

ELECTRICITY SERVICES

2020 Market Monitoring Survey

The Consumer Market Monitoring Survey (MMS) assesses the performance of a range of product and service markets across the European Union, Iceland, Norway, and the United Kingdom. It looks at consumers' experiences and perceptions of the markets using a standard set of indicators to allow consistent and comparable monitoring across markets, countries and survey waves. The indicators include both 'core' items, asked for all markets, as well as market-specific indicators that are asked for selected markets only (and in varying combinations). This factsheet covers the core indicators only.

CORE INDICATORS

77% trust providers

report positive experiences

59% find it easy to compare goods or services

of consumers have experienced % a problem in this market

of those who have experienced a problem suffered detriment

of those who have experienced a problem made a complaint

of complainants were satisfied with the outcome

TECHNICAL NOTE

The MMS is conducted using CATI (Computer Assisted Telephone Interviews) and the target population is the general public aged 18 and older. Around 50,000 people are interviewed each wave across the 30 countries in scope. The 2020 wave of the survey was conducted between 27 July 2020 and 26 October 2020.

OVERVIEW OF FINDINGS

Overall, 77% of consumers trust providers in the electricity services market, while 21% do not.

86% of consumers report positive experiences of making purchases in the market, while 10% report negative experiences. A total of 59% find it easy to compare the offers of different providers, while 11% find it difficult.

A total of 9% of consumers have experienced problems with services they purchased, or with providers, that they feel gave legitimate cause for complaint. Of this group, 44% have experienced financial loss while 76% have experienced other, non-financial impacts such as a loss of time, anger, frustration, stress or anxiety.

Of all those who have experienced problems the majority (69%) have gone on to make a complaint. The majority (63%) reported being satisfied with the outcome of the complaint, while 36% reported being dissatisfied.

How much do you trust the providers overall?

How would you rate your experiences of purchasing services in this market?

Data label not shown <5%

on here. As a result, the figures generally do not add up to 100%

How easy or difficult was it to compare the services of different providers?

This question was not asked in Cyprus and Mal
