would be covered by these grants.
- Small adjustments may take place based on information from Member States (for instance, if a country decides not to apply or to ask for less, the others may use the amount made available).

4.4.2. European Lifelong Learning Platform – EUCIS

Index reference in the table in Appendix 1: 5.60

The Council conclusions on a "Strategic framework for European co-operation in education and training"³⁹ (ET 2020)", adopted on 12 May 2009, set out that European co-operation in priority areas should be carried out, where appropriate, with the involvement of stakeholders and also that the outcomes of co-operation should be widely disseminated. Such co-operation can include peer learning activities, conferences and seminars, high level fora or expert groups, panels, studies and analysis and web-based co-operation. Furthermore, in the context of the structured policy dialogue, DG EAC regularly consults European stakeholders' associations and social partners on European co-operation in education and training.

The purpose of this action is to support the implementation of the structured policy dialogue with European stakeholders with a view to contribute to their effective involvement and co-operation, in particular in the field of lifelong learning, which includes all sectors and levels of education (early, education, schools, VET, adult education and higher education, as well as formal, non-formal and informal education).

The support to EUCIS LLL will contribute to:

- Inform and raise awareness of lifelong learning and of the outcomes of European co-operation among citizens, civil society organisations as well as bodies at European, national and local levels;
- Facilitate exchanges and debates between actors from the different sectors and levels of lifelong learning, promoting the implementation of lifelong learning strategies at EU, national and local levels;
- Facilitate the dialogue and the co-operation between European stakeholders, the EU institutions and the Member States in the implementation and evaluation of lifelong learning policies and of the achievements of the objectives and priorities set out in the "Strategic framework for European co-operation in education and training (ET 2020)".

EUCIS LLL is the only European platform gathering 19 member networks active at the European level in the field of education and training and covering the various dimensions and levels of lifelong

³⁹ http://www.consilium.europa.eu/uedocs/cms_data/docs/pressdata/en/educ/107622.pdf

learning. EUCIS LLL is in a unique position to support European networks in education and training to work collectively at European, national and local levels and to contribute to structured policy dialogue within the open method of coordination in education and training.

4.4.3. *Prix Europa*

Index reference in the table in Appendix 1: 6.55

The beneficiary of the grant is Prix Europa, the NGO organisation behind Europe's largest competition for broadcasters and producers in television, radio and the emerging media. It is organised on an annual basis and has no commercial interest. It is supported by 25 organizations (i.e. European Parliament, European Broadcasting Union and ARTE). The competition is divided into ten categories, including a specific category and a prize "Languages through Lenses" exclusively designed for short audiovisual and/or other media productions which promote linguistic diversity.

The participants in the "Languages through Lenses" category will be selected through a separate competition for students of the arts, media and film. As in 2011, the competition to select the participants for the "Languages through Lenses" category in Prix Europa will be organised by ELIA. ELIA was awarded the grant, to organise the underlying competition for two consecutive years (2011 and 2012) following the open call for proposals issued by the Commission in 2010.

It is proposed to support Prix Europa with a direct grant to fund the organisation costs related to this specific prize "Languages through Lenses". This would allow EU funds to be directly transferred to the event organisers, avoiding unnecessary intermediaries and thus maximising its cost-effectiveness. Prix Europa unique status is closely linked to its technical competence and high degree of specialisation and to its exceptional reputation and popularity as the leading TV/radio/media festival in Europe. Its unique status is closely linked to its members and to its exceptional reputation and popularity as the leading TV/radio/media festival in Europe. Participation in Prix Europa gives exceptional visibility to the cause of languages in Europe.

4.4.4. *Implementation of the European Agenda for Adult Learning*

Index reference in the table in Appendix 1: 4.60

The Council Resolution on a European Agenda for Adult Learning, adopted by the Education Council on 28 November 2011⁴⁰, concentrates on increasing participation among the low qualified and disadvantaged adults, with a focus on developing their basic skills, for example through guidance, validation and access to second chance initiatives.

The Agenda encourages the LLP participating countries to take concrete steps to enhance, intensify and coordinate policies to provide adult learning, in particular offering lower qualified adults a "second chance" to go "one step up" in their qualification level.

To facilitate liaison and effective implementation of the Agenda at national level and to cooperate with the Commission in its implementation at European level, the Council Resolution provides for the designation of national coordinators, having the necessary level of responsibility and technical competences in the field of adult learning, located in national administrations or other agencies operating under the responsibility of these.

The EU funding in 2012 is intended to co-finance the participation costs of those LLP countries that want to participate in the activity. The amount to be allocated to each country is dependent on the number of countries participating in the activity. The total EU contribution will be allocated across the LLP participating countries based on weighted size of the adult population, cost of living and rate of

⁴⁰ 16743/11, EDUC 268 SOC 981.

participation in adult learning⁴¹. The national coordinators are designated by the competent National Authorities on the basis of their level of responsibility, technical competence and high degree of specialisation. The grant will be between a minimum of €50,000 and a maximum of €450,000 per country, depending on the activities and the budget applied for. The allocated grant will not cover more than 75% of the eligible costs. Therefore Article 168 (1) (f) of the IR applies.

Objectives

The purpose of the grant is to support national administrations, through the coordinators, in implementing the Agenda with a wide range of stakeholders and in a wide range of settings. The objectives are to:

- Inform and raise awareness of the Agenda and the importance of adult learning more generally;
- Organise exchange and debate with all relevant stakeholders at national, regional and local level to mobilise cooperation that could help reach a maximum number of adult learners;
- Act on the recommendations of the High Level Group on Literacy and use the "Basic skills: policy and practice guidelines", which resulted from the Action Plan on Adult Learning;
- Support transnational cooperation in the development and implementation or consolidation of national and regional initiatives offering adults a second chance to acquire basic skills.

Expected results

- Better awareness and stronger commitment of all relevant actors and stakeholders active in the field of adult learning to support the implementation of the key objectives of the European Agenda for Adult Learning at national and regional level;
- Increased awareness of basic skills deficits among the adult population and stronger commitment from public authorities and all relevant actors, including improved coherence and cooperation in the provision of second chance opportunities to overcome them;
- Better dissemination of EU policy on adult learning and the existing tools and programmes to support it, as well as good practices that have been successfully implemented in other LLP participating countries (e.g. through information activities, including media campaigns, publicity events, etc.);
- Better dissemination of existing European tools or reference material;
- Recommendations to the attention of policymakers, education and training providers and other stakeholders.

Only national administrations implementing the Agenda or the agencies appointed by them for this purpose are eligible. The reference documents will be made available in March 2012. The coordinators will be invited to submit their grant requests by the end of May 2012, appraisal will be carried out in June-July 2012 and the 2012 grants will cover activities running from September 2012 – August 2014.

This new activity will cover a period of 24 months.

⁴¹ The criterion "participation rate" will be applied in an inverse manner, thereby favouring countries with a low participation rate.

4.5. Contributions to the management costs of the National Agencies or other public-sector or private law bodies with a public-service mission in conformity with Article 54.2(c) of the FR

4.5.1. eTwinning National Support Services (NSS)

Index reference in the table in Appendix 1: 1.60

The eTwinning initiative takes advantage of the possibilities offered by Internet and digital media to promote project based pedagogy, collaborative learning and co-operation among European schools.

The NSS assist schools during the process of registration, partner finding and project activity, they manage communication campaigns to enlarge participation in the action, deliver prizes and quality labels and organise professional development workshops and contact seminars for teachers.

In 2012, a partial extension of eTwinning to the Eastern Partnership countries will take place: operating grants to the national structures of the partner countries will be issued after the extension of the EACEA's mandate to cover ENPI countries.

An extension to some pilot countries among the Mediterranean (Tunisia and Egypt) is also possible and is currently being explored.

The NSS act as instruments to implement the programme at national level, in conformity with the provisions of Article 54.2(c) of the FR, as provided for by the Legal Basis. The country distribution of the total amount available for the action is provided in the table in [Appendix 3](#).

4.5.2. National units of the Eurydice network

Index reference in the table in Appendix 1: 5.15

Financial support is given for specific actions carried out by the national units of the Eurydice network. The network's goal is to contribute towards a better mutual understanding of education systems in Europe through the production of comparable country descriptions, indicators and comparative studies in the field of education.

The participation of all national units in the work of the network facilitates access to national qualitative and quantitative data that are necessary for the comparison between Eurydice countries. The aim is to gather as (territorially) exhaustive information as possible and to produce high quality studies and analyses that facilitate co-operation in education at the European level. Taken together, these activities give a substantial input, in terms of comparable data, to the current European co-operation in education (ET 2020, Bologna Process, Lifelong Learning, etc.).

Beneficiaries

The beneficiaries are the Eurydice national units which are network members and are designated as such by the ministries of the countries that participate in the programme. These beneficiaries are explicitly identified in Article 33(1) (d) (3) of the Legal Basis.

The EU financial support is given on the basis of a common frame of reference established by the Commission on the basis of the Eurydice Network Work Programme.

The application of the system of funding the national units for 2012 as regards Albania, the former Yugoslav Republic of Macedonia and Serbia is detailed in [Appendix 5](#). In conformity with the FR, the lump sums and flat-rate financing, uphold co-financing and non-profit principles.

The new country distribution of the total amount available for the action is provided in the table in [Appendix 3](#).

4.5.3. Euroguidance

Index reference in the table in Appendix 1: 5.22

The EU contribution finances up to 50% of the operating costs of the national centres of the Euroguidance network, whose mission it is to develop the European dimension in guidance for education and vocational training. Euroguidance centres establish information tools for guidance counsellors, students, pupils and their parents, as well as the trainers of the guidance counsellors and personnel in education and training; they train and advise the guidance centres in terms of European mobility opportunities; they contribute to the update of information included in the Ploteus portal, the European portal on education and training opportunities in Europe and may be involved in the interconnection of national data resources with Ploteus. The Ploteus portal is being gradually integrated into the EQF portal, but this does not have an impact on the contribution by Euroguidance.

The objectives for this year and the results foreseen are as follows:

- Better targeted communication for the various users, as well as intensified co-operation with the relevant European networks in the field of mobility;
- The centres will keep tasks related to Ploteus, which vary from one country to another, including in relation to the second phase of Ploteus, which envisages the interconnection with national data resources.

Beneficiaries

Euroguidance centres are beneficiaries of European Union financial contributions. The national centres that form the Euroguidance network are instruments for the implementation at national level of the lifelong learning programme. These beneficiaries are explicitly identified in Article 33(1)(e)(i) of the Legal Basis. The final beneficiaries of the Euroguidance service are the citizens, either directly or via the guidance counsellors and local guidance centres.

The EU financial support is subject to approval of a work programme and an estimated budget that centres prepare on the basis of terms of reference established by the Commission and a financial framework including in particular the budget available for each country, based on a distribution key approved the Lifelong Learning Programme Committee. Each application must also be accompanied by a declaration from the competent national authorities with their commitment to cover at least 50% of the costs.

The new country distribution of the total amount available for the action including Albania, the former Yugoslav Republic of Macedonia and Serbia is provided in the table in [Appendix 3](#). The distribution is based on demographic size, cost of living and previous use of resources. The increase in the global Euroguidance amount takes into account the growing number of participating countries (the average unitary grant had actually decreased since 2005).

The distribution may be slightly changed based on information from countries (envisaging not to ask for a grant or to ask less than available).

4.5.4. Europass

Index reference in the table in Appendix 1: 5.23

Established by the decision of the European Parliament and of the Council⁴² on a single EU framework for the transparency of qualifications and competences, the Europass action implements since 2005 a direct service to citizens, as well as to training centres, schools, universities and enterprises, through a European portal and the network of national Europass centres mentioned above. The EU contribution finances up to 50% of the operating costs of the national Europass centres, which implement the Europass action on the national level.

The Europass decision establishes an instrument with no fixed duration and therefore without an overall budget. As from 2007, the financial support to the Europass centres forms part of the budget of the action programme in the field of lifelong learning.

The objectives of this year and the results foreseen are as follows:

- Provision, through a European portal and the network of National Europass Centres, of several instruments for the transparency of qualifications and competencies, aiming in particular at better communication between job-seekers and employers, thus better mobility on the European labour market. The European portal will be further developed and NECs will be asked to contribute with expert views, country related advice, and linguistic support;
- Promotion of these instruments to the public concerned (citizens, training centres, schools, universities and enterprises). Special attention is given to the co-operation between services for employment, orientation and youth.

The detailed tasks are defined by the Commission and the application form for the grant facilitates the preparation of an accurate work programme, with concrete and verifiable indications.

Beneficiaries

The Europass centres are the beneficiaries of the operating grants. The national centres that form the Europass network are instruments for the implementation at national level of the lifelong learning programme. These beneficiaries are explicitly identified in Article 33(1) (e) (iii) of the Legal Basis. The final beneficiaries of the Europass service are the citizens, as well as learning centres, schools, universities and enterprises.

The grant is subject to approval of a work programme and an estimated budget that centres prepare on the basis of terms of reference established by the Commission and a financial framework including in particular the budget available for each country, based on a distribution key approved the Lifelong Learning Programme Committee. Each grant application must also be accompanied by a declaration from the competent national authorities with their commitment to cover at least 50% of the costs.

The new country distribution of the total amount available for the action including Albania, the former Yugoslav Republic of Macedonia and Serbia is provided in the table in [Appendix 3](#). The distribution is based on demographic size, cost of living and previous use of resources. The increase in the global Europass amount takes into account the growing number of participating countries (the average unitary grant had actually decreased since 2005).

The distribution may be slightly changed based on information from countries (envisaging not to ask for a grant or to ask less than available).

4.6. Public procurements

The indicative timetable for the call for tenders together with the estimated amount and number of contracts envisaged are indicated in the table in [Appendix 1](#).

⁴² 2004/2241/EC of 15 December 2004.

4.6.1. eTwinning Central Support Services (CSS)

Index reference in the table in Appendix 1: 1.50

In order to expand the coverage and range of services to be offered by eTwinning, a new call for tenders will be published in 2012. An additional budget is foreseen for an eight months extension of the current contract to cover the handover period and the preparation of the services in case the contractor is not the incumbent.

4.6.2. Comenius studies and conferences on school policy

Index reference in the table in Appendix 1: 1.70

The budget reserved is intended to finance approximately 6 contracts. Calls for tender are foreseen to contract 3 studies on relevant policy issues such as the effectiveness of early childhood education and care and on understanding low achievement in basic skills. Existing framework contracts will be used to finance some conferences on Comenius and school policy.

4.6.3. Comenius pupil mobility insurance

Index reference in the table in Appendix 1: 1.90

The budget is reserved to cover the necessary insurance for the Comenius individual pupil mobility action which is funded through the specific call for proposals explained under point 4.1.2 above. The call for tenders for the Comenius Group Insurance Scheme was launched on 25 November 2009. In 2010, the contract was awarded to the AXA Group (Contract N° EAC-2010-0088). The contract may be renewed 3 times, subject to satisfactory performance on the part of the Contractor and depending on budget availability.

4.6.4. Studies, conferences and other activities on higher education mobility and policy

Index reference in the table in Appendix 1: 2.50

The budget is intended to finance approximately three studies or Eurobarometer surveys in the field of higher education to follow-up on priority areas identified in the context of the new Communication on the Modernisation of Higher Education and the Bologna Communiqué agreed in Leuven/Louvain-la-Neuve, including the social dimension of European higher education, and to prepare for the Erasmus programme post 2013. Part of the funding could be allocated to organise publicity and promotion events linked to the 25th anniversary of the Erasmus programme and conferences as well as activities to foster the interest of companies to offer work placements. The contracts will primarily be awarded following calls for tender.

4.6.5. University-business co-operation

Index reference in the table in Appendix 1: 2.70

The intervention envisages:

- Funding the organisation of the European University-Business Forum and 2-3 Thematic Forums and/or workshops on University-Business Cooperation related issues. These events will bring together representatives and experts from relevant European organisations and associations (University and Business), representatives from Universities, Business representatives from small and large companies and/or national or regional organisations, representatives from ministries/public authorities and representatives from projects/initiatives that can present examples of good practice. These events will be organised using a framework contract.

- Funding of a study/survey on University-Business Cooperation in the EU Member States, the EFTA-EEA countries and the Candidate Countries. This study would be a follow-up to the study undertaken in 2010/2011 (availability of results mid-2011) and would look at the developments of University-Business Cooperation in the concerned countries. The study/survey would be organised via a call for tender.

4.6.6. VET Business Forum and studies / events in the field of vocational education and training (VET)

Index reference in the table in Appendix 1: 3.50

The budget is intended to finance the organisation of the first VET Business Forum and another event or study on a priority topic in the field of VET. The VET Business Forum should be a platform for exchange between VET sector, businesses and policy makers on a wide range of topics related to excellence, attractiveness, relevance and in general to promotion of partnerships between VET and employers.

The Forum should be consistent with the established University-Business Forum by using the same model and format of the event and by focusing on common topics of interest (entrepreneurship, innovation, excellence), but obviously in the VET sector. The Forum is planned as a high-level bi-annual event with participation of all relevant stakeholders at different level (EU, national, regional, etc.), such as policy makers, companies, SMEs, social partners, VET providers, teachers and trainers, entrepreneurs, guidance practitioners, human resources experts.

The first Forum, as a 1 ½ day event, is provisionally planned to take place in Brussels on 7 and 8 June 2012. The activities will be implemented using an existing framework contract (Events) or following calls for tender (Studies).

4.6.7. Leonardo da Vinci Mobility Action

Index reference in the table in Appendix 1: 3.80

This amount will be allocated to information and promotional activities which continue and build upon the campaign started in 2011 to make European companies aware of the possibilities and benefits of hosting LLP Leonardo da Vinci and Erasmus trainees and encourage them to become quality training host companies. The aim will be to increase the number of placements available in companies/enterprises. The activities will be implemented using an existing framework contract(s). The budget initially foreseen for this action, launched in 2011, is increased by €0,5M so as to maintain the same amount given in 2011. Part of the budget will be used for networking of multipliers at national and regional levels, while part will be used for a European event to analyse the experience and results of related LLP initiatives (including pilot projects on mobility of apprentices, networking of intermediaries, and studies on mobility flows). This will allow optimal preparation of support for traineeship mobility in the new Programme.

4.6.8. ECVET and EQAVET Networks Support

Index reference in the table in Appendix 1: 3.90

The recommendation of the European Parliament and of the Council of 18 June 2009 on the establishment of the European Credit System for Vocational Education and Training (ECVET) – (2009/C155/02) foresees that a network of stakeholders, including government designated members from Ministries of Education and Employment of members states and social partners and involving sectors and VET providers would be set up.

Similarly, the recommendation of the European Parliament and of the Council of 18 June 2009 on the establishment of a European Quality Assurance Reference Framework for Vocational Education and Training – 2009/C155/01) also provided for a network of European representatives. Service contracts were awarded following call for tenders in 2009 to ensure the development, the implementation and the coordination of the ECVET and EQAVET networks. The contracts awarded following calls for tenders should be renewed for one year in 2012.

4.6.9. Grundtvig studies and events related to adult education

Index reference in the table in Appendix 1: 4.50

The budget reserved is intended to finance an indicative number of six contracts. The aim is to contract studies, consultancies and events on subjects of key relevance for the European Agenda for Adult Learning to be adopted as a Council resolution in November 2011, such as adult learning for active ageing and intergenerational learning, forms of adult literacy needed for full participation in modern society, adult learning in the context of migration and minorities, validation and recognition of prior learning and adult learning as a means of promoting social cohesion, as well as activities to disseminate the results achieved by centralised and decentralised Grundtvig actions with a view to promoting good practice in adult learning. These studies, consultancies and events will be contracted following framework contracts or calls for tender.

4.6.10. Studies and comparative research

Index reference in the table in Appendix 1: 5.02

The budget allocated to this action is designed to finance 5 studies approximately in 2012. The aim of this action will be to finance research projects responding to the core priorities of ET 2020 within the 4 strategic objectives, notably "improving the quality and effectiveness of education and training systems in the EU". The calls for tenders could be launched by the end of the first quarter of 2012. The studies will be carried out using an existing framework contract.

Furthermore, a study on the "Implementation of Open Educational Resources in higher education" should support the development of a) a policy framework to engage European Higher Education Institutions as full partners in the Open Educational Resources Community; and b) a framework including ICT tools, making courseware of higher education programmes and modules developed by multilateral and/or multi-sectoral educational partnerships, accessible on-line for the wide public. The study will be contracted via a call for tender, which is expected to be launched in the first quarter of 2012.

4.6.11. *e-Platform for Adult Learning in Europe - Central Support Services*

Index reference in the table in Appendix 1: 4.55

As requested by multiple stakeholders, this new activity is intended to set up a formal and interactive electronic platform for adult education between policy-makers, adult education providers, staff and anyone interested in adult education, both for information and best practice exchange, with the aim to promote effectively adult learning in Europe. In particular, the platform should perform the following functions:

- Support the process of building a European adult learning community through enhancing and speeding up the process of closer cooperation, networking and exchanges;
- Capitalize on the results of projects, products and activities funded through Grundtvig and other European programmes, as well as strategies, tools and results produced at local, regional or national level;
- Provide accessible, good quality information about policy and practice and learning products;
- Offer a virtual space for learning and for cooperation between adult learning providers.

It should also offer new facilities such as a repository of teaching materials and practices for adult learning staff; an opportunity for project cooperation and exchange of information between practitioners, organisations and policy makers; training opportunities and a multilingual approach.

A feasibility and costs analysis study is currently being undertaken by a contractor for DG EAC, the results of which will be available earlier in 2012. Taking into account the results of the study, a call for tender will then be issued in 2012 to acquire the services needed for launching the platform.

4.6.12. *Internet information systems on learning opportunities and qualifications (Ploteus and EQF portals)*

Index reference in the table in Appendix 1: 5.20

Resources are required for closely related internet based instruments, which are gradually being integrated:

- The Ploteus portal on the learning opportunities throughout Europe, in operation since 2003 but undergoing major developments. In particular, since 2008 an additional feature provides citizens with the opportunity to search the primary information sources through the networking of national databases. Five national databases are currently accessible, a further dozen is being connected;
- The EQF website on national qualifications frameworks and their relation to the European Qualifications Framework developed with a view of becoming operational at the end of 2011/early 2012.

The development phase of the EQF portal has been covered through the IDABC programme. In 2012 the Lifelong Learning Programme, within its transversal sub-programme, should cover two request forms within framework contracts and an agreement with DIGIT for the following:

- The provision, through a request form within an existing framework contract, of technical work for the further development of the EQF portal, the interconnection of further national databases with Ploteus and the first cases of interconnection with the EQF portal, the evolutive maintenance and day-to-day administration of the portals;

- The provision of specialised expert support, provided through a request form within a different framework contract, to ensure the technical coordination of all developments and maintenance activities related to both systems;
- Hosting of the information system by DIGIT.

4.6.13. Administrative arrangements with the Commission's Joint Research Centre – CRELL and IPTS

Index reference in the table in Appendix 1: 5.27 and 5.28

The co-operation with the Commission's Joint Research Centre (JRC), and particularly its Centre for Research on Education and Lifelong Learning (CRELL) and its Institute for Prospective Technological Studies (IPTS), will be continued in 2012.

Since 2005 the aim of CRELL is to monitor the contribution of European education and training systems to the achievement of the EU objectives specified in the Lisbon Agenda and more recently within the ET 2020 and EU 2020 agendas and to carry out research on lifelong learning based on indicators and benchmarks. In 2012, CRELL will work on the development of an evaluation tool for assessing the progress of Member States towards reaching the EU 2020 headline target on education and training. Further work will include the secondary analysis of large datasets from European and international surveys (PISA, PIAAC and TALIS). Other objectives for 2012 include strengthening the following research areas: language skills and literacy assessment; benefits, outcomes and returns to education and training, including school-to-work transition, higher education, educational outcomes for migrants students; early school leaving, and early childhood education; adult participation in lifelong learning; performance assessment in education. Furthermore, CRELL will support the Commission in the areas of education for employability and mobility and in the development of new indicators in areas such as vocational education and training, adult skills, civic skills, teachers' professional development, measurement of ICT skills, transversal competences. CRELL researchers will also contribute to the preparation of the Commission's annual Education Monitor

Since 2006, DG EAC relied on the expertise of IPTS for studies on ICT and education through specific Administrative Arrangements. The objective of the administrative agreement for 2012 is to connect the ongoing work of IPTS on the "Foresight on a creative and innovative European Learning Society in 2020" to ongoing policies such as the "Agenda on New Skills for Jobs" and the "strategic framework for European cooperation in education and training ("ET 2020)". Particular emphasis will be given to the concept development of a new initiative in order to upscale existing and potential implementation pilots on creative learning and innovative teaching. In addition, the specific study launched in 2011 building up descriptors for digital competences as being specified under the "Agenda on New skills for Jobs" and the Digital Agenda will be completed. This competence framework will build further on past work on an e-competence framework for ICT professionals but orient itself to all users and thus learners at all levels lifelong and life-wide.

4.6.14. Network renewals –NESET

Index reference in the table in Appendix 1: 5.30

NESET contract is renewable every year.

4.6.15. EENEE (European Expert Network on the Economics of Education)

Index reference in the table in Appendix 1: 5.30

A call for tender was launched in 2009 to establish the EENEE network for two years (2010-2011). The Lifelong Learning Work programme for 2011, adopted by decision C (2010)7190 of 22 October 2010 and amended by decision C (2011) 1626 of 16 March 2011 and C(2011)4147 of 14 June 2011,

proposes an extension of the contract to cover 2012. A new call will be launched in 2012 to cover the period 2013-2014.

4.6.16. Education and Training expert framework contract

Index reference in the table in Appendix 1: 5.35

This framework-contract will contribute to an effective and evidence-based implementation of the ET 2020 by ensuring consultancy services and studies linked to the following overall objectives:

- To support the general reporting, evaluation and dissemination of results of ET 2020, this also includes the Copenhagen Process on vocational education and training, with a view to ensuring lifelong learning;
- To support the European-level implementation of the priority areas in ET 2020⁴³ set for 2009-2011 and subsequent periods, covering all education and training categories (formal, non-formal and informal) and levels (pre-primary, primary, secondary and higher education, initial and continuing training, adult education), with a view to ensuring lifelong learning;
- To reinforce the European Commission's capacity to analyse national situations and trends in education and training, in the countries participating in ET 2020 as well as the wider world as defined by the external dimension of the EU co-operation in education and training;
- To reinforce the European Commission's capacity to analyse international situations and trends in education and training;
- To reinforce the European Commission's capacity for statistical and indicator analysis in support of implementation of ET 2020.

4.6.17. Information and awareness-raising activities and studies and conferences in the field of multilingualism

Index reference in the table in Appendix 1: 6.40

The information activities and events about the benefits of learning languages and of linguistic diversity will contribute to achieving the objective of the promotion of language learning and linguistic diversity. Moreover, the intention is to carry out studies and other actions concerning different themes linked to the achievement of this objective. Calls for tender will be launched to engage the services of an organisation or a consortium to carry out these initiatives.

Activities under this item will also include the organisation of an EU conference on the European Language Label and the information campaign regarding the first European Survey on Language Competences, which will be organised using existing framework contracts.

4.6.18. Juvenes Translatores, European Master's in Translation and Language Industry Platform in the field of multilingualism

Index reference in the table in Appendix 1: 6.56

The following events will be sub-delegated and implemented by DGT:

- "Juvenes Translatores" is a translation contest for 17-year-olds in schools across the EU. The contest is being organised to promote foreign language usage in Europe and the art of translation.

⁴³ OJ C 119/2, 28.5.2009.

More than 600 schools across the EU participate, and the 27 winners (one per EU country) are invited on a trip to Brussels together with an accompanying adult. All the support activities around this initiative will be carried out using existing framework contracts;

- The European Master's in Translation (EMT) Network is a partnership project between the Commission and the relevant academic community in Europe. University programmes that are benchmarked to agreed standards via an evaluation procedure receive an EMT quality label and become members of the European Master's in Translation Network, which promotes exchanges and cooperation in Europe. Current members are 34 master's level translation programmes in the EU. In 2012, the activities of the Network (expert meetings, working groups, annual conference) will be implemented using existing framework contracts;
- The "Language Industry Web Platform" is an interactive website gathering and disseminating information about the language industry and its developments by providing an easy-access repository of relevant documents and generating content by regular surveys. The main objectives of the platform are: bring language professionals together; improve the exchange of know-how; raise awareness of the business; collect comparable industry data from EU countries; and inform language professionals about research on and by the language industry. The activities related to the platform, maintenance and an information campaign, will be implemented using existing framework contracts.

4.6.19. Studies and conferences on Key Activity 2: Language learning

Index reference in the table in Appendix 1: 6.60

The budget is intended to finance the plenary meetings of two platforms on multilingualism. The platform meetings with stakeholder organisations will complement the meetings with experts from the Member States under the Open Method of Coordination within the ET 2020 framework. The thematic priority themes in the field of multilingualism for the second cycle starting in 2012 will be defined by the end of 2011. Two meetings will be organised in the first semester of 2012 and two in the second semester of 2012, through existing framework contracts.

Activities will also include meetings in the framework of the new cooperation activities with Council of Europe in the field of multilingualism, which will be organised through existing framework contracts.

4.6.20. Anticipating and matching skills needs

Index reference in the table in Appendix 1: 5.75

The intervention envisages funding exchange on and analysis of skills needs, labour market intelligence and responsiveness of education and training systems, with a view to developing a more coherent approach and to ensure that skills needs are reflected in employment, education and training policy and practices. It could in particular support the exchanges between relevant research and public bodies in Member States, the organisation of conferences and studies on transversal issues (such a key competences, transitions or methodological questions), communication and dissemination of the information produced. It will also fund the development of the skills panorama and activities related to the development of ESCO (a European terminology of skills, competences, qualifications and occupations). Framework contract(s) may be used for this intervention.

4.6.21. Conferences and events on Key Activity 1: Policy Cooperation and Innovation

Index reference in the table in Appendix 1: 5.96

Since 2007, DG EAC organises a big thematic European symposium with support from the EENEE and NESSE/NESET networks of experts (economists and sociologists of education). These symposia bring together a large number of European and national policy-makers, researchers, representatives of European-level stakeholder organisations, European social partners, practitioners and other actors. In 2012, the annual European Symposium on "Education and related policy strategies for equality and inclusion" will be part of the follow-up to the 2010 European Year and to the May 2010 Council Conclusions on the social dimension of education and training⁴⁴. It could be used to either launch or follow-up the Commission's overarching initiative "Equity in education and training to support European inclusive growth" which is planned for 2012, as a contribution to the implementation of the flagship European Anti-Poverty Platform initiative. This action will be implemented through an existing framework contract ("Team Work").

The conference on "Secondary analysis of international surveys" (PISA, PIRLS, ICCS, TIMSS) should preferably be held in the second half of 2012, as a follow-up to the international conference "Improving Education - Evidence from secondary analysis of international surveys" that took place in Stockholm on 30 November and 1st December 2009. The Commission is one of the most active and frequent user of data from international large scale assessments and surveys, and has been behind or supported several initiatives to further the availability and quality of indicators in the educational field. To further strengthen the benefit of existing international data sources to policy developments and cooperation both at the national and European level, further use of existing data in secondary analyses is of key importance.

This budget item will also support the organization of the Stakeholders' Forum on European Cooperation in Education and Training, as well as of the EQF seminars, the conference on validation of non formal learning and a contribution to the E-Skills Awareness Week. These actions will be implemented through an existing framework contracts.

Finally, a conference will be organised under the CY Presidency on creativity and innovation at school (Open Educational Resources and Creative Classrooms).

4.6.22. Studies and conferences on Key Activity 3: ICT

Index reference in the table in appendix: 7.30

In September 2012, a conference will be organised in cooperation with DG INFSO to set up a multiple stakeholder's forum on mainstreaming ICT in education, including Open Educational Resources and Creative Classrooms. It will be implemented using an existing framework contract.

4.6.23. Studies and conferences on Key Activity 1: Jean Monnet Action

Index reference in the table in Appendix 1: 9.50

The 2012 global Jean Monnet Conference on Europe 2020 will gather 450 Jean Monnet Professors from 68 countries, EU policymakers (Commissioners, MEPs, diplomats) and civil society representatives to discuss a priority theme of European integration in a global context. It will take place in November/December and will be implemented through the existing framework contract EAC/10/2009/01 with "Team Work".

⁴⁴ 2010/C 135/02 of 11 May 2010.

The Annual Thematic Jean Monnet Seminar will gather 120-150 Jean Monnet Chairs from the EU-27 and EU policy-makers (Commissioners, MEPs, diplomats) to discuss a priority theme of European integration. It will be organised around mid-2012 and will be implemented through the existing framework contract EAC/10/2009/01 with "Team Work".

The Conference on "Learning EU at School" initiative will gather 150 Jean Monnet Professors, representatives from relevant associations of teacher trainers, history and civics teachers, experts in communication and pedagogy, EU policy-makers and representatives of the Member States. It will be implemented through the existing framework contract EAC/10/2009/01 with "Team Work".

4.6.24. Evaluations

Index reference in the table in Appendix 1: 5.06, 5.24 and 3.95

As requested by the Europass decision, in 2012 the Commission will submit a report on the second evaluation of Europass. The amount is for a study to be carried out by an external contractor, probably through a framework contract as was done for the 2008 evaluation. A number of information gathering and fact finding activities, useful for the evaluation, will be carried out in the framework of other management and development activities related to Europass.

The EQF Recommendation provides for a report, to be submitted by April 2013, on the experience gained and the implications for the future with proposals for revisions as appropriate. This amount is for a report by a contractor to be prepared in 2012. A number of information gathering and fact finding activities, useful for the evaluation, will be carried out in the framework of other management and development activities related to the EQF, using if necessary the framework contract for support to policy development.

4.6.25. Multi-dimensional Ranking Framework

Index reference in the table in Appendix 1: 2.65

In summer 2011, the Commission will present the final results of a feasibility study on the design and testing of a multi-dimensional, personalised ranking framework⁴⁵. If this feasibility study proves successful, a broader implementation could be envisaged. An implementing body would be selected via a call for tender, through which funding would be provided for the first three years. After these three years the self-sustainability should be reviewed and based on the outcome a decision on further EU funding would be taken.

4.6.26. Pilot Survey on mobility in initial vocational education and training

Index reference in the table in Appendix 1: 5.65

In order to respond to the Council Conclusions of 28 November 2011 on the development of a benchmark on learning mobility⁴⁶ and to fill a concrete statistical gap as regards the learning mobility of students in initial vocational education and training (EUROSTAT data on this will not become available before 2015) it is foreseen to launch a survey on mobility in initial vocational education and training (IVET) in the second half of 2012.

Currently no data is available at EU level for the share of students graduating from IVET having a learning mobility experience. The data collected will help to confirm or adjust a baseline for the

⁴⁵ <http://www.u-multirank.eu>

⁴⁶ 16745/11, EDUC 270, SOC 983, JEUN 73
<http://register.consilium.europa.eu/pdf/en/11/st16/st16745.en11.pdf>

current mobility level proposed and allow reporting back to the Council in 2015 as a support for review of future mobility benchmarks in the framework of Council Conclusions on Mobility benchmarks. The pilot survey will be mainly school based, focussing on last year students.

The survey will be implemented through a call for tender.

4.6.27. Preparatory works for the new programme

Index reference in the table in Appendix 1: 12.30

In order to prepare the new programme post 2013 and to answer to some recommendations provided by the interim evaluation on LLP, it is foreseen to launch approximately three studies, during the second semester 2012, in the field of Indicators and Monitoring; Flat-rates and Costs of National Agencies.

The Indicators and Monitoring study will suggest a monitoring framework based on the set of indicators included in the draft proposal for a new programme. The flat-rates study will update the flat-rates in use in the current programmes that will be incorporated in the new programme, as well as provide input for a wider use of flat-rate and lump sum grants including for action types currently covered by grants based on real costs. The Costs of National Agencies study will review the cost of NAs operations in order to provide a reference basis for the operating grants to be allocated to NAs under the new programme and may look into grants for other functions of the NAs, such as their role as national support centre for e-Twinning, Bologna promotion etc.; ;it may also help identify good practices in terms of cost effectiveness.

The studies will be implemented using existing framework contracts or calls for tender.

5. OTHER METHODS OF IMPLEMENTATION

5.1. Joint management - Co-operation with the Council of Europe training of community and school mediators for Roma

Index reference in the table in Appendix 1: 5.95

As per Articles 53© and 53(d) of the FR and 43 of the IR, as per Article 8 of the Lifelong Learning Legal Basis which all provide for joint management with an international organization, a new joint action with the Council of Europe was implemented in 2011 to support the training of community and schooling mediators for Romani children, as well as for related activities. This action was implemented through a contribution agreement in line with the ongoing Memorandum of Understanding signed on 23 May 2007 between the Council of Europe and the European Union. This joint action will also be implemented in 2012.

The need for community and schooling mediation stems from the fact that in some Member States, candidate and neighbourhood countries, only about 30% of Roma children complete primary school, as documented by surveys conducted by independent organisations such as the Open Society Institute and the Roma Education Fund. Moreover, late entry into the school system leads to literacy and language difficulties and feeling of exclusion and inadequacy, which in turn increase the number of early school leavers (covered by a Europe 2020 educational headline target). Mediation is widely viewed as a key instrument to overcome discrimination and social exclusion and to break the vicious circle of alienation and estrangement.

5.2. Joint management - Co-operation with OECD on PIAAC portal

Index reference in the table in Appendix 1: 5.41

This action will support a joint Commission - OECD action for the development and implementation of a web portal in the framework of the Programme for International Assessment of Adult Competencies (PIAAC) survey. The new platform will allow individuals to assess their literacy, numeracy and problem solving skills using the PIAAC test instruments. The individuals' results will be presented in relation to national or international PIAAC results. The platform should be particularly useful for people wanting to return to education or to the labour market, as well as for enterprises in order to "assess their human capital".

This action will be implemented through the joint management procedure (Article 53 (c) of the FR and Article 43 of the IR), and the maximum Commission co-financing rate will be 75%.

* In order to facilitate the work of the NAs, the Commission will sign separate contracts with the coordinating NAs (AT and IT) for the total value of the contribution to the coordination to the tools ADAM and EST, while it is integral part of the EU contribution to the management costs

Reserve funds:

Comenius amount unchanged since 1st revision of the 2012 WP (C(2011)9520)
 LdV amount unchanged since 1st revision of the 2012 WP (C(2011)9520)
 Grundtvig amount unchanged since 1st revision of the 2012 WP (C(2011)9520)

Amount:

16.178.000
 2.864.000
 7.657.000
 1.817.000

** Pupil mobility: additional 1.300.000 € will be distributed on the basis of flatrates according to the n° of incoming students for the on-arrival training

The reserve list does not apply to Erasmus, study visits and the operating grant

APPENDIX 4

LUMP SUMS AND FLAT-RATE FINANCING AUTHORISED FOR 2012 AND 2013 FOR THE LIFELONG LEARNING PROGRAMME (LLP)

Having recourse to lump sum and flat-rate financing simplifies the calculation of the grant amount considerably in comparison to the 'traditional' system of basing the amount of the grant on a detailed budget of eligible costs. It has in particular the following advantages:

- It enables applicants to take the pre-established lumps sums and flat-rates into account when submitting their applications for grants;
- Applying pre-established rates (adapted to apply to all applicants, where necessary), offers advantages in terms of transparency and equal treatment of beneficiaries;
- Financing on the basis of lump sums and flat-rates where an analysis of the cost base has been made ex-ante introduces an incentive for the beneficiary to use resources as economically as possible, as the final grant is based on the pre-established rates in function of the implementation of the action, without further adjustments of the grant amount based on realised financial information;
- The emphasis in managing grant agreements/decisions in application of lump sums and flat-rates is placed on the quality and level of achievement of measurable objectives, and is therefore focused on outputs rather than inputs. This implies that no ex-post reduction on the individual beneficiary level is foreseen where, for instance, the beneficiary has been able to make cost-savings or has been able to attract additional sources of financing;
- It therefore also reduces the level of uncertainty regarding the grant amount that a beneficiary might expect to receive;
- The approach offers a considerable reduction in administrative work for the beneficiary and a significant simplification in its reporting to the contracting authority;
- It significantly decreases the workload of the contracting authority (in comparison to the analysis of a detailed budget of eligible costs per cost category) and as a consequence speeds up the payment procedure.

The actions falling under the Lifelong Learning Programme are particularly well suited to this approach, involving a large number of low-value grants of a recurring nature. In 2012 it is envisaged that around 310,000 individuals will receive a grant for their participation in mobility actions (pupils, students, teachers, adult learners, professionals, etc.) under all sub-programmes under the LLP. Moreover, it is envisaged that around 7,600 partners will be able to collaborate in partnership actions on themes of mutual interest under the sub-programmes.

The mobility and partnership actions are similar in nature across the LLP, involving a homogenous structure and level of costs. Moreover, the EU contribution provided is relatively low, ensuring the respect of the co-financing and no-profit rules. Therefore, significant gains can be drawn by establishing and applying harmonised lump sum and flat-rate schemes across the programme.

This appendix updates the lump sums and flat-rates adopted by decision C(2009)7734 of 14 October 2009, amended by decision C(2010)7190 of 22 October 2010, and complements the annual work programme C(2011)5502 adopted on 4 August 2011 and amended by decision C(2011)9520 of 20 December 2011, allowing Albania, the former Yugoslav Republic of Macedonia and Serbia to benefit from lump sum and flat-rate financing as from 2012, subject to the signature of the Memoranda of Understanding between the

European Commission and the competent authorities of these countries for their participation in the Lifelong Learning Programme as from 2012. It also updates the table for the Jean Monnet Programme, Key activity 3 for 2012 and 2013. The lump sums and flat-rates proposed will be valid during 2012 and 2013.

1. LUMP SUMS AND FLAT-RATES AUTHORISED FOR APPLICATION IN 2012 AND 2013

1.1. Lump sums and flat-rates applied to mobility actions

Mobility actions are co-financed by the Union under all sub-programmes of the Lifelong Learning Programme. The co-financed costs relate to the mobility of the individual (subsistence, travel, linguistic and cultural preparation) as well as to the management and the follow-up of the mobility action. The mobility actions are funded through the National Agencies.

Scales of unit costs are well suited to the low-value grants for the LLP mobility actions. They are of a recurring nature, are treated in large numbers and involve a homogenous cost structure and level. Around 310,000 individual mobility grants are envisaged, in combination with grants for the organisation of the mobilities, in 2012.

1.1.1. Subsistence and travel costs

For all mobility actions, the contribution to subsistence costs will be calculated as an overall amount on the basis of the duration of stay. Subsistence costs cover accommodation, meals, local travel, the cost of telecommunications, including fax and Internet, as well as other sundries.

For mobility actions with duration of up to and including 12 weeks, travel and costs are reimbursed on the basis of real costs, except for the Grundtvig Workshops. The Grundtvig Workshops constitute an action with duration of one week, where participants will be based in the same location which justifies lower subsistence costs. Due to the lower subsistence cost, the global amount is deemed to cover also the travel costs.

For mobility actions with duration longer than 12 weeks, the lump sum constitutes an overall amount considered to include also travel costs. The principle of proportionality justifies the approach of including travel costs for mobility actions of duration longer than 12 weeks, as the contribution towards the travel costs represents only a minor part compared to the global amount for subsistence.

1.1.1.1. Comenius, Grundtvig and Leonardo da Vinci – Mobility actions - Subsistence costs

The rates are calculated for each host country and apply to the different sub-programmes except for the mobility of students under the Erasmus programme. The daily rate for Belgium is used as the basic rate for the scale, and corresponds to 75% of the value in the Commission Mission Guide (to cover daily subsistence and accommodation costs applied to Commission officials).

The daily rates for other countries are based on the cost of living index in comparison to Belgium, as provided by Eurostat. The mobility actions include a range of different types of activities, ranging from study visits / attendance in courses of a few days or one week, up to longer stays of a maximum of 45 weeks. For reasons of simplification, one single scale is applied, based on gradually reducing rates that take into account the fact that a longer stay will induce relatively lower costs than a short stay.

A course may run over a full calendar week, in which case it is necessary to make available a grant for a full 7 days in the first week. For a one week study visit-stay undertaken by a professional, the options to hotel accommodation are very limited. Therefore it is necessary to provide the possibility of a higher daily rate throughout the first week. For longer stays better rates can be negotiated and

alternative arrangements for accommodation become available, whereby the average daily rate decreases.

In order to take into account the possible national, regional and local co-financing and other national features, as well as specific requirements of persons with special needs, the national authorities in cooperation with the National Agencies may adjust the rates to be applied taking into account the duration of the various mobility actions and the target group, while respecting the maximum amounts and common criteria laid down at EU level.

The subsistence rates were first established in 2008, for application in 2008 and 2009. The experience shows that the method of calculation is well adapted, particularly to the short-term durations of stay (i.e. from 1 to 12 weeks), to the types of actions co-financed. The basic daily rate applied for the first week, constitutes 75% of the daily accommodation and allowance rate provided by the Staff Regulation of the Commission. The rate is updated with the corrector coefficients of Eurostat (July 2010). For longer durations (i.e. more than 12 weeks), the amounts are based on the "Study on daily staff costs and long term transnational stays subsistence costs" (2011).

Source: Commission mission guide; Eurostat: Correction coefficients in the European Union (Capitals), total and total without rents - Brussels=100 (Data refer to 1st July 2010); "Study on daily staff costs and long term transnational stays subsistence costs", EAC/55/2010, 2011.

For LI, CH is taken. For HR, Articles 12 and 13 of Annex X to the Staff Regulations 22.09.2010, 54-2010.

* For weeks 3-12 and 14-45, additional full weeks are counted on the basis of the amount indicated in the columns 'Additional amount for weeks 3-12 and 14-45'.

** This includes a special amount covering travel and visa costs as they are included from week 13 onwards.

The calculation method for an "incomplete" week is the number of additional days multiplied with 1/7 of the amount indicated in the columns 'Additional amount per week' for weeks 3-12 and 14-45. An exception is made for the second incomplete week for which the basis for calculation is the number of additional days multiplied by 1/7 of the difference between the amounts for one week and two weeks.

In the case of a stay with duration between 12 and 13 weeks (i.e. an incomplete 13th week) the basis for calculation will be the amount due for 12 weeks increased by 1/7 of the amount indicated in the columns 'Additional amount per week' for each additional day. The total amount thus obtained will be considered excluding travel and visa costs.

1.1.1.2. Erasmus programme – Mobility actions – Subsistence Costs

The specific scale for the Erasmus programme concerns mobility of students. The scale is adapted to the lower level of costs incurred by this category of beneficiaries, as well as to the longer duration of the stay (i.e. in principle a minimum of 3 months applies).

A basic amount is calculated for Bulgaria (because it is the country with the lowest cost of living) on the basis of the analysis of statistical data on actual grants levels provided by the National Agencies. The Eurostat cost of living index is then applied to arrive at the rates applicable to the other host countries. The National Agencies may set lower grant levels than the maximum amount established for the host country, taking into account the other sources of financing available, the socio-economic background of individual participants and the volume of demand.

For Erasmus Intensive Programmes, the rates below do not include travel costs which can be (partially) reimbursed based on real cost. This is justified by the shorter duration of the stay, where the grant amount is calculated as a pro rata of the monthly rate.

1.1.2. Costs for the organisation of mobility and courses

A number of actions require the clear commitment from the sending or hosting organisation to ensure quality in all dimensions (pedagogic as well as logistic) of the mobility period. Such costs can be covered by either lump sums or scales of unit costs. This support is given to the organisation, not the individual, and is intended to cover a part of the costs relative to the organisation of the mobilities.

The lump sum and flat-rate amounts have been established on the basis of real costs reported under previous exercises under the same or similar activities. The rates have been established in a way so as to ensure that the co-financing and no-profit rules are respected.

⁴⁷ For Erasmus Intensive Programmes, these rates do not include travel cost which can be (partially) reimbursed based on real cost.

1.1.2.1. Erasmus and Leonardo da Vinci – Grants to sending organisations for the organisation of mobility

Scales are defined per group of outgoing persons and, in the case of Erasmus, for incoming invited teaching staff from enterprises. The grant is intended to ensure quality of the mobility arrangements for student and staff.

The organisations sending people abroad incur a variety of costs required by a proper framework that guarantees quality in all dimensions (pedagogic as well as logistic) of the mobility period. This comprises information, definition of training plan, pedagogical, language and cultural preparation, monitoring and tutoring of the beneficiary, validation of competences and logistic support (assistance in accommodation, residence permits, social security and visas, provision of health insurance, finding suitable placements, etc.).

The grant is awarded as a flat-rate amount, in function of the number of beneficiaries and the rates per beneficiary. The rates were first established in 2006, on the basis of the real costs incurred by the National Agencies in 2005 for the organisation of mobility of Erasmus students. In 2007 these rates were extended to cover also the Leonardo da Vinci placements with a similar cost structure and level. The experience shows that the established rates remain appropriate for application in 2012 and 2013.

Table 3: Maximum scale of unit cost applicable to sending organisations for the organisation of mobility – Erasmus and Leonardo da Vinci Programmes

Scale 1 (1 st to 25 th person)	390 / beneficiary
Scale 2 (26 th to 100 th person)	315 / beneficiary
Scale 3 (101 st to 400 th person)	225 / beneficiary
Scale 4 (> 400 th person)	180 / beneficiary

1.1.2.2. Comenius, Leonardo da Vinci and Grundtvig – grants for the preparation of mobility

The grant will be available for the following actions: Comenius: in-service training for school education staff, assistantships; Leonardo da Vinci: mobility (initial vocational training, people on the labour market, VET professionals); Grundtvig: in-service training for adult education staff, assistantships, visits and exchanges, and workshops).

The grant is under the Leonardo da Vinci sub-programme awarded to the sending organisation as a flat-rate amount, in function of the number of beneficiaries. Under the Comenius and Grundtvig sub-programmes, the grant is awarded as a lump sum to the individual.

The rate was first established in 2006, in line with the experience gained from co-financed projects, under the Leonardo da Vinci programme. Since 2008 the rate has been extended to be applied also to similar actions with similar costs structures and levels under other sub-programmes. The experience shows that the rate applied remains appropriate for application in 2012 and 2013.

Table 4: Maximum flat-rate amount for the preparation of mobility

Preparation costs	Flat-rate for pedagogic, linguistic and cultural preparation per participant, if necessary	500 € / beneficiary
-------------------	--	---------------------

1.1.2.3. Grundtvig senior volunteering projects – Grants to sending and hosting organisations

The Grundtvig Initiative on Volunteering in Europe (GIVE) is an initiative implemented since 2009. In the context of these projects on senior volunteering as a form of informal learning, sending and

hosting organisations will receive flat-rate grants to organise the mobility of senior volunteers and further cooperation between the partner organisations.

The grant takes the form of a scale of unit cost and is based on the number of outgoing and incoming volunteers. The maximum amounts of the unit costs have been established on the basis of past experience in similar activities, in particular the European Voluntary Service for young people under the Youth Programme, whilst taking into account the particularities of the present action. The unit cost for the sending organisation is intended to cover costs relating to contacts with partner organisations, the pedagogic, linguistic and cultural preparation of the volunteer, communications with the volunteer when abroad as well other organisational costs and follow-up, whereas the hosting organisation will receive a flat-rate grant to cover for organisation costs. The unit costs have been established in a way so as to ensure that the principles of co-financing and no-profit are respected. The 2012 rate remains unchanged.

Table 5: Maximum scale of unit cost applicable to sending and hosting organisations for the organisation of mobility – Grundtvig Programme

<i>Activity</i>	<i>Maximum amount (in €)</i>
Sending	800 / volunteer
Hosting	390 / volunteer

1.1.2.4. Erasmus Intensive Language Courses (EILC) and Intensive Programmes (IPs); Grundtvig Workshops

EILCs are specialised courses in less widely used and less taught languages of the participating countries, with a normal duration of one month. The institutions selected by the NAs to organise the courses receive a grant for the organisation costs.

Grants for Erasmus Intensive programmes consist of three components: organisation costs, subsistence costs and travel costs. Organisation costs refer to costs incurred by the contracting institution for the preparation, actual running and evaluation of the course.

The grants for both actions will be awarded in the form of a lump sum. The amounts have been established on the basis of an examination of final reports of courses organised and funded in 2005.

The maximum base rate for Belgium is established at €6,160 for EILC and €7,180 for IPs and Grundtvig Workshops. The rates are determined in such a way that the beneficiary is required to bring in his own sources of funding (EU co-financing is around 70% in EILCs, and around 50% in IPs) and provides a reasonable assurance that the grant will not result in a profit for the beneficiary.

The maximum amount for the other countries is obtained by applying the Eurostat cost of living index to the base amount fixed for Belgium. The National Agencies will determine the amounts of the flat-rates to be used in their country within the maximum amounts established below.

These rates were first established for application in 2006, where after an update on the basis of the cost of living has been made. On the basis of the experience gained in subsequent years, the base rate remains appropriate for application in 2012 and 2013.

1.1.3. Comenius Individual Pupil Mobility Action

1.1.3.1. Grants for sending and hosting schools

A flat-rate grant for the sending school is established as a contribution to the costs of: organising the pupil selection; preparing the outgoing pupil; organising the travel for the pupil; keeping contact with the host school and the pupil; managing the grant including transfer of the contribution to the host school and the pupil monthly allowance; helping the pupil to evaluate the stay and reintegrate and encourage the pupil to share the experience with others; reporting to the national Agency, etc.

A flat-rate grant per pupil is established for the hosting school to contribute to covering costs related to: the identification and selection of a host family; introduction and support for the pupil during the exchange, including mentoring; offering language learning opportunities for the pupil; keeping contact with the sending school; end-of-stay evaluation of the pupil's stay; etc.

The amounts of the flat-rates are based on the costs of the administration of the action in the EFIL pilot project.

A flat-rate grant for the linguistic preparation of a pupil, where necessary, is established on the basis of the average amount spent on linguistic preparation in Comenius Assistantships in 2007.

Table 7: Flat-rate per pupil for organisational and preparation costs - Comenius

<i>Activity</i>	<i>Amount (in €)</i>
Sending school / organisational costs	150 € / pupil
Sending school / linguistic preparation	120 € / pupil
Hosting school / organisational costs	500 € / pupil

1.1.3.2. Grants for participating pupils

A monthly allowance is awarded as a scale of unit cost to contribute to e.g. study material and transport. The amount for the first month is higher in order to cover expenses occurring at the beginning of the stay abroad. The amounts are based on the rates used in the EFIL pilot project and adapted according to the standard cost of living index (Eurostat data).

1.2. Flat-rates applied to Multilateral Projects, Networks and Accompanying Measures

These actions are managed either under the centralised indirect management mode by the National Agencies - Multilateral Projects: Transfer of innovation for the Leonardo da Vinci programme; or under the centralised direct management mode by the Commission or the Executive Agency for Education and Culture EACEA and concern multilateral projects, networks and accompanying measures.

1.2.1. Staff Costs

Eligible staff costs are calculated on the basis of scales of eligible unit costs. The unit cost covers cost of staff assigned to the action, either by the beneficiary or by the co-beneficiaries (partners), comprising actual salaries plus social security charges and other statutory costs included in the remuneration. The staff costs may not exceed those stipulated in Table 9. If any real staff costs do exceed these amounts, the amount of excess will not be taken into account as eligible cost. To ensure

the respect of the co-financing and no-profit rules, the global co-financing percentage (normally 75%) will be applied to these rates.

The staff cost rates are based on a study conducted by an independent research company in 2011. The rates have been calculated on the basis of the index reflecting the annual labour costs per country (Structure of Earnings statistics and Labour Cost statistics, published by Eurostat or by the national statistic offices). The table below comprises the maximum eligible daily rates, to which the EU co-financing percentage will be applied.

Table 9: Maximum eligible daily rates for Staff Costs – Multilateral Projects, Networks and Accompanying Measures – applicable to all sub-programmes and Key Activities under the Transversal Programme

Source: "Study on daily staff costs and long term transnational stays subsistence costs", EAC/55/2010, 2011.

For third countries, the staff costs are divided into categories 1 to 4 of the International Standard Classification of Occupations (ISCO) and the following maximum amounts apply:

- Staff category 1 (maximum amount € 450/day)
- Staff category 2 (maximum amount € 300/day) – University Professors
- Staff category 3 (maximum amount € 250/day)
- Staff category 4 (maximum amount € 125/day)

* Provisional code which does not prejudice in any way the definitive nomenclature for this country, which will be agreed following the conclusion of negotiations currently taking place under the auspices of UN.

1.2.2. Subsistence costs

The flat-rate scale approved by the Commission for accommodation and daily allowances for mission costs is applied to subsistence within countries participating in the LLP, in accordance with Article 181.1(b) of the IR.

To ensure the respect of the co-financing and no-profit rules, the global co-financing percentage (normally 75%) will be applied to these rates.

1.3. Lump sums and flat-rates applied to partnership actions

Partnership grants provide support to local activities and mobility activities for the Comenius, Leonardo da Vinci and Grundtvig programmes. These actions are currently managed by the National Agencies. The activities consist of local activities in the partner's own organisation (learning activities, fieldwork, research, cooperation on specific education and training fields, etc.) and mobility activities to its partners abroad (project meetings, head teacher study visits, staff exchanges, etc.).

Partnerships are often small-scale cooperation projects usually made up of organisations from at least 3 countries. The partnership application is jointly prepared by all organisations, but each organisation receives its own grant from its own National Agency. Each National Agency is therefore responsible for issuing and managing grant agreements with its own organisation.

1.3.1. Costs covered by the lump sum applicable to partnership actions

Support to the costs of the partnership is given in the form of a lump sum grant, which will cover a part of all eligible costs relative to the activities of the partnership, i.e. costs for local activities (publications, software, translation, language preparation, etc.), costs for travel and travel insurance and subsistence during mobility periods. Each partner will receive a lump sum for a minimum number of mobilities.

The rates proposed for the Comenius Regio Partnerships exclude other types of costs than those related to mobilities (travel and subsistence).

1.3.1.1. Comenius (except Regio action), Leonardo da Vinci and Grundtvig partnerships

The amounts have been established as a lump sum to be awarded to each partner involved in the partnership. The lump sum was first established for 2007 and was based on the average annual real amount awarded in 2006. As an additional check of the level of the grant proposed, National Agencies had to justify their proposed lump sums in 2007, which were then validated by the Commission.

Against this basis the maximum lump sum per partner is established taking into account the expected average grant amount as well as the spread between, and within, countries. The rates are based on the rates approved for 2008, with a fine-tuning of the scale brought in for 2009. The relatively low amount proposed ensures that the beneficiaries have to contribute with their own funds and excludes that the grant would result in a profit.

The rate to be applied for each country will be agreed with National Agencies, within the limits fixed by the Commission. It remains applicable in 2012 and 2013.

Table 11: Maximum lump sum per partner for partnership grants - Comenius (except Regio partnerships), Leonardo da Vinci and Grundtvig

Partnership type		Minimum n° of mobilities per partner in a 2-year Partnership	Maximum lump sum grant per partner	Maximum lump sum grant per partner	Maximum lump sum grant per partner
			COMENIUS	LEONARDO DA VINCI	GRUNDTVIG
Multilateral Partnerships	Small n° of mobilities	4	10,000 €	10,000 €	15,000 €
	Limited n° of mobilities	8	15,000 €	15,000 €	17,500 €
	Average n° of mobilities	12	20,000 €	20,000 €	20,000 €
	High n° of mobilities	24	25,000 €	25,000 €	25,000 €
Bilateral Partnerships	Bilateral Comenius Partnerships - Small group class exchange of 10 to 19 pupils.	12	20,000 €	-	-
	Bilateral Comenius Partnerships - Large group class exchange of 20 pupils or more	24	25,000 €	-	-

1.3.1.2. *Comenius Regio Partnerships*

Comenius Regio grants consist of a lump sum to cover costs related to mobility of individuals together with a reimbursement of a specified proportion of real costs incurred for additional expenses (excluding staff costs). The lump sum has been established on the basis of experience gained of the cost structure and level in prior Partnership actions, and has been adapted to the specific characteristics of the new action. Unlike the rate applied to other partnerships, the proposed rate excludes other types of costs than those related to mobilities (travel and subsistence) in order to allow Comenius Regio Partnerships to conduct different activities including the organisation of larger scale conferences or the implementation of research activities and studies. The lump sum was first established for application in 2009, and remains applicable in 2012 and 2013.

Table 12: Maximum lump sum per partner for partnership grants - Comenius Regio partnerships

Comenius Regio Partnerships	Partnership categories		Long distances (> 300 km)	Short distances (< 300 km)
	Small number of mobilities	4	4,000 €	2,000 €
Limited number of mobilities	8	8,000 €	4,000 €	
Average number of mobilities	12	10,000 €	5,000 €	
High number of mobilities	24	20,000 €	10,000 €	

1.4. Lump sums and flat-rates applied to Jean Monnet actions

Grants are awarded under the Jean Monnet sub-programme for the support of European integration studies in universities all over the world. The Jean Monnet grants are primarily intended to cover the cost of teaching activities offered for a period of three academic years, and costs related to the organisation of conferences and seminars in the field of European integration studies for a period of one or two years. The project outputs under these activities are standardised, the maximum levels of

the grants are low and the applicants (EU study centres/higher education institutions) and beneficiaries (specialists in EU integration studies) are homogenous.

A flat-rate scheme is established in support of teaching activities (Jean Monnet Chairs, *ad personam* Jean Monnet Chairs and Teaching modules) and the organisation of conferences, round tables etc. (Information and Research Activities). The flat-rate grant for teaching activities is awarded according to the number of teaching hours for Jean Monnet Chairs, *ad personam* Jean Monnet Chairs and Modules and takes in to account the number of participants in relation to the organisation of conferences and workshops for Information and Research Activities.

For non-EU Member States, the staff costs for Jean Monnet projects may not exceed the normal costs for each staff category in the country concerned. For third countries, staff costs are divided into categories 1 to 4 of the International Standard Classification of Occupations (ISCO) and the following maximum amounts apply:

- Staff category 1 (maximum amount €450/day)
- Staff category 2 (maximum amount €300/day) – University Professors
- Staff category 3 (maximum amount €250/day)
- Staff category 4 (maximum amount €125/day)

1.4.1. Jean Monnet Chairs, *ad personam* Jean Monnet Chairs and teaching Modules

A scale of a national teaching cost per hour is applied as the basis for arriving at the lump sum to be awarded for these activities. The national teaching cost per hour has been established on the basis of an analysis undertaken in 2008 of real costs incurred under projects selected in 2004 and 2005, completed in 2007 and 2008, as well as ongoing projects. Against this background a basic rate has been established, which is adjusted for the new two-year period 2012-2013 for the various countries on the basis of the relevant cost of living index (Eurostat and World Bank data).

To arrive at the lump sum grant awarded the national teaching cost per hour is first multiplied by the (minimum) number of hours required for a Teaching Module (120 hours) or the Jean Monnet Chair and *ad personam* Jean Monnet Chairs (270 hours). Secondly, a "top-up" percentage of 10% for a Jean Monnet Chair and *ad personam* Jean Monnet Chair, and of 40% for a Teaching Module is added to the above mentioned costs basis. This top-up percentage takes account of the additional academic activities included in a Teaching Module and a Chair (such as staff costs, travel and subsistence costs, dissemination costs, costs for teaching materials and indirect costs).

The top-up percentage is higher for a Teaching Module, as more additional (accompanying) activities will take place and several different teachers/professors may be involved.

The final grant is obtained by applying the maximum 75% EU co-funding to the total amount arrived at by applying the above explained calculation method, within the respect of the maximum grant ceiling for each type of project (€45,000 for Jean Monnet Chairs and €21,000 for Teaching Modules).

This calculation method ensures that the co-financing principle is respected and that there is a reasonable assurance that the grant will not result in a profit for the beneficiary. Moreover, the analysis made shows that around 70-80% of beneficiaries will receive a grant amount very similar to the one received on the basis of reimbursement of real costs.

1.4.2. Information and Research Activities

The grant to be awarded is calculated on the basis of scales of allowance costs per participants (local and non-local) together with a lump sum for production and dissemination costs.

A unit cost per participant, to cover the participation, travel and subsistence costs has been established for participants contributing to the action. The scale of unit costs for local participants corresponds to the scale as established by the SCIC for the participation in conferences. The allowance scale for non-local participants (normally speakers), covering accommodation and subsistence cost, is based on Commission per diem rates by applying a reduction of €35 in order to take into account lunch expenses that are already covered by the allowance scale for local participants. This basic rate is adjusted for the new two-year period 2012-2013 for the various countries on the basis of the relevant cost of living index (Eurostat and World Bank data).

The unit costs are multiplied by the number of participants and days over which the event runs. A lump sum of €5,000 for Information and Research Activities (IRA) and €25,000 for Information and Research Activities for Learning EU at School (IRA LEU) for covering production and dissemination costs is added to the result of the above calculation. The final grant is obtained by applying the maximum EU 75% funding of total project costs and by respecting the maximum grant ceiling for this project type (€40,000 for IRA and €60,000 for IRA LEU).

This calculation method ensures that the co-financing principle is respected and that there is a reasonable assurance that the grant will not result in a profit for the beneficiary. Moreover, the analysis made shows that around 80% of beneficiaries will receive a grant amount very similar to the one received on the basis of reimbursement of real costs.

In the frame of the Jean Monnet Programme, Key Activity 3: European Associations active in the field of education and training, flat-rate financing has been introduced in 2009 and are updated for the years 2012 and 2013. The method of calculation used for this up-date is the following:

- The amount of €32,707 € (EU100) that was the basis for calculating the flat-rates of each country for 2009-2010 was indexed by 6,0% (2 x 3%), taking into account the average inflation rate of the two last years 2007 and 2008 (i.e. 2007 => 2,3% and 2008 => 3,7% = 3%) for which data were available, plus 3% for the years 2009 and 2010 for which EUROSTAT data were not available at that time (i.e. 08.2010)⁴⁸.
- The amount calculated above (i.e. €34,669) as the new basis for establishing the flat-rates related to the years 2011 and 2012 was then indexed with the Gross Domestic Product (GDP) per capita (i.e. per person) in Purchasing Power Standards (PPS) (EU-27 = 100) applicable to the countries concerned (depending on each Programme's list of eligible countries)⁴⁹.

APPENDIX 5

LUMP SUMS AND FLAT-RATE FINANCING AUTHORISED FOR 2012 AND 2013 FOR THE EURYDICE NATIONAL UNITS

In 2011, the new system for funding the national units was introduced for a nine-month period (April to December 2011). As of 2012, it will cover a twelve-month period (from January to December). In complement to the annual work programme C(2011)5502 adopted on 4 August 2011, as amended by decision C(2011)9520 of 20 December 2011, Albania, the former Yugoslav Republic of Macedonia and Serbia are allowed to benefit from lump sum and flat-rate financing as of 2012, subject to the signature of the Memoranda of Understanding between the European Commission and the competent authorities of these countries for their participation in the Lifelong Learning Programme.

This system, essentially based on lump sums and flat-rate financing linked to measurable outputs, makes it possible, using a number of simple criteria as a basis, to define the level of the EU financial support for each unit. The financial contribution is payable provided that the planned outputs, in line with the agreed quality standards, have been achieved. Each year, a common frame of reference will specify the reduction to be applied to the financial contribution in the event that certain activities are not carried out (or carried out below the agreed quality standard).

This system of funding takes into account the fact that the EU contribution does not cover more than 75 % of the total costs and that no lump sum will exceed the €25,000 threshold, in compliance with Article 181 of the IR.

The maximum grant will be calculated by adding the amounts under the five categories of individual lump sums and flat-rate financing as defined below.

1. Participation in common activities

The EACEA has evaluated the number of days needed by each unit to perform these joint tasks. The amount that will be awarded as a flat-rate financing is calculated by multiplying this number of days by a national cost per day based on Table 9 of Appendix 4⁵⁰, i.e. on the basis of the scales for staff costs applied across the LLP. The Eurydice daily rate, compared to the LLP reference rate, includes 7 % administrative costs and is multiplied by 75 % to take account of the national co-financing part. The national daily rate, which is used as a basis for calculating the flat-rate financing, will be adapted each year based on the reference Table 9.

Concerning the work that has to be performed at a national level, 5 sub-categories have been identified to take account of differing national situations: (1) reference group; (2) country with a less developed higher education system; (3) country with a large population requiring more promotional work; (4) heavily decentralised countries requiring co-ordination of several regions; (5) federal unit working on several matters in co-ordination with the unit representing the regions.⁵¹

Albania, the former Yugoslav Republic of Macedonia and Serbia will be considered as category 1 countries. However, in 2012, they will not be able to participate to the Eurydice reports and their work will be limited to the following activities:

⁵⁰ Category "Manager". The manager category has been selected as the work to be implemented is highly skilled.
⁵¹ Category 1 — 210 days: BE fr, BE nl, BG, CZ, DK, EE, EL, IE, LV, LT, HU, NL, AT, PT, RO, SI, SK, FI, SE, UK-SCT, IS, NO, CH, HR. In 2012, only 88 days for AL, MK, RS.
Category 2 — 137 days: BE de, CY, LU, MT, LI;
Category 3 — 215 days: FR, IT, PL, TR;
Category 4 — 292 days: DE *Länder*, ES, UK-E/W/NI;
Category 5 — 20 days: DE *Bund*

- Description of their national education system in Eurypedia;
- Promotional activities.

For this reason, the calculation of the flat-rate for this criterion is limited to 88 days in 2012. In 2013, the flat-rate of Albania, the former Yugoslav Republic of Macedonia and Serbia for this criterion will be calculated as follows:

- For countries, which participated in 2012, it will be calculated on the basis of the standard number of days for category 1, i.e. 210;
- For countries, which will only participate as of 2013, the number of days will be 88 for the first year.

2. Participation in Eurydice meetings

The flat-rate financing allows for an annual average of 2 working meetings in Brussels a year and is based on an allowance of 75 % towards the associated costs: 2 journeys (return tickets), 4 nights in a hotel and 4 per diem allowances for each unit. The flat-rate financing varies according to the distance.⁵²

The calculation at the time of the final report is carried out on a pro rata basis for the number of meetings organised by the EACEA (generally 2 per year) at which the unit was actually represented.

Albania, the former Yugoslav Republic of Macedonia and Serbia will be considered as category 4 countries.

3. Translations into English of national education system descriptions

The lump sum is exclusively targeted at national units that are producing the detailed description of their educational system in at least two different language versions: English and the national language(s).

It is calculated on the basis of 150 standard pages of translation (1,500 characters) at €30 per page, multiplying this overall cost by 75 % in order to integrate the national co-financing part.

The standard lump sum is €3,370.⁵³ The lump sum will be awarded provided the detailed description of the educational system has been updated in at least two different language versions.

4. Translations into the national language(s)

The list of publications that may be translated into the national language(s) for promotional purposes is established by the EACEA. Only translations into official languages other than DE, EN and FR are eligible. Translations into these three aforementioned languages are financed by EACEA.

The common frame of reference will specify the applicable flat-rate financing for each publication.⁵⁴ The flat-rate financing is established on the basis of the mean number of pages for each predefined

⁵² Category 1 — € 0 (units located in Brussels): BE fr, BE nl

Category 2 — € 800: BE de, DE *Länder*, FR, LU, NL

Category 3 — € 1,200: CZ, DK, DE *Bund*, ES, IE, IT, HU, MT, AT, PL, PT, SI, SK, UK, LI, CH

Category 4 — € 1,700: BG, EE, EL, CY, LV, LT, RO, FI, SE, IS, NO, HR, TR, AL, MK, RS.

⁵³ The units can decide from one year to the next whether they wish to remove or add the version in their national language.

⁵⁴ As the demand for this item can vary significantly according to recently published titles and national priorities, the EACEA may need to negotiate with some units before the funding decision is signed to reduce the overall amount associated with these flat-rate financing (e.g.: postponement of the translation of a study to the following year;

flat-rate category. This mean number of printed pages is converted into standard pages at €30 per page of 1,500 characters multiplying this overall cost by 75% to include the national co-financing part. Printing costs are not included as national units are encouraged to publish online.

Number of printed pages	Flat-rate financing (€)
Between 1 and 10	200
Between 11 and 40	900
Between 41 and 70	1,900
Between 71 and 100	2,900
Between 101 and 130	3,900
Between 131 and 160	5,000
Between 161 and 190	6,000
Between 191 and 220	7,000
Between 221 and 250	8,000
Greater than 250	9,500

5. Integration of new members

A special additional lump sum of €15,000 a year over 3 years is given to new units to enable the implementation of the national units and their gradual integration into the activities of the network. This lump sum is payable de facto⁵⁵. The amount will cover the estimated initial costs such as installation costs, other costs associated with the needs to start up a new unit (set up of an expert pool, additional translation needs to prepare contributions from scratch and make them available in English, etc.). In 2012, this lump sum will apply to Turkey, Switzerland, Croatia, Albania, the former Yugoslav Republic of Macedonia and Serbia.

The flat-rates and lump sums proposed for the Albania, the former Yugoslav Republic of Macedonia and Serbia will be slightly increased in 2013, compared to 2012, based on the number of days to be taken into consideration for criterion 1, as explained above.

The estimated distribution of the budget allocated to the Eurydice national units and to Albania, the former Yugoslav Republic of Macedonia and Serbia and the 2012 reference scale for calculating criterion 1 is provided in the following tables:

reduced flat-rate financing for the translation of a study). A budget of approx. € 300,000 is reserved for this criterion in 2012.

The flat-rate financing are payable as long as the translations for which these sums were requested have been translated into the national language(s). In the event of the translation not being carried out, the associated flat-rate financing will be deducted from the final contribution.

⁵⁵ Turkey will receive this lump sum until 2012 (inclusive).

The 2012 Eurydice daily rates are calculated on the basis of the reference Table 9 of Appendix 4, according to the following formula:

$$(\text{LLP maximum/manager day} + \text{LLP maximum/manager day} * 7\%)*75\%$$

The daily rates of the table have been rounded for simplification.
