

European
Commission

Maria and Johan download the official apps of Member State A and Member State B respectively.

Maria travels to Member State B where the app detects her proximity with Johan.

Johan feels sick. He tests positive for COVID-19, he contacts his health authorities and inserts a confirmation code on the app.

Maria travels back to her Member State A.

Maria gets a notification that she has been in proximity to an infected person. She seeks advice and consults her health authorities.

Maria is informed by her health authorities what to do next.
