

2026 Rule of Law Report - targeted stakeholder consultation

Fields marked with * are mandatory.

Introduction

The annual Rule of Law Report lies at the centre of the Annual Rule of Law Cycle, which acts as a preventive tool, deepening multilateral dialogue and joint awareness of rule of law issues. So far, six editions of the Rule of Law Report have been published since 2020.

As every year, the Commission would like to invite the stakeholders to provide contributions to the 2026 Rule of Law Report. On the basis of these contributions and on-going developments, further targeted questions may be shared at a later stage of preparation of the 2026 Rule of Law Report, in particular in the context of country visits, or bilateral contacts.

The Commission invites stakeholders to provide contributions which include:

- (1) developments and measures taken in relation to the recommendations in the 2025 report,**
- (2) developments related to topics covered in the 2025 country chapters, as well as any other new developments related to the rule of law.**

The input should consist of a short summary, if possible in English, covering the areas referred to below. Legislation or other documents may be referenced with a link. Contributions should focus on significant developments since the last Rule of Law Report both as regards the legal framework and its implementation in practice.

This questionnaire also integrates the separate questionnaire on the single market from last year. In addition to these specific questions, respondents to the questionnaire are invited to consider the Single Market dimension, including any relevant cross-border issues, in all their answers.

Where questions of particular relevance under the single market dimension, this is indicated before the relevant question.

[1] Unless the information was already submitted in the input for the previous Rule of Law Reports.

Type of information to be included:

Under each of the four pillars, the replies should include references to the following types of information:

A) Legislative developments

- Newly adopted legislation
- legislative drafts currently discussed in Parliament
- legislative plans envisaged by the Government

B) Policy developments

- Implementation and enforcement of legislation
- evaluations, impact assessment, surveys
- white papers/strategies/actions plans/consultation processes
- follow-up to reports/recommendations of Council of Europe bodies or other international organisations
- important administrative measures
- generalised practices

C) Developments related to the judiciary / independent authorities

- important case law by national courts
- important decision/opinions from independent bodies/authorities
- state of play on terms, nominations and expired mandates for high-level positions (e.g. Supreme Court, Constitutional Court, Council for the Judiciary, Prosecutor General, heads of independent authorities included in the scope of the request for input[2])

D) Any other relevant developments

- National authorities are free to add any further information, which they deem relevant; however, this should be short and to the point.

Where relevant, please also indicate whether the developments reported are linked to the implementation of reforms and investments under the national Recovery Resilience Plan. To simplify your answers to the questionnaire, if there are no developments, it is sufficient to indicate this and the information covered in the contributions for the previous Rule of Law Reports does not need not be repeated.

[2] Such as: media regulatory authorities and bodies, national human rights institutions, equality bodies, ombudsman institutions, supreme audit institutions and, where they exist, transparency authorities.

Questions on horizontal developments

In this section, you are invited to provide information on general horizontal developments or trends, both positive and negative, covering all or several Member States. In particular, you could mention issues that are common to several Member States, as well as best practices identified in one Member State that could be replicated. Moreover, you could refer to your activities in the area of the four pillars and sub-topics (an overview of all sub-topics can be found below), and, if you represent a Network of national organisations, to the support you might have provided to one of your national members.

Questions for contribution

Under each pillar, you are invited to provide information on measures taken to implement the recommendations addressed to the Member State in the 2025 Rule of Law report, as well as developments with regard to the points raised in the respective country chapter of the 2025 Rule of Law Report and any other significant developments since January 2025 and up to the date of submission[3]. Please always include a link to and reference relevant legislation/documents (in the national language and/or where available, in English). **Significant developments** can include challenges, positive developments and best practices, covering both legislative developments or implementation and practices.

Information provided in reply to the first question under each pillar, related to the follow-up to the recommendations, does not need to be repeated in subsequent parts of the questionnaire, but can be cross-referenced in the subsequent questions, where relevant. All other questions are not limited to the recommendations, but as in previous years, cover the entire scope of the Report.

[3] Unless already covered in the input for the previous Rule of Law Reports.

Member State/enlargement country covered in contribution [only one choice possible]

If you wish to submit information concerning several Member States/enlargement countries, please fill in the questionnaire separately for each country. There is no limit to the number of contributions submitted by a single participant.

I. Justice System

Please provide information on measures taken to follow-up on the recommendations received in the 2025 Report regarding the justice system (if applicable)

5000 character(s) maximum

A. Independence

Appointment and selection of judges, prosecutors and court presidents (incl. judicial review)

(The reference to 'judges' concerns judges at all level and types of courts as well as judges at constitutional courts)

5000 character(s) maximum

There are no changes in relation to the information provided in 2025.

Irremovability of judges, including transfers, (incl. as part of judicial map reform), dismissal and retirement regime of judges, court presidents and prosecutors (incl. judicial review)

5000 character(s) maximum

There are no changes in relation to the information provided in 2025.

Promotion of judges and prosecutors (incl. judicial review)

5000 character(s) maximum

There are no changes in relation to the information provided in 2025.

Allocation of cases in courts

5000 character(s) maximum

Independence (including composition and nomination and dismissal of its members), and powers of the body tasked with safeguarding the independence of the judiciary (e. g. Council for the Judiciary)

5000 character(s) maximum

Accountability of judges and prosecutors, including disciplinary regime and bodies and ethical rules, judicial immunity and criminal/civil (where applicable) liability of judges (incl. judicial review)

5000 character(s) maximum

There is a new regulation concerning disciplinary proceedings in the cases of judges, prosecutors and bailiffs since 1 January 2025 (Act No. 7/2002 Coll., on proceedings in the cases of judges, prosecutors and bailiffs, was amended). Information about this change was submitted in 2025.

It can be noted that Act on Public Prosecutors Offices and the Courts and Judges Act was amended by Act No. 269/2025 Coll. This amendment extended the limitation period after which disciplinary liability of a judge or a public prosecutor ceases, from three to five years. The Act entered into force on 1 January 2026.

Independence/autonomy of the prosecution service

5000 character(s) maximum

There are no changes in relation to the information provided in 2025.

Independence of the Bar (chamber/association of lawyers) and of lawyers

5000 character(s) maximum

Significant developments capable of affecting the perception that the general public has of the independence of the judiciary

5000 character(s) maximum

B. Quality of justice

(Under this topic, you are not required to give statistical information but should provide input on the type of information outlined in the introduction)

[single market relevance] Accessibility of courts (e.g. court/legal fees, legal aid, language)

5000 character(s) maximum

Resources of the judiciary (human/financial/material), remuneration/bonuses/rewards for judges and prosecutors, including observed changes (significant and targeted increase or decrease over the past year)

(Material resources refer e.g. to court buildings and other facilities. Financial resources include salaries of staff in courts and prosecution offices.)

5000 character(s) maximum

Salaries of public prosecutors – the legal regulation is contained in Act No. 201/1997 Coll., which sets out the rules for calculating the salaries of public prosecutors. The basis is a salary base derived from 90% of the salary base of judges and a personal coefficient of the public prosecutor given by his seniority and the position he holds in the public prosecutor's office. Information about the situation for 2025 was already submitted in 2025. From 1 January 2026, the salaries of public prosecutors are determined as standard according to statutory legislation.

At the same time, it should be noted that efforts are continuing to resolve past salary restrictions for public prosecutors through legal means, under the auspices of the Union of Public Prosecutors of the Czech Republic.

Salaries of other administrative staff - although in 2025 there was a certain increase in the volume of funds for the salaries of other employees of the state prosecutor's office, this was not a systemic solution and the salary of this group of employees is still not competitive in relation to similar positions in the private sector.

[single market relevance] Training of justice professionals (including judges, prosecutors, lawyers, court staff, clerks/trainees)

5000 character(s) maximum

The PGO is currently preparing a new concept for the training of state prosecutors and legal trainees; a novelty will include, among other things, periodic mandatory training of state prosecutors to a certain extent. Mandatory management training is being implemented for chief public prosecutors and deputies.

Digitalisation (e.g. use of digital technology, including electronic communication and AI tools, within the justice system and with court users, procedural rules, access to judgments online)

5000 character(s) maximum

ELVIZ Project – Electronic Information Management of the Public Prosecutor's Office: ELVIZ focuses on the digitalization of the public prosecutor's office agendas and the implementation of an electronic case management system at all levels of criminal prosecution. The project is still in the tendering phase, and objections from bidders are being resolved – it is big risk for the project. At the same time, there is a problem with the establishment of the eSIR/eSPIS project, when the supplier is in delay, which is a another major risk for the ELVIZ project as well.

PGO is also testing the use of AI for the activities of public prosecutors, primarily within commercial legal information systems. The Ministry of Justice has managed to secure an AI module from one of the suppliers for the entire justice sector.

Use of assessment tools and standards (e.g. ICT systems, including AI-based systems, for case management, court statistics and their transparency, monitoring, evaluation, surveys among court users or legal professionals)

5000 character(s) maximum

Geographical distribution and number of courts/jurisdictions (“judicial map”) and their specialisation, in particular specific courts or chambers within courts to deal with fraud and corruption cases.

5000 character(s) maximum

[single market relevance] Specialisation (of judges/specific courts/chambers within courts) and training for the judiciary to deal with commercial cases, as well as alternative dispute resolution mechanisms and mediation as regards commercial cases.

5000 character(s) maximum

C. Efficiency of the justice system

(Under this topic, you are not required to give statistical information but should provide input on the type of information outlined in the introduction)

[single market relevance] Developments related to efforts to improve the efficiency of the justice system (e.g. as regards length of proceedings, to address backlogs)

5000 character(s) maximum

In 2025, important amendment of CPC was adopted (Act No. 270/2025 Coll.). This Act introduced a number of changes, inter alia, in the field of criminal procedural law, aimed at ensuring that criminal proceedings are, as far as possible, swift, efficient, and not unnecessarily prolonged. E.g. modification of the criminal proceedings against legal persons - new type of diversion in proceedings against legal persons, placing emphasis on compensation for damage, and, where appropriate, adopting compliance programme, including oversight of its adoption and implementation. This Act entered into force in its main part on 1 January 2026, while the introduction of the new type of diversion in criminal proceedings against legal persons will take effect as of 1 July 2026.

Any other developments related to the justice system - please specify

5000 character(s) maximum

II. Anti-Corruption Framework

Where previous specific reports, published in the framework of the review under the UN Convention against Corruption, of GRECO, and of the OECD address the issues below, please make a reference to the points you wish to bring to the Commission's attention in these documents, indicating any relevant updates, changes or measures introduced that have occurred since these documents were published.

Please provide information on measures taken to follow-up on the recommendations received in the 2025 Report regarding the anti-corruption framework (if applicable):

5000 character(s) maximum

A. The institutional framework capacity to fight against corruption (prevention and investigation / prosecution)

List any **changes** as regards relevant authorities (e.g. national agencies, bodies) in charge of prevention, detection, investigation and prosecution of corruption and the resources allocated to each of these authorities (the human, financial, legal, and technical/specialised resources as relevant), including the cooperation among domestic and with foreign authorities. Indicate any relevant measures taken to effectively and timely cooperate with OLAF and EPPO

5000 character(s) maximum

Safeguards for the functional independence of the authorities tasked with the prevention and detection of corruption

5000 character(s) maximum

Information on the implementation of measures foreseen in the strategic anti-corruption framework (if applicable). If available, please provide relevant objectives and indicators

5000 character(s) maximum

B. Prevention

Measures to enhance integrity in the public sector in particular as regards high-level officials (including as regards incompatibility rules, revolving doors, codes of conduct, ethics)

5000 character(s) maximum

Measures to enhance general transparency of public decision-making (including rules on lobbying, asset and interest disclosure rules, gifts policy, transparency of political party, financing)

5000 character(s) maximum

Measures to prevent conflicts of interest in the public sector. Please specify the features and scope of their application (e.g. categories of officials concerned, types of checks and corrective measures depending on the category of officials concerned)

5000 character(s) maximum

--> For the three previous points, **please also provide information and figures on their application/enforcement if available to you**, such as number of detected breaches/irregularities of the various rules in place and the follow-up given (investigations, sanctions, etc.)

Measures to ensure whistleblower protection and encourage reporting of corruption, including their application (i.e. number of reports received, and the follow-up given)

5000 character(s) maximum

[single market relevance] Specific measures to enhance transparency, integrity and accountability in sectors with high risks of corruption, with a view to monitor and prevent corruption and conflict of interests, and where applicable measures to prevent and address corruption committed by organised crime groups.

- *Such high-risk sectors could include: public procurement, including construction, transport/infrastructure, defence, cohesion, agriculture, environment, healthcare, investor residence schemes, large-scale investments of national interest and the spending of EU funds, urban planning.*
- *In particular, measures to mitigate high risks of corruption in the area of public procurement, such as enhancing transparency and oversight (for example through digital technologies) and promoting fair competition and accountability in public procurement (e.g. targeted actions to address the high share of single bids) and measures to guarantee the effective and independent functioning of the public procurement review bodies.*

5000 character(s) maximum

[single market relevance] Measures for the prevention of corruption in relation to the issuing of official permits (e.g. related to environment, energy, service provision and various types of construction)

5000 character(s) maximum

C. Repression

The legal framework on the criminalisation and sanctions for corruption and related offences, including foreign bribery

5000 character(s) maximum

There have been no changes in the criminalization of corrupt acts compared to the information provided in the past. At the same time, it is necessary to refer here to the major amendment to the criminal regulations implemented by Act No. 270/2025 Coll.

Official data on the number of investigations, prosecutions, final judgments and the application of sanctions for corruption offences (differentiated by offence if possible). Please indicate whether the cases: involve legal persons; are related to the implementation of EU or national funds; involve high level corruption. Please indicate which data is publicly available and how policy-making is informed by the data

5000 character(s) maximum

Statistical data for 2025 will not be available until February 2026.

Potential obstacles identified in law or in practice to the investigation and prosecution of high-level and complex corruption cases (e.g. political immunity regulation, procedural rules, statute of limitations, cross-border cooperation, pardoning)

5000 character(s) maximum

We can mention e.g.:

- factually and legally complex (especially the area of corruption in public contracts)
- usually a larger number of accused in one proceeding
- use of aggressive defense procedures
- the need to wait for the settlement of international judicial cooperation in matters that have a cross-border dimension

Information on effectiveness of criminal and non-criminal measures and of sanctions (e.g. recovery measures and administrative sanctions) on both public and private offenders

5000 character(s) maximum

The sanctions imposed against natural and legal persons in criminal proceedings are generally effective, proportionate and dissuasive.

In connection with the imposition of penalties, specifically fines, it is necessary to mention the long-term activity of the PGO, which is aimed at imposing them more. While in 2015, fines were imposed on 5.8% of convicted persons, in 2024 they were imposed on 25.7% of convicted persons. For 2025, it was set at 26.1% (this value is currently a preliminary statistical figure).

Any other developments related to the anti-corruption framework - please specify

5000 character(s) maximum

III. Media pluralism and media freedom

Please provide information on measures taken to follow-up on the recommendations received in the 2025 Report regarding media pluralism and media freedom (if applicable)

5000 character(s) maximum

A. Media authorities and bodies

(Cf. Article 30 of Directive 2018/1808)

Measures taken to ensure the independence, enforcement powers and adequacy of resources (financial, human and technical) of media regulatory authorities and bodies

5000 character(s) maximum

Conditions and procedures for the appointment and dismissal of the head / members of the collegiate body of media regulatory authorities and bodies

5000 character(s) maximum

Existence and functions of media councils or other self-regulatory bodies

5000 character(s) maximum

B. Safeguards against government or political interference and transparency and concentration of media ownership

[single market relevance] Measures taken to ensure the fair and transparent allocation of state advertising

5000 character(s) maximum

Safeguards against state / political interference, in particular:

- safeguards to ensure editorial independence of media (private and public)
- specific safeguards for the independence of heads of management and members of the governing boards of public service media (e.g. related to appointment, dismissal), safeguards for their financial and operational independence (e.g. related to reporting obligations and the allocation of resources) and safeguards for plurality of information and opinions
- **[single market relevance]** information on specific legal provisions and procedures applying to media service providers, including as regards granting /renewal/termination of licenses, company operation, capital entry requirements, concentration and corporate governance

5000 character(s) maximum

[single market relevance] Transparency of media ownership and public availability of media ownership information, including on direct, indirect and beneficial owners

5000 character(s) maximum

C. Framework for journalists' protection, transparency and access to documents
