Dear Commission,

I can not submit my survey thru your website therefore I am writing to you via email. Please make it public as normally thru the survey.

Slovakia is in a horrible stance. Human rights don't exist in my country anymore. The almost fascist regime of Igor Matovič is violating human rights every day. We are forced to test ourselves every 7-14 days. Without this test, you can not move out of your flat. Not even within the city. Without this test, you can visit the nearest food store and visit the doctor and or walk your pet. You are forced to wear a mask everywhere, even in woodland. People can not breathe normally! Government double up police control and forcing police officers to penalization every person who demands human rights. We have to act like we are sick even we are not. This all is just a part of situation. There is a lot more but I am sure that you will receive a lot of complaints from Slovakia so I highlighted only some of the issues. I made this complaint public so everyone can see what could happen even in the EU once you don't watch your politicians. Slovak Government is violating International Convention on Human Rights, Charter of Fundamental Rights of the European Union and Constitution of the Slovak Republic as well. We all must stop this tyranny.

Best Regards
