The establishment plan accepts the following ‘ad personam’ appointments: seconded officials may occupy a post in the establishment plan of the executive agency at a higher grade provided that such higher grade corresponds to their own grade at the Commission. This exception applies only to seconded officials.

The delegation of the 2021-2027 programmes to EAs will increase the number of positions of responsibility in the agencies. These positions are as a general rule occupied by Commission officials seconded in the interest of the service. The staff establishment plans of the agencies have been revised to reflect the current grade structure of the seconded officials. The Commission staff that will be seconded on a post of responsibility in the agencies is unknown at this stage. Therefore, the grade structure of the additional seconded officials is based on the average grade structure of the existing middle and senior management at the Commission.
