TF50 (2017) 2/2 - Commission to UK

Subject: Position paper "Essential Principles on **Financial Settlement**"

Origin: European Commission, Task Force for the Preparation and Conduct of the Negotiations with the United Kingdom under Article 50 TEU

Remarks: The attached position paper on "Essential Principles on **Financial Settlement**" contains the main principles of the EU position in this regard

Published on Monday 12 June on TF50 website as EU position in view of the 1st negotiation round with the UK

Essential Principles on Financial Settlement

The Union and the United Kingdom should both respect in full the financial obligations resulting from the whole period of the United Kingdom membership in the Union.

I. General principles

1. There should be a single financial settlement related to:
 - The Union budget;
 - The termination of the membership of the United Kingdom of all bodies or institutions established by the Treaties;
 - The participation of the United Kingdom in specific funds and facilities related to the Union policies.

Annex 1 provides an indicative list, on the basis of information currently available, of the bodies and funds to be included in the financial settlement. This list should be updated at the date of withdrawal.

2. This single financial settlement should be based on the principle that the United Kingdom must honour its share of the financing of all the obligations undertaken while it was a member of the Union. The United Kingdom obligations should be fixed as a percentage of the EU obligations calculated at the date of withdrawal in accordance with a methodology to be agreed in the first phase of the negotiations.
3. On this basis, the United Kingdom should continue to benefit from all programmes as before the withdrawal until their closure under the condition that it respects the applicable Union legal rules.
4. Accounts shall be established in euro and all payments from the United Kingdom to the Union should be made in euro.

II. Methodology for calculating the United Kingdom obligation vis-à-vis the Union budget

Through its approval of the successive Multiannual Financial Frameworks (MFFs) and the Own Resource Decision (ORD¹), the United Kingdom committed to fund a share of the Union obligations defined by the ORD rules in all its dimensions. In particular, through the adoption of the basic acts (legal base)², each programme has been allocated a reference amount to be spent according to a financial programming over the period 2014-2020.

1. Calculation of the Union obligations

The Union obligations stem from:

¹ Council Decision (2014/335/EU, Euratom) of 26 May 2014 on the system of own resources of the European Union, OJ L 168, 7.6.2014, p. 105–111.

² Annex 2 provides an indicative list of current legal bases concerned. This list should be updated at the date of withdrawal.

- (1) The Reste à Liquider ("RAL") from the successive Multiannual Financial Frameworks during which the United Kingdom was a member of the Union;
- (2) The financial programming for the period between the date of withdrawal of the United Kingdom and the end of the MFF 2014-2020;
- (3) The liabilities as recorded in the consolidated accounts of the Union which are not balanced by corresponding assets, i.e.:
 - a. Pensions and other employee benefits,
 - b. Provisions³,
 - c. Financial liabilities not related to borrowings,
 - d. Payables and accrued charges⁴ other than RAL.
- (4) The contingent liabilities disclosed in the consolidated annual accounts;
- (5) The specific costs related to the withdrawal process.⁵

Sources for quantifying the obligations at the date of withdrawal:

The amounts for items (1), (3) and (4) should be extracted from the consolidated accounts of the Union established at the time of withdrawal and audited by the Court of Auditors.

The amounts for item (2) should be extracted from the latest updated financial programming.

The overall obligations as established at the date of withdrawal may be subject to limited technical adjustments linked to the actual implementation of commitments.

2. Share of the United Kingdom

Should the financial settlement include all the obligations mentioned above, the United Kingdom share of the Union obligations should be established as the ratio (in percentage) between all own resources⁶ transferred by the United Kingdom to the EU budget and the total own resources transferred by the Member States (EU28) over 2014-2018⁷. These amounts include all specific adjustments of national contributions as defined by the ORD.

³ E.g.: provisions for the decommissioning of the Joint Research Centre nuclear sites.

⁴ E.g.: own resources payables.

⁵ This should include, for example, the costs related to the termination of contracts for housing agencies that have to move as a consequence of the withdrawal, the costs related to the move itself and the costs related to installation in the new location.

⁶ The own resources are constituted of traditional own resources, VAT-based and GNI-based contributions as defined in the Council Decision (2014/335/EU, Euratom) of 26 May 2014 on the system of own resources of the European Union, OJ L 168, 7.6.2014, p. 105–111.

⁷ This does not apply to the specific costs related to the withdrawal process which have to be covered in full by the United Kingdom.

III. European Investment Bank (EIB)

Through its subscribed capital (callable and paid-in), the United Kingdom committed to guarantee the financing made by the EIB while it was a Member State. Following the withdrawal, the United Kingdom should cease being a member of the EIB.

As part of the financial settlement, the United Kingdom liability resulting from the guarantee for the financing made by the EIB while the United Kingdom was a Member State should be maintained and its level decreased in line with the amortisation of the EIB portfolio outstanding at the time of United Kingdom withdrawal, at the end of which the paid-in capital of the United Kingdom in the EIB should be reimbursed to the United Kingdom.

IV. European Central Bank (ECB)

As part of the financial settlement, the paid-in capital of the United Kingdom in the ECB should be reimbursed to the Bank of England (BoE) as prescribed by the schedule of payment referred to in part VIII. Modalities and other practical arrangements should be established by the ECB Governing Council following the rules of the Treaties and its Protocols.

V. European Development Fund (EDF):

The United Kingdom should remain liable in full for the obligations of the successive European Development Funds and should therefore continue to contribute to the payments necessary to honour all commitments related to all unclosed Funds (8th, 9th, 10th and 11th EDF) in accordance with the specific financing keys of each EDF and their specific financing rules.

VI. EU Trust funds (TF) and the Facility for Refugees in Turkey (FRT):

The United Kingdom should respect in full its undertaking for funding EU Trust Funds⁸ and the Facility for Refugees in Turkey.

VII. Other bodies

Until the end of the academic year 2020-2021, the United Kingdom should continue to contribute to the funding of the teachers it seconded to the European schools in line with the cost sharing agreement related to the secondment of British and Irish teachers.

For the agencies of the Council which are not financed by the General budget of the Union (European Defence Agency, European Union Institute for Security Studies, European Union Satellite Centre), the United Kingdom should assume its share of the financing of all obligations undertaken by these agencies before the withdrawal.

VIII. Schedule of payments

Except for the payments linked to the EDF, the EU Trust Funds and the Facility for Refugees in Turkey, all other United Kingdom's payments related to the financial settlement should follow a schedule of

⁸ The list of concerned EU Trust Funds is in Annex 1.

payments that should aim at mitigating the impact of the United Kingdom withdrawal on the budget for the Union and on its Member States. This schedule and practical modalities for these payments should be defined in phase 2 of the negotiations.

For the EDF, the EU Trust Funds and the Facility for Refugees in Turkey, the payments should be made according to the specific rules and schedule applicable to each fund.
