Subject: URGENT: Collapse of Rule of Law and State-Sanctioned Economic Sabotage (Case: Illurei / Ivona Skulova)

1. Statement of Crisis

I am Ivona Skulova (Stage name: Ivon Skula), CEO of Illurei and the sole authorized signatory for all corporate assets. I am currently in Vienna, Austria. I am filing this urgent update during the current UN review of Slovakia (Feb 9 – March 6, 2026) to report a total collapse of the rule of law regarding the protection of corporate income and personal assets.

2. Criminal Context

My company, Illurei, is being subjected to "starvation tactics" and "economic sabotage" orchestrated by a network involving Thomas Trenker and the "Skula Mafia." This network is actively withholding corporate income and assets through Slovak financial channels, despite my explicit status as the only person who can sign for these assets.

3. Systematic Failures

Despite active filings with the **EPPO (PP.00332_2026_EN)** and the **FBI (IC3 c08fc450a6a5447d87b7e249697fad04)**, Slovak authorities have failed to intervene. This demonstrates:

- **Strategic Deficiencies:** Slovakia's inability to prevent the misuse of its financial system by criminal proxies.
- **Human Rights Violations:** The use of financial obstruction as a tool for coercion and "honeypot" strategies, violating my economic rights and corporate sovereignty.

4. Demand for Escalation

I request that this case be included in the current review of Slovakia as "Exhibit A" for the country's immediate **Grey-Listing**. The systemic failure to uphold international financial standards and protect rightful owners from "stupid thief" strategies has reached a point of no return.

Signed,

Ivona Skulova (Ivon Skula)

CEO, Illurei
