

# How to use the ProcurComp<sup>EU</sup> tools?

ProcurComp<sup>EU</sup> is a set of voluntary, free to use and fully customisable tools. ProcurComp<sup>EU</sup> helps contracting authorities and individuals define what it takes to do their jobs well, identify gaps, and put in place targeted learning and development actions to address them.

# What are the benefits of ProcurComp<sup>EU</sup>?

ProcurComp<sup>EU</sup> enables procurement professionals to play a pivotal role in facing current and future challenges in delivering high value investment and services for the citizens. It helps organisations to build the teams of professionals they need to reach their strategic investment goals and to encourage careers in procurement. It helps individual public procurement professionals to valorise their competences, facilitates training and professional development. It also helps training providers to build the appropriate training programmes.
