

# 2024 Rule of Law Report - targeted stakeholder consultation

Fields marked with \* are mandatory.

## Introduction

---

The annual Rule of Law Report lies at the centre of the Annual Rule of Law Cycle, which acts as a preventive tool, deepening multilateral dialogue and joint awareness of rule of law issues. So far, four editions of the Rule of Law Report have been published in 2020, 2021, 2022 and 2023.

The Commission would like to invite stakeholders to provide contributions to the 2024 Rule of Law Report. This survey provides information on the type of information and topics that will be covered in the 2024 Rule of Law Report, in order to allow stakeholders to provide input. More targeted input may be requested at a later stage of preparation of the 2024 Rule of Law Report, including in the context of country visits, or bilateral contacts.

The 2024 Rule of Law Report will continue to deepen the assessment under the existing four pillars, and will also follow-up on the implementation of the recommendations to Member States, that were issued as part of the 2023 Rule of Law Report. The contribution to be provided should include **(1) information on measures taken to implement the recommendations addressed to the Member State in the 2023 Rule of Law report, as well as developments with regard to the points raised in the respective country chapter and (2) any other significant developments since January 2023<sup>[1]</sup> falling under the ‘type of information’ outlined in section II.**

The input should consist of a short summary, if possible in English, covering the areas referred to below. Legislation or other documents may be referenced with a link. Contributions should focus on significant developments since the last Rule of Law Report both as regards the legal framework and its implementation in practice.

[1] Unless the information was already submitted in the input for the previous Rule of Law Reports.

## Type of information

The topics are structured according to four pillars: I. Justice system; II. Anti-corruption framework; III. Media pluralism; and IV. Other institutional issues related to checks and balances. ### **D) Any other relevant developments**

- Respondents are free to add any further information, which they deem relevant; however, this should be short and to the point.

Please also indicate whether the developments reported are linked to the implementation of reforms and investments under the RRP, where applicable.

If there are no changes, it is sufficient to indicate this and the information covered in the contributions for the previous Rule of Law Reports should not be repeated.

[2] Such as: media regulatory authorities and bodies, national human rights institutions, equality bodies, ombudsman institutions, supreme audit institutions and, where they exist, transparency authorities.

## Questions on horizontal developments

---

In this section, you are invited to provide information on general horizontal developments or trends, both positive and negative, covering all or several Member States. In particular, you could mention issues that are common to several Member States, as well as best practices identified in one Member State that could be replicated. Moreover, you could refer to your activities in the area of the four pillars and sub-topics (an overview of all sub-topics can be found below), and, if you represent a Network of national organisations, to the support you might have provided to one of your national members.

## II. Anti-Corruption Framework

---

Where previous specific reports, published in the framework of the review under the UN Convention against Corruption, of GRECO, and of the OECD address the issues below, please make a reference to the points you wish to bring to the Commission's attention in these documents, indicating any relevant updates, changes or measures introduced that have occurred since these documents were published.

Please provide information on measures taken to follow-up on the recommendations received in the 2023 Report regarding the anti-corruption framework (if applicable)

5000 character(s) maximum

### A. The institutional framework capacity to fight against corruption (prevention and investigation / prosecution)

List any changes as regards relevant authorities (e.g. national agencies, bodies) in charge of prevention detection, investigation and prosecution of corruption and the resources allocated to each of these authorities (the human, financial, legal, and technical resources as relevant), including the cooperation among domestic and with foreign authorities. Indicate any relevant measure taken to effectively and timely cooperate with OLAF and EPPO (where applicable)

*5000 character(s) maximum*

Safeguards for the functional independence of the authorities tasked with the prevention and detection of corruption

*5000 character(s) maximum*

Information on the implementation of measures foreseen in the strategic anti-corruption framework (if applicable). If available, please provide relevant objectives and indicators

*5000 character(s) maximum*

## B. Prevention

Measures to enhance integrity in the public sector and their application (including as regards incompatibility rules, revolving doors, codes of conduct, ethics training)

*5000 character(s) maximum*

General transparency of public decision-making (including rules on lobbying and their enforcement, asset disclosure rules and enforcement, gifts policy, transparency of political party financing)

*5000 character(s) maximum*

- a new Code of Administrative Procedures will be prepared (the preliminary thesis were adopted already) which will embed all the legislation on transparent decision-making (the legislation on access to information of public interest - Law no. 544/2001, the legislation on decisional transparenacy - Law no 52/2003, the law regarding petitions - OG 27/2002).

- in this regard it is crucial that the standards of protection for these social-political rights will be at least maintained if not raised and ensure a better protection;

- at the same time, there are numerous cases where through administrative acts, the public institutions unlawfully restricted the access to public information. For example:

1. the documents of control from the Environmental Agency (Guard of Environment) are excluded from free access to information and in this way the citizens, the NGOs cannot scrutinize its activity and cannot check if the public authority exercised properly its powers. Namely, art. 29 lit. c) - e) and art. 30 of the Annex to Order no. 464 of April 21, 2009 of the Minister of Environment for the approval of the "Technical Norms regarding the organization and conduct of control and inspection activities in the field of environmental protection" explicitly excludes the access to such information. Our organization opened a trial in this regard.

2. The opinions given by the Public Health Agency branches at the local level (DSP) on public investment projects are also excluded from free access to information;

3. The fight of the civil society against real estate developpers who break the law is unequal, as according to the law, no matter what fine a developper would receive from the public authority or from the construction public agency, it can pay half of the minimum fine prescribed by law within 15 days (being 500 lei - 100 euro), which will never be a deterring sanction.

Rules and measures to prevent and address conflicts of interest in the public sector. Please specify the features and scope of their application (e.g. categories of officials concerned, types of checks and corrective measures depending on the category of officials concerned)

*5000 character(s) maximum*

If available to you, for the three preceding questions, you are also invited to provide figures on their application, such as number of detected breaches/irregularities of the various rules in place and the follow-up given (investigations, sanctions, etc.).

Measures in place to ensure whistleblower protection and encourage reporting of corruption, including the number of reports received and the follow-up given

*5000 character(s) maximum*

Sectors with high-risks of corruption in your Member State:

- Measures taken/envisaged for monitoring and preventing corruption and conflict of interest in public procurement
- List other sectors with high risks of corruption and the relevant measures taken/envisaged for monitoring and preventing corruption and conflict of interest in these sectors (e.g. healthcare, citizen

/residence investor schemes, urban planning, risk or cases of corruption linked to the disbursement of EU funds, other), and, where applicable, list measures to prevent and address corruption committed by organised crime groups (e.g. to infiltrate the public sector)

*5000 character(s) maximum*

Any other relevant measures to prevent corruption in public and private sector

*5000 character(s) maximum*

- there was an increasing cases of SLAPP - and actions of intimidadation against activists of civil society, see for example: <https://www.stareademocratiei.ro/2023/06/21/autoritatile-din-radauti-au-interzis-accesul-asociatiei-radautiul-civic-la-sedinta-de-consiliu-local/> or <https://www.stareademocratiei.ro/2024/01/15/abuz-al-politiei-perchezitie-corporala-la-sectie-pentru-o-postare-pe-facebook/>

- at the same time, in our region, an activist was sued by a mayor for moral damages after she exposed informations about public procurement made by the local authority. The trial is still ongoing, but this would be a very dangerous precedent for intimidating any future critical voices;

## C. Repressive measures

Criminalisation, including the level of sanctions available by law, of corruption and related offences, including foreign bribery

*5000 character(s) maximum*

Data on the number of investigations, prosecutions, final judgments and application of sanctions for corruption offences (differentiated by corruption offence if possible) including for legal persons and high level and complex corruption cases) and their transparency, including as regards to the implementation of EU funds

*5000 character(s) maximum*

Potential obstacles to investigation and prosecution as well as to the effectiveness of criminal sanctions of high-level and complex corruption cases (e.g. political immunity regulation, procedural rules, statute of limitations, cross-border cooperation, pardoning)

*5000 character(s) maximum*
