

2021 Rule of Law Report - targeted stakeholder consultation

Fields marked with * are mandatory.

Introduction

The first annual Rule of Law Report was published on 30 September 2020. It is the core of the new European rule of law mechanism, which acts as a preventive tool, deepening multilateral dialogue and joint awareness of rule of law issues.

In the preparation of the first annual Rule of Law Report, the Commission relied on a diversity of relevant sources, including from Member States, country visits, and stakeholders' contributions collected through a targeted stakeholder consultation[1]. The information provided has informed the Member State-specific assessments of the Commission in preparing the Report. Building on the positive experience from the first Rule of Law Report, the Commission is inviting stakeholders to provide written contributions for the preparation of the 2021 Rule of Law Report through this targeted consultation.

The contributions should cover in particular (1) feedback and developments with regard to the points raised in the country chapters of the 2020 Rule of Law Report and (2) any other significant developments since January 2020[2] falling under the 'type of information' outlined in next section. This would also include significant rule of law developments in relation to the COVID-19 pandemic falling under the scope of the four pillars covered by the report.

The input should be short and concise, if possible in English, and summarise information related to one or more of the areas referred to in the template. You are invited to focus on the areas that relate to the scope of work and expertise of your organisation. Existing reports, statements, legislation or other documents may be referenced with a link (no need to provide the full text). Stakeholders are encouraged to make references to any contributions already provided in a different context or to Reports and documents already published.

Contributions should focus on significant developments both as regards the legal framework and its implementation in practice.

Please provide your contribution by 8 March. Should you have any requests for clarifications, you can contact the Commission at the following email address: rule-of-law-network@ec.europa.eu.

If you encounter persisting difficulties in submitting your contribution, please submit it directly by email to rule-of-law-network@ec.europa.eu

Hello, I would like to point out that there is no democracy in Slovakia. Children in schools are forced to wear a veil and can only go to school if the parent has a negative covid test. Some students have not been to school for over a year. There is discrimination against children in schools. It is pointlessly tested for covid if you do not have a covid test so you can't even go to work, the bank, to the doctor. Citizens are in material need. The National Council does not inform citizens about side effects after vaccination and that vaccines are conditionally approved. Human rights of movement and residence are constantly being violated. The Public Health Office issues nonsensical decrees that force people to comply, and citizens receive heavy fines for non-compliance. They restrict citizens' freedom not on the basis of the law but on the basis of decrees. And the worst part is that the Attorney General, Mr. Žilinka, who is supposed to be on the side of the citizen, is silent and does nothing.

Well thank you

Sincerely

Babková.

Questions on developments in Member States

The following four pillars are sub-divided into topics and sub-topics. You are invited to provide concrete information on significant developments, focusing primarily on developments since January 2020, for each of the sub-topics which are relevant for your work. Please feel free to provide a link to and reference relevant legislation/documents. Significant developments can include challenges, positive developments and best practices, covering both legislative developments or implementation and practices (as outlined under "type of information").

If there are developments you consider relevant under each of the four pillars that are not mentioned in the sub-topics, please add them under the section "other - please specify". Only significant developments should be covered.

Please note that, due to the size of the questionnaire, certain elements may be slow to load, especially if selecting many Member States at once. In such cases, it is recommended to wait a few minutes to let the page load correctly.
