

## Pararajasingam Jegatheeswaran

### Founder and Director of Canary Wharf Information Security Consultants Ltd (CWISC Ltd)

PJ Waran is a cybersecurity, technology risk, and internal audit professional with over 20 years of experience across banking, fintech, payments, and technology sectors in the UK, Europe, and Asia-Pacific. He has led and delivered audits, cyber assurance reviews, regulatory compliance assessments, and resilience programmes covering cloud security, cyber risk management, operational resilience, identity and access management, vulnerability management, and security governance.

PJ is the Founder and Director of Canary Wharf Information Security Consultants Ltd and [gogosecurity.co.uk](http://gogosecurity.co.uk), an accredited cybersecurity and AI learning, self assessment & audit platform. He specialises in helping organisations strengthen cyber resilience, meet regulatory expectations, and improve governance through practical risk-based assurance and audit approaches.
