SPEEDING UP AND DELIVERING REFORMS AND INVESTMENTS

The Recovery and Resilience Facility (RRF), the €723 billion centrepiece of NextGenerationEU, is at the core of the EU’s efforts to increase Member States’ economic and social resilience through reforms and investments in line with national challenges and EU priorities. The RRF is also crucial for implementing REPowerEU, the EU’s response to the energy market disruption caused by Russia’s war of aggression against Ukraine.

Since its inception two and a half years ago, major headway has been made with implementing the RRF, with high transparency and robust financial protections for the EU.

Funds flowing towards RRF objectives, projects being rolled out

€153.4 billion disbursed in total so far

€56.5 billion
Pre-financing to 21 Member States

€4.3 billion
Policies for the Next Generation

€23.1 billion
Health, Economic, Social and Institutional Resilience

€18.1 billion
Social and Territorial Cohesion

€17.3 billion
Green Transition

€8.9 billion
Digital Transformation

€25.2 billion
Smart, Sustainable and Inclusive Growth
Project examples

**GREEN TRANSITION**
In France, the RRF financed the energy efficiency renovation of 20,000 social dwellings as well as of historical student housing accommodation.

**DIGITAL TRANSFORMATION**
The RRF is supporting investments in data centres to increase Italy's cloud capacity for the digital economy.

**SMART, SUSTAINABLE AND INCLUSIVE GROWTH**
Thanks to the RRF, Spain supported over 60 large companies and SMEs in research and innovation for sustainable mobility.

**SOCIAL AND TERRITORIAL COHESION**
The RRF has allowed Austria to support long-term unemployed people and facilitate their access to qualifications and training.

**HEALTH, ECONOMIC, SOCIAL AND INSTITUTIONAL RESILIENCE**
An RRF-supported reform will improve the fight against corruption in Cyprus and set up an independent authority against corruption.

**POLICIES FOR THE NEXT GENERATION**
Thanks to RRF funds, Czechia provided 74,000 digital devices (such as tablets, laptops) to more than 4000 pupils for distance learning.
### Implementing the RRF: the numbers

<table>
