Remarks

The GNI-based resource is an ‘additional’ resource, providing the revenue required to cover expenditure in excess of the amount yielded by traditional own resources, VAT-based payments, the plastic-based own resource and other revenue in any particular year. By implication, the GNI-based resource ensures that the budget is always balanced *ex ante*.

The GNI call rate is determined by the additional revenue needed to finance the budgeted expenditure not covered by the other resources (plastic-based own resource, VAT-based resource, traditional own resources and other revenue). Thus a call rate is applied to the GNI of each of the Member States.

The rate to be applied to the Member States’ GNI for financial year 2026 is 0,6945 %.

Remarks

This appropriation is intended to cover the cost of carrying out the Joint Harmonised EU Programme of Business and Consumer Surveys in the Member States and candidate countries. The programme was initiated by a Commission Decision in November 1961 and was modified through subsequent Council and Commission decisions. It was last approved by Commission Decision C(97) 2241 of 15 July 1997 and last presented in the Commission Communication C(2016) 6634 of 20 October 2016.

This appropriation is also intended to cover the cost of studies, workshops, conferences, analyses, evaluations, publications, technical assistance, the purchase and maintenance of databases, software, equipment and the part-financing and support of measures relating to:

- fiscal policy surveillance including the monitoring of fiscal positions,
- the assessment of transposition and application by the Member States of the Union fiscal governance framework supporting the functioning of the economic and monetary union (EMU),
- economic monitoring and analysis of economic policies,
- the external aspects of the EMU,
- economic developments in the euro area,
- monitoring structural reforms and improving the operation of markets in the EMU and in the Union,
- coordination with financial institutions and analysis and development of financial markets, and borrowing and lending operations involving Member States,
- the facility providing financial assistance for Member States' balance of payments,
- cooperation with economic operators and decision-makers in the fields mentioned in the preceding indents,
- deepening and expanding the EMU,

- the purchase of equipment, software development, maintenance and related training for the protection of the euro against counterfeiting.

This appropriation is also intended to cover the funding of priority information measures on Union policies on all aspects of the rules and functioning of the EMU, as well as on the benefits of closer policy coordination and structural reforms, and to address information needs of key stakeholders and citizens, in relation to the EMU.

This measure is designed to be an effective channel of communication and dialogue between the citizens of the Union and the Union institutions, and to take account of specific national and regional characteristics, where appropriate in cooperation with the Member State authorities. Emphasis will also be placed on preparing citizens for the introduction of the euro in Member States planning for its introduction.

It includes:

- the development of communication activities at central level (brochures, leaflets, newsletters, website design, development and maintenance, social media, exhibitions, stands, conferences, seminars, audio-visual products, opinion polls, surveys, studies, promotional material, coin design competitions, twinning programmes, training etc.), and similar activities at national and regional levels implemented in cooperation with the Commission’s Representations,
- partnership agreements with Member States that wish to provide information about the euro or the EMU,
- cooperation and networking with Member States in the appropriate forums,
- communication initiatives in third countries, in particular to point out the international role of the euro and the value of financial integration.

The implementation of the Commission’s communication strategy takes place in close coordination with the Member States and the European Parliament.

The Commission adopts a strategy and an annual work plan drawing on the orientations set out in its Communication of 11 August 2004 (COM(2004) 552) and it reports regularly to the relevant committee of the European Parliament on the implementation of the strategy and on planning for the coming year.

Remarks

Appropriations under this chapter are intended to cover expenditure to support Member States to achieve high employment levels, fair social protection and a skilled and resilient workforce ready for the future world of work, as well as expenditure to support, complement and add value to the policies of the Member States to ensure equal opportunities, access to the labour market, fair working conditions, social protection and inclusion.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from proceeds of the European Union Recovery Instrument entered in the statement of revenue gives rise to the provision of appropriations for programmes financed under REACT-EU under Titles 05 and 07 for a total amount of EUR 50 620 000 000 in commitments. Such amounts had to be legally committed before the end of 2023, with the exception of administrative expenditure, for which the amounts are indicated in the budget remarks of the relevant budget lines under this title.

Remarks

This appropriation is intended to cover expenditure aiming to reduce the economic, social and territorial disparities, which have arisen, particularly in countries and regions whose development is lagging behind, in connection with the speeding-up of economic and social restructuring, clean energy transition, digitalisation of the workplace, growing skills and labour shortages and the implications and impact of demographic change, including population ageing, in order to create a more social Europe. This is to be done in line with the principles of the European Pillar of Social Rights.

It will cover the following three categories of regions:

- less developed regions, with a GDP per capita less than 75 % of the average GDP of the Union,
- transition regions, with a GDP per capita between 75 % and 100 % of the average GDP of the Union,
- more developed regions, with a GDP per capita above 100 % of the average GDP of the Union.

Promotion of equality between women and men horizontally and through specific actions should be part of the support provided by the ESF+ in order to increase the participation of women in employment as well as conciliation between working and personal life and combat the feminisation of poverty and gender discrimination in the labour market and in education and training.

Remarks

The European Union Agency for Law Enforcement Training (CEPOL) is an agency of the Union dedicated to develop, implement and coordinate training for law enforcement officials. CEPOL contributes to a safer Europe by facilitating cooperation and knowledge sharing among law enforcement officials of the Member States, and to some extent from third countries, on issues stemming from Union priorities in the field of security; in particular, from the EU Policy Cycle on serious and organised crime. CEPOL brings together a network of training institutes for law enforcement officials in Member States and supports them in providing frontline training on security priorities, law enforcement cooperation and information exchange. CEPOL also works with Union bodies, international organisations and third countries to ensure that the most serious security threats are tackled with a collective response.
