Draft General Budget of the European Union for the Financial Year 2016

Working Document Part IX

Funding to international organisations

COM(2015) 300 - June 2015

Draft Budget Working Documents

The 2016 Draft Budget is accompanied by eleven 'Working Documents', as follows:

Part I: Programme Statements of operational expenditure

Working Document I contains Programme Statements, which constitute the main instrument for justifying the operational appropriations requested by the Commission in the Draft Budget. These Statements are coherent with the corresponding legal bases and provide details on the resources which are dedicated to each spending Programme.

Part II: Commission Human Resources

Working Document II presents information on Commission human resources, both for the establishment plans and for external personnel, across all headings of the multiannual financial framework. Moreover, pursuant to Article 38(3)(b)(v) of the Financial Regulation, it provides a summary table for the period 2014 – 2016 which shows the number of full-time equivalents for each category of staff and the related appropriations for all institutions and bodies referred to in Article 208 of the Financial Regulation.

Part III: Bodies set up by the European Union and having legal personality and Public-private partnership

Working Document III presents detailed information relating to all decentralised agencies, executive agencies and Public-Private Partnerships (joint undertakings and joint technology initiatives), with a transparent presentation of revenue, expenditure and staff levels of various Union bodies, pursuant to Articles 208 and 209 of the Financial Regulation.

Part IV: Pilot projects and preparatory actions

Working Document IV presents information on all pilot projects and preparatory actions which have budget appropriations (commitments and/or payments) in the 2016 Draft Budget, pursuant to Article 38(3)(c) of the Financial Regulation.

Part V: Budget implementation and assigned revenue

Working Document V presents the budget implementation forecast for 2015, information on assigned revenue implementation in 2014, and a progress report on outstanding commitments (RAL) and managing potentially abnormal RAL (PAR) for 2014.

Part VI: Administrative expenditure under Heading 5

This document encompasses administrative expenditure under all budgets to be implemented by the Commission in accordance with Article 317 of the Treaty on the Functioning of the European Union, as well as the budgets of the Offices (OP, OLAF, EPSO, OIB, OIL and PMO).

Part VII: Commission buildings (Section III)

Working Document VII presents information on buildings under Section III - Commission, pursuant to Article 203(3) of the Financial Regulation.

Part VIII: Expenditure related to the external action of the European Union

Working Document VIII presents information on human resources and expenditure related to the external action of the European Union.

Part IX: Funding to international organisations

Working Document IX presents funding provided to international organisations, across all MFF headings, pursuant to Article 38(3)(d) of the Financial Regulation.

Part X: Financial Instruments

Working Document X presents the use made of financial instruments, pursuant to Article 38(5) of the Financial Regulation.

Part XI: Payment schedules (on-line publication only)

Working Document XI presents summary statements of the schedule of payments due in subsequent years to meet budgetary commitments entered into in previous years, pursuant to Article 38(3)(f) of the Financial Regulation.

EU funded activities implemented through international organisations (Article 38 (3)(d) of the Financial Regulation)

1. Introduction

The purpose of this document is to provide information on funding to international organisations from the EU Budget. The working document will accompany the Draft Budget 2016 and present the reasons why, from the 2014 approved budget, it was more efficient for the Union to fund international organisations rather than to act directly.

2. Objective and structure of this working document

In accordance with article 38(3)(d) of the Financial Regulation¹, the Commission should attach to the draft budget a working document showing funding to international organisations.

This document should contain:

- a summary of all contributions, with a breakdown by Union programme or fund and by international organisation,
- a statement of reasons explaining why it was more efficient for the Union to fund those international organisations rather than to act directly.

The following tables show the amount of legal commitments made to international organisations from the approved budget 2014. The total amount of these commitments is EUR 2 358 148 166.

- 1) Table 1 presents the commitments by international organisation. The ten biggest recipients were provided EUR 2.1 billion to implement EU policies, notably in the areas of space, environment and climate change programmes, humanitarian and development aid. They account for 90.5 % of budgetary commitments to this group.
- 2) Table 2 attempts to synthesise, in order of magnitude, the main reasons why it was more efficient to fund international organisations than to act directly. At the individual programme or project level there may be more than one reason to work with an international organisation. The table indicates that the majority of the funding (88.5 %) is granted to international organisations due to their specific expertise, their singular capacities to deliver space related services, humanitarian aid, logistical and management capacities and due to their international mandate. In particular the European Space Agency (ESA) accounts for 58.3% of the commitments, to finance EGNOS, Galileo and Copernicus.
- 3) Table 3 presents the commitments by Union programme. In terms of value space, environment and climate change programmes as well as external relations account for almost 97% of the total.

In addition to the above-mentioned funding, an amount of EUR 747 386 has been committed for 22 procurement contracts ranging from EUR 150 to EUR 300 000.
