

2024 Rule of Law Report - targeted stakeholder consultation

Fields marked with * are mandatory.

Introduction

The annual Rule of Law Report lies at the centre of the Annual Rule of Law Cycle, which acts as a preventive tool, deepening multilateral dialogue and joint awareness of rule of law issues. So far, four editions of the Rule of Law Report have been published in 2020, 2021, 2022 and 2023.

The Commission would like to invite stakeholders to provide contributions to the 2024 Rule of Law Report. This survey provides information on the type of information and topics that will be covered in the 2024 Rule of Law Report, in order to allow stakeholders to provide input. More targeted input may be requested at a later stage of preparation of the 2024 Rule of Law Report, including in the context of country visits, or bilateral contacts.

The 2024 Rule of Law Report will continue to deepen the assessment under the existing four pillars, and will also follow-up on the implementation of the recommendations to Member States, that were issued as part of the 2023 Rule of Law Report. The contribution to be provided should include **(1) information on measures taken to implement the recommendations addressed to the Member State in the 2023 Rule of Law report, as well as developments with regard to the points raised in the respective country chapter and (2) any other significant developments since January 2023^[1] falling under the ‘type of information’ outlined in section II.**

The input should consist of a short summary, if possible in English, covering the areas referred to below. Legislation or other documents may be referenced with a link. Contributions should focus on significant developments since the last Rule of Law Report both as regards the legal framework and its implementation in practice.

[1] Unless the information was already submitted in the input for the previous Rule of Law Reports.

Type of information

The topics are structured according to four pillars: I. Justice system; II. Anti-corruption framework; III. Media pluralism; and IV. Other institutional issues related to checks and balances. The replies could include aspects set out below under each pillar. This can include challenges, current work streams, positive developments and best practices:

A) Legislative developments

- Newly adopted legislation
- Legislative drafts currently discussed in Parliament
- Legislative plans envisaged by the Government

B) Policy developments

- Implementation of legislation
- Evaluations, impact assessment, surveys
- White papers/strategies/actions plans/consultation processes
- Follow-up to reports/recommendations of Council of Europe bodies or other international organisations
- Important administrative measures
- Generalised practices

C) Developments related to the judiciary / independent authorities

- Important case law by national courts
- Important decision/opinions from independent bodies/authorities
- State of play on terms, nominations and expired mandates for high-level positions (e.g. Supreme Court, Constitutional Court, Council for the Judiciary, heads of independent authorities included in the scope of the questionnaire[2])

D) Any other relevant developments

- Respondents are free to add any further information, which they deem relevant; however, this should be short and to the point.

Please also indicate whether the developments reported are linked to the implementation of reforms and investments under the RRP, where applicable.

If there are no changes, it is sufficient to indicate this and the information covered in the contributions for the previous Rule of Law Reports should not be repeated.

[2] Such as: media regulatory authorities and bodies, national human rights institutions, equality bodies, ombudsman institutions, supreme audit institutions and, where they exist, transparency authorities.

Questions on horizontal developments

In this section, you are invited to provide information on general horizontal developments or trends, both positive and negative, covering all or several Member States. In particular, you could mention issues that are common to several Member States, as well as best practices identified in one Member State that could be replicated. Moreover, you could refer to your activities in the area of the four pillars and sub-topics (an overview of all sub-topics can be found below), and, if you represent a Network of national organisations, to the support you might have provided to one of your national members.

Overview topics for contribution

Please provide any relevant information on horizontal developments here

Questions for contribution

The following four pillars (I.-IV.) are sub-divided into topics (A., B., etc.) and sub-topics (1., 2., 3., etc.). For each of the topics and sub-topics, you are invited to provide (1) information on measures taken to implement the recommendations addressed to the Member State in the 2023 Rule of Law report, as well as developments with regard to the points raised in the respective country chapter of the 2023 Rule of Law Report and (2) any other significant developments since January 2023[3]. Please always include a link to and reference relevant legislation/documents (in the national language and/or where available, in English). Significant developments can include challenges, positive developments and best practices, covering both legislative developments or implementation and practices.

If there are developments you consider relevant under each of the four pillars that are not mentioned in the sub-topics, please add them under the section "other - please specify". Only significant developments should be covered.

Information provided in reply to the first question under each pillar, related to the follow-up to the recommendations, does not need to be repeated in subsequent parts of the questionnaire, but can be cross-referenced in the subsequent questions, where relevant. All other questions are not limited to the recommendations, but as in previous years, cover the entire scope of the Report.

[3] Unless already covered in the input for the previous Rule of Law Reports.

Member State covered in contribution [only one choice possible]

If you wish to submit information concerning several Member States, please fill in the questionnaire separately for each Member State. There is no limit to the number of contributions submitted by a single participant.

An important task in Hungary is to increase trust in the state and to strengthen the resilience of the public administration against corruption by detecting corruption and holding criminals accountable.

In recent years, a number of anti-corruption measures have been implemented, which no longer focused exclusively on strict regulations, but also included prevention and shaping social attitudes.

A functioning multi-party system is essential for the material and practical implementation of the division of power, just as the system of checks and balances is kept in operation if there is an opposition alternative capable of governing, which can be a minority in the parliament or a blocking minority that limits power through social pressure!!

At the same time:

Which country has a party leader who used to lie morning and night? That is why so many opposition members do not vote for Ferenc Gyurcsány. This is also why the support of the government party is great, and because Hungarians and families are important to the government.

Finally, something that brings the European Commission into direct contact with reality, with people, but it seems to me that this is still not enough because they only thought of organizations and this makes the common man feel that he does not matter. In other words, on the part of the committee, this is only a one-sided interest, which is not fair.
