

European Commission

2016 Consumer Markets Scoreboard

Markets surveyed in the EU28 vary

Some markets are doing better than others

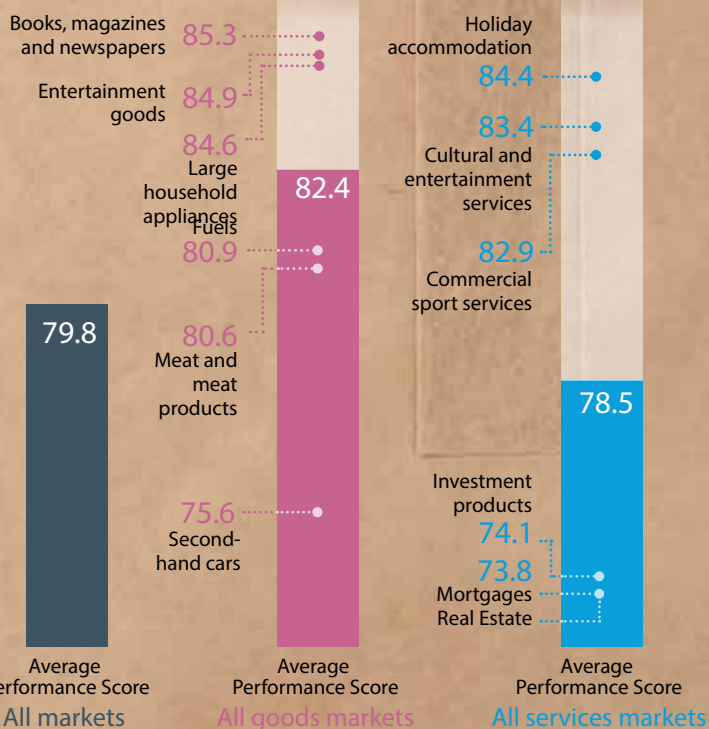

For the first time since 2011 more consumers switched electricity suppliers

Consumer detriment is highest in the telecom markets

Real estate services perform worst, with lowest trust and poorest score on meeting consumer expectations

Financial services improved the most, but remain the lowest performing sector

In insurance services problems are rare, but result in severe detriment to consumers

Country differences remain significant
