On Skates and Rays, both Parties agreed to continue discussions, including on the possible involvement of ICES.

The Parties agreed to continue work on a terms of reference on discard survivability.

The Parties reaffirmed that they would prioritise the improvement of the ICES assessment tool for seabass and will continue discussions on a terms of reference to ICES.

#### **Item 7: Approach to conservation and management of non-quota stocks – for exchange of views**

The Parties agreed to develop a programme of work for multi-year strategies for shared non-quota stocks (NQS), addressing the scope and framework of the strategies and identifying science and evidence gaps for the stocks. The Parties committed to continue immediate work on multi-year strategies at pace ahead of 31 July 2022, as well as to consider long-term aims for the strategies. Both Parties informed as to their respective internal work on NQS of relevance to multi-year strategies and agreed to keep each other informed of this work.

The Parties will also consider how to ensure appropriate data transparency and remain committed to the exchanging of robust catch data for non-quota species. They agreed to continue discussions on NQS data.

#### **Item 8: Next steps**

Both Parties proposed two further meetings of the SCF, a fourth SCF meeting in July and a fifth SCF meeting in the autumn. The Parties shared the view that two Working Group meetings should convene before the fourth SCF meeting in July.

**Item 9: Any other business (AOB)**

The EU raised an AOB point on four new fisheries bylaws in UK offshore Marine Protected Areas, notably the Dogger Bank. Both Parties exchanged views on the notified measures.
