

Acknowledgment

This report would not exist without the generosity of many extraordinary people who have at heart the future of Europe.

First, I would like to acknowledge the President of the European Commission Ursula von der Leyen for her constant support, and to thank the President of the European Central Bank Christine Lagarde for lending valuable resources.

Paolo D'Aprile and Pauline Rouch coordinated all the work contained in the report. Jonathan Yiangou drafted extensive parts of it. Without their dedication and hard work this report would not have been possible.

The analysis and the policy advice contained in the report owes much to the contributions of: Philippe Aghion, Laurence Boone, Vittorio Colao, Francesco Decarolis, Robbert Dijkgraaf, Francesco Giavazzi, Luigi Guiso, Claudio Michelacci, Marco Pagano, Raffaella Sadun, Fabiano Schivardi, Fiona M. Scott Morton, Michael Spence, Per Strömberg, Jean Tirole, and John Van Reenen.

I am also grateful for the contributions of the following people and organisations, who were consulted in meetings and/or who sent written contributions. This list might be subject to updates.
