

Emirates Steel :An eye on a climate neutral economy

Dr. Mohamed Shahtout

Emirates Steel

13th January 2020

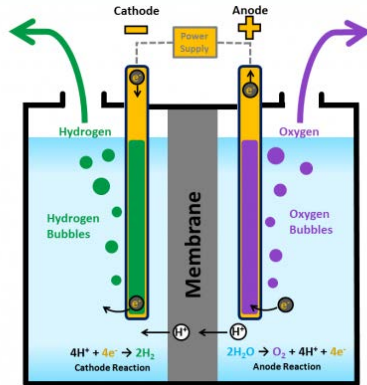

At Emirates Steel, we take our commitments to sustainability with great seriousness, in line with the UAE's commitments toward protecting the environment.

As such, we are proud of our membership to the Worldsteel Climate Action Programme.

The use of Emirates Steel products enables customers and product developers to meet local and international Green Building Rating requirements for steel products.

The following are some of the challenges that would required a hard work so that this study can be a viable alternative to replace natural gas by hydrogen:

Methods to produce

Impact on environment

Production Rate

Feasibility
(technical & economical)

THANK YOU
