#### Remarks

Appropriations under this chapter are intended to cover the financing of the CAP Strategic Plans interventions funded by the European Agricultural Fund for Rural Development (EAFRD) under the programming period 2023-2027, as well as 2014-2020 programmes in accordance with Regulation (EU) No 1305/2013 that are extended to 2021 and 2022 under transitional rules set out by Regulation (EU) 2020/2220. Those appropriations may also be used for covering any outstanding payments for EAFRD measures prior to 2014 and for financing technical assistance at the initiative of the Commission within the limit of 0,25 % of the EAFRD envelope.

The EAFRD delivers specific climate and environmental public goods, improves the competitiveness of the agriculture and forestry sectors, and promotes the diversification of economic activity and quality of life and work in rural areas including areas with specific constraints.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from proceeds of the Next Generation EU/European Union Recovery Instrument entered in the statement of revenue gave rise to the provision of appropriations for this programme under this chapter for a total amount of EUR 8 070 486 840 in commitments in 2021 and 2022. The amounts indicated in the budget remarks of the relevant budget lines under this chapter provide information about the expected payment appropriations in 2023.

### Remarks

This appropriation is intended to cover the expenditure related to the implementation of the specific sub-programme for circular economy and quality of life of the LIFE programme.

This sub-programme aims to facilitate the transition towards a sustainable, circular, energy-efficient and climate-resilient economy and to protect, restore and improve the quality of the environment.

It supports projects focusing on delivering the European Green Deal. These will be actions related to the shift towards a resource-efficient economy, the management of natural resources, such as air, water and land towards achieving the zero-pollution ambition, the strengthening the implementation of environmental legislation, as well as the promotion of good environmental governance.

It includes:

- the financing of innovative techniques, methods and approaches for reaching the objectives of the Union legislation and policy on environment and to contribute to the knowledge base and to the application of best practices,
- the development, implementation, monitoring and enforcement of the relevant Union legislation and policy on environment, including by improving governance at all levels, in particular through enhancing capacities of public and private actors and the involvement of civil society,
- the support of actions intended to catalyse the large-scale deployment of successful technical and policy-related solutions for implementing the relevant Union legislation and policy on environment, by replicating results, integrating related environmental objectives into other policies and into public and private sector practices, mobilising sustainable investments, and improving access to finance.

Costs of technical assistance for selecting, monitoring, evaluating and auditing projects and of support for communication, IT actions, organising workshops, conferences and meetings, as well as other governance activities (including non-governmental organisations supported via operating grants) may also be financed by this appropriation.

The carbon border adjustment mechanism (the ‘CBAM’) is intended to address greenhouse gas emissions embedded in the goods covered by the proposed Regulation, upon their importation into the customs territory of the Union, in order to prevent the risk of carbon leakage. The CBAM will complement the system established for greenhouse gas emission allowance trading within the Union by Directive 2003/87/EC of the European Parliament and of the Council by applying an equivalent set of rules to imports into the customs territory of the Union of goods covered by the proposed Regulation.
