

Ex-ante publicity of middle- and low-value contracts

Simplified rules apply to procurement procedures valued between € 15 000.01 and € 138 999. In such cases the European Commission can invite a limited number of candidates to tender. To make this process more transparent plans for future middle- and low-value contracts are published here. This publicity is in no way binding for the European Commission. The Commission's contractual obligation commences only upon signature of the contract with the successful candidate.

Particulars of economic operators who will have expressed interest to participate will be stored in a database for the purpose of tendering only. Inclusion of those economic operators' contact details does not automatically lead to invitations to tender. This overview is for information only.
