.....Translation, a journey to the heart of Europe.....

.....The history of Europe is perhaps one of the most enthralling and complex of all the regions of the world. Homer wrote that, thanks to the evils that mankind suffers, poets would always have something to write about. Many centuries later, the brilliant historian Gombrich wrote that one of the greatest contributions Europe made to world history was the change introduced by Greece, transitioning from tradition to innovation, from copying the experts imitating what the greats had done before to searching for originality. We could say that, from these two elements a big part of what has happened in our continent over the last 2500 years can be explained.

.....Europe has a history of creative rivalry, but also one of endless wars and ancestral grudges, which has effectively ensured that writers and historians have a lot to talk about and explore. Well, in the case of Europe this rivalry has also been expressed in the large number of languages, even when, in comparison,
