Remarks

The GNI-based resource is an ‘additional’ resource, providing the revenue required to cover expenditure in excess of the amount yielded by traditional own resources, VAT-based payments, plastic based own resource and other revenue in any particular year. By implication, the GNI-based resource ensures that the budget is always balanced *ex ante*.

The GNI call rate is determined by the additional revenue needed to finance the budgeted expenditure not covered by the other resources (Plastic based own resource, VAT-based resource, traditional own resources and other revenue). Thus a call rate is applied to the GNI of each of the Member States.

The rate to be applied to the Member States’ GNI for financial year 2022 is 0,7714 %.

Remarks

New Article

This article is intended to record the payments as a result of the application of a uniform call rate to the weight of plastic packaging waste generated in each Member State that is not recycled. The uniform call rate shall be EUR 0,80 per kilogram. Certain Member States shall be entitled to annual lump sum reductions.

10 690 046 602	99 802 250	10 789 848 852

Remarks

This item is intended to record the net contributions from the United Kingdom resulting from the payments made in accordance with Article 148 of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community.

The net contribution corresponds to the differences between the amounts due by the United Kingdom to the Union and the amounts due by the Union to the United Kingdom.

This item also accommodates the assigned revenue included in the United Kingdom contribution to the EU budget.

The reference dates for payments by the United Kingdom to the Union or by the Union to the United Kingdom made after 31 December 2020 shall be 30 June and 31 October of every year. Payments shall be made in four equal monthly instalments for payments that have a reference date of 30 June and in eight equal monthly instalments for payments that have a reference date of 31 October. All payments shall be made by the last working day of each month, starting on the reference date or, where the reference date is not a working day, the last working day before the reference date.

Remarks

New item

This item is intended to record the annual contributions from the European Coal and Steel Community (ECSC) in liquidation to the Union's annual budget for the years 2021 to 2025 that are resulting from the application of the Article 145 of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community.

According to this Article, the Union is liable to the United Kingdom for its share in the net assets of the ECSC in liquidation on 31 December 2020 (EUR 183 282 282) and the related reimbursement shall be made in five equal annual instalments (EUR 36 656 456) from 2021 to 2025.

These contributions from the ECSC in liquidation therefore aim at fully compensating the effects of the corresponding reductions accounted for in the contributions to the Union's annual budget of the United Kingdom, as recorded under the item 6 6 0 2.

Reference acts

Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community (OJ L 29, 31.1.2020, p. 7).

Remarks

This item is intended to record the contributions from the United Kingdom for participation in Union's programmes and activities after the transition period foreseen in the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community.

The net contribution corresponds to the differences between the amounts due by the United Kingdom to the EU and the amounts due by the EU to the United Kingdom.

This item also accommodates the assigned revenue included in the United Kingdom contribution to the EU budget.

The reference dates for payments by the United Kingdom to the Union or by the Union to the United Kingdom made after 31 December 2020 shall be 30 June and 31 October of every year. Payments shall be made in four equal monthly instalments for payments that have a reference date of 30 June and in eight equal monthly instalments for payments that have a reference date of 31

October. All payments shall be made by the last working day of each month, starting on the reference date or, where the reference date is not a working day, the last working day before the reference date.

Remarks

New item

This item is intended to record the annual contributions from the European Coal and Steel Community (ECSC) in liquidation to the Union's annual budget for the years 2021 to 2025 that are resulting from the application of the Article 145 of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community.

According to this Article, the Union is liable to the United Kingdom for its share in the net assets of the ECSC in liquidation on 31 December 2020 (EUR 183 282 282) and the related reimbursement shall be made in five equal annual instalments (EUR 36 656 456) from 2021 to 2025.

These contributions from the ECSC in liquidation therefore aim at fully compensating the effects of the corresponding reductions accounted for in the contributions to the Union's annual budget of the United Kingdom, as recorded under the item 6 6 0 2.

Remarks

Appropriations under this chapter are intended to cover expenditure of administrative nature (salaries, studies, meetings of experts, information and publications, etc.) directly linked to the achievement of the objectives of the programmes or measures coming under

this cluster, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts..

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Article 01 01 01 — Support expenditure for Horizon Europe

Remarks

Besides the expenditure described at the level of this chapter, this appropriation is also intended to cover expenditure relating to officials, temporary and external staff as well as other administrative expenditure for the management of the specific research and innovation programme — Horizon Europe, in the form of indirect and direct actions, including administrative expenditure incurred by staff posted in Union delegations

Remarks

Horizon Europe – the Framework Programme for Research and Innovation aims at delivering scientific, technological, economic and societal impact from the Union’s investments in research and innovation so as to strengthen the scientific and technological bases of the Union and foster its competitiveness in all Member States including in its industry, deliver on the Union strategic priorities, contribute to the realisation of Union objectives and policies, contribute to tackling global challenges, including the Sustainable Development Goals by following the principles of the Agenda 2030 and the Paris Agreement, and strengthen the European Research Area. Horizon Europe shall thus maximise Union added value by focusing on objectives and activities that cannot be effectively realised by Member States acting alone, but in cooperation.

Horizon Europe shall:

- develop, promote and advance scientific excellence, support the creation and diffusion of high-quality new fundamental and applied knowledge, skills, technologies and solutions, training and mobility of researchers, attract talent at all levels and contribute to full engagement of Union’s talent pool in actions supported under Horizon Europe,
- generate knowledge, strengthen the impact of research and innovation in developing, supporting and implementing Union policies and support the access to and uptake of innovative solutions in European industry, notably in SMEs, and in society to address global challenges, including climate change and the Sustainable Development Goals,
- foster all forms of innovation, facilitate technological development, demonstration and knowledge and technology transfer, strengthen deployment and exploitation of innovative solutions,
- optimise Horizon Europe’s delivery for strengthening and increasing the impact and attractiveness of the European Research Area, to foster the excellence-based participations from all Member States, including low R&I performing Member States, in Horizon Europe and to facilitate collaborative links in European research and innovation.

The Programme shall ensure the effective promotion of equal opportunities for all and the implementation of gender mainstreaming, including the integration of the gender dimension in R&I content.

The Programme shall be implemented in synergy with other Union programmes while aiming for maximal administrative simplification.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Council Regulation (EU) 2020/2094 of 14 December 2020, external assigned revenue resulting from proceeds of the European Union Recovery Instrument entered in the statement of revenue give rise to the provision of appropriations for this programme under this title for a total amount of EUR 5 412 000 000 in commitments. The amounts indicated in the budget remarks of the relevant budget lines under this Title provide information about the expected amount of legal commitments in 2022.

Legal basis

Council Regulation (EU) 2020/2094 of 14 December 2020 establishing a European Union Recovery Instrument to support the recovery in the aftermath of the COVID-19 crisis (OJ L 433I , 22.12.2020, p. 23).

Council Decision (EU) 2021/764 of 10 May 2021 establishing the Specific Programme implementing Horizon Europe – the Framework Programme for Research and Innovation, and repealing Decision 2013/743/EU (OJ L 167I, 12.5.2021, p. 1).

Regulation (EU) 2021/695 of the European Parliament and of the Council of 28 April 2021 establishing Horizon Europe – the Framework Programme for Research and Innovation, laying down its rules for participation and dissemination, and repealing Regulations (EU) No 1290/2013 and (EU) No 1291/2013 (OJ L 170, 12.5.2021, p. 1).

Article 01 02 02 — Global Challenges and European Industrial Competitiveness (Pillar II)

Remarks

This pillar is intended to support the creation and better diffusion of high-quality new knowledge, technologies and sustainable solutions, reinforce the competitiveness of European industry, strengthen the impact of research and innovation in developing, supporting and implementing Union policies, and support the uptake of innovative solutions in industry, notably in SMEs and start-ups, and in society to address global challenges.

To maximise impact flexibility and synergies, research and innovation activities shall be organised in six clusters, interconnected through pan-European research infrastructures, which individually and together will incentivise interdisciplinary, cross-sectoral, cross-policy, cross border and international cooperation.

This pillar consists of the following six clusters:

- Health,
- Culture, Creativity and Inclusive Society,
- Civil Security for Society,
- Digital, Industry and Space,
- Climate, Energy and Mobility,

– Food, Bioeconomy, Natural Resources, Agriculture and Environment,

and the non-nuclear direct actions of the Joint Research Centre.

Social sciences and humanities shall be fully integrated across all clusters, including specific and dedicated activities. Activities from a broad range of Technology Readiness Levels, including lower Technology Readiness Levels, will be covered in this pillar of Horizon Europe. Each cluster contributes towards several Sustainable Development Goals; and many of those goals are supported by more than one cluster. Gender equality is a crucial factor in order to obtain sustainable economic growth; it is therefore important to integrate a gender perspective in all global challenges.

Remarks

Appropriations under this chapter are intended to cover the costs of a Union guarantee provided under the ‘InvestEU Fund’ for financing and investment operations carried out in support of the Union’s internal policies. It also covers the costs for an advisory support mechanism to support the development of investable projects and access to financing and to provide related capacity building (‘InvestEU Advisory Hub’). Finally, it also covers the costs of a database granting visibility to projects for which project promoters seek financing and which provides investors with information about investment opportunities (‘InvestEU Portal’).

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094 of 14 December 2020, external assigned revenue resulting from proceeds of the European Union Recovery Instrument entered in the statement of revenue give rise to the provision of appropriations for this programme under this title for a total amount of EUR 6 074 000 000 in commitments in current prices. The amounts indicated in the budget remarks of the relevant budget lines under this title provide information about the expected amount of legal commitments in 2021.

Remarks

Appropriations under this chapter are intended to cover actions focused on the development and modernisation of the transEuropean networks in the fields of transport, energy and digital and to facilitate cross-border cooperation in the field of renewable energy, taking into account the long-term decarbonisation commitments and with emphasis on synergies among sectors.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

Remarks

This appropriation is intended to cover actions to contribute to the development of projects of common interest relating to efficient, interconnected and multimodal networks and infrastructure for smart, interoperable, sustainable, inclusive, accessible, safe and secure mobility. Those projects will be mainly implemented through calls for proposals under multiannual work programmes constituting financing decisions within the meaning of Article 110 of the Financial Regulation.

This appropriation will support actions that take into account the long-term decarbonisation commitments of the Union. The implementation will take the form of studies, works and other accompanying measures necessary for the management and delivery of the CEF, in line with the sector specific guidelines, i.e. the TEN-T Guidelines.

Eligible actions will relate to the development of efficient, interconnected and multimodal networks in railways, inland waterways, maritime ports and road infrastructure along the TEN-T core network and for cross-border links, maritime ports and inland ports located on the TEN-T comprehensive network. Moreover, support will be provided to smart, interoperable, sustainable, multimodal, inclusive, accessible, safe and secure mobility, such as Motorways of the Sea, telematics application systems for all transport modes, new technologies and innovation with a specific focus on alternative fuels infrastructures, actions to remove interoperability barriers and actions improving transport infrastructure accessibility and resilience.

Assigned revenue received may give rise to additional appropriations under this budget line in accordance with Article 22(1) of the Financial Regulation.

Remarks

Appropriations under this chapter are intended to cover actions focused on reinforcing Europe's capacities in high performance computing, artificial intelligence, cybersecurity and advanced digital skills and ensuring their wide use across the economy and society. Fostered simultaneously, these will help create a thriving data economy, promote inclusiveness and equal opportunities for all and ensure value creation. Most importantly, the programme will concentrate on the areas where no single Member State alone can ensure the level required for digital success. Focus will also be placed on those areas where public spending has the highest impact, notably on improving efficiency and quality of services in the areas of public interest such as health, environment, climate, mobility and public administrations, and helping small and medium-sized enterprises (SMEs) to adapt to digital change.

The Digital Europe programme will also consider the added value of combining digital with other enabling technologies in order to maximise benefits from digitisation.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

This appropriation is intended to cover actions to develop capacity in artificial intelligence (AI) in Europe in line with the Digital Services Act package. To this end, actions will focus on building-up and reinforcing core AI capacities, with a particular attention to data resources and federated cloud infrastructure, by making them accessible to all businesses and public administrations. Actions will also reinforce and foster links between existing AI testing and experimentation facilities in Member States and will support the establishment of libraries of AI algorithms.

Remarks

EASA is the Union's agency for aviation safety. Its mission is to ensure the highest common level of safety protection for EU citizens, ensure the highest common level of environmental protection, establish a single regulatory and certification process among Member States, facilitate the internal aviation market and create a level playing field, and work with other international aviation organisations and regulators.

The main activities of the organisation include the collection and analysis of safety intelligence and performance data to derive strategic action plans, the certification of aviation products and the approval of organisations in all aviation domains (design, production, maintenance, training, air traffic management, etc.) the preparation of regulatory material setting up common standards for aviation in Europe, and the monitoring and inspections of the effective implementation of such standards in the Member States and EU neighbouring States having signed EU aviation agreements.

The tasks performed by EASA cover the whole spectrum of the EU aviation safety rules, and have an important international component as the Agency is legally mandated to cooperate with international actors in order to achieve the highest safety level for EU citizens globally (e.g. EU safety list, Third Country Operators authorisations, and implementation of technical assistance programming towards third countries). Established in 2002, EASA is composed of more than 800 aviation experts and administrators and it has 31 Member States (27 EU + Switzerland, Iceland, Norway and Liechtenstein). It has four international offices in Montreal, Washington, Beijing and Singapore. Typically its budget consists mainly of fees and charges (64%), the EU subsidy (23%), earmarked funds (11%) and third country contributions (2%).

Remarks

Appropriations under this chapter are intended to contribute to the well-functioning of the single market for goods and services, including financial services, anti-money laundering and the free movement of capital, and to provide high quality European statistics on all Union policies, as per the purpose of the Programme for single market, competitiveness of enterprises, including small and medium-sized enterprises, and European statistics (the 'Single Market Programme'). In particular, the programme will support the design, implementation and enforcement of the Union legislation underpinning the proper functioning of the single market for goods and services, including financial services, anti-money laundering and the free movement of capital, as well as capacity building, coordination of joint actions between Member States and the Commission, and the international dimension of the internal market. It will also support women's participation and contribute to the empowerment of all actors of the single market: businesses, citizens including consumers, civil society and public authorities. The Single Market Programme brings together six preceding programmes from different policy areas, notably the grants and contracts part of the Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME), programmes on consumer protection, enhancing the participation of consumers and other end-users in financial services policy-making, the development of international financial, auditing and corporate reporting standards, measures to contribute to a high level of health for humans, animals and plants along the food chain and in related areas and European statistics. In addition, the programme includes several other budgetary lines concerning, in particular market surveillance, company law, contract and extra-contractual law, standardisation and support for competition policy, customs and taxation. The impact assessment showed that one single programme will create synergies contributing to more agile and efficient budgetary spending.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Legal basis

Remarks

ERDF support under the investment for growth and jobs goal and for the European territorial cooperation goal (Interreg) in the 2021-2027 and preceding programming periods.

It will cover the following three categories of regions:

- less developed regions, with a GDP per capita less than 75 % of the average GDP of the Union,
- transition regions, with a GDP per capita between 75 % and 100 % of the average GDP of the Union,

- more developed regions, with a GDP per capita above 100 % of the average GDP of the Union.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094 of 14 December 2020, external assigned revenue resulting from proceeds of the Recovery Instrument entered in the statement of revenue give rise to the provision of appropriations for programmes financed under the REACT-EU under Titles 05 and 07 for a total amount of EUR 50 620 000 000 in commitments. The amounts indicated in the budget remarks of the relevant budget lines under this Title provide information about the expected amount of legal commitments in 2022.

Legal basis

Remarks

Cohesion Fund (CF) support under the Investment for growth and jobs goal in the 2021-2027 and preceding programming periods. The CF will support Member States whose GNI per capita, measured in Purchasing Power Standards (PPS) and calculated on the basis of Union figures for the period 2014-2016, is less than 90 % of the average GNI per capita of the EU-27 for the same reference period. The appropriation, while ensuring an appropriate balance and according to the investment and infrastructure needs specific to each Member State, is intended to support:

- investments in the environment, including areas related to sustainable development and energy which present environmental benefits,
- the Connecting Europe Facility (CEF)

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this Chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Legal basis

Remarks

An amount transferred from the CF shall be spent exclusively in Member States eligible for funding from the CF.

The objective will be mainly implemented through calls for proposals under multiannual work programmes, which will constitute financing decisions in the meaning of Article 110 of the Financial Regulation.

It will support actions that take into account the long-term decarbonisation commitments of the Union. The implementation will take the form of studies, works and any other accompanying measures necessary for the management and delivery of the programme, in line with the sector specific guidelines, i.e. the TEN-T Guidelines.

Eligible actions will mainly relate to the development of efficient, interconnected and multimodal networks in railways, inland waterways, maritime ports and road infrastructure along the TEN-T core network and for cross-border links, maritime ports and inland ports located on the TEN-T comprehensive network.

In accordance with point (4) of Article 4 of Regulation (EU) 2021/1153 establishing the Connecting Europe Facility, up to 1 % of the overall CEF financial envelope will cover expenses pertaining to programme support actions and any other accompanying measures to support the preparation of projects and provide advisory to project promoters.

According to Article 27 of Regulation (EU) 2021/1153 establishing the Connecting Europe Facility, financial resources allocated to the Programme shall also contribute to the corporate communication of the political priorities of the Union, Programme actions and its results.

Remarks

This appropriation is intended to cover the financing of emergency support operations to respond to the urgent and exceptional needs in Member States as a result of a natural or man-made disaster, in case of activation by the Council under Regulation (EU) 2016/369.

Emergency support shall provide a needs-based emergency response, complementing the response of the affected Member States, aimed at preserving life, preventing and alleviating human suffering and maintaining human dignity. Emergency response may encompass assistance, relief and, where necessary, protection operations to save and preserve life in disasters or their immediate aftermath.

Following the activation through the Council Regulation (EU) 2020/521 of the emergency support to tackle the COVID-19 outbreak in April 2020, this appropriation is intended to ensure a proper Union response in addressing the related health crisis.

The emergency support is to equip the Union with a broad toolbox commensurate to the large scale of the current COVID-19 pandemic. The needs-based emergency support allows the Union to deploy targeted measures strategically addressing the needs related to the COVID-19 crisis where the scale, speed or cross-border nature of the solutions needed are best addressed through coordinated Union intervention. Such emergency support complements Member States' efforts and assistance provided through other Union instruments.

A coordinated action at Union level is allowing to address the current crisis, inter alia, through:

- Funding of Advanced Purchase Agreements with COVID-19 vaccine developers/manufacturers.
- Procurement and distribution to Member States of essential health-related products, including protective gear for hospital staff, testing supplies, therapeutics, diagnostics and training.
- Transportation of essential medical cargo (including life-saving personal protective, testing and medical equipment, ventilators, masks, medicines, etc.).
- Cross-border cooperation to alleviate the pressure on health systems in the most affected Union regions, including through the transportation of patients in need to cross-border hospitals which can offer free capacity as well as providing support for the transport of medical teams and personnel including operating costs.
- Funding clinical trials for generating clinical evidence to repurpose existing treatments to treat COVID-19 patients, as well the collection of COVID-19 convalescent plasma to increase its availability as a direct treatment for COVID-19 patients.
- Increasing testing facilities and capacity in Member States and training additional staff to perform sampling and analysis.
- Reinforcement of medical capacities and deployment of temporary healthcare facilities and temporary extension of existing healthcare facilities to relieve pressure on existing structures and increase overall healthcare capacity.
- Procurement and donation of ultraviolet (UV) disinfecting robots to hospitals throughout the Union.
- Contributing to strengthening cross-border contact tracing through an EU digital platform connecting national contact tracing and warning apps, as well as an EU exchange platform connecting national Passenger Locator Form systems.
- Support issuing and verifying of interoperable certificates of vaccination, test results and recovery from COVID-19 to facilitate free movement.
- Contributing to strengthening contact tracing through the establishment of an EU wastewater monitoring system.

This appropriation may cover any of the humanitarian aid actions eligible for Union financing, and may consequently encompass assistance, relief and, where necessary, protection operations to save and preserve life in disasters or in their immediate aftermath.

This appropriation may also be used to finance any other expenditure directly related to the implementation of emergency support in accordance with Regulation (EU) 2020/521.

Remarks

Appropriations under this chapter are intended to cover the decentralised agencies' staff and administrative expenditure (Titles 1 and 2) and, where applicable, operational expenditure relating to the work programme (Title 3).

The establishment plans of the agencies are set out in Annex 'Staff' to this section.

The agencies must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1) and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

According to Article 3 of Regulation (EC) No 851/2004 which defines the mission and tasks of the European Centre for Disease Prevention and Control (ECDC):

the current mission of ECDC should concentrate on communicable diseases (and outbreaks of unknown origin),

the ECDC should be a proactive centre of excellence as regards information and scientific knowledge on all aspects of communicable diseases that relate to their detection, prevention and control,

the ECDC should be an agent of change by actively supporting the whole system of the Union and the Member States in their efforts to strengthen their capacity to improve the prevention and control of communicable diseases.

Within the field of its mission, the ECDC shall:

- search for, collect, collate, evaluate and disseminate relevant scientific and technical data,
- provide scientific opinions and scientific and technical assistance including training,

- provide timely information to the Commission, the Member States, Union agencies and international organisations active within the field of public health,
- coordinate the European networking of bodies operating in the fields within the ECDC's mission, including networks arising from public health activities supported by the Commission and operating the dedicated surveillance networks,
- exchange information, expertise and best practices, and facilitate the development and implementation of joint actions.

This appropriation is also intended to cover operational expenditure relating to the following target areas:

- improving surveillance of communicable diseases in the Member States,
- strengthening the scientific support provided by the Member States and the Commission,
- enhancing the preparedness of the Union against emerging threats from communicable diseases, especially hepatitis B, including threats related to intentional release of biological agents, and diseases of unknown origin, and coordinating the response,
- strengthening the relevant capacity in the Member States through training,
- communicating information and building partnerships.

This appropriation is also intended to cover the maintenance of the emergency facility (Emergency Operations Centre) linking the ECDC online with national communicable disease centres and reference laboratories in Member States in the event of major outbreaks of communicable diseases or other illnesses of unknown origin.

Remarks

Appropriations under this chapter are intended to cover Erasmus+: the Union programme for education, training, youth and sport. Its objective is to support the educational, professional and personal development of people in education, training, youth and sport, in Europe and beyond, thereby contributing to sustainable growth, jobs and social cohesion and to strengthening European identity. As

such, the Erasmus+ programme shall be a key instrument for building a European education area, supporting the implementation of the European strategic cooperation in the field of education and training, with its underlying sectoral agendas, advancing youth policy cooperation under the Union Youth Strategy 2019-2027 and developing the European dimension in sport.

The Erasmus+ programme has the following specific objectives:

- promote learning mobility of individuals, as well as cooperation, inclusion, excellence, creativity and innovation at the level of organisations and policies in the field of education and training,
- promote non-formal learning mobility and active participation among young people, as well as cooperation, inclusion, creativity and innovation at the level of organisations and policies in the field of youth,
- promote learning mobility of sport coaches and staff, as well as cooperation, inclusion, creativity and innovation at the level of sport organisations and sport policies,
- prepare and carry out activities in line with the European Year of Youth 2022.

The Programme's objectives shall be pursued through the following three key actions:

- learning mobility ('key action 1'),
- cooperation among organisations and institutions ('key action 2'),
- support to policy development and cooperation ('key action 3').

The objectives shall also be pursued through Jean Monnet actions.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

Remarks

Appropriations under this chapter are intended to cover European Solidarity Corps activities.

The general objective of the European Solidarity Corps is to enhance the engagement of young people and organisations in accessible and high-quality solidarity activities as a means to contribute to strengthening cohesion, solidarity and democracy in the Union and abroad, addressing societal and humanitarian challenges on the ground, with particular effort to promote social inclusion.

The specific objective is to provide young people, including those with fewer opportunities, with easily accessible opportunities for engagement in solidarity activities in Europe and abroad while improving and properly validating their competences as well as facilitating their employability and transition into the labour market as well as prepare and carry out activities in line with the European Year of Youth 2022.

The objectives of the European Solidarity Corps shall be implemented under the following strands of actions: (a) participation of young people in solidarity activities addressing societal challenges; (b) participation of young people in solidarity activities related to humanitarian aid (European Voluntary Humanitarian Aid Corps).

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this Chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to contribute to protecting and promoting rights and values as enshrined in the Treaties, the Charter and in the applicable international human rights conventions, in particular by supporting civil society organisations and other stakeholders active at local, regional, national and transnational level, and by encouraging civic and democratic participation, in order to sustain and further develop open, rights-based, democratic, equal and inclusive societies based on the rule of law.

Within the general objective, the Citizens, Equality, Rights and Values programme has the following specific objectives, which correspond to four strands: to protect and promote Union values (Union values strand); to promote rights, non-discrimination, equality, including gender equality, and advance gender and non-discrimination mainstreaming; (equality, rights and gender equality strand); to promote citizens engagement and participation in the democratic life of the Union and exchanges between citizens of different Member States and to raise awareness of the common European history (citizens' engagement and participation strand); to fight violence, including gender-based violence (Daphne strand).

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this article are intended to cover the decentralised agencies and the European Public Prosecutor's Office staff and administrative expenditure (Titles 1 and 2) and, where applicable, operational expenditure relating to the work programme (Title 3).

The establishment plans of the agencies and the European Public Prosecutor's Office is set out in Annex 'Staff' to this section.

The agencies and the European Public Prosecutor's Office must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1) and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

The EPPO has been created by Regulation (EU) 2017/1939.

The EPPO is responsible for investigating, prosecuting and bringing to judgment the perpetrators of, and accomplices to, criminal offences affecting the financial interests of the Union which are provided for in Directive (EU) 2017/1371 of the European Parliament and of the Council of 5 July 2017 on the fight against fraud to the Union's financial interests by means of criminal law (OJ L 198, 28.7.2017, p. 29) and determined by Regulation (EU) 2017/1939. In this respect, the EPPO undertakes investigations, and carries out acts of prosecution and exercise the functions of prosecutor in the competent courts of the Member States, until the case has been finally disposed of.

This appropriation is intended in 2021 mostly to cover EPPO's: recruitment and staff related expenditure, building (including building security), infrastructure, close protection services for senior EPPO staff and information technology expenditures (Titles 1 and 2). It includes as well under Title 3 operational expenditure related to the EPPO case management system, the IT exchange platform between the EPPO Central Office, the European Delegated Prosecutors and other judicial and law enforcement authorities in the Member States, which is a key element for the establishment and good functioning of the EPPO. Additionally, Title 3 includes provisions for the creation of the EPPO data centre, payment of the European Delegated Prosecutors and substantial translation costs for the operational needs of EPPO.

Remarks

Appropriations under this chapter are intended to cover expenditure related to the implementation of the common fisheries and maritime policy in view of:

- fostering sustainable fisheries and the restoration and conservation of aquatic biological resources,
- fostering sustainable aquaculture activities, and processing and marketing of fisheries and aquaculture products, thus contributing to food security in the Union,
- enabling a sustainable blue economy in coastal, island and inland areas, and fostering the development of fishing and aquaculture communities,
- strengthening international ocean governance and enabling seas and oceans to be safe, secure, clean and sustainably managed.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover actions contributing to the shift towards a clean, circular, energy-efficient, low-carbon and climate-resilient economy, including through the transition to clean energy, to the protection and improvement of the quality of the environment and to halting and reversing biodiversity loss, thereby contributing to sustainable development.

The LIFE Programme may provide funding in any of the forms laid down in the Financial Regulation, in particular grants, prizes and procurement. It may also provide financing in the form of financial instruments within blending operations, which shall be implemented in accordance with the Regulation of the European Parliament and of the Council establishing the InvestEU Programme.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Legal basis

Regulation (EU) 2021/523 of the European Parliament and of the Council of 24 March 2021 establishing the InvestEU Programme and amending Regulation (EU) 2015/1017 (OJ L 107, 26.3.2021, p. 1).

Remarks

Appropriations under this chapter are intended to cover the decentralised agencies' staff and administrative expenditure (Titles 1 and 2) and, where applicable, operational expenditure relating to the work programme (Title 3).

The establishment plans of the agencies are set out in Annex ‘Staff’ to this section.

The agencies must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1) and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts, as well as the corresponding article or item of the statement of revenue, are indicated, wherever possible, in the relevant budget lines.

Remarks

The European Border and Coast Guard Agency (Frontex) promotes, coordinates and develops European border management in line with the Charter of Fundamental Rights of the European Union and the concept of integrated border management. Frontex’s main tasks are to coordinate cooperation between Member States in external border management, assist Member States in training of national border guards, carry out risk analyses and follow research relevant for the control and surveillance of external borders. Furthermore, Frontex helps Member States requiring technical and operational assistance at external borders and provides Member States with the necessary support in organising joint return operations.

Remarks

The European Union Agency for the Operational Management of Large-Scale IT Systems in the Area of Freedom, Security and Justice ('eu-LISA') provides a long-term solution for the operational management of large-scale IT systems, which are essential instruments in the implementation of the asylum, border management and migration policies of the Union. It manages large-scale integrated IT systems that maintain internal security in the Schengen countries, enables Schengen countries to exchange visa data, and determines which Member State is responsible for examining a particular asylum application. eu-LISA also plays a key role in the implementation of ETIAS.

Remarks

Appropriations under this chapter are intended to cover expenditure of operational nature, such as cooperative projects, directly linked to the achievement of the objectives of the European Defence Fund (EDF) and its predecessor, the European Defence Industrial Development Programme (EDIDP).

In particular, appropriations under this chapter will support the development of actions – understood as the development phase of new products and technologies or the upgrading of existing ones – in the field of defence. The ultimate goal of both EDF and EDIDP is to foster the competitiveness and innovativeness of the European defence technological and industrial base and reach a greater interoperability between Member States' capabilities, thereby contributing to the Union's strategic autonomy.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover expenditure of an operational nature, such as collaborative research projects, research activities in disruptive defence technologies and support actions in the defence research sector.

The objective of the European Defence Fund (EDF) for the research window is to support collaborative research that could significantly boost the performance of future defence capabilities throughout the Union, aiming at maximising innovation and introducing new defence products and technologies, including disruptive ones, and the most efficient use of defence research spending in Europe.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

Remarks

Appropriations under this chapter are intended to cover operational expenditure related to actions carried out under a Regulation of the European Parliament and of the Council establishing the Neighbourhood, Development and International Cooperation Instrument – Global Europe (NDICI – Global Europe) whose general objective is to uphold and promote the Union’s values and interests worldwide in order to pursue the objectives and principles of the Union’s external action, as laid down in Article 3(5) and Articles 8 and 21 TEU.

In accordance with that general objective, the specific objectives of the NDICI — Global Europe are the following:

(a) to support and foster dialogue and cooperation with third countries and regions in the Neighbourhood, in Sub-Saharan Africa, in Asia and the Pacific, and in the Americas and the Caribbean;

(b) at global level, to protect, promote and advance democracy, rule of law and human rights, including gender equality, support civil society organisations, further stability and peace and address other global challenges including migration and mobility;

(c) to respond rapidly to: situations of crisis, instability and conflict; resilience challenges and linking of humanitarian aid and development action; and foreign policy needs and priorities.

At least 93% of the expenditure from the NDICI — Global Europe shall fulfil the criteria for official development assistance, established by the Development Assistance Committee of the Organisation for Economic Cooperation and Development.

Moreover, actions under the NDICI — Global Europe are expected to contribute 30 % of its overall financial envelope to climate objectives and 10 % to addressing the root causes of irregular migration and forced displacement and to supporting migration management and governance.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this Chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover operational expenditure concerning humanitarian aid, disaster prevention, disaster risk reduction, and preparedness in third countries.

The aid is granted to victims without discrimination or adverse distinction on the grounds of race, ethnic origin, religion, disability, sex, age, nationality or political affiliation. That aid is provided in accordance with international humanitarian law and should not be subject to restrictions imposed by other partner donors, as long as it is necessary to meet the humanitarian needs to which such situations give rise.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

This appropriation is intended to cover the financing of humanitarian and food assistance operations of a humanitarian nature to help people in third countries who are the victims of conflicts or disasters, both natural and man-made (wars, outbreaks of fighting, etc.), or comparable emergencies, for as long as is necessary to meet the humanitarian needs that such situations give rise to.

This appropriation is also intended to cover the purchase and delivery of any product or equipment needed for the implementation of humanitarian aid operations, including the building of homes or shelters for affected groups of people, short-term rehabilitation and reconstruction work, particularly of infrastructure and facilities, the costs associated with external, expatriate or local staff, storage, international or national shipment, logistic support and distribution of relief and any other action aimed at facilitating freedom of access to the recipients of the aid.

This appropriation may also cover any other costs directly linked to the implementation of humanitarian aid operations, such as technical assistance within the requisite timescale and in a way which meets the needs of the recipients, satisfies the requirement to achieve the greatest possible degree of cost-effectiveness and provides greater transparency.

Remarks

In accordance with Article 58 (2) (c) of the Financial Regulation, this appropriation is intended to finance expenditure related to preparatory measures in the field of Title V of the TEU to establish the conditions for Union actions in the field of the CFSP and the adoption of the necessary legal instruments. It may cover evaluation and analysis measures (*ex ante* evaluation of means, specific studies, organisation of meetings, fact-finding on the ground). In the field of Union crisis management operations and for EUSRs, in particular, preparatory measures may, inter alia, serve to assess the operational requirements for an envisaged action, to provide for a rapid initial deployment of personnel and resources (e.g. mission expenses, purchase of equipment, pre-financing of running and insurance costs in the start-up phase), or to take the necessary measures on the ground to prepare for the launching of the operation. It may also cover experts supporting Union crisis management operations on specific technical issues (e.g. identification and assessment of procurement needs) or security training for staff to be deployed to a CFSP mission/EUSR team.

Legal basis

Remarks

This appropriation is intended to cover all the expenditure connected with the appointment of European Union Special Representatives (EUSRs) in accordance with Article 33 TEU.

EUSRs should be appointed with due regard for gender equality and gender mainstreaming policies, and the appointment of women EUSRs should therefore be promoted.

This appropriation covers expenditure on the salaries of EUSRs and on setting up their teams and/or support structures, including staff costs other than those relating to staff seconded by Member States or Union institutions. It also covers the costs of any projects implemented under the direct responsibility of an EUSR.

Remarks

Appropriations under this chapter are intended to cover operational expenditure related to actions carried out under the draft Council Decision on the association of the overseas countries and territories (OCTs) with the European Union including relations between the European Union on the one hand, and Greenland and the Kingdom of Denmark on the other. Its general objective is to promote the economic and social development of the OCTs and to establish close economic relations between them and the Union as a whole. The association shall pursue this general objective by enhancing the OCTs' competitiveness, strengthening the OCTs' resilience, reducing their economic and environmental vulnerability and the promotion of cooperation between them and other partners.

In accordance with Article 3(5) and Article 21 TEU, the specific objectives of the association are the following:

- to foster and support cooperation with OCTs,
- to support and to cooperate with Greenland in addressing its major challenges as the raising of education level and to contribute to the capacity of the administration of Greenland to formulate and implement national policies.

Moreover, actions under that Decision are expected to contribute 30% of its overall financial envelope to climate objectives.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

This article constitutes the structure for the External Action Guarantee provided by the Union. It will enable the Commission, if necessary, to service the debt (repayment of principal, interest and other costs) should a debtor default on a loan granted under this guarantee or the preceding budgetary guarantees.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 14 of Council Regulation (EU, Euratom) No 609/2014 of 26 May 2014 on the methods and procedure for making available the traditional, VAT and GNI-based own resources and on the measures to meet cash requirements (OJ L 168, 7.6.2014, p. 39) applies.

A specific annex to this part of the statement of expenditure in this section gives a summary of borrowing-and-lending operations guaranteed by the general budget, including debt management, in respect of capital and interest.

Remarks

Appropriations under this chapter are intended to cover operational expenditure related to actions carried out under a Regulation of the European Parliament and of the Council establishing the Instrument for Pre-accession Assistance (IPA III), whose general objective will be to support its beneficiaries in adopting and implementing the political, institutional, legal, administrative, social and economic reforms required by those beneficiaries to comply with Union values and to progressively align to Union rules, standards, policies and practices with a view to Union membership, thereby contributing to their stability, security and prosperity.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Legal basis

Regulation (EU) 2021/1529 of the European Parliament and of the Council of 15 September 2021 establishing the Instrument for Pre-Accession assistance (IPA III) (OJ L 330, 20.9.2021, p. 1).

Remarks

This Chapter is intended to enter appropriations resulting from the mobilisation of the European Union Solidarity Fund, the European Globalisation Adjustment Fund for Displaced Workers and the Brexit Adjustment Reserve, all special instruments foreseen in the Council Regulation laying down the multiannual financial framework for the years 2021-2027.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, any assigned revenue entered in the statement of revenue gives rise to the provision of corresponding appropriations and to implementation under this Chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Legal basis

Remarks

This Article is intended to enter appropriations resulting from the mobilisation of the European Globalisation Adjustment Fund for Displaced Workers (EGF) in accordance with Regulation (EU) No 2021/691 of the European Parliament and of the Council.

The objective of the EGF is to demonstrate solidarity and promote decent and sustainable employment in the Union by offering assistance to workers dismissed because of major restructuring events. These events can result in particular from globalisation-related challenges, such as changes in world trade patterns, trade disputes, significant changes in the trade relations of the Union or the composition of the internal market and financial or economic crises, the transition to a low-carbon economy, digitisation or automation. The EGF shall thereby support displaced workers in returning to decent and sustainable employment as soon as possible. Particular emphasis shall be placed on measures that help the most disadvantaged groups

As such, the EGF contributes to the implementation of the principles defined under the European Pillar of Social Rights and the enhancement of social and economic cohesion among regions and Member States.

The actions undertaken by the EGF should be complementary to those of the ESF+ and there must be no double funding from these instruments. EGF-supported actions or measures should aim to ensure that the largest possible number of beneficiaries participating in these actions find sustainable employment as soon as possible.

Legal basis

Remarks

This appropriation is intended to cover the following decentralised operating expenditure:

Missions:

— travel expenses, including ancillary costs relating to tickets and reservations, daily subsistence allowances and additional or exceptional expenditure incurred in connection with missions by Commission staff covered by the Staff Regulations and by national or international experts or officials seconded to Commission departments (refunds of mission expenses paid for the account of other Union institutions or bodies and for third parties will constitute assigned expenditure). Where the option is available, the Commission will use airlines covered by collective bargaining agreements and complying with the relevant ILO conventions.

Representation expenses:

— reimbursement of the costs incurred by persons officially representing the Commission (reimbursement is not possible for expenses incurred in the performance of representation duties vis-à-vis staff of the Commission or other Union institutions).

Legal basis

Remarks

This appropriation is intended to cover the following expenditure incurred within Union territory:

- the payment of insurance premiums on the buildings or parts of buildings occupied by the institution,
- water, gas, electricity and heating charges,
- maintenance costs, calculated on the basis of current contracts, for premises, lifts, central heating, air-conditioning equipment, etc.; the expenditure incurred by regular cleaning operations, including the purchase of maintenance, washing, laundry and dry-cleaning products and by repainting, repairs and supplies used by the maintenance workshops (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- expenditure on the selective treatment, storage and removal of waste,
- the refurbishment of buildings, e.g. alterations to partitioning, alterations to technical installations and other specialist work on locks, electrical equipment, plumbing, painting or floor coverings, and the cost of changes to the cabling associated with fixtures, and the cost of the necessary equipment (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- expenses relating to conducting the audit of accessibility of buildings to persons with disabilities and reduced mobility and the introduction of necessary adaptations pursuant to such an audit so as to make buildings fully accessible to all visitors,
- the cost of legal, financial and technical consultancy fees prior to the acquisition, rental or construction of buildings,
- other expenditure on buildings, in particular management fees for multiple-tenanted buildings, costs of surveys of premises and charges for utilities (street cleaning and maintenance, refuse collection, etc.),
- technical assistance fees relating to major fitting-out operations for premises.

Appropriations to cover the equivalent expenditure in respect of research are entered under various items of the titles concerned.

This appropriation covers expenditure incurred within the territory of the Union, excluding the Commission Representations in the Union.

Remarks

This appropriation is intended to cover end user computing devices and support for end users. The scope includes costs to purchase, build, manage and run end user computing devices, and deliver centralized support to end users in the Commission. It covers in particular:

- personal computing infrastructure: client compute physical desktops, portable laptops, thin client machines, peripherals (including monitors, pointer devices and attached personal printers) used by individuals to perform work,
- mobile devices: client compute tablets, smart phones and apps used by individuals to perform work,
- end-user software: client related software used to author, create, collaborate and share documents and other content. Examples include email, communications, messaging, word processing, spreadsheets, presentations, desktop publishing, graphics and others,
- network printers: Examples include network connected personal printers, ink-jet printers, laser printers, departmental or copy-room printers,
- conferencing and audio/video: audio and video conferencing equipment typically used in conference rooms and dedicated telepresence rooms to enable workforce communications,
- IT helpdesk: centralized Tier 1 help desk resources that handle user requests, answer questions and resolve issues,
- desk-side support: local support resources that provide on-site support for moves, adds, changes and hands on issue resolution.

This appropriation covers expenditure incurred within the territory of the Union, excluding Joint Research Centre sites, for which expenditure is entered in the titles concerned. Similar expenditure incurred outside the Union is entered in the titles concerned.

Remarks

The aim of this reserve is to cover the European Globalisation Adjustment Fund for Displaced Workers (EGF) so as to enable the Union to demonstrate solidarity towards, and to provide support to people losing their jobs as a result of major structural changes caused by globalisation-related challenges.

The objective of the EGF is to demonstrate solidarity and promote decent and sustainable employment in the Union by offering assistance to workers dismissed because of major restructuring events. These events can result in particular from globalisation-related challenges, such as changes in world trade patterns, trade disputes, significant changes in the trade relations of the Union or the composition of the internal market and financial or economic crises, the transition to a low-carbon economy, digitisation or automation. The EGF shall thereby support displaced workers in returning to decent and sustainable employment as soon as possible. Particular emphasis shall be placed on measures that help the most disadvantaged groups.

The maximum annual amount for the EGF is set in the MFF 2021-2027. The methods for entering the appropriations in this reserve and for mobilising the EGF are laid down in point 9 of the Interinstitutional Agreement of 16 December 2020 between the European Parliament, the Council of the European Union and the European Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management, as well as on new own resources, including a roadmap towards the introduction of new own resources.

Legal basis

Council Regulation (EU, Euratom) 2020/2093 of 17 December 2020 laying down the multiannual financial framework for the years 2021 to 2027 (OJ L 433I, 22.12.2020, p. 11).

Regulation (EU) 2021/691 of the European Parliament and of the Council of 28 April 2021 on the European Globalisation Adjustment Fund for Displaced Workers (EGF) and repealing Regulation (EU) No 1309/2013 (OJ L 153, 3.5.2021, p. 48).

Reference acts

Interinstitutional Agreement of 16 December 2020 between the European Parliament, the Council of the European Union and the European Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management, as well as on new own resources, including a roadmap towards the introduction of new own resources (OJ L 433I, 22.12.2020, p. 28).

Remarks

The aim of this reserve is to cover the The Brexit Adjustment Reserve (BAR) that may be used to counter unforeseen and adverse consequences in Member States and sectors that are worst affected by the Brexit.

Legal basis

Regulation (EU) 2021/1755 of the European Parliament and of the Council of 6 October 2021 establishing the Brexit Adjustment Reserve (OJ L 357, 8.10.2021, p. 1).

Reference acts

Remarks

~~PP appropriations transferred in DEC 1/2021 and budget item to be deleted in AL 1/2022.~~

~~This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.~~

~~The COVID-19 Union wide management needs long term support for the implementation of valuable monitoring of social distancing measures.~~

~~In consideration of the way the COVID-19 pandemic affected Member States both as regards the death toll and the dramatic impact on their economies, the use of a European wide geolocation based on the European GNSS system Galileo able to act as a point of contact between authorities and citizens could support countries to tackle this issue in the long term and provide significant socio-economic benefits.~~

~~The pilot project aims at building an exit and post COVID-19 emergency strategies, covering also other potential pandemics through developing a spread monitoring Union standardised solution with Union wide coverage and endorsed by Member States authorities. It would integrate national solutions designed for limited Union areas and synchronise with national ongoing initiatives such as social distancing, mandatory quarantine or shelter in place.~~

~~The project must be coordinated with all Member States to get the specificity of each of them and it could be endorsed by each local or national authority in its own language and integrated in its own IT infrastructure.~~

~~Civil protection and public health authorities at the Member States level and at Union level should be involved in the development, in order to define the needs. Those authorities will collect and manage the anonymised data at Union level.~~

Virtually all new smartphones sold in the Union are Galileo enabled. Galileo will provide one of the most promising enhancements to position accuracy with the introduction of 'dual frequency to refine position accuracy up to 1 metre level and thus be able to perform monitoring of the movements of the users and provide more accurate monitoring and statistics to the public authorities. Galileo will be supported by innovative methodology and technology (e.g. new algorithms and other sensors' data integration) using other proximity-indoor technologies such as Bluetooth, and cross check telecom operator data. In this way, once all different sources have been combined by means of artificial intelligence algorithms, all these data can be combined together in 'heat maps' and provide in one single repository a more complete view to authorities.

The features of the pilot project should in particular aim at:

- sending useful generic information and daily updates to users on how to behave during the emergency;
- offering users the possibility to interact with authorities and healthcare systems e.g. informing authorities about early symptoms or booking tests;
- sending a posteriori alerts to users who crossed their paths to users who have been later found infected, supporting thus the smart isolation and quarantine issued by authorities;
- creating a heat map with crowd-sourced location information from all users adequately anonymised and marking the 'high risk infection points';
- enabling the authorities to retrieve travel histories of the infected person and alert all the persons who had contacts with them within the contagion risk space and time window;
- sending a preliminary alert to people entering within 10 metres of a location recently visited by an infected person.

The functionalities of the pilot project would have an added value for:

- the cross border and cross regional cooperation, safeguarding uninterrupted movement of citizens and goods and avoiding large scale lock-downs (the pilot would involve several Member States or regions);
- the scalability and the reliability of the information generated;
- better monitoring and control of the spread of the disease regionally or globally and thus facilitating related decisions, e.g. allocating the distribution of respirators to specific areas, support medical research, preventing cases of super-spreaders, monitoring and verifying the digital mobility authorizations;
- access to better statistics and artificial intelligence models based on the collected data about the spreading of correlated symptoms (i.e. not only based on confirmed tests).

The pilot project will also explore possible integration with other sources or other applications based on Bluetooth signals or data from the telecoms operators. All data collected and treated should be based on robust protection of privacy and data, including where appropriate on data anonymisation and informed consent by the users. It should comply with recommendations from the European Data Protection Supervisor with regard to the data collection feature and with all data protection legislation in terms and conditions on allowing an individual collection of data in the pandemic situation.

I. Context

The COVID-19 crisis is extremely challenging not only for inter-state relations, but also for relations between neighbouring territories divided by national borders. It has generated deep pressure on cross-border regions which represent 40 % of the territory of the Union, and also on cross-border workers who represent 2 million people.

At the same time, the crisis revealed a lack of cooperation and coordination across borders as well as strong interdependencies of border areas seen as functional areas. One decision on one side of the border has had a direct impact on the other side of the border.

At the beginning of 2020, the crisis first provoked uncoordinated border closures, as well as several uncooperative actions by both public and private actors. While some Member States decided to close entirely their borders, others drastically reduced the number of border-crossing points in order to slow down the spread of COVID-19. Although the free movement of people and goods is a cornerstone of the single market, the COVID-19 crisis has hindered the application of this key principle. Border bans or controls put cross-border workers, primarily in the health sector, but also in the field of construction, agriculture or transport in an alarming situation. Border shutdowns have had a strong negative impact on cross-border citizens, the local economy, businesses, the transport of essential goods and cross-border public services (education, healthcare). In some city regions or even States like Luxembourg, where the health system is heavily dependent on cross-border workers, the interruption of cross-border public transport connections created complicated situations. The situation has also had an impact on trust between partners across the borders which has been built over the years, and which is essential for cross-border cooperation.

Despite many years of institutionalised (Interreg) and informal cooperation between border regions, the existing relations did not always allow an efficient and quick response to cope with the outbreak of such a crisis. Existing cross-border structures such as the European Grouping for Territorial Cooperation were rarely involved in the elaboration or in the implementation of emergency measures despite their knowledge on the functioning of administrative and political organisation on both sides of the borders.

Nonetheless, the COVID-19 crisis has also allowed the development of new forms and initiatives of cross-border cooperation, regarding particularly the healthcare sector. Several neighbouring regions to Grand Est (FR) demonstrated solidarity by welcoming hundreds of patients in their intensive care units and covering hospital transfer costs. In the cross-border conurbation of Gorizia (IT)-Nova Gorica (SI), although border controls were restored, the mayors of these two cities continued collaborating and exchanging on this common emergency. Thanks to daily updates from the Mayor of Gorizia, Nova Gorica was therefore able to better anticipate the situation and to adopt faster measures to keep the number of people infected in Nova Gorica lower than in the rest of Slovenia. The cross-border Cerdanya hospital (ES-FR) positively benefitted from its double belonging to two different healthcare systems, allowing a sound supply of masks and medicines and the reinforcement of cooperation with larger hospitals on both sides of the border (Barcelona and Perpignan), where intensive care units are available. Around Geneva, a new vignette for cross-border healthcare workers and dedicated traffic lanes were conceived in order to speed border crossing for these essential workers. These new forms of cooperation revealed the creativity and ability to reinforce cross-border cooperation.

Cross-border territories are unique laboratories of territorial cohesion and European policies. The experience of border regions during the unfolding COVID-19 crisis has illustrated a strong need for new solutions to empower cross-border territories in managing such emergencies. At the same time, this crisis is an opportunity to promote a new model of 'co-development' for integrated cross-border regions, by improving existing multilevel governance tools and by strengthening and establishing new cross-border public services.

II. Objectives

The overall objective of this pilot project is to improve the life of citizens in border regions by supporting more integrated and functional cross-border areas. Border regions are a very strong and visible example of the immediate effects of the COVID-19 crisis. Re-establishing border controls has hampered a whole eco-system. Therefore, based on a thorough analysis of the experience of border regions during the COVID-19 outbreak, this pilot project aims at helping border regions to better face future crises and to promote a new model of elaborating public policies, including public services, in border regions based on co-development and through improved multilevel governance. The pilot project combines therefore a short-term and a mid-term approach to provide practitioners and decision-makers with concrete tools and methodology that can be directly translated into reality, tangible for citizens, and applicable to all European borders.

III. Expected results

1. An in-depth assessment of the COVID-19 crisis management in all European border regions.

This assessment will give a comprehensive picture of the reaction and non-reaction to the crisis in border regions and their consequences. This implies gathering evidence and concrete examples on the difficulties faced by the border regions during the crisis, on the impact on different sectors and on cooperation initiatives emerging from the crisis. It should also analyse the role of existing cross-border structures in the management of the crisis. This assessment will make the Union able to objectively measure the costs of non-cooperation. Through collecting practical and statistical evidence (cross-border functional urban areas, etc.), the analysis should also point out the strong interdependence of border territories, and should reveal that an uncoordinated measure on one side of the border has an impact on the other side of the border. Finally, it should point out the double nature of borders: boundaries of sovereign States guaranteeing the security of their own citizens; and local areas where people live. This requires the establishment of sound multilevel governance of the border, involving local actors.

2. A platform mapping out cross-border public services, obstacles and solutions to cross-border cooperation.

The platform should have a strong operational aspect by collecting information on public services in different sectors in border regions (health sector, judicial sector, economy, etc.). This would help in identifying the gaps, the needs and the existing structures to facilitate better integration of border regions. This platform should build on the work already carried out on cross-border public services, more specifically on cross-border public services operating in the field of civil protection and disaster management. Taking the health sector as an example, the platform may also gather information about the capacity of existing public services in the health sector, mapping key contacts over the borders and providing data on hospitals. Moreover, this online platform will provide an overview of obstacles and existing solutions to cross-border cooperation in different domains. It should build on the experience gathered during the implementation of other initiatives such as the b-solutions project. The conditions to secure the updating of the platform, on the basis of a European network, should be defined.

3. An action plan to ease and to systematise solidarity across neighbouring regions.

Through this mechanism, border regions should be better equipped to react swiftly to different types of crisis (pandemic, environmental, security, natural disasters, migration, terrorist attacks, etc.) impacting borders and requiring the coordinated action of national and local authorities.

Based on the lessons learnt from the COVID-19 crisis, and from existing cross-border mechanisms, Interreg projects, dealing with civil protection, a protocol model should be developed in case of a crisis to ensure the free movement of cross-border workers and essential goods, social protection, harmonised communication, etc. This protocol of actions involving national and local authorities should guide, step by step, decision makers' actions. The protocol should integrate the development of new tools such as a 'laissez-passer' for frontier workers that would be mutually recognised by neighbouring regions.

4. Boosting the potential of border regions through co-development, cross-border spatial planning and multilevel governance.

The COVID-19 outbreak has shown that often the socio-economic cross-border interdependence is not tackled by means of systematic and coherent cooperation between public authorities across the border. Thus, the management of cross-border regions requires multilevel governance, as these regions are deeply interlinked and they share joint interests. The co-development approach should guide the elaboration of cooperative public policies including common spatial planning and the development of public services in different sectors (health sector, mobility, education, etc.), including a sustainable system for funding cross-border investment and management. This should include issues such as the social and fiscal status of cross-border working (including teleworking, etc.), that has proved essential during the crisis. This implies strong and permanent dialogue between policy makers from different levels of governance, with the involvement of cross-border institutions. Nowadays, there are many political structures on border regions which encourage political dialogue. However, the COVID-19 outbreak has shown that existing structures had difficulties to react swiftly. Paradoxically, border regions that were the most integrated had difficulties to coordinate a joint response. The natural reaction of these regions was to close borders while an efficient response would have been co-ordination. Based on the example of the French-German 'Cross-border Cooperation Committee', created by the Aachen Treaty, a similar political platform could be replicated at all Union borders and could have three tasks:

1. producing evidence of cross-border integration and flows, analysing the role of joint investment and of cross-border public services.
2. working on the resolution of legal and administrative obstacles to cooperation through different mechanisms (bilateral agreements, the European Cross-Border Mechanism (ECBM), conventions, etc.) involving local and national authorities as well.

3. joint development of a common strategy for priority projects including public services. This political platform should reflect and act in a wide range of sectors that are essential for the development of both sides of the borders.

In the light of the COVID-19 crisis, such political platforms should also be in charge of a coordinated plan for cross-border multi-level management of crisis impacting cross-border regions.

I. Context

The COVID-19 crisis is extremely challenging not only for inter-state relations, but also for relations between neighbouring territories divided by national borders. It has generated deep pressure on cross-border regions which represent 40 % of the territory of the Union, and also on cross-border workers who represent 2 million people.

At the same time, the crisis revealed a lack of cooperation and coordination across borders as well as strong interdependencies of border areas seen as functional areas. One decision on one side of the border has had a direct impact on the other side of the border.

At the beginning of 2020, the crisis first provoked uncoordinated border closures, as well as several uncooperative actions by both public and private actors. While some Member States decided to close entirely their borders, others drastically reduced the number of border-crossing points in order to slow down the spread of COVID-19. Although the free movement of people and goods is a cornerstone of the single market, the COVID-19 crisis has hindered the application of this key principle. Border bans or controls put cross-border workers, primarily in the health sector, but also in the field of construction, agriculture or transport in an alarming situation. Border shutdowns have had a strong negative impact on cross-border citizens, the local economy, businesses, the transport of essential goods and cross-border public services (education, healthcare). In some city regions or even States like Luxembourg, where the health system is heavily dependent on cross-border workers, the interruption of cross-border public transport connections created complicated situations. The situation has also had an impact on trust between partners across the borders which has been built over the years, and which is essential for cross-border cooperation.

Despite many years of institutionalised (Interreg) and informal cooperation between border regions, the existing relations did not always allow an efficient and quick response to cope with the outbreak of such a crisis. Existing cross-border structures such as the European Grouping for Territorial Cooperation were rarely involved in the elaboration or in the implementation of emergency measures despite their knowledge on the functioning of administrative and political organisation on both sides of the borders.

Nonetheless, the COVID-19 crisis has also allowed the development of new forms and initiatives of cross-border cooperation, regarding particularly the healthcare sector. Several neighbouring regions to Grand Est (FR) demonstrated solidarity by welcoming hundreds of patients in their intensive care units and covering hospital transfer costs. In the cross-border conurbation of Gorizia (IT)-Nova Gorica (SI), although border controls were restored, the mayors of these two cities continued collaborating and exchanging on this common emergency. Thanks to daily updates from the Mayor of Gorizia, Nova Gorica was therefore able to better anticipate the situation and to adopt faster measures to keep the number of people infected in Nova Gorica lower than in the rest of Slovenia. The cross-border Cerdanya hospital (ES-FR) positively benefitted from its double belonging to two different healthcare systems, allowing a sound supply of masks and medicines and the reinforcement of cooperation with larger hospitals on both sides of the border (Barcelona and Perpignan), where intensive care units are available. Around Geneva, a new vignette for cross-border healthcare workers and dedicated traffic lanes were conceived in order to speed border crossing for these essential workers. These new forms of cooperation revealed the creativity and ability to reinforce cross-border cooperation.

Cross-border territories are unique laboratories of territorial cohesion and European policies. The experience of border regions during the unfolding COVID-19 crisis has illustrated a strong need for new solutions to empower cross-border territories in managing such emergencies. At the same time, this crisis is an opportunity to promote a new model of 'co-development' for integrated cross-border regions, by improving existing multilevel governance tools and by strengthening and establishing new cross-border public services.

II. Objectives

The overall objective of this pilot project is to improve the life of citizens in border regions by supporting more integrated and functional cross-border areas. Border regions are a very strong and visible example of the immediate effects of the COVID-19 crisis. Re-establishing border controls has hampered a whole eco-system. Therefore, based on a thorough analysis of the experience of border regions during the COVID-19 outbreak, this pilot project aims at helping border regions to better face future crises and to promote a new model of elaborating public policies, including public services, in border regions based on co-development and through improved multilevel governance. The pilot project combines therefore a short-term and a mid-term approach to provide practitioners and decision-makers with concrete tools and methodology that can be directly translated into reality, tangible for citizens, and applicable to all European borders.

III. Expected results

1. An in-depth assessment of the COVID-19 crisis management in all European border regions.

This assessment will give a comprehensive picture of the reaction and non-reaction to the crisis in border regions and their consequences. This implies gathering evidence and concrete examples on the difficulties faced by the border regions during the crisis, on the impact on different sectors and on cooperation initiatives emerging from the crisis. It should also analyse the role of existing cross-border structures in the management of the crisis. This assessment will make the Union able to objectively measure the costs of non-cooperation. Through collecting practical and statistical evidence (cross-border functional urban areas, etc.), the analysis should also point out the strong interdependence of border territories, and should reveal that an uncoordinated measure on one side of the border has an impact on the other side of the border. Finally, it should point out the double nature of borders: boundaries of sovereign States guaranteeing the security of their own citizens; and local areas where people live. This requires the establishment of sound multilevel governance of the border, involving local actors.

2. A platform mapping out cross-border public services, obstacles and solutions to cross-border cooperation.

The platform should have a strong operational aspect by collecting information on public services in different sectors in border regions (health sector, judicial sector, economy, etc.). This would help in identifying the gaps, the needs and the existing structures to facilitate better integration of border regions. This platform should build on the work already carried out on cross-border public services, more specifically on cross-border public services operating in the field of civil protection and disaster management. Taking the health sector as an example, the platform may also gather information about the capacity of existing public services in the health sector, mapping key contacts over the borders and providing data on hospitals. Moreover, this online platform will provide an overview of obstacles and existing solutions to cross-border cooperation in different domains. It should build on the experience gathered during the implementation of other initiatives such as the b-solutions project. The conditions to secure the updating of the platform, on the basis of a European network, should be defined.

3. An action plan to ease and to systematise solidarity across neighbouring regions.

Through this mechanism, border regions should be better equipped to react swiftly to different types of crisis (pandemic, environmental, security, natural disasters, migration, terrorist attacks, etc.) impacting borders and requiring the coordinated action of national and local authorities.

Based on the lessons learnt from the COVID-19 crisis, and from existing cross-border mechanisms, Interreg projects, dealing with civil protection, a protocol model should be developed in case of a crisis to ensure the free movement of cross-border workers and essential goods, social protection, harmonised communication, etc. This protocol of actions involving national and local authorities should guide, step by step, decision makers' actions. The protocol should integrate the development of new tools such as a 'laissez-passer' for frontier workers that would be mutually recognised by neighbouring regions.

4. Boosting the potential of border regions through co-development, cross-border spatial planning and multilevel governance.

The COVID-19 outbreak has shown that often the socio-economic cross-border interdependence is not tackled by means of systematic and coherent cooperation between public authorities across the border. Thus, the management of cross-border regions requires multilevel governance, as these regions are deeply interlinked and they share joint interests. The co-development approach should guide the elaboration of cooperative public policies including common spatial planning and the development of public services in different sectors (health sector, mobility, education, etc.), including a sustainable system for funding cross-border investment and management. This should include issues such as the social and fiscal status of cross-border working (including teleworking, etc.), that has proved essential during the crisis. This implies strong and permanent dialogue between policy makers from different levels of governance, with the involvement of cross-border institutions. Nowadays, there are many political structures on border regions which encourage political dialogue. However, the COVID-19 outbreak has shown that existing structures had difficulties to react swiftly. Paradoxically, border regions that were the most integrated had difficulties to coordinate a joint response. The natural reaction of these regions was to close borders while an efficient response would have been co-ordination. Based on the example of the French-German 'Cross-border Cooperation Committee', created by the Aachen Treaty, a similar political platform could be replicated at all Union borders and could have three tasks:

1. producing evidence of cross-border integration and flows, analysing the role of joint investment and of cross-border public services.
2. working on the resolution of legal and administrative obstacles to cooperation through different mechanisms (bilateral agreements, the European Cross-Border Mechanism (ECBM), conventions, etc.) involving local and national authorities as well.
3. joint development of a common strategy for priority projects including public services. This political platform should reflect and act in a wide range of sectors that are essential for the development of both sides of the borders.

In the light of the COVID-19 crisis, such political platforms should also be in charge of a coordinated plan for cross-border multi-level management of crisis impacting cross-border regions.

In order to achieve Union's core values on promoting gender equality as well as to implement the Gender Equality Strategy (GES) published by the Commission on 5 March 2020, it is essential that a gender budget impact assessment is conducted to measure the impact of the new Union's multi-annual financial framework (MFF). Although the Gender Equality Strategy reaffirms the Union's commitment to gender budgeting and the Commission willingness to 'look at the gender impact of its activities and at how to measure expenditure related to gender equality at programme level in the 2021-2027 MFF', it does not include concrete budgeted measures to conduct a gender budget impact assessment. Such an assessment is necessary to assess the impact of budget proposals on gender inequalities and the fulfilment of girls' and women's rights.

Union institutions have identified gender budgeting as a need to achieve gender equality, and tools have been made available on how the Union could conduct gender budgeting (e.g. guide to gender budgeting produced in 2016 by the European Institute for Gender Equality). However, the Union has not undertaken an actual gender budgeting exercise of its upcoming or current framework. A comprehensive gender impact assessment is a critical step for the implementation of a gender budgeting approach and must be conducted at the outset of the new MFF.

In light of the COVID-19 public health crisis, it is crucial that the Commission assesses how women and girls have been and will continue to be affected by the crisis, and ensures that the new MFF addresses their specific needs, especially with regard to their access to health, but also to social protection, education and economic opportunities.

This pilot project therefore proposes the following actions to be taken:

- identification of gender and age disaggregated data needed to measure the impact of Union policies and programmes on women and girls;
- collection of such disaggregated data when knowledge gaps exist;
- carrying out of the actual gender budget impact assessment;
- based on the gender budget impact assessment, identification of programmes which could be gender transformative or on the contrary could indirectly strengthen gender inequalities;
- adaptation of the new MFF programmes to ensure that they are gender transformative;
- setting up of initial grounds for an ex-post evaluation of the MFF programmes impact on gender equality in 2027.

Remarks

PP appropriations transferred in DEC 1/2021 and budget item to be deleted in AL 1/2022.

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Objective

This pilot project will develop an educational package with interactive modules on the rule of law for pupils in secondary education across the Union. The modules will be available at an online platform that will also facilitate virtual exchange between teachers all

over the Union. These interactive modules on rule of law will be in all the official languages of the Union, meant to help schools and teachers to develop knowledge about the rule of law.

Background

Respect for the rule of law is a critical component for membership of the Union and it is essential to ensure the democratic functioning of both the Member States and the Union as a whole. Respect for the rule of law is a prerequisite for people's enjoyment of their fundamental rights. Similarly, a European area of justice, as well as an internal market in which laws are applied uniformly, cannot exist without full adherence to the rule of law. The rule of law underpins any democratic society and fosters citizen's trust in public institutions, including in the justice system.

In recent years however, the rule of law in the Union has been put to the test on several occasions. Union institutions and several Member States' governments have voiced their concern about rule of law backsliding. In its many resolutions regarding the deterioration of the rule of law, the European Parliament has emphasised that the Commission is responsible under the Treaties for guaranteeing respect for the rule of law as a fundamental value of the Union.

As part of its response to these challenges, the Commission presented its communication 'Further strengthening the Rule of Law within the Union' in April 2019, in which it identified three pillars for the effective enforcement of the rule of law. The first pillar is promotion, and refers to building knowledge on the rule of law and fostering a common rule of law culture. Following that communication, the Commission received contributions from a broad diversity of stakeholders. A large majority of the contributions emphasize that more awareness needs to be raised among the general public on the existing rule of law standards, such as through civil society and education.

Studies confirm the lack of knowledge of Union citizens regarding the rule of law. The July 2019 Special Eurobarometer study on the rule of law shows that even though the vast majority considers the principles of the rule of law highly important, most Union citizens do not feel sufficiently informed about the Union's fundamental values. Citizens, particularly younger people, can benefit from a deeper understanding of the rule of law. As the Venice Commission has pointed out: 'The rule of law can only flourish in a country whose inhabitants feel collectively responsible for the implementation of the concept, making it an integral part of their own legal, political and social culture.'

In its communication 'Strengthening the rule of law within the Union — A blueprint for action' from July 2019, the Commission acknowledges that Member States' education systems play a part in strengthening the rule of law 'by ensuring a place for the rule of law in public debate and education'. However, understanding and awareness of the rule of law is hardly ever taught in schools within the Union. Since the 2015 'Declaration on promoting citizenship and the common values of freedom, tolerance and non-discrimination through education' adopted in Paris, many Member States have integrated citizenship education in their national curricula. A 2017 study by the Education, Audiovisual and Culture Executive Agency however shows that rule of law is not a focus point in teaching on citizenship education, leading to a knowledge gap in the younger generation.

The Education Platform on Rule of Law seeks to fill this gap. This pilot project will make steps in strengthening the knowledge and respect for the rule of law through education by developing tools and content, which teachers in the Union can integrate in their teaching and learning practices.

Despite existing Union programmes that provide funding for the development of educational packages, such as the Erasmus+ programme, the e-Twinning platform and the School Education Gateway multilingual platform, there is currently no dedicated Union education platform promoting the rule of law in secondary education. This pilot project is unique in this sense, as it will offer educational material on the rule of law to all secondary schools in the Union in a proactive manner, rather than having to rely on a consortium applying under the existing Union funding opportunities that would produce only limited content specific to their particular interests. Creating a dedicated fund for this purpose will thus ensure that the same educational package is available throughout the Union in all the Union's languages, rather than only the languages used by the organisations that would apply for Union funding through existing channels.

Implementation

Educational package: interactive modules and exchange space for teachers

In order to fill the abovementioned knowledge gap, this pilot project will focus on the generation of knowledge on the rule of law among young people. To achieve this, the fund will:

Develop an educational package of interactive modules that will be available online in all official Union languages, which will be offered to teachers in secondary schools all over the Union as a means to complement their learning materials related to society, justice and citizenship education;

Create an online space of exchange for teachers across the Union that work with the package.

The educational package should contain at least the following elements:

Understanding the rule of law and its main principles (such as equality before the law, separation of powers, access to justice, etc.)

The importance and history of the rule of law in national constitutions and within the Union

The interconnectedness between the rule of law and fundamental rights, democracy and citizenship;

Practical tools, videos and interactive exercises to debate the rule of law in relation to the pupils' life, society and community.

Organisational set-up

The content of the educational package should be developed by an independent organisation or network, with expertise on the rule of law, didactics and online platforms to ensure that the content of the package is both relevant and factual, as well as accessible to secondary school pupils.

The 2019 guide 'Strengthening the Rule of Law through Education' published by the United Nations Educational, Scientific and Cultural Organisation (UNESCO) and the United Nations Office on Drugs and Crime (UNODC), can be a useful starting point.

Desired results

-assisting teachers and schools in developing courses on the rule of law in their member states and the Union

-fostering knowledge on the rule of law among young Union citizens and contributing to a common rule of law culture

-increasing the sense of ownership of European values by paying attention to the rule of law in each Member State's constitutional order

-building capacity related to rule of law education on an European, national and local level by increasing the availability of guidance material and facilitating the exchange of best practices

-contributing to the development and critical thinking skills of the younger generation by supporting existing citizenship education

~~1. Introduction~~

Persons with disabilities run the highest risk of being excluded from jobs — discrimination still happens in many European countries. At Union level, Eurostat figures confirm that persons with disabilities are far more affected by unemployment than those without disabilities. On average, only 48,1 % of persons with disabilities in the Union are employed compared to 73,9 % among the general population. Women with disabilities and persons with high support needs show even lower employment rates.

These data demonstrate that the employment for people with disabilities has been one of the least developed objectives within the European Disability Strategy (EDS) 2010-2020. Unemployment may lead to poverty and social exclusion. Guaranteeing access to employment and occupation is a key issue, as it is a crucial aspect for the economic and social inclusion of around 80 million persons with disabilities in Europe.

2. Justification

The current EDS is coming to an end in the year 2020. The importance of an EDS is key to the implementation of the UN Convention on the Rights of Persons with Disabilities (UN CRPD) and, therefore, to promotion and protection of the rights of all persons with disabilities. At this point, it is extremely important to guarantee employment rights of persons with disabilities, through an inclusive enterprise model for people with disabilities, based on respect for Article 27 of the UN CRPD: equal opportunities, equal remuneration and safe and healthy working conditions.

It calls for a pilot project that focuses on strengthening the obligations to offer reasonable wages based on the minimum wage, and works to better implement the existing directives on non-discrimination in employment. Moreover, the agenda should focus on the use of Union funds to facilitate employment of persons with disabilities in the open labour market, in part through the recognition, promotion and protection of an inclusive enterprise as a social economy agent aiming at integration into the labour market, as a worker, any person with a disability.

3. Definition and characteristics of an inclusive enterprise model for persons with disabilities.

Inclusive enterprise is an employment model for people with disabilities that is present in more than 13 European countries and involves more than 8000 companies. They provide goods, services, and livelihoods hiring persons with disabilities as equal workers, while also engaging an important part of the population in the value chain of companies as suppliers, distributors, and retailers.

An inclusive enterprise works as a vehicle to answer the need of the majority of persons with disabilities for a dignified and productive life just like any individual. Equal employment provides not only income but also social impact generating opportunities for social participation, which is especially important for persons with disabilities.

Concerning the organisation of inclusive enterprises, they can be structured as for profit or non for profit, and may take the form (depending on in which country the entity exists and the legal forms available) of a co-operative, mutual organisation, a disregarded entity, a social business, a benefit corporation, a community interest company, a company limited by guarantee or a charity organisation. They can also take more conventional structures.

Inclusive enterprises have both enterprise goals and social goals, but they focus on the employment of persons with disabilities. As a result, their social goal is embedded in their objective, which differentiates them from other organisations and corporations. An inclusive enterprise's main purpose is to promote, encourage, and make social change by employing in their workforce the maximum possible number of persons with disabilities. Furthermore, this social purpose is carried out in a financially sustainable way and they can sustain themselves over the long term. Their models can be expanded or replicated to other communities to generate more impact.

Moreover, unlike other employment models such as sheltered workshops or socio-medical entities, the most outstanding characteristic of inclusive enterprises is that they are based on the fundamental right to work and employment enshrined in Article 27 of the UN CRPD. It means:

An ordinary enterprise or entity with social aims

——— Active in the ordinary work sector

——— 30 % to 80 % of the employees in an inclusive enterprise are recognised as disabled workers

——— Ordinary salaries

——— Long term contracts

A virtuous system

———— The State supports inclusive enterprises (according to the legislation in force)

———— Investment aid / various subsidies

o ——— Tax deductions

o ——— Percentage of the disabled worker's salary

———— Return on investment for the State:

o ——— Taxation of the worker and the inclusive enterprise

o ——— Optimisation of social benefits expenditure

Impact on the well being of the worker with disabilities:

———— Integration into working life

———— Social impact on people with disabilities, on enterprises, on customers and on society.

———— Stable and disability friendly employment

What are the Union's obligations to foster employment for persons with disabilities in the open labour market through the inclusive enterprise?

———— UN CRPD: Article 27 — Work and Employment;

———— Social Pillar principles: 3. on equal opportunities, 4. on active support to employment, 5. on secure and adaptable employment, 6. on wages, 7. on information about employment conditions and protection in case of dismissals, 8. on social dialogue and involvement of workers, 10. on healthy, safe and well adapted work environment and data protection and 17. on the inclusion of people with disabilities;

———— Sustainable Development Goals: 8. on decent work and economic growth, and 10. on reduced inequality.

4. Pilot project objectives:

The pilot project aims to achieve the following goals:

———— Taking stock of the legal and socio-economic situation of an inclusive enterprise for people with disabilities in the European countries.

———— Determining the social impact for the disabled person and the impact on society, clients and others.

———— Reporting and legitimising this employment model — proving the social and economic benefits inclusive enterprises have on people with disabilities. Unlike the protected environment that is linked to the socio-medical framework, inclusive enterprises aim to integrate into the labour world, as a worker, any person with a disability. An inclusive enterprise generally benefits from public financial support. Thanks to the employment of disabled workers, savings are made on many social benefits.

———— Drafting and promoting a universal European legal framework for inclusive enterprises to create permanent employment that guarantees the realisation of professional projects of people with disabilities in the ordinary labour market.

The most important result that needs to be maximised through an inclusive enterprise is to improve the quality of employment and increase the employment rate of people with disabilities.

5. Pilot project actions:

The actions which will be carried out under this pilot project are the following:

1. ~~Research of the situation and legal framework of inclusive enterprises framework in the European countries.~~
2. ~~Measure the impact of inclusive enterprises on the basis of impact chains (inputs — outputs — outcomes — impact) in a comparison of countries.~~
 - a. ~~Define fields of impact: on persons with disabilities, companies, society, national budget~~
 - b. ~~Develop impact criteria for inclusive enterprises — objectives/target groups, concept/approach, customers, participation, diversity, resource orientation~~
 - c. ~~Conduct surveys~~
 - d. ~~Compare approaches / compare impact (inputs — impact)~~
 - e. ~~Develop best practices model~~
 - f. ~~Recommend action by the Union~~
3. ~~Results of socio economic study report on Return on Investment (ROI). An inclusive model should not be perceived as costly burden; it is a successful model that capitalises on the ROI of employing people with disabilities.~~
6. ~~Partners in the pilot project: organisations representing the inclusive enterprises for people with disabilities in Europe, and organisation that work to promote access to employment for people with disabilities at European level~~

~~In the implementation phase of this pilot project, the European Confederation of Inclusive Enterprises (EuCIE) could be a good partner which provides to the Union institutions its knowledge and data since this organisation is the main representative of inclusive enterprises for people with disabilities in Europe.~~

~~EuCIE is the union of several countries to promote access to employment for people with disabilities at European level. In fact, EuCIE shares the same model of inclusive company whose organisations represent the main inclusive employers in Belgium-Wallonia (Eweta), France (UNEA), Germany (Bag if) and Spain (CONACEE) despite the fact that they have established contacts with more European countries where inclusive enterprises exist. According to this pilot project, EuCIE mission is to represent all European inclusive enterprises at European level and its workers with disabilities, working for their recognition, promotion and protection at European level.~~

7. Conclusions

~~The most important positive result from the implementation of this pilot project would be to provide the basis for increasing the employment rate of people with disabilities and improving the quality of employment, using an inclusive enterprise for disabled people as a vehicle or tool to achieve it.~~

~~On the other hand, access to work on the open labour market is a right that persons with disabilities are entitled to enjoy equally to others. Inclusive employment practices can enable persons with disabilities to have economic independence and to be socially active, helping them to participate in their community. It means building an inclusive society. As a result, inclusive employment practices have been proven to benefit individuals, taxpayers and the wider community.~~

Remarks

~~PP appropriations transferred in DEC 1/2021 and budget item to be deleted in AL 1/2022.~~

~~This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.~~

~~Preventing and combating domestic violence against women imposes a wide range of measures aimed at ensuring their economic and social independence, fulfilling their right to equality in life and at the same time ensuring adequate protection for women victims.~~

~~In addition, the fight against domestic violence also requires special attention to the prevention of recurrence of domestic violence by the aggressor.~~

~~This pilot project aims to carry out a study in order to identify the programmes directed to the aggressors, in what circumstances they are applied, to whom they are directed, an evaluation that is made of them in their impacts in the prevention of the recurrence of violence.~~

~~The study should cover countries in the continent of Europe and should contain information on how the aggressor is followed up, whether he is flagged or monitored by the competent authorities, and what actions involve him in order to know his psychological profile and to avoid the recurrence of domestic violence, including the death of the victim or recurrence in other future victims.~~

~~It must also develop guidelines and tools that allow a concrete and real analysis of the measures that are or will be implemented on the social problem of domestic violence. The development of guidelines should help to define policies to be adopted in the field of prevention.~~

~~It is extremely important to characterise the programmes that different European countries have implemented to prevent the recurrence of domestic violence against women.~~

~~This pilot project will contribute to:~~

- ~~– having concrete data to prevent future behaviour of the aggressors;~~
- ~~– reflecting on different strategies to be implemented;~~
- ~~– having knowledge about all the models adopted in European countries on this subject.~~

Remarks

~~PP appropriations transferred in DEC 1/2021 and budget item to be deleted in AL 1/2022.~~

~~This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.~~

~~The outbreak of the COVID-19 has shone a light on and exacerbated the pervasive and well known problem of domestic violence across Europe. Addressing domestic violence has long been problematic due to the fear and unjustified stigma victims feel, and the subsequent the lack of reporting and lack of data to inform concrete policy measures. Next to the measures that were in place before the crisis, some Member States have developed new measures to address the specific worrying situation of victims in isolation with their abusers where reaching out for help becomes even more difficult.~~

~~The pilot project aims to build on lessons learned during the crisis as regards the role technology can play as well as on the Commission's NON.NO.NEIN. campaign and have an overarching approach to reporting of domestic violence with Union added value. The pilot project would fund the development and launch of a free app, which collates information and resources for women~~

suffering from domestic violence for example information on warning signs of abusive behaviour, how to prepare to leave a violent situation, local shelters and national helplines' contact details, legal rights and remedies etc. Crucially, women, through a discreet app, which could be disguised as something innocuous, would be connected to their national helpline through a real time chat service. An emergency button could also call for police assistance without the need to speak thereby avoiding alerting abusers in volatile situations. Furthermore, national services and NGOs supporting domestic violence victims would feed into the app's design and be supported in connectivity of the app with their existing structures. The app launch should be accompanied by a Commission awareness campaign to promote the app in order to reach as many women as possible.

This would provide a harmonised Union approach in helping to address and support victims of domestic violence. The European Parliament has previously proposed the establishment of a coherent system for collecting statistics on gender based violence in Member States and this EU app could help to further inform national and Union policy making by having a more complete and accurate view of the domestic violence cases through anonymised data collection in full respect of the data protection legislation. This app would collect evidence of domestic abuse in order to assist victims with applying for protection against abusers and to help users better understand what is happening to them with recordings.

For transport modes that are most difficult to decarbonise, such as shipping, different options are being explored. Maersk for example, the biggest cargo shipper worldwide, is examining for its fleet propulsion with alcohols as well as with ammonia and also with biomethane. Other carriers are collecting first experiences with hydrogen/fuel cell propulsion. A multitude of questions about hydrogen in shipping is open, inter alia:

1. How to guarantee that the hydrogen is "green" (won with electrolysis of water with renewable energy), not "blue", and that it is produced from surplus energy, hence not taking away renewable energy from the grid that would be needed elsewhere?
2. In which use cases is hydrogen an alternative to battery-electric shipping? And when using hydrogen as a fuel, in which case is the propulsion with fuel cell technology the smartest option to use, in which case it is more efficient to use hydrogen-generated ammonia or alcohols? Both questions can be addressed in a pilot project that assesses the options for production and utilisation of hydrogen in a coastal area with shipping infrastructure. Harbours are the natural hub for hydrogen, since they are the infrastructure nodes for the connection to offshore wind farms; delivery and storage of hydrogen from overseas; fuelling of different transport carriers and injection into pipelines for the transport inland.

The questions can be addressed in a combined field study with the following tools:

1. cost-benefit analysis for different scenarios of hydrogen production for shipping: onshore vs. offshore wind with the offshore scenario differentiating between onshore vs. offshore electrolysis (and hence connection to the coast via electricity line vs. hydrogen pipeline)
2. cost-benefit analysis for different uses of hydrogen for shipping in a closed production cycle within the harbour area: fuel cell propulsion vs. methanol/ethanol vs. ammonia

The analysis should also include an assessment of the respective legal and licensing obstacles and costs.

Remarks

~~PP appropriations transferred in DEC 1/2021 and budget item to be deleted in AL 1/2022.~~

~~This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.~~

~~The pilot project aims at setting up a European Observatory on the fight against Impunity (EOI) built on the necessity to promote the fight against impunity for serious violations of human rights and crimes against humanity having the principle of accountability as a central pillar of the architecture of international justice.~~

~~The objective of the EOI should be to provide a Union wide approach aimed at ensuring a proper involvement of the parliamentary dimension and scrutiny both at Union and national levels.~~

~~The pilot project should be based on the UN Basic Principles and Guidelines on the Right to a Remedy and Reparation for Victims of Gross Violations of International Human Rights Law and Serious Violations of International Humanitarian Law. To fill the gap of impunity, the pilot project would serve the purpose of addressing the most sensitive issues in the international human rights law context (e.g. extrajudicial killings and enforced disappearances) as well as the needs of the most vulnerable groups (e.g. children, youth, women, minorities and internally displaced persons). This includes shaping solutions for eliminating possible obstacles for victims to access justice and to promote international justice systems, including transitional justice where accountability is most at risk.~~

~~Putting in place a permanent Union structure for monitoring and delivering activities in this field could really improve the fight against impunity and the principle of accountability.~~

~~The main activities of the EOI would include:~~

~~(1) raising awareness on unreported situations and human rights violations, notably as a concrete follow up to European Parliament's urgency resolutions, identifying and supporting relevant bodies and actors on the ground and coordinating actions in close cooperation with all relevant Union and international bodies and mechanisms; establishing a platform to amplify the voice of the victims and the Union's response in that respect.~~

~~(2) monitoring widespread impunity for human rights violations and attacks on the role of the International Criminal Court (ICC), considering the joint communication to the European Parliament and the Council on the EU action plan on Human Rights and Democracy 2020–2024;~~

~~(3) supporting the work of the European Genocide Network and create synergies in order to ensure a parliamentary dimension via a close cooperation between national authorities (parliaments), the European Parliament, parliamentary assemblies in third countries and civil society organisations; giving support to the judiciary to investigate and prosecute international crimes and assessing the common efforts of the Member States and the Union in enforcing criminal law and jurisprudence notably by the adoption of relevant legislation and building necessary networks with official and non-official representatives at national and European levels;~~

~~(4) advocating in favour of multidisciplinary accountability systems (including the ICC) and reparation processes in challenging environments, bridging the gap between mechanisms and victims (also called "survivors") by ensuring a victim-centred approach;~~

(5) enhancing the profile and visibility of the Union engagement on the fight against impunity through an annual high level event (eg. European Days to Combat Impunity), targeted campaigns and the publication of reports, and creating new partnerships and networks worldwide with a potential multiplying effect at multilateral, regional and local level;

(6) contributing to implement the 2030 UN Agenda for Sustainable Development (goal 16) and its objective of designing better accountability mechanisms, providing access to justice for all and promoting peaceful and inclusive societies.

Remarks

~~PA appropriations transferred in DEC 1/2021 and budget item to be deleted in AL 1/2022.~~

~~This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.~~

~~Comprising over 2 million businesses and employing over 13 million people, the tourism industry represents approximately 7 % of total Union export earnings, making it the fourth largest export industry in the Union.~~

~~As tourism represents a very large percentage of GDP for some Member States — for example approximately 14 % for Italy, Spain and France and approximately 16,5% for Portugal — its importance at national and European level is undeniable.~~

~~Europe is the world's number one tourist destination, but the pace of growth slowed down from 2019 due to uncertainties surrounding Brexit, the collapse of Thomas Cook and other airline companies, and the COVID-19 pandemic. Moreover, lessons have been learned from the past, e.g. from the terrorist attacks of the previous years and their negative impact on the tourism sector. All these unfortunate cases show that the tourism sector is very fragile when it comes to exceptional circumstances and exceptional occurrences, leaving uncertainties and having sometimes irreversible effects on the value chain — SMEs, tour operators, airline companies, hoteliers, catering sector and so on, creating a domino effect.~~

~~In such exceptional circumstances consumers face reservation cancellations, workers risk to be deprived of their source of income, companies, in particular SMEs, need financial support and liquidity and despite some of the national state aid mechanisms, which offer added flexibility, there is a lack of legal certainty and no united Union response. The latest events present the tourism and travel sectors with major and evolving challenges. The first immediate task is to ensure that travel and tourism are fully integrated in national, regional and global emergency, mitigation and support packages. This preparatory action focuses on tourism preparedness by putting in place mechanisms at Union level to manage future crises while engaging all relevant stakeholders.~~

~~There is a need to improve risk assessment and crisis preparedness with both the public and private sector. At Union level there is no coherent, well structured strategy, which can form the basis of a European wide crisis management mechanism. Nor is there a common plan of action with clear objectives, or an inclusive approach with resource allocations and responsibilities.~~

~~The Commission has put in place different instruments — flexibility of State aid measures, programmes supporting SMEs, the SURE programme, passenger rights legislation and slot waiver of 80/20 principle. Some of those instruments take the form of loans and guarantees and should be granted to the SMEs at a very low or zero interest rate, and at least a 1-year grace period. However, a single crisis management mechanism is needed, with shared responsibility for the Union, the Member States and regional and local authorities, and they should all play key roles in managing and maintaining the tourism sector, in order to give a uniform European response to future crisis.~~

~~The general objective of the preparatory action is to create a European crisis management mechanism for the tourism sector which would include the following elements:~~

- ~~— a proper crisis management financial pool, based on existing or newly created instruments, which would facilitate tourism enterprises' access to financial support and liquidity in all parts of the tourism value chain during periods of crisis;~~
- ~~— proper crisis management guidelines for passengers' and consumers' rights, based on current relevant legislation and also on experience and best practices;~~
- ~~— analysis of existing rules to better cater for times of exceptional circumstances (i.e. on passenger rights, package travel, slots, State aid, visa rules, travellers' taxes);~~
- ~~— clear guidance for Member States on coordinated repatriation of Union citizens, in terms of alignment of travel advice with local, regional and national governments;~~
- ~~— to provide guidelines and financial resources for planning post crisis communication campaign and initiatives;~~
- ~~— the creation of reliable measurement mechanisms to serve as flash Eurobarometers during exceptional periods to understand the impact and enable adaptation to future trends;~~
- ~~— to provide guidance to industry on how to communicate with the media and with social network based on good practices;~~
- ~~— guidelines with additional measures based on good practices in the tourism sector during exceptional circumstances to ensure a full and speedy recovery.~~

The operational objectives of the preparatory action are:

- ~~— to create a two fold structure mechanism, as a crisis management team for tourism and travel; to be activated either under exceptional circumstances or when a particular operator is under a specific imminent threat;~~
- ~~— to establish a professional body or authorise a pre existing body, in co operation with the European Parliament, the Commission, and the Committee of Regions, to be responsible for triggering the mechanism;~~
- ~~— to involve Member States on a voluntary basis, and to lead a structural dialogue with the Council;~~
- ~~— to provide for efficient support to the affected businesses in the tourism sector and to support and assist Member States in preventing and tackling unemployment in the tourism sector, including by supporting online training during exceptional periods in which work is suspended;~~
- ~~— to provide for a special assistance and direct financial aid instrument for regions and areas depending mainly on income from tourism;~~
- ~~— to integrate big data into official data and create measurement mechanisms, such as the flash Eurobarometer and join forces with big players in the market for carrying out joint analysis using searches and bookings for a specific period;~~
- ~~— to provide business continuity advice to industry, such as tool kits for capacity building but also data analysis regarding future unexpected events;~~
- ~~— to ensure a fair division of responsibilities and a good cooperation between Union's respective institutions and bodies, corresponding institutions at national, regional and local level and all relevant stakeholders' associations and organisations;~~
- ~~— to create an annual cost effectiveness analysis on the maintenance of this mechanism, which will be put in place only in strictly enumerated cases~~

Annex A3 — OTHER ANNEXES

I — European Economic Area

Under the Agreement establishing the European Economic Area, the EEA EFTA States take part in a wide range of Union policies covered by heading 1, 2, 3, 5, 6 and 7 of the multiannual financial framework in exchange for a financial contribution to operating appropriations calculated by applying a 'proportionality factor'. This proportionality factor is equal to the sum of the ratios obtained by dividing the gross domestic product at market prices of each EEA EFTA State by the gross domestic product at market prices of all the Member States plus that of the EEA EFTA State concerned

For 2022 the proportionality factor is estimated at 2,51% (on the basis of 2020 figures), i.e. 2,33% for Norway, 0,14% for Iceland and 0,04% for Liechtenstein. For budget lines that only cover payments on commitments of the previous programming period, the factor is estimated at 2,15% (on the basis of 2020 figures), i.e. 1,99% for Norway, 0,12% for Iceland and 0,04% for Liechtenstein.

These financial contributions will not be formally entered into the budget; each budget heading relating to activities in which the EEA EFTA States take part will refer to the EFTA contribution as a memorandum item. A summary table, listing the budget headings concerned and the amounts of the EFTA contribution for each budget heading, is published as an annex to the general budget of the Union. The total EEA EFTA contribution for the operational part for 2022 is estimated at about EUR 613 486 246 in commitment appropriations. The EEA EFTA States will also share in the administrative expenditure directly linked to the implementation of these policies.
