for the financial year 2018

Working Document Part V

Budget implementation and assigned revenue

**Draft General Budget
of the European Union
for the Financial Year 2018**

Working Document Part V

Budget implementation and assigned revenue

Draft Budget Working Documents

The 2018 Draft Budget is accompanied by twelve ‘Working Documents’, as follows:

Part I: Programme Statements of operational expenditure

Working Document I contains Programme Statements, which constitute the main instrument for justifying the operational appropriations requested by the Commission in the Draft Budget. These Statements are coherent with the corresponding legal bases and provide details on the resources which are dedicated to each spending Programme.

Part II: Commission Human Resources

Working Document II presents information on Commission human resources, both for the establishment plans and for external personnel, across all headings of the multiannual financial framework. Moreover, pursuant to Article 38(3)(b)(v) of the Financial Regulation, it provides a summary table for the period 2014 – 2017 which shows the number of full-time equivalents for each category of staff and the related appropriations for all institutions and bodies referred to in Article 208 of the Financial Regulation.

Part III: Bodies set up by the European Union having legal personality and Public-private partnership

Working Document III presents detailed information relating to all decentralised agencies, executive agencies and Public-Private Partnerships (joint undertakings and joint technology initiatives), with a transparent presentation of revenue, expenditure and staff levels of various Union bodies, pursuant to Articles 208 and 209 of the Financial Regulation.

Part IV: Pilot projects and preparatory actions

Working Document IV presents information on all pilot projects and preparatory actions which have budget appropriations (commitments and/or payments) in the 2018 Draft Budget, pursuant to Article 38(3)(c) of the Financial Regulation.

Part V: Budget implementation and assigned revenue

Working Document V presents the budget implementation forecast for 2017, information on assigned revenue implementation in 2016, and a progress report on outstanding commitments (RAL) and managing potentially abnormal RAL (PAR) for 2016.

Part VI: Commission Administrative Expenditure

This document encompasses administrative expenditure under all budgets (heading 5) to be implemented by the Commission in accordance with Article 317 of the Treaty on the Functioning of the European Union, as well as the budgets of the Offices (OP, OLAF, EPSO, OIB, OIL and PMO).

Part VII: Commission buildings

Working Document VII presents information on buildings under Section III - Commission, pursuant to Article 203(3) of the Financial Regulation.

Part VIII: Expenditure related to the external action of the European Union

Working Document VIII presents information on human resources and expenditure related to the external action of the European Union.

Part IX: Funding to international organisations

Working Document IX presents funding provided to international organisations, across all MFF headings, pursuant to Article 38(3)(d) of the Financial Regulation.

Part X: Financial Instruments

Working Document X presents the use made of financial instruments, pursuant to Article 38(5) of the Financial Regulation.

Part XI: EU Trust funds

Working Document XI presents the activities supported by Union Trust Funds, their implementation and performance.

Part XII: Payment schedules (*on-line publication only*)

Working Document XII presents summary statements of the schedule of payments due in subsequent years to meet budgetary commitments entered into in previous years, pursuant to Article 38(3)(f) of the Financial Regulation.

1. Introduction

This part of the working document V sets out the Commission's budget implementation forecast for 2017. The implementation forecast is presented by heading of the Multiannual Financial Framework (MFF), and is derived from the cumulative monthly estimates provided by the Directorates-General (DGs).

The DGs were asked to provide a well-reasoned and justified forecast of implementation of commitment and payment appropriations in 2017 for each budget line for which they are responsible. These forecasts are based on **the volume of appropriations available at the end of March 2017**. The amounts carried over or reconstituted from the 2016 budget and the amounts in the reserves are included, whereas assigned revenue is excluded. The available appropriations may be subject to some deviations during the year due to possible amending budgets, transfers approved by the Budgetary Authority and internal transfers.

As in previous years, the forecasts will be revised in the autumn, as part of the Global Transfer procedure.

2. 2017 Forecast – Overview

The consolidated forecasts show 100,1% implementation of commitment appropriations in the budget by the end of 2017.

As for payment appropriations, the consolidated forecasts show 98,5% implementation with almost full implementation in all headings apart from heading 1b and 3.

In terms of the special instruments (Emergency Aid Reserve, European Globalisation Adjustment Fund, EU Solidarity Fund), full implementation cannot be anticipated as these instruments are only mobilised as needed, and full implementation is not a goal in itself in this category. This is the reason why the detailed forecast tables do not present any information on the special instruments.

3. 2017 Forecast – Commitment appropriations

The following table provides a breakdown of the profiles for each MFF heading in percentage terms:

Table 1: Forecasts for commitment appropriations

MFF HEADING	Implementation of 2017 Commitments (as % of available appropriations)			
	Implementation at 31.05.2017	End-July forecast	End-October forecast	End-December forecast
1a. Competitiveness for growth and jobs	53,8%	76,8%	86,4%	100,0%
1b. Economic, Social and Territorial Cohesion	97,5%	98,5%	99,7%	100,0%
2. Sustainable growth: Natural Resources	75,0%	90,8%	98,1%	100,0%
3. Security and Citizenship	58,6%	64,4%	70,9%	99,7%
4. Global Europe	47,8%	56,0%	77,3%	102,0%
5. Administration	92,8%	95,6%	96,9%	100,0%
Total	78,2%	88,6%	94,9%	100,1%

Full or almost full implementation of the commitment appropriations is envisaged for all the headings. The higher implementation of heading 4 relates to the increased needs for Humanitarian Aid to be covered by the Emergency Aid reserve.

4. 2017 Forecast – Payment Appropriations

The following table provides a breakdown of the profiles for each MFF heading in percentage terms:

Table 2: Forecasts for payment appropriations

MFF HEADING	Implementation of 2017 Payments (as % of available appropriations)			
	Implementation at 31.05.2017	End-July forecast	End-October forecast	End-December forecast
1a. Competitiveness for growth and jobs	41,7%	55,3%	80,0%	99,7%
1b. Economic, Social and Territorial Cohesion	16,3%	43,1%	61,3%	96,6%
2. Sustainable growth: Natural Resources	61,6%	78,8%	91,2%	100,0%
3. Security and Citizenship	22,9%	45,8%	62,8%	81,1%
4. Global Europe	30,4%	56,8%	79,6%	101,2%
5. Administration	39,8%	55,4%	77,0%	100,0%
Total	41,4%	61,6%	78,8%	98,5%

The available 2017 payment appropriations are likely to be more than sufficient to meet the anticipated needs. The surplus of payment appropriations is expected to concern especially heading Heading 3 (Security and Citizenship), for an overall amount of EUR 718,7 million. This is due to the Asylum, Migration and Integration Fund (AMIF) and the Internal security Fund (ISF) where some delays in the start-up of the programmes were encountered and the pace of implementation of some specific actions has been slower than expected. In addition to that at the end of 2016 the Commission managed to make important closure payments for the 2007-2013 programmes, which were initially foreseen for 2017. The Commission will continue to monitor the situation and take remedial action with the Member States implementing those programmes.

Under-implementation is also envisaged for Heading 1b for an overall amount of EUR 1.263,7 million and is linked to the lower than expected needs for the completion of the 2007-2013 programmes.

It is also forecast that additional payment appropriations will be needed for Heading 4, mostly for the Humanitarian Aid. It is envisaged that the EU Emergency Aid Reserve will be called upon to cover the financial needs.

The developing situation across all MFF headings will be monitored closely, in particular through the Active Monitoring and Forecast of Budget Implementation reports. Adjustments to available appropriations will be proposed as necessary.

5. 2017 Forecast - Detailed Forecast Tables

Detailed implementation profiles as well as the actual implementation situation at 31 May 2017 by programme within each MFF heading are provided in Annex 1 for commitment appropriations and in Annex 2 for payment appropriations.

REVIEW OF IMPLEMENTATION OF ASSIGNED REVENUE DURING 2016

Review of Implementation of Assigned Revenue during 2016

Table of Contents

1. INTRODUCTION	18
2. OVERVIEW OF IMPLEMENTATION	18
3. IMPLEMENTATION BY TYPE OF ASSIGNED REVENUE	20
4. ANNEXES.....	27

1. Introduction

This working document reviews the implementation of assigned revenue during 2016. It looks at each type of assigned revenue and provides an analysis by policy area and Multiannual Financial Framework (MFF) heading. The annexes provide an analysis, by budget line, of implementation by type of assigned revenue.

2. Overview of Implementation

2.1 Implementation of commitment appropriations

During 2016, the total amount of assigned revenue available was EUR 10,3 billion in commitment appropriations. By the end of the year, an amount of EUR 5,9 billion had been implemented, giving an overall implementation rate of 57,0%, compared to 52,7% in 2015. Table 1 below shows commitment implementation in 2016 and 2015.

3. Implementation by type of assigned revenue

3.1. Recoveries of the Year

These appropriations, usually referred to as "C4" appropriations, are the result of the recovery orders raised and cashed during the budget year in question. In 2016, EUR 3,7 billion has been recovered in both commitments and payments of which EUR 1,5 billion has been committed and EUR 1,7 billion has been paid. The implementation rate was 39,8% for commitments and 46,1% for payments. In 2015, the rate was 43,1% for commitments and 50,4% for payments. Annex 1 shows recoveries by budget line, both for commitments and payments, and their respective implementation.

Any funds unused at the end of 2016 have been carried forward automatically to 2017.

These appropriations also include the surpluses accrued by the decentralised agencies during the previous year, which are recovered by the Commission in the following year. In 2016, EUR 37,0 million in both commitments and payments was recovered by the Commission in this way, of which EUR 4,5 million was committed and EUR 4,6 million was paid. Annex 1a provides the detail, showing all the agencies for which a surplus was recovered during 2016 and identifying the agencies for which the funds were re-used.

The table below shows the unused amounts that have been carried forward to 2017 by policy area.

3.2. Recoveries carried forward

These appropriations, usually referred to as "C5" appropriations, are the result of the carryover of "C4" appropriations from the previous year. In 2016, EUR 1,7 billion in commitment appropriations and EUR 1,5 billion in payment appropriations were carried forward from 2015 and EUR 1,4 billion were used in both cases, representing implementation rates of 80,9% and 94,3% respectively. These implementation rates were 78,6% for commitments and 97,6% for payments in 2015. Annex 2 shows recoveries carried over by budget line, both for commitments and payments, and their respective implementation.

Included in these appropriations are the unused surpluses of decentralised agencies that were carried over from 2015 to 2016. EUR 20,3 million in commitments and EUR 20,2 million in payments was carried forward to 2016, out of which EUR 20,1 million was committed and EUR 20,2 million was paid. Annex 2a provides the detail, showing all the agencies for which a surplus was carried over to 2016 and identifying the agencies for which the funds were re-used.

The table below shows the unused amounts of C5 appropriations at 31 December 2016 by policy area.

3.3. Repayments of advances

These appropriations usually referred to as "C6" appropriations, are the result of the repayment in full or in part of advance payments that are made available again for the purposes of the operation concerned in accordance with the regulations for the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Maritime and Fisheries Fund as well as the European Agricultural Fund for Rural Development. There were EUR 420,1 million of C6 commitment and payment appropriations. Whereas all the commitment appropriations were consumed, the payment appropriations were in full carried over to the following year since there were enough C1 credits in 2016.

3.4. EFTA Funds

These funds result from the participation of EFTA countries in a number of different Community actions and they are normally received and consumed within the same year. Available EFTA appropriations in 2016 amounted to EUR 386 million in commitments and EUR 393 million in payments and virtually all appropriations were implemented in 2016. Annex 3 shows an analysis by budget line of the available and implemented EFTA funds.

3.5. Candidate Country Contributions

These appropriations, also referred to as "P0" appropriations, result from the participation of the Member States in a variety of EU programmes at the time when they were Candidate Countries and from the participation of current Candidate Countries in EU programmes. Available "P0" appropriations in 2016 amounted to EUR 24 million in commitment appropriations and EUR 48 million in payment appropriations. EUR 11 million in commitments and EUR 6 million in payments have been used, giving an implementation rate of 45,1% for commitments and 11,8% for payments. The implementation rate for 2015 was 66,8% and 12,6% respectively. Annex 4 shows the detailed budget line availability and implementation of Candidate Country funds.

The table below shows the unused amounts of Candidate Country appropriations at 31 December 2016 by policy area.

3.6. Competitive Research Income

These funds, also referred to as "T0" appropriations, result from the participation of the Joint Research Centre (JRC) in activities of a competitive nature, providing services to other DGs, Institutions or third parties. These funds, which are managed entirely by the Joint Research Centre, amounted in 2016 to EUR 472 million in commitment and EUR 392 million in payment appropriations. EUR 94 million in commitment and EUR 68 million in payment appropriations have been used, representing implementation rates of 20,0% for commitment appropriations and 17,5% for payment appropriations, as compared to 2015 implementation of 16,9% and 22,1% respectively. Annex 5 shows an analysis by budget line of the available and implemented competitive research income.

The JRC programmes are generally spread over a number of years (up to eight), and implementation rates reflect this. The JRC competitive research income has a different accounting basis from the other sources of revenue, in that the commitment appropriations are made available within the Commission's accounting system as soon as a contract is signed while the payment appropriations are only made available once the related recovery order has been cashed. This accounting rule leads to a large time lag between the commitment of funds and actual payments.

3.7. Other Earmarked Revenue (Third Party Participations)

These appropriations, usually referred to as "R0" appropriations, result from the participation of third countries in a variety of Community projects. The amounts are agreed via Memoranda of Understanding and are received during the course of the year via the cashing of one or several recovery orders, depending on the terms of the Memoranda. The funds available on any given budget line are thus not static during the year and the consumption of a particular programme can take a number of years. Annex 6 shows an analysis by budget line of the available and implemented third party appropriations.

The funds received in any given year may be committed in that year or the year after, but the payments can be made over a number of years. Available appropriations from third party participation in EU programmes in 2016 amounted to EUR 1 533 million in commitment and EUR 2 481 million in payment appropriations (compared to, respectively, EUR 1 409 million and EUR 2 301 million in 2015). EUR 731 million of commitment and EUR 527 million of payment appropriations have been used, resulting in an overall implementation rates of 47,7% for commitments and 21,2% for payments. The corresponding implementation rates for 2015 were 49,7% for commitments and 24,6% for payments.

The third party appropriations constitute the third-largest source of assigned revenue (after those generated within the CAP and the contributions received for the Facility for Refugees in Turkey) in terms of commitment appropriations and the second-largest in terms of payments. In 2016, they accounted for, respectively, 14,9% and 25,7% of the total available commitment and payment assigned revenue appropriations. The appropriations mainly concern:

- Research: the funds managed in titles 2 (Internal market, Industry, Entrepreneurship and SMEs), 6 (Mobility and transport), 8 (Research and innovation), 9 (Communication networks, content and technology), 10 (Direct Research) and 32 (Energy) relate to the participation of third countries in research programmes. They amounted in 2016 to EUR 825 million in commitments and EUR 1 559 million in payments, respectively 54% and 63% of total third country appropriations. These participations are negotiated at the start of each framework programme, the contributions then being valid for the whole of the programme. The programmes run over a number of years and payments are made in tranches over time.
- Education: the funds managed in title 15 (Education and culture) amounted in 2016 to EUR 232 million in commitments and EUR 400 million in payments, respectively 15% and 16% of total third country appropriations.
- Delegations: the "R0" appropriations received in title 21 (Development and cooperation) do not fall into the same category as those received under other titles, nor do they face the same problems. The funds received under title 21 are an accounting solution, determined by DG Budget, relating to the introduction of the new accounting system for Delegations whereby a mechanism had to be established in order to allow the handling of the European Development Fund (EDF) contribution to the administrative expenses of Delegations within the Commission's accounting systems. These appropriations are spent on a linear basis throughout the year and are carried forward as necessary.

The table below shows the unused amounts of R0 appropriations at 31 December 2016 by policy area.

3.8. Coal and Steel Income

The implementation rate in 2016 for this income was 89,9% for commitment appropriations and 74,3% for payment appropriations, as compared to the 2015 implementation rates of 83,7% and 64,8% respectively. Annex 7 shows the detailed available and implemented coal and steel funds by budget line.

3.9. Facility for Refugees in Turkey

The Facility for Refugees in Turkey, established by Commission Decision of 24 November 2015, amended on 10 February 2016, was designed to assist Turkey in addressing the humanitarian and development needs of refugees in the country and their host communities. The Facility manages EUR 3 billion, with EUR 1 billion coming from the EU budget and EUR 2 billion in the form of assigned revenue from Member States' contributions. These appropriations are assigned to existing EU external instruments such as Humanitarian Aid and the Instrument for Pre-Accession Assistance and are implemented according to the respective programmes' basic acts and the Financial Regulation. The implementation as of 2 May 2017 was EUR 2,8 billion for commitments and EUR 0,8 billion for payments. The budget of the Facility is to be contracted until the end of 2017.

4. Annexes

The annexes that follow provide a detailed analysis by budget line for each type of assigned revenue. This analysis will be continued on a yearly basis as part of the Draft Budget working documents.

1. Evolution of the RAL in 2016

1.1 Introduction

The amount of outstanding commitments (RAL) at the end of the 2016 is derived from:

- The initial RAL, as at 1.1.2016 (pre-2016 RAL)
- *Less* payments during 2016 on this RAL
- *Plus* new commitments made in 2016
- *Less* payments during 2016 on commitments made in 2016
- *Less* de-commitments made in 2016. This item also includes cancellations of commitments which cannot be carried forward, and re-evaluations. Therefore the item may reduce either the initial RAL or the outstanding new commitments.

The following analysis of the RAL is provided by heading of the multi-annual financial framework (MFF). A breakdown of the RAL by Policy Area is also provided.

Following the principle of continuity, the starting point of the annual presentation of the evolution of the RAL is the situation at the end of the previous year.

A detailed analysis of the implementation of commitments and payments during 2016 has already been provided in the *Report on Budgetary and Financial Management* for the financial year 2016, presented by the Commission in April 2017. For the Structural Funds, a separate detailed analysis on, *inter alia*, the RAL, will be published by the Commission in June 2017 (*Analysis of the budgetary implementation of the European Structural and Investment Funds in 2016*).

In 2016 the RAL reached EUR 238 billion. An increase of approximately EUR 10 billion was initially expected due to the difference between budgeted commitment and payment appropriations in the adopted budget. The final increase was, however, twice as high due to an under-implementation, mostly in sub-heading 1b which first led to amending budget 4/2016 decreasing the level of payment appropriations by EUR 7.3 billion and then to a surplus at the end of the year of EUR 4.8 billion. In 2017 a further increase of RAL is expected due to a significant gap between budgeted commitment and payment appropriations.

Overall, implemented commitments and payments made on year's commitment remained stable compared to 2015.

In total, EUR 2 135 million of new commitments were needed for the provisioning of the EFSI Guarantee Fund (European Fund for Strategic Investments).

The RAL of Horizon 2020, representing some 60% of outstanding commitments in Heading 1a, decreased in 2016 by 2% or EUR 500 million.

For the heading as whole, the RAL is equivalent to less than 2 years of commitments.

Following several years of constrained payment appropriations and accumulation of backlog of unpaid claims, 2016 brought about a completely different situation. The abnormal backlog was fully phased out, in line with the 'payment plan' agreed with the Parliament and the Council in 2015, and for the first time since 2010, the appropriations available for the specific sub-heading were more than sufficient to cover the existing needs.

Payments on RAL decreased from 2015 by EUR 10.1 billion (-21%), and payments on commitments for the year decreased by EUR 3.3 billion.

The excess of payment appropriations for 2016 can be explained as follows:

For the 2014-2020 programmes the level of payable claims actually submitted by the end of the year by Member States proved to be an unprecedented EUR 8 billion lower than the forecast, with 26 Member States submitting claims below their forecast.

With regard to the 2007-2013 programmes, the 2016 budget payment needs were estimated based on an expected end-2015 backlog of EUR 20 billion. However, the actual submission of payment claims was significantly lower than expected, leading to an end-2015 backlog of only EUR 8 billion.

	TOTAL	28 191	12 605	64 547	44 806	1 378	33 947	20%

Rural development accounts for 87% of the total RAL. The increase in 2016 is a consequence of the magnitude of implemented commitments after carryover.

The yearly balance of unpaid non-differentiated commitments of the Common Agriculture Policy is not material.

The increase of RAL reflects the evolution of the refugee crisis. Commitments of the relevant funds (AMIF and ISF) increased from EUR 1 444 million in 2015 to EUR 2 551 million in 2016, payments on the RAL more than doubled and the payments on year's commitments increased to EUR 636 million from EUR 402 million in 2015.

The evolution of the RAL is lower than 2015 (+1% versus +3%).

The overall RAL of the Heading corresponds to 2,9 years of commitment appropriations of the initial 2016 budget. This is higher than in other Headings and is the result of the large share of global commitments in the total RAL. The amounts to be contracted represented more than one third of outstanding commitments at end-2016 (see table 2.2) and this is due for instance to lengthy ratification procedures of financial agreements.

1.2.6 Heading 5: Administration

MFF	Sub-heading	RAL as at 01.01.2016	Payments on RAL	Commitments 2016	Payments on 2016 commitments	Decommitments 2016	RAL as at 31.12.2016	Evolution of the RAL (%)

	TOTAL	295	270	5 379	5 079	24	301	2%

The RAL of Heading 5 effectively corresponds to the automatic carry-over of non-differentiated appropriations, with commitments made one year and settled in course of the following year. As the amounts carried over in this way must be used within one year, this RAL is temporary.

2. The 2016 RAL in Context

2.1 RAL by Main Programmes

The RAL of main programmes can be best put into context when the annual expenditure (non-differentiated appropriations) is excluded from comparisons.

The table below shows the breakdown of the RAL of **differentiated appropriations** by Heading and by main programmes.

MFF Heading / Main programmes	RAL amount billion EUR	As % of RAL	Commitment voted in the initial budget (billion EUR)	As % of 2016 differentiated CA	EUR billions RAL in years of differentiated CA of the initial budget 2016

4.0.1 - Instrument for Pre-accession assistance (IPA II)	6	2.7%	2	1.6%	3.9
Total Heading 4	25	10.5%	9	8.5%	2.9
TOTAL RAL of differentiated appropriations	238				2.4

Outstanding commitments correspond to 2.4 years of commitments thus remaining in line with the N+2/N+3 reference of the Cohesion policy (Heading 1b) and the N+2 reference of Rural Development (Heading 2). This figure remains stable in comparison to the previous year.

This table shows that the RAL is a time lag between commitment and payment which concerns all long-term projects independently of their Heading.

The outstanding commitments of the previous programming periods, i.e. before 2014, decreased in 2016 from EUR 66 billion to EUR 33 billion. Consequently, a bigger share of differentiated payment appropriations will be available for the current programmes starting from 2017.

3. Estimate of the Volume of Unjustified RAL as a Result of the Annual PAR Exercise

The objective of the annual PAR (Potentially Abnormal RAL) exercise is to identify all unjustified RAL, i.e. commitments which are recorded in the accounts, but which are considered to be lacking a legal and/or factual justification for further payments. Examples are commitments with a programme or project deadline for payments which has expired, or a project which has already been completed. In principle, all such "abnormal" commitments should be de-committed. This has to be done on a case by case basis by the Commission services which manage the commitments, and may lead to the introduction of recovery orders. The 2016 exercise was launched in December 2016 and the results are presented here.

3.1. Background

In November 2002 and 2003, the Budget Authority and the Commission concluded Joint Declarations with the objective of bringing the situation regarding outstanding commitments under control, specifically by examining and eliminating "potentially abnormal" outstanding commitments. "Potentially abnormal" was defined in the Declaration as:

- Dormant commitments in respect of which no payment has been made for the last two financial years; and
- Old commitments that have been in the accounts for at least five financial years.

The Declarations covered the period up to the end of 2003 only, and related specific reports were prepared for the Budget Authority. However, the Commission has considered it worthwhile to continue the exercise of examining and reporting on the commitments which each year fall under the definition of "potentially abnormal". In practical terms, at the end of each financial year the commitments corresponding to the above mentioned criteria are identified and examined individually by the Commission services. This regular analysis is intended to lead to a continuous reduction of the oldest RAL and to avoid maintaining in the accounts amounts which lack a legal and/or factual basis for further payments or which should lead to recoveries.

In practical terms, all open commitments made before 2011 are analysed as old and all cases with no payment in 2014-2016 as dormant.

In the light of the average life cycle of a Union subsidy, a commitment of more than five years old is not necessarily abnormal. The age of five years is not a threshold which would reliably separate abnormal cases from normal ones; the nature of the project is determinant.

This is even more obvious with the definition of dormant: a commitment for which no payment has been made for two financial years remains by definition within the frame of the basic n+2 rule applied in Cohesion and in most cases will be considered normal or ongoing. It is not a predictor of likely problems with the future closure of the contract. Therefore, the focus of the exercise has always been on old commitments; monitoring dormant cases helps to trace commitments which can be settled before they would become old (see item 3.4).

A normal commitment, independent of age or dormant period, will be subject to exactly the same payment or de-commitment conditions as the overall RAL. Thus, the PAR exercise is essentially an identification exercise, with the objective of eliminating all unjustified RAL from the accounts, and enabling the Commission to proceed to recoveries where appropriate, as well as generally assisting services to accelerate the settlement of old ongoing commitments.

The absorption of the PAR is the ultimate objective and the actual absorption rate is then the indicator to monitor. However, this indicator becomes relative from the moment the target group contains also normal commitments (i.e. commitments that by definition cannot be absorbed in this

exercise). If all open commitments of the PAR sample were settled in the exercise, this could mean that simple cases have not been decommitted in a timely manner. A low absorption rate might reflect a good performance of services: all cases have been settled long ago except extremely complicated (dispute and trial) ones and the progress in settling them cannot be but slow.

3.2. Classification of Outstanding Commitments

The services were requested to classify potentially abnormal outstanding commitments identified at the end of 2016 under the categories in the table that follows:

Classification Categories of Outstanding Commitments					
A	B			C	
Commitment open, as the totality of steps necessary to undertake the final payment have not yet been reached. This commitment can thus be seen as normal.	The commitment is still open, despite the fact that the due date for the required invoice/supporting documentation is past.			Contract can be closed	
	B1	B2	B3	C1	C2
	No delay but further information has been requested, final payment to follow.	The beneficiary is late in submitting the required supporting documentation	Major problems have been identified: a recovery order is to be raised or a dispute has arisen with the contractor	Decommitment still to be undertaken	File closed during 2016
	Operational services undertaking necessary follow up action	Recovery anticipated, audit necessary	Operational conclusion: services de-committing	Operational conclusion: services de-committing	

3.3. Results of the 2016 Exercise

This section consists of:

- Classification of old cases and the corresponding open amounts as follows:
 - Normal/ongoing cases correspond to codes A, B1, B2
 - Disputed cases to code B3
 - Unjustified cases to codes C1 and C2;
- Absorption profiles of open commitments according to their year of origin;
- An overview of dormant cases to be de-committed.

3.3.2 Absorption profiles

The following observations can be made in relation to old commitments:

- More than 80% of open amounts relate to commitments which, in spite of their age, are considered as on-going and not to be decommitted;
- About 70% of open amounts concern Regional policy, Energy, and Employment and Social affairs;
- 39% of the open amounts are from the year 2006, last year of the programming period.

The following tables show the absorption profiles of previous exercises:

3.4 Dormant Commitments

Altogether 557 dormant cases were identified as unjustified RAL representing an open amount of EUR 310 million. The breakdown per year of origin is presented in the table below. A follow-up of the decommitment process will be made in course of 2017.

Year of origin	Cases to be de-committed	Open Amount (Million EUR)	Total dormant cases
