

ICDT CHATBOT

FOR THE EUIBAS EMERGING TECHNOLOGY PROJECTS

Quick Intro and Demo

– 13.12.2022 –

Chatbot for the EUIBAs Emerging Technology Projects

Quick Intro

Do you have a need for a tool
based on emerging technologies?

Do you know where to start your search from?

Would you like to know if
other EUIBAs have done something related?

Chatbot for the EUIBAs Emerging Technology Projects

Quick Intro

- An initiative started together with the ICDT Emerging Technology (ET) group
- A web tool made to
 - facilitate the discovery of the existing ET projects within EUIBAs
 - through a natural language dialog (English)
 - increase the collaboration and the reusability of assets on innovative technologies (e.g. AI, Robotics Process Automation, Blockchain, Extended Reality, IoT)
 - ICDT ET Chatbot is doubled by a Radar (interactive graph)
 - <https://curia.europa.eu/chatbot>

Live Demo

ICDT | CITN
