

2026 Rule of Law Report - targeted stakeholder consultation

Fields marked with * are mandatory.

Introduction

The annual Rule of Law Report lies at the centre of the Annual Rule of Law Cycle, which acts as a preventive tool, deepening multilateral dialogue and joint awareness of rule of law issues. So far, six editions of the Rule of Law Report have been published since 2020.

As every year, the Commission would like to invite the stakeholders to provide contributions to the 2026 Rule of Law Report. On the basis of these contributions and on-going developments, further targeted questions may be shared at a later stage of preparation of the 2026 Rule of Law Report, in particular in the context of country visits, or bilateral contacts.

The Commission invites stakeholders to provide contributions which include:

- (1) developments and measures taken in relation to the recommendations in the 2025 report,**
- (2) developments related to topics covered in the 2025 country chapters, as well as any other new developments related to the rule of law.**

The input should consist of a short summary, if possible in English, covering the areas referred to below. Legislation or other documents may be referenced with a link. Contributions should focus on significant developments since the last Rule of Law Report both as regards the legal framework and its implementation in practice.

This questionnaire also integrates the separate questionnaire on the single market from last year. In addition to these specific questions, respondents to the questionnaire are invited to consider the Single Market dimension, including any relevant cross-border issues, in all their answers.

Where questions of particular relevance under the single market dimension, this is indicated before the relevant question.

[1] Unless the information was already submitted in the input for the previous Rule of Law Reports.

Type of information to be included:

Under each of the four pillars, the replies should include references to the following types of information:

A) Legislative developments

- Newly adopted legislation
- legislative drafts currently discussed in Parliament
- legislative plans envisaged by the Government

B) Policy developments

- Implementation and enforcement of legislation
- evaluations, impact assessment, surveys
- white papers/strategies/actions plans/consultation processes
- follow-up to reports/recommendations of Council of Europe bodies or other international organisations
- important administrative measures
- generalised practices

C) Developments related to the judiciary / independent authorities

- important case law by national courts
- important decision/opinions from independent bodies/authorities
- state of play on terms, nominations and expired mandates for high-level positions (e.g. Supreme Court, Constitutional Court, Council for the Judiciary, Prosecutor General, heads of independent authorities included in the scope of the request for input[2])

D) Any other relevant developments

- National authorities are free to add any further information, which they deem relevant; however, this should be short and to the point.

Where relevant, please also indicate whether the developments reported are linked to the implementation of reforms and investments under the national Recovery Resilience Plan. To simplify your answers to the questionnaire, if there are no developments, it is sufficient to indicate this and the information covered in the contributions for the previous Rule of Law Reports does not need not be repeated.

[2] Such as: media regulatory authorities and bodies, national human rights institutions, equality bodies, ombudsman institutions, supreme audit institutions and, where they exist, transparency authorities.

Questions on horizontal developments

In this section, you are invited to provide information on general horizontal developments or trends, both positive and negative, covering all or several Member States. In particular, you could mention issues that are common to several Member States, as well as best practices identified in one Member State that could be replicated. Moreover, you could refer to your activities in the area of the four pillars and sub-topics (an overview of all sub-topics can be found below), and, if you represent a Network of national organisations, to the support you might have provided to one of your national members.

Questions for contribution

Under each pillar, you are invited to provide information on measures taken to implement the recommendations addressed to the Member State in the 2025 Rule of Law report, as well as developments with regard to the points raised in the respective country chapter of the 2025 Rule of Law Report and any other significant developments since January 2025 and up to the date of submission[3]. Please always include a link to and reference relevant legislation/documents (in the national language and/or where available, in English). **Significant developments** can include challenges, positive developments and best practices, covering both legislative developments or implementation and practices.

Information provided in reply to the first question under each pillar, related to the follow-up to the recommendations, does not need to be repeated in subsequent parts of the questionnaire, but can be cross-referenced in the subsequent questions, where relevant. All other questions are not limited to the recommendations, but as in previous years, cover the entire scope of the Report.

[3] Unless already covered in the input for the previous Rule of Law Reports.

Member State/enlargement country covered in contribution [only one choice possible]

If you wish to submit information concerning several Member States/enlargement countries, please fill in the questionnaire separately for each country. There is no limit to the number of contributions submitted by a single participant.

Section I.B (Quality of Justice), paragraph 10, and Section IV, paragraph 42, describe a breach of the right enshrined in Spanish law to receive court documents in the official language chosen in Catalonia. This breach is attributable to judges and court clerks.

According to the report Serveis lingüístics de l'àmbit judicial. Indicadors 2024 ("Language Services in the Judicial Sphere. Indicators 2024"), available online at <https://hdl.handle.net/20.500.14226/2362>, compliance with language choice during the period 2021–2024 is as follows. Parties who requested to receive judicial documentation in Spanish did so in the vast majority of cases: 97.0% of requests were fulfilled in 2021, 97.9% in 2022, 98.2% in 2023, and 98.3% in 2024. By contrast, most parties who requested to receive court documents in Catalan did not receive them in that language. Only 18.7% of such requests were granted in 2021, 21.2% in 2022, 20.2% in 2023, and 20.7% in 2024.

The sections mentioned above indicate that the Catalan branch of the Spanish justice system, through the governing chamber of the High Court of Justice of Catalonia, adopted agreements in 2021 and 2024 establishing measures intended to ensure compliance with the applicable regulations. These agreements were formally communicated to judges. However, the text also explains that none of these measures has produced a significant change in the widespread non-compliance by judges and court clerks. In fact, the first agreement reminding judges of their linguistic obligations dates back to 1991. All such agreements are available at <https://justicia.gencat.cat/ca/departament/llengua/catala-administracio-justicia/marc-normatiu/acords-de-la-sala-de-govern-del-tribunal-superior-de-justicia-de-catalunya/>.

Judges and court clerks are not subject to sanctions for these breaches, which results in a situation of effective impunity for court staff who violate the applicable regulations.

The High Court of Justice of Catalonia has proposed to the General Council of the Judiciary, the governing body of the Spanish judiciary, that verification of compliance with the parties' right to receive notifications in the co-official language of their choice be included among inspection tasks. However, the General Council of the Judiciary has shown no interest in addressing this issue, and the situation of widespread non-compliance therefore remains unresolved.

B. Quality of justice

(Under this topic, you are not required to give statistical information but should provide input on the type of information outlined in the introduction)

[single market relevance] Accessibility of courts (e.g. court/legal fees, legal aid, language)

5000 character(s) maximum

In Catalonia, regulations governing the right to receive court documents in Catalan are not being complied with. In other regions of Spain where languages other than Spanish are also official, no public information is provided on the language used in court rulings.

Legal framework

Catalan and Spanish are official languages in Catalonia on an equal footing. This principle is established in Article 6.2 of the Statute of Autonomy of Catalonia (<https://www.parlament.cat/document/cataleg/150259.pdf>). This Act constitutes Catalonia's regional constitutional framework and was approved by the Spanish Parliament as an organic law. The official status of regional languages is recognised in Article 3.2 of the Spanish Constitution (<https://www.boe.es/buscar/pdf/1978/BOE-A-1978-40001-consolidado.pdf>).

Article 33.2 of the Statute of Autonomy of Catalonia provides that, in dealings with the Administration of Justice, the Office of the Public Prosecutor, notaries, and public registry offices, individuals have the right to use the official language of their choice in any judicial, notarial, or registration proceedings, and to receive all official documentation issued in Catalonia in the language requested. This right must be guaranteed without causing defencelessness or undue delay due to the language chosen, and without requiring the individual to provide any type of translation.

At the European level, Article 9.1 of the European Charter for Regional or Minority Languages (ECRML) recognises an even broader right, requiring States to ensure that courts, at the request of one of the parties, conduct proceedings in the regional or minority language (<https://rm.coe.int/1680695175>). The Sixth Periodical Report submitted by Spain to the Secretary General of the Council of Europe pursuant to Article 15 of the Charter confirms the compatibility of the obligations arising from Article 9.1 of the ECRML with Spanish domestic law (<https://rm.coe.int/spainpr6-en/1680ac3178>).

Statistics on regulatory compliance

According to the report Serveis lingüístics de l'àmbit judicial. Indicadors 2024 ("Language Services in the Judicial Sphere. Indicators 2024": <https://hdl.handle.net/20.500.14226/2362>), compliance with the language choice requested by the parties during the period 2021–2024 is as follows.

Parties who requested to receive judicial documentation in Spanish obtained it in that language in the vast majority of cases: 97.0% of requests were fulfilled in 2021, 97.9% in 2022, 98.2% in 2023, and 98.3% in 2024. By contrast, most parties who requested to receive court documents in Catalan did not receive them in that language. Only 18.7% of requests were granted in 2021, 21.2% in 2022, 20.2% in 2023, and 20.7% in 2024. These data have been available since 2021, when the computer applications used by the justice system in Catalonia made it possible to automate requests concerning the preferred language for judicial documents and to record the language in which such documents are issued.

Ineffective corrective measures

Judges in Catalonia were notified of two agreements adopted in January 2021: one issued by the Secretary of Government of the High Court of Justice of Catalonia on 7 January 2021 and another adopted by the Court's Governing Chamber on 26 January 2021. These agreements were added to three earlier agreements adopted in 1991, 2007, and 2010 (available at <https://justicia.gencat.cat/ca/departament/llengua/catala-administracio-justicia/marc-normatiu/acords-de-la-sala-de-govern-del-tribunal-superior-de-justicia-de-catalunya/>). The 2021

agreements informed judges of the computerisation of the language option and reiterated their obligation to respect the language of notification chosen by the parties.

The High Court of Justice of Catalonia is a decentralised body of the Spanish judicial system operating within Catalonia; it does not constitute an autonomous regional judicial power.

After three years of persistent non-compliance by judges, two further agreements were adopted in 2024: one by the Governing Chamber on 16 April 2024 and another by the Secretary of Government on 25 June 2024. Both agreements explicitly acknowledge the existence of widespread non-compliance with the obligation to issue notifications in Catalan when requested by the parties. They also emphasise the need to establish control mechanisms and adopt corrective measures to ensure compliance with the law. Notably, the agreement of the Governing Chamber proposes that the inspection services of the Spanish General Council of the Judiciary include, among their inspection tasks, verification of the level of compliance with the right of parties to receive notifications in the co-official language of their choice.

Despite these developments, the data for 2024 show no significant improvement, and the Spanish General Council of the Judiciary has not intervened to ensure effective compliance with the applicable regulations.

Resources of the judiciary (human/financial/material), remuneration/bonuses/rewards for judges and prosecutors, including observed changes (significant and targeted increase or decrease over the past year)

Digitalisation (e.g. use of digital technology, including electronic communication and AI tools, within the justice system and with court users, procedural rules, access to judgments online)

5000 character(s) maximum

Section I.B (Quality of Justice), paragraph 10, and Section IV, paragraph 42, describe a breach of the right enshrined in Spanish law to receive court documents in the official language chosen in Catalonia. This breach is attributable to judges and court clerks.

According to the report Serveis lingüístics de l'àmbit judicial. Indicadors 2024 ("Language Services in the Judicial Sphere. Indicators 2024"), available online at <https://hdl.handle.net/20.500.14226/2362>, compliance with the language option during the period 2021–2024 is as follows. Parties who requested to receive judicial documentation in Spanish obtained it in that language in the vast majority of cases: 97.0% of requests were fulfilled in 2021, 97.9% in 2022, 98.2% in 2023, and 98.3% in 2024. By contrast, most parties who requested to receive court documents in Catalan did not receive them in that language. Only 18.7% of such requests were

granted in 2021, 21.2% in 2022, 20.2% in 2023, and 20.7% in 2024.

Compliance with this regulation can only be verified from 2021 onwards. In that year, the Catalan regional government provided courts in Catalonia with the E-Justícia application. This software automates requests concerning the language in which judicial documentation is required and allows the language of the documents issued to be recorded electronically, thereby making it possible to calculate whether the language option chosen by the parties is respected.

The introduction of this application has facilitated the exercise of the right to choose between the official languages and has been essential for obtaining reliable statistics on compliance and non-compliance with this right. However, comparable information is collected only in Catalonia. Other autonomous communities with more than one co-official language lack equivalent systems and therefore cannot produce detailed data on the language used in judicial documentation.

Extending judicial software applications capable of recording language choice and the language of issued documents to other regions would facilitate effective monitoring of compliance with this right, which is recognised in Article 9.1 of the European Charter for Regional or Minority Languages and is applicable to all autonomous communities with more than one official language.

Ineffective corrective measures

Judges in Catalonia were notified of two agreements adopted in January 2021: one issued by the Secretary of Government of the High Court of Justice of Catalonia on 7 January 2021 and another adopted by the Court's Governing Chamber on 26 January 2021. These agreements were added to three earlier agreements adopted in 1991, 2007, and 2010 (available at <https://justicia.gencat.cat/ca/departament/llengua/catala-administracio-justicia/marc-normatiu/acords-de-la-sala-de-govern-del-tribunal-superior-de-justicia-de-catalunya/>). The 2021 agreements informed judges of the computerisation of the language option and reiterated their obligation to respect the language of notification chosen by the parties.

The High Court of Justice of Catalonia is a decentralised body of the Spanish judicial system operating within

Catalonia; it does not constitute an autonomous regional judicial power.

After three years of persistent non-compliance by judges, two further agreements were adopted in 2024: one by the Governing Chamber on 16 April 2024 and another by the Secretary of Government on 25 June 2024. Both agreements explicitly acknowledge the existence of widespread non-compliance with the obligation to issue notifications in Catalan when requested by the parties. They also emphasise the need to establish control mechanisms and adopt corrective measures to ensure compliance with the law. Notably, the agreement of the Governing Chamber proposes that the inspection services of the Spanish General Council of the Judiciary include, among their inspection tasks, verification of the level of compliance with the right of parties to receive notifications in the co-official language of their choice.

Despite these developments, the data for 2024 show no significant improvement, and the Spanish General Council of the Judiciary has not intervened to ensure effective compliance with the applicable regulations.
