

EU TRUST FUNDS

Background

A trust fund is a legal arrangement with a distinct financial structure that pools the funds of several donors to jointly finance an action on the basis of commonly agreed objectives and reporting formats.

Trust Funds offer a number of advantages: they are EU led instruments, offering better coordination with EU Member States; better control of operations by the Union and other donors and enhanced EU visibility. Trust Funds benefit from fast decision-making processes and from their capacity to pool larger sums from different sources making them a flexible, proactive and adaptable tool.

The current Financial Regulation authorises the Commission to create and manage European Union Trust Funds (EUTF) in the field of external actions.

The rules on establishment and management of EUTFs are laid down in Article 187 of the Financial Regulation.

Establishment

EUTFs can be established with **at least one external donor** to respond to **emergency, post-emergency or thematic actions**.

Its establishment needs to be justified notably by **EU added value** (its objectives can be better met at EU than at national level), and **additionality** (the trust fund should not duplicate already existing and similar instruments).

The European Commission submits the **draft decision to establish an EUTF** to the competent committee defined in the basic act governing the instrument that provides the EU's financial contribution to the new Trust Fund. The consultation of the Committees ensures an adequate involvement of the Council in the establishment of any EUTF. The proposal for the revision of the Financial Regulation addresses the need for greater involvement of the European Parliament in the creation of EUTFs (Article 227(1)) and reporting on their activities (Article 244).

After the adoption of the establishment and financing decisions, the **constitutive act** of the EUTF is signed by the European Commission and the donors. The constitutive act details the main features of the EUTF, such as its specific objectives, the rules for the composition and the internal rules of its board, as well as the duration (currently all the EU Trust Funds have been set up for a 60 months (five years) duration). The European Parliament and/or the Council may request the Commission to discontinue the appropriations for the Trust Fund or revise the constitutive act with a view to liquidate it.

Governance and management of EUTFs

In accordance with Article 187 of the current Financial Regulation, the EUTF has specific governance arrangements and contributions are placed **outside** the EU Budget.

Monthly Report on the Multiannual Implementation of EU Trust Funds (EUTFs)

Each EUTF has a **board** ("Trust Fund board") chaired by the Commission with representation of the donors and the non-contributing Member States as observers. The board decides upon the use of the funds of the EUTF.

EUTFs are managed by the Commission under the responsibility of the authorising officer by delegation who provides assurance on the use of the funds to the Commission and to third donors. The EUTF manager is the authorising officer by sub-delegation. As is the case for the European Development Fund, the accounting officer of a EUTF is the accounting officer of the Commission who lays down the accounting procedures and chart of accounts common to all EUTFs.

To cover its management costs, the Commission may withdraw a maximum of 5% of the amounts pooled into the trust fund. The percentage for the contribution to the EUTF from the EU budget is usually lower and corresponds to the proportion of the administrative support expenditure for the relevant instrument authorised in the annual budget.

According to Article 187(10) of the Financial Regulation, the Commission has to submit annually a comprehensive and detailed report to the European Parliament and the Council on the activities supported by the EUTF, on its implementation and performance, as well as its accounts. This report is to be attached to the summary of the annual activity reports required by Article 66(9) (last paragraph) of the Financial Regulation.

Current EUTFs

To date, the Commission has set up 4 EUTFs:
