MARE	Adopté le 2 mai 2013 [COM(2013) 250 final];[2013/0133 (COD)]	Traité sur le fonctionnement de l'Union européenne: Article 43(2) TFEU	procédure législative ordinaire (COD)	X		The aim of the Proposal is to transpose into EU law a recommendation that has been adopted in the framework of the ICCAT by way of an amendment to Council Regulation No 302/2009 as already amended by Regulation (EU) N° 500/2012 of the European Parliament and of the Council of 13 June 2012. The scope of this proposal is limited to the transposition of the new dates of the 2013 fishing season and implies that it is necessary in view of ensuring a rapid adoption of the Regulation before the beginning of the 2013 fishing season.
2012/MARE/018	Pêche et affaires maritimes	Proposal for a Council Regulation opening and providing for the administration of autonomous tariff quotas of the Union on imports of certain fishery products into the Canary Islands from 2014 to 2020.	MARE	Adopté le 26 juillet 2013 [COM(2013) 552 final];[2013/0266 (CNS)]	Traité sur le fonctionnement de l'Union européenne: Article 349 TFEU.	procédure législative spéciale - consultation du Parlement européen (CNS)			Current autonomous EU tariff quotas on imports of certain fishery products into the Canary Islands implemented by means of Council Regulation (EC) 645/2008 will expire on 31 December 2013. The exceptional geographical situation of the Canary Islands in relation to the sources of supply of certain fishery products which are essential for domestic consumption entails additional costs for this sector. This natural handicap, as recognised in Article 349 TFEU, resulting from insularity, remoteness and outermost location can be remedied, inter alia, by temporarily suspending customs duties on imports of the products in question from third countries within EU tariff quotas of an appropriate volume.
2013/MARE+/110	Pêche et affaires maritimes Marché intérieur et services	Proposal for a Council Decision authorising Member States to sign and/or ratify, in the interest of the European Union, the International Convention on Standards of Training, Certification and Watch-keeping for Fishing Vessel Personnel, 1995, of the International Maritime Organisation. MARE	Adopté le 17 décembre 2013 [COM(2013) 889 final];[2013/0436 (COD)]	Traité sur le fonctionnement de l'Union européenne: Article 43(2) TFEU	procédure législative ordinaire (COD)	O	O	A central objective of the proposed reform of the Common Fisheries Policy (CFP) is the elimination of discards in EU fisheries through the introduction of an obligation to land all catches. In order to make this landing obligation operational it has been identified that certain provisions within the current technical measures and control regulations run contrary to the landing obligation and oblige fishermen to discard fish. These provisions need to be removed or amended. Therefore the main policy objective of this initiative is to facilitate the implementation of the landing obligation envisaged under the CFP reform by removing all existing provisions from EU technical measures and control regulations that run contrary to the landing obligation.
2012/MARKT/038	Marché intérieur et services	Proposal for a regulation of the European Parliament and of the Council on information on the payer and the beneficiary accompanying transfers of funds	MARKT	Adopté le 5 février 2013 [COM(2013) 44];[2013/0024 (COD)]	Traité sur le fonctionnement de l'Union européenne: Article 114	procédure législative ordinaire (COD)	X	O	The Fund Transfer regulation dates back to 2006, and implements into EU legislation the Financial Action Task Force's Special (FATF) Recommendation VII – aimed at ensuring full traceability of transfers of funds with the objective of combating money laundering and terrorist financing. 2012/MARKT/065	Marché intérieur et services	Proposal for a Council Decision on the signing, on behalf of the European Union, of the WIPO Beijing Treaty on Audiovisual Performances	MARKT	Adopté le 4 mars 2013	Traité sur le fonctionnement de l'Union européenne: Article 218 (5) TFEU	procédure législative ordinaire (COD)			The proposal is a necessary step according to Article 218(5)TFUE for the Commission to be authorised to sign on behalf of the European Union, the WIPO Treaty on Audiovisual Performances which was adopted in Beijing on 24 July 2012. The Treaty is a mixed agreement. European Union and the majority of EU Member States have only signed the final act of the Diplomatic Conference in Beijing, and some Member States have also signed the treaty itself. The recognition of a legal protection of the rights of audiovisual performers at international level allows to fill in the gap left after the adoption of the 1996 WIPO treaties. A large majority of issues covered by the treaty is already harmonised at EU level, but now European audiovisual performers will benefit from the same level of protection at international level.

2013/MARKT/046	Marché intérieur et services	Proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on European Long-term Investment Funds	MARKT	Adopté le 26 juin 2013 [COM(2013)462];[2 013/0214(COD)]	Traité sur le fonctionnement de l'Union européenne: 114	procédure législative ordinaire (COD)	X		The general goal is increased long term investment in the EU in infrastructure, social projects, long term growth plans of SMEs, etc. Pension funds and insurance companies are key potential investors in longer term projects, but cannot always make such investments themselves, and so depend on investment funds. Yet evidence suggests such funds are not always easy to identify or that they do not always take the right form, undermining their use. Given this, the specific aim is to foster a flourishing market for funds focused on longer term investment, by making such investment funds easier to identify and more cost-effective to run. The proposals form part of the SMA II. They are linked to the green paper on long term investment.

Money market funds were singled out because they offer deposit-like characteristics while not having the same safeguards as banks. The objective is to make the money market funds safer while preserving this important source of funding for the European economy.

Hence the main objective of the proposed initiative is to ensure the development of technological innovations that will fully support the needs of a truly integrated and interoperable EU railway market. This general objective can be translated into two specific objectives: - To ensure an adequate coordination of R&I efforts at EU level; - To identify technology needs and how they should be addressed to fully support internal market and competitiveness goals.

The purpose of the initiative is to propose a new strategy which takes into account challenges that have emerged since the adoption of the current strategy, in particular climate change and EU policy on renewable energy, and to address the problems identified.

The general aim of the Strategy is to enhance the preparedness and capacity to respond to the impacts of climatic change in the EU, its Member States and regions, down to local level. This is to be achieved by setting the basis for better informed decision making on adaptation in the years to come; by encouraging and supporting action on adaptation by the EU Member States; by increasing resilience in key economic and policy sectors.

2012/COMP/002	Concurrence	EU Guidelines for the application of State aid rules in relation to rapid deployment of broadband networks	COMP	Adopté le 15 janvier 2013 [C(2012) 9609]			Programme de travail de la Commission / 2012 / CWP2012 State aid will play an important role to extend basic broadband and very high speed where market operators are unlikely to invest on commercial terms in the near future. The Digital Agenda (in Key Action 8) calls Member States "to use public financing in line with EU competition and State aid rules" in order to meet the coverage, speed and take-up targets defined in Europe 2020. The State aid Broadband Guidelines – which lay down how public funding should be granted to broadband development in line with the EU State aid rules – forms a fundamental cornerstone of this strategy. The existing Broadband Guidelines of 2009 need to be updated on the basis of future important market, technological and regulatory developments (as stipulated in the final provision of the current version).

2013/TRADE/001	Commerce	Recommendation for Decision authorising the opening of negotiations and negotiating Directives of a Transatlantic Partnership for Growth and Jobs (TAP) between the EU and the US.	TRADE	Adopté le 12 mars 2013 [COM(2013) 136; SWD(2013) 68; SWD(2013) 69]	Traité sur le fonctionnement de l'Union européenne: 207			Although our respective economies are among the most open in the world and transatlantic markets are deeply integrated through large flows of trade and investment illustrated by a bilateral trade volume of €702.6bn and bilateral investment stocks of €2.394trillion in 2011, tariff and non-tariff impediments remain on both sides. Most tariff barriers are comparatively low, but impose costs on trade that are not negligible. Since EU and US companies are deeply interlinked and invest heavily in each other's markets, "behind the border" non-tariff measures (NTMs) and regulatory differences for goods and services may impose significant costs and reduce opportunities in terms of jobs and growth. The policy objective is therefore to realize the untapped potential of a truly transatlantic market place and to generate new economic opportunities.
