#### 2.1. Joint Harmonised European Union Programme of Business and Consumer Surveys (BCS)

--

- (b) Budget line

06 20 04 01 – “Coordination and surveillance of, and communication on, the economic and monetary union including the euro (EMU)”.
---

- (c) Objectives pursued

The BCS constitute an essential tool for the Commission for fulfilling its Treaty-based obligations of surveillance of the Union economies. They constitute a basis for decision-making by economic policy makers, governments and research institutes in the Union. There are few alternative products at European level and none share the features of the Commission's surveys in terms of coverage, cross-country comparability, frequency and
--

accuracy.

(d) Expected results

The data collected feeds into the monthly press releases and analytical studies and is an important element of DG ECFIN's assessments and forecasts of economic developments in the Union and candidate countries. The continuous improvement in survey methodology and harmonisation for cross-country comparability purposes is advanced through the organisation of an annual Workshop on recent developments in BCS.

(e) Type of applicants

BCS actions shall be covered by the specific grant agreements under the multiannual framework partnership agreements signed with the institutes participating in the BCS programme and valid until 2025.

The beneficiaries will submit new budget proposals in Q1/2023. New specific grant agreements will be concluded for the period May 2023 – April 2024.

(f) Description of the activities to be funded by the specific grants directly awarded on the basis of Article 195(f) of the Financial Regulation.

BCS summarise economic assessments and expectations of a large number of consumers and managers from different sectors of the economy. Results are published on a monthly basis. The reason for co-funding the partner institutes participating in the BCS derives from their technical competence and high degree of specialisation in collecting survey data in order to ensure the harmonisation, coordination, analysis and dissemination of business and consumer surveys in Member States and candidate countries. Harmonisation and coordination are essential to allow the comparison of business cycles across countries and the calculation of meaningful business cycle indices for the euro area and for the Union as a whole, in order to inform the Union authorities, the Member States and the various economic stakeholders about the present economic situation and short-term expectations.

(g) Implementation

Directly by DG ECFIN.

**2.2. Timely High-frequency indicators for global and regional trade (THIT)**

(a) Legal basis

Commission's institutional prerogatives (Article 58(2)(d) Financial Regulation).

(b) Budget line(s)

06 20 04 01 – “Coordination and surveillance of, and communication on, the economic and monetary union including the euro (EMU)”.

(c) Objectives pursued

The project will continue to deliver monthly indicators of world trade that feed into DG ECFIN's monitoring of trade flows at the global, regional and country-specific level, including for all Member States, candidate countries and all major advanced and emerging market economies.

(d) Expected results

The monthly indicators are valuable inputs to ECFIN forecasts, regular and ad-hoc analytical and briefing notes.

(e) Type of applicants

Grants shall be covered by the specific grant agreement signed with the institute selected for the THIT project. A specific grant agreement under the partnership agreement signed with the selected institute will be awarded in 2023. The eligibility period of the action runs from 1 June 2023 to 31 May 2024.

A new call for proposals will be launched to put in place a new 4 years' partnership agreement (1 June 2024 to 31 May 2028).

(f) Description of the activities to be funded by the specific grants directly awarded on the basis of Article 195(f) of the Financial Regulation.

The reason for co-funding the partner institute participating in the THIT project derives from their technical competence and high-degree of specialisation in providing the timely high-frequency indicators for trade (THIT).

(g) Implementation

Directly by DG ECFIN.

### 2.3. Production and Broadcast of a Magazine on Economic Issues

(a) Legal basis

Commission's institutional prerogatives (Article 58(2)(d) Financial Regulation).

(c) Objectives pursued

Raising awareness of the policies related to DG ECFIN in the form of the production and broadcast of TV news programmes.

(d) Expected results

The project will continue to increase the volume and quality of the coverage of Union economic and financial affairs. Similar to previous years, the beneficiary will provide more information packaged in new attractive formats able to reach larger audience and therefore contribute to forging closer links between citizens and the Union institutions.

(e) Type of applicants

A grant agreement will be signed in 2023 with Euronews under the multiannual

framework agreement signed on 5 July 2021 between Euronews and the European Commission.

- (f) Description of the activities to be funded by the specific grants directly awarded on the basis of Article 195(f) of the Financial Regulation.

- (e) Type of applicants

Member State (Bulgaria)

- (f) Description of the activities to be funded by the specific grants directly awarded on the basis of Article 195(c) of the Financial Regulation.

As a precondition for this support, Bulgaria should fulfil all the convergence criteria, following an assessment that could be made in Spring 2023. Subject to a positive assessment of these convergence
