

### **The National Anticorruption Strategy**

Measure 1.1.2 and 1.1.1 - According to the provisions of Government Decision no. 1.269/2021, all central and local public institutions and authorities have the task of assuming integrity plans and an organizational integrity agenda. Until now 1082 integrity plans have been centralized by ST SNA, and the centralization for the local public administration will be communicated by MDRAP.

Measure 1.1.8 of the SNA 2021-2025 - "Monitoring the development and implementation of the integrity plan within three public institutions, in a pilot system" - ST SNA provided support to the Ministry of Culture, the Ministry of Economy and the Ministry of Environment, Water and Forests in the process of developing their integrity plans (which were also adopted).

Measure 1.2.1: Promoting Romania's active role in regional and international anticorruption initiatives - MoJ promoted an active role of Romania in regional and international anti-corruption initiatives, through the participation of MoJ representatives in the activities carried out by: the Group of Governmental Experts for the Evaluation Mechanism of the implementation of the UN Convention against Corruption, European Network of Integrity and Whistleblowing Authorities, DG HOME, RAI, Network of Corruption Prevention Authorities (NCPA), the Support Platform for the Republic of Moldova.

Measure 2.7: Ex-post evaluation of public policies in terms of performance, profitability and public spending - The National Anti-Corruption Strategy 2016-2020 was evaluated under the project "Evaluation of the implementation of the National Anti-Corruption Strategy 2016-2020 and recommendations for the future" (NAS-EVAL) implemented in partnership with the Organization for Economic Cooperation and Development (OECD). The OECD experts analyzed the SNA from the perspective of the implementation of the indicators provided for in the OECD Recommendation on Public Integrity. NAS scored above the OECD average for 6 of the 8 indicators<sup>1</sup>. Moreover, in 3 of these indicators obtaining a score including above the average of the first 10 OECD member states (inclusiveness and transparency of intergovernmental and public consultations; conformity of implementation and reporting structures; transparency of evaluation practices and use in decision-making).

Measure 3.2.2: Amending the legal framework in order to ensure the uniform application of the general standard for the ex-officio publication of public interest information at the level of central and local public authorities - Measure 3.2.2 was implemented by adopting H.G. no. 830/2022 for the modification and completion of the Methodological Norms for the application of Law no. 544/2001 regarding free access to information of public interest, which includes in Annex no. 1 The model for structuring the information published ex officio on the web page of a public authority or institution.

<sup>1</sup> coverage of the strategic framework; evidence-based problem analysis and use of diagnostic tools; minimal content of public integrity strategies; inclusiveness and transparency of intergovernmental and public consultations; compliance of implementation structures and reporting; transparency of assessment practices and use in decision-making

## MINISTERUL JUSTIȚIEI

Measure 3.2.3: Ensuring the operational and legal framework for the use of the platform E-consultare - centralized catalogue for the publication of draft laws for public consultation purposes - The e-consultation platform is operational at the moment. In addition, according to the provisions of G.D. no. 830/2022, the General Secretariat of the Government will proceed with the development of the functionalities of the [www.e-consultare.gov.ro](http://www.e-consultare.gov.ro) platform within 18 months from the entry into force of the Decision.

Measure 3.2.5: Strengthening and extending the Unic Register of Transparency of Interests (RUTI) platform at the level of the Romanian Parliament and local public administration, as well as by raising awareness of the importance of the principles of integrity and transparency and integrity in decision-making processes - RUTI was consolidated through the adoption of the Order of the Secretary General of the Government no. 1.056/2022. Among others, the Order extends RUTI to the level of local public administration.

Measure 4.2.4: Extending the protocol on legal education in schools, universities included - The MoJ developed a new draft of the protocol on legal education in schools, which is currently in the inter-institutional approval procedure, the act being extended to university environment as well.

Measure 4.4.2: Developing a national risk map with the purpose to identify the functions involved in public procurement that are vulnerable to corruption, the areas where public procurement is more prone to corruption and the stages of public procurement procedures where signs of corruption appear - In partnership with PÎCCJ, DNA and ANAP, a project application called "Elaboration of a national risk map in the field of public procurement" was developed and submitted, to be financed through the Technical Support Instrument (TSI) of the European Commission, which is coordinated at national level by the General Secretariat of the Government (SGG).

Measure 4.5.1: Continuing to pursue Romania's objective to become a full-fledged member of the OECD and its relevant workgroups - The OECD Council decided on January 25, 2022, to start the accession discussions of Romania to the Organization, together with the other 5 candidate countries. By letter of 06.10.2022 the Minister of Justice officially requested accession to the Convention and the WGB, an essential step for starting the RO candidacy evaluation process.

Measure 4.5.5: Exchanging best practices in implementing the integrity programs between the private and the public sectors - During 2022, the bilateral project with AmCham to promote integrity in public enterprises was continued (the first meetings - April 13-14 and the second meeting of the network was scheduled for November this year).

According to the Methodology for monitoring the implementation of the NAS 2021-2025 approved by Order of the Minister of Justice no. 2046/C/12.05.2022, annual reports on the implementation of the NAS are drawn up based on the contributions sent by the members of the cooperation platforms<sup>2</sup>. The first annual report on NAS 2021-2025 will cover measures with a deadline for implementation in 2022 and measures with annual or permanent implementation.

---

<sup>2</sup> The deadline for this reporting will be March 1, 2023.

## MINISTERUL JUSTIȚIEI

The reporting will include: the narrative report on the implementation of the measures of each institution (including the information requested through the recommendation - point 3<sup>3</sup>); the inventory of institutional transparency and corruption prevention measures, as well as the set of performance indicators (Appendix no. 3 to SNA); the status of the integrity incidents, as well as a brief presentation of the remedy measures (including information requested through the recommendation - points 1 and 4<sup>4</sup>: the status of the integrity incidents include information on the disciplinary proceedings where it is applicable and where data is reported by the institution); annex 5 to the SNA for institutions that have public enterprises subordinated / coordinated / under authority.

---

<sup>3</sup> information on structural measures applied in vulnerable areas.

<sup>4</sup> statistics related to integrity incidents in public administration; details of disciplinary procedures and sanctions.
